A True Brain Food.

must replace the feeling of lassitude and mental tiredness by clearness and strength of mind. Not that it goes directly to the brain, that were foolish. The true brain, food must be carried by rich, red blood. If mental fatigue worries and alarms you, look not to the brain, but the stomach and assimilative organs. No remedy yet discovered, possesses the marvellous brain strengthening power that Ferrozone has demonstrated in thousands of cases. Ferrozone does not stimulate the brain into a fitful glow, but by improving digestion, strengthening the nervous system, stimulating assimilation, giving new strength to the heart, it sends a stream of red vitalizing blood to the brain. Thus it is a true brain food. Ferrozone is sold by C. A. Burchill

A notable edict has been issued by the Empress Dowager of China ordering the institution of a general system of education by means of primary schools, common schools, and colleges in every province for the enlightment of the populace.

ON MR. TARTE'S STEAMER

Several Injured by an Explosion of Fireworks.

Quebec, Sept. 16.—An explosion of fireworks on the Government steamer Frontenac to-night resulted in injuries to Hon J Israel Tarte, Hon James Sutherland, Hon Dr Borden, Mrs J N Greenshields of Montreal, Mrs Turcotte of Ottawa, and Miss Fielding.

Hon Mr Tarte had invited a party of friends to go out on the Frontenac and witness the illumination and display of fireworks, and a supply of fireworks was taken on board the Frontenac. In the party were: — Mr. Clergue of Sault Ste. Marie and two sisters: Mr and Mrs J. N. Greenshields of Montreal, Senator Robert Mackay of Montreal, Hon. A. G. Blair, and daughter, Hon. Clifford Sifton and wife, Dr. and Mrs Borden, Hon James Sutherland, Miss Fielding, Mrs. Turcotte, of Ottawa, a secretary to Mr. Tarte, Mr. and Mrs Jules Clement of Montreal, Mr. Clement being a private secretary, and a number of other guests. On the bridge of the steamer a dozen bombs had been placed, and one of these was set on fire by the fireworks that were being exploded. This exploded the other bombs, and the fire communicated itself to the steamer. A number of ladies were standing nearby and their clothing caught fire. Mrs. J. N. Greenshields was quite severely burned about the legs. Mrs. Borden's clothing caught fire, but it was extinguished without injury. Two of the ladies tried to escape by taking refuge in the wheel house, but there were two bombs in there also and they exploded. In a moment the wheelhouse was on fire. Mrs. Turcotte was burned, though not seriously in the arms. Hon. Mr. Tarte was burned on the right hand, and was also knocked over, cutting his face. Hon James Sutherland received severe burns on the hands, and had also some injury to his face. His injuries were the result of his endeavors to extinguish the fire and save the ladies. The steamer Eureka came alongside to the assistance of the Frontenac, and in endeavoring to get from one boat to the other Dr Borden sprained his ankle. He was assisted into the Chateau Frontenac by Hon Charles Fitzpatrick. Miss Fielding, daughter of Hon W S Fielding, had her hair singed. Admiral Sir Frederick Bedford, when he saw the fire on the Frontenac, immediately sent a launch from the Crescent to her assistance, but the help was not needed, as the fire was extinguished with the steamer's own hose. Mr. Tarte tonight was around with bandages on, but said his injuries were not serious, and that he proposed to take another party out tomorrow night.

Women Who Wear Well.

It is astonishing how great a change a few years of married life will make in the appearance and disposition of many women. The freshness, the charm, the brilliance vanish like the bloom from a peach which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. There are two reasons for this change, ignorance and neglect. Few young women appreciate the shock to the system through the change which comes with marriage. Many neglect to deal with the unpleasant drains which are often consequent on marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness. As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness. Half a million women and more have found health and happiness in the use of Dr Pierce's Favorite Prescription. It makes weak women strong and sick women well.

A cyclone of terrific force struck the northern part of Huntingdon, Conn., during Tuesday morning's thunder storm. The house of John Frawley was completely overturned, and Frawley and his wife, both aged people, who were asleep within, were taken out by neighbors in a dying condition. Many barns were unroofed, and the roads in several directions made impassable by falling trees.

Protection is the battle cry, and when you spend money for Tea you should be protected by a trade mark. "UNION BLEND" is a trade mark and if you get that when buying tea you are sure of the best. A key in every pound package.

A London cable of Sept. 17 says: The magnificent and enthusiastic reception tendered to H. R. H. the Duke and Duchess of Cornwall and York on their arrival in Canada is the subject of most flattering comment in all the papers this morning. People in this country feel sure that the splendid reception accorded to the heir to the British throne at Quebec yesterday will be repeated at every stage of the royal journey through the Dominion. Sympathy with the United States will cast some gloom over the visit, but the loyal enthusiasm of Canada will not be less deeply felt. The Standard points out that as the Duke journeys from Quebec to Ontario, he will move from a Latin world to an Anglo-Saxon; from a past, with its lingering echoes of the leisured grace of a vanished era, to the forceful activity of our own unresting age.

Acute and Chronic Rheumatism.

Are equally influenced by the almost magical pain-subduing power of Polson's Nerviline, equal in the medical value to five times the quantity of any other rheumatic remedy. Nerviline cures because it reaches the source of the disease and drives it out of the system. Nerviline is an unusually good rheumatic cure, and makes many unusual cures. Just rub it in the next time you have an attack. The immediate result will surprise you.

