

OWES HIS EYESIGHT TO A MIRACLE.

Indebted: ess to Dodd's Kidney Pills Acknowledged by Thomas St. Pierre.

Health Entirely Re-established by Dodd's Kidney Pills—Another Triumph for that Wonderful Remedy—His Eye-sight Has Been Strengthened.

St. Epi, Que., Aug. 2.—(Special). One year ago a miracle was announced in Chicago. R. A. Wade, the great criminal lawyer, regained his sight after having for years been totally blind. His case was published throughout the length and breadth of America, and it attracted more attention to Dodd's Kidney Pills than any medicine ever got before. For it was Dodd's Kidney Pills that restored his sight.

A similar case has turned up in the village of St. Epi, Que. Though this sufferer was not stone blind, his eyes nevertheless were utterly useless to him by lamplight. And they have been completely restored by Dodd's Kidney Pills, which is another point of similarity.

There is no attempt made to assert Dodd's Kidney Pills are a cure for blindness. Dodd's Kidney Pills are the greatest kidney medicine ever known. That is the claim made for Dodd's Kidney Pills, and there is evidence enough to prove that claim. But in cases where Kidney Disease has left poisons in the blood, and the said poisons attacking the weakest spot, injure the eye, Dodd's Kidney Pills are just as infallible as where the poison attacks the joint of the arm or the small of the back. That the eyesight of Thos. St. Pierre was restored is but another argument that Dodd's Kidney Pills make the blood absolutely pure.

Here is Mr. St. Pierre's letter: "I am happy to-day to see my health entirely re-established by Dodd's Kidney Pills. I owe that wonderful remedy a thousand thanks. Before using Dodd's Kidney Pills I had consulted many physicians and taken medicines of various kinds, but each made me worse. I had a constant pain in the back and limbs. At night I couldn't rest and I could not see by lamplight. Having taken only two boxes of Dodd's Kidney Pills I am perfectly cured. My eyesight is clear. I advise all those whose health is not good, from whatever cause, to try Dodd's Kidney Pills. Nine times out of ten they will be exactly what is wanted. Two dollars spent for Dodd's Kidney Pills will do more than millions spent otherwise, for who holds anything in the world more dear than health, or would spare any means to save it?"

Married a Second Time.

Woodstock, Ont., Aug. 1.—The marriage of David Fraser and the widow of the late Ald George Barnes, of Ypsilanti, Mich., which occurred at Joliet, Midland Co, Ont, recently, is the concluding chapter of a pretty romance. The bride and groom were married 16 years ago and lived in Woodstock. After a few years the couple became estranged, the husband leaving home. Mrs. Fraser secured a divorce and became the wife of Barnes, who was a wealthy retired farmer. The second husband died three years ago, and Fraser, who had not lost track of his former wife, began a second assault on her affections, acknowledging his fault in the misunderstanding which led to the separation. In spite of discouragement, he persisted, and the re-united couple are happily installed in their own home at Joliet at last. Mrs. Fraser was Miss Maggie Rose here before she married.

Now will You Believe that Catarrh can be Cured?

JAPANESE CATARRH CURE CURES
AFTER FIFTEEN YEARS'
SUFFERING.

Catarrh is more difficult to cure on the Pacific Coast than in any other part of the world, owing to the extreme dampness of the climate and the sudden changes of temperature towards evening. But Japanese Catarrh Cure will cure catarrh in any climate for any person.

Mr. J. H. Crow, 421 Keefer St., Vancouver, the well-known contractor, writes:—"I had been a great sufferer from catarrh for over fifteen years, during which time I tried a score of doctors and every remedy I thought would relieve me, but the result was only temporary relief, in each case the catarrh returned. About a year ago I used six boxes of Japanese Catarrh Cure, and since completing this treatment have been entirely free from catarrh. I can recommend it with every confidence."

Japanese Catarrh Cure is the only permanent and guaranteed cure for catarrh. Price, 50 cents, by all druggists.

WHAT COLOR TELLS IN HORSES.

Arabs Believe the Chestnut Is the Strongest and Swiftest.

Whether or not a horse's color is an indication of his breeding and powers of endurance is a much disputed question. The color theory doubtless originated among the Arabs, for centuries famous as horsemen. Its exponents say that it is the result of constant observation and long study, but many competent horsemen deride it as a superstition.

Be this as it may, the chestnut is the Arab idea of perfection. In this connection it is significant that the majority of successful race horses have been chestnut in color. Chestnuts also seem to have carried off the greatest number of honors in the show ring. The Arabs, like the dictionary, make but little distinction between the chestnut and the bay and considers the latter color about as desirable as the former. The dictionary defines bay as a shade of chestnut.

Horses of a rich seal brown are good to look upon, but among the Arabs rarely fetch a large price, as they are considered lacking in hardihood, prone to sickness, with little or no endurance. Roan horses are by many regarded as very hardy, but all horsemen do not concur in this opinion, and, as the race horse trainers express it, the roan color indicates a cold cross somewhere in the breeding.

The black horse is, in the American mind, suggestive of the funeral, which possibly accounts for some of the prejudice against it. A black horse is a nightmare to his groom, for his coat shows the slightest speck of dust or dirt, and a little gust of wind often spoils hours of hard grooming. When a black horse has been exposed to the sun and weather for some days, his coat fades to a rusty, washed out color.

White horses always suggest the circus. Their coats are even more difficult to keep clean than a black horse's and are seldom in presentable condition. It is most disagreeable to drive behind a gray or white horse during shedding time. Then one's clothing is sure to be covered with clinging hairs that are very noticeable.

Piebald and skewbald horses attract too much attention to the rider or driver to be considered quite the thing and, like the white horse, remind one of the sawdust ring. A mixed coat is a pretty strong indication of low breeding.

There is an ancient tale of a band of Arabs being pursued by their enemies which sums up their theory about a horse's color. Among the fleeing band was a man with unusually keen eyesight, and from time to time he would describe to his leader the horses ridden by the enemy.

"What manner of horses do they ride?" "Black horses."

"Then there is no need of haste." At the noon halt the leader again asked, "What manner of horse do they ride now?"

"Bay horses."

"Then we must ride harder."

A few hours later the leader asked, "Are they horsed again?"

"They ride chestnuts."

"Then we ride for our lives."
