

HEART FAILURE.

But not Fatal this Time. for
Timely Treatment Saved.

For Six Years, a Newfoundland Man Suffers from Heart Trouble—Unable to Work, and Suffering Great Pain, He is Discouraged—Dodd's Kidney Pills Make a New Man of Him.

Cape La Hune, Nfld., May 3, (Special).—Many think that Heart Disease is incurable, but the fact that it is curable, is proven by a case that recently came to light in this place. Mr. Thos. Barter makes the following statement:—

"For over six years, I suffered intensely with palpitation of the heart, and had to give up work. I could not do anything at all, until I saw in an advertisement that Dodd's Kidney Pills would cure Heart Disease. I sent for seven boxes, and I have used five of them, and am now completely cured. I can do my work again as well as ever I could.

"I am not much of a speaker, but I have tried to write my story as plainly as possible, and am doing so because I believe that Dodd's Kidney Pills will cure any case of palpitation or other Heart Trouble, and I think everyone suffering in this way should be told of the remedy, that I found so successful in my case."

Mr. Barter's testimonial has been voluntarily given for publication. He can have no object in giving it, other than the hope of helping some other poor sufferer, as pointed out in his letter.

If anyone doubts the genuineness of Mr. Barter's testimonial, or the truth of any statement made therein, they are at liberty to write to him and find out for themselves.

Mr. Barter is only one of many in this neighborhood, who have been cured by the use of Dodd's Kidney Pills, but his case is one of the most striking, and evidently proves that Heart Disease is the result of Kidney Derangements, and can be cured by Dodd's Kidney Pills.

Deranged Kidneys increase the heart's work, and cause palpitation and other heart troubles. Dodd's Kidney Pills cure the Kidneys, and thus relieve the Heart.

While Connecticut is trying to adopt the whipping post method of deterring husbands from beating their wives Rhode Island is trying to amend her divorce laws so that wives cannot so easily slip out of the control of their husbands, and thus does the pendulum of reform in New England swing back and forth and make no progress.—San Francisco Call.

Much money has been expended in a vain effort to kill out the Canadian thistle. It has now been discovered that the fiber of the same can be used in paper making and, for that matter, in the manufacture of cloth. Instead of trying to eliminate the thistle, why not cultivate it? Possibly then it might disappear, very much to the chagrin of the would be cultivators.