A New York blacksmith has been arrested for declaring that he belonged to a society that would give $50,000 to any man who would kill President Roosevelt.

To make money it is necessary to have a clear, bright brain, a cool head and strong nerves. Milburn's Heart and Nerve Pills invigorate and brighten the brain, strengthen the nerves, and remove all heart, nerve and brain troubles.

Mr. Tarte is to be banqueted by the Montreal Board of Trade and similar institutions on October 3.

ATHLETES, BICYCLISTS and others should always keep HAGYARD'S YELLOW OIL on hand. Nothing like it for stiffness and soreness of the muscles, sprains, bruises, cuts, etc.

It is learned on good authority that a syndicate headed by Mr. J. J. Hill, is negotiating for all the timber limits and saw mill properties in British Columbia. The manager of one of the most prominent mills said to a correspondent that the report is correct, and that all the mills would sell, including Ross, MacLaren & Co., if terms could be arranged. This informant said he felt satisfied the deal would eventually go through, when the Hill interest would own all the saw mills and timber limits in Puget Sound and British Columbia.

Catarrh Poisons The System,

lowers health and vitality, destroys digestion and makes the victim feel like thirty cents. Foolish, nay criminal to have Catarrh and suffer its evil consequences since Catarrhozone so quickly and pleasantly cures it. It is medicine carried to the lungs, throat and nasal passages, by the air you breathe. Its as absolute in its power of curing as it is scientific in its method of treatment. Your doctor or druggist will tell you that nothing equals it for Catarrh and all other lung and throat diseases. Al dealers, 25c and $1.00.

Monday the Duke of Cornwall and York arrived at Quebec from Cape Town. From a British possession where two races are at death-grips he came straight to a British possession where two races live in peace and concord. When he left Cape Town every inhabitant of Dutch blood was under suspicion of treason. When he arrived at Quebec the three most distinguished natives to give him welcome to Canada were men of French blood, the Premier, Sir Wilfrid Laurier, Lieut.-Gov. Jette and Mayor Parent. If the heir to the throne needed a contrast over which to ponder he had one ready to hand when he stepped from the boat that brought him from bleeding and distraught South Africa to be welcomed by those descendants of the little army of Montcalm who comprise the major portion of the population of the city taken by Wolfe.—Montreal Herald.

Backache, swelling of feet and ankles, puffing under eyes, frequent thirst, scanty cloudy, highly colored urine and all urinary troubles lead to Bright's disease, dropsy, diabetes, etc. Doan's Kidney Pills are a sure cure.

A little daughter of Samuel Conkey of Clyde, Ontario, fell into a pail of water and was drowned.

DUKE'S ALL RIGHT

Gained Good Opinion of Tars on Board Yacht Ophir.

Quebec, Sept, 17.—After a six months, trip, the men on the Ophir are strong in opinion that the Duke is a good man. The officers hesitate to express opinions, but the men are unamimous and untiring in their praise of the Duke. "Did we see him often?" said one of the Ophir. "He did, or rather he saw us often. The Duke looked pretty sharp after his own ship. Every Sunday morning he went through our quarters and inspected us. He was pretty strict on inspection, too. Then he used to make calls between times when we were not expecting him. Oh, he's a blooming good man, and if they were all like him the navy would be a good sight better than it is now. He got his training in the navy, you know. He came up from midshipman. He was lieutenant, and now he is captain, and when he gets home he will be a rear admiral same as this chap aboard the Crescent. He could handle a ship all right, he is smart enough to take his place with the best of them."

This is the opinion given by a man who had had been in the stoke-hole of the Ophir on her 30,000 mile journey. He not only had strong views of the Duke, but he had decided opinions on the Belleville boilers. The subjects had apparently equal importance in his mind, and he ended the talk by saying: "Yes the Duke is a blooming good fellow; but the Belleville boilers hadn't ought to be allowed in the navy."

NEW MARKET NOTES.

(Special Correspondence to The Herald.)

Sept. 14.—The weather for the past few days has been quite cool and pleasant.

The farmers are about all done with their harvest and report a fair crop.

Miss Annie Lynn, of the city, is visiting her sister, Mrs Fred Murphy.

Jest as Good.

Perhaps! Don't you run the risk, though, but always buy the well-tested and sure-pop corn cure — Putnam's Painless Corn Extractor. Sure, safe and painless. Putnam's removes corns painlessly in twenty-four hours. If you druggist does not sell it, send 25cents, to N C Polson & Co. Kingston, Ont., and they will send it to you post paid to any address in Canada, or U. S.

John Magwood, of Lindsay, Ontario, died suddenly after an operation for appendicitis.

A terrific explosion of gas in the Spring Gulch mine of the Colorado Fuel & Iron Company, eighteen miles from Colorado Springs, caused the death of six miners and the injury of three others, beside much damage to the tunnel in which the explosion occurred.

President Roosevelt on Tuesday convened his first cabinet meeting held in Washington. At this meeting the president asked the members of McKinley's cabinet to retain their respective portfolios throughout his term, and announced that his administration would follow the policy outlined by President McKinley in his Buffalo speech.

J. D. Rockefeller, jr., who has several millions of his own, and is looked upon as the principal heir of the $300,000,000 accumulated by his father, has reached a point in life when he thinks he can support a wife, and so he is to marry a senator's daughter. Well, it requires a good deal of nerve for this young man to wed and set up housekeeping, with the price of creamery butter where it is now.
