CHICAGO LETTER.

Many Nationalities Are Represented in The Windy City.

POPULATION INCLUDES EIGHTEEN THOUSAND CANADIANS.

Muddy Streets and a Smoky Atmosphere.

MAJOR MURPHY AND HIS IRISH BRIGADE.

Fine Hotels and Public Parks—Something About Chicago's Churches.

(Special correspondence to the Herald.)

Chicago, March 25.—The observation attributed to Hamlet, that "there are more things in heaven and earth than are dreamt of in your philosophy," applies with much force to the big bustling city of Chicago as it appears to a visitor from New Brunswick. The hum of traffic is heard here the whole twenty-four hours; night is turned into day, and even Sunday with many thousands is a day of toil. To see the average Chicagoan on the street, one is apt to think that he has an important appointment and is afraid of being late. Everybody seems to be in a hurry with the exception of the big, good natured policemen, and even they at times have been known to move faster than a walk. With the majority of the citizens it is one grand rush for the almighty dollar all day long. The great thoroughfares are pushing, surging masses of humanity from early morn till after midnight. And the street traffic is something stupendous. Cable cars crowd, with their bells clanging, sweep up and down on parallel tracks, while on the elevated roads near by electric trains of three and four cars each, go spinning about at intervals of half a minute. In addition there are all sorts of combinations of wheeled vehicles, such as automobiles, express and delivery teams, cabs, private carriages, drays, etc., to be seen on the streets.

The drivers of heavy trucks seem to have a fondness for the street railway tracks. They move along leisurely in front of a car and do not turn out until sure that they have made the motorman and passengers good and mad. They know that the car does not run them down, hence their anxiety to demonstrate to the motorman that he is not the whole shooting match. People of both sexes are constantly dodging to and fro on the street crossings, and how many of them escape being shovelled out of the way by the sweepers of the cable cars is a mystery.

The average Chicagoan always moves quickly, but with the advent of lunch time he seems to take on an extra spurt. It is then that the thousands who earn their living in the business portion of the community go out to refresh themselves after their morning's labors. They throng the cafes and lunch rooms, swallow or rather bolt a lunch in remarkably quick time, and hurry back to their places of business. The Chicago man when on his way to luncheon would prefer not to be molested, unless business of great urgency demands his attention.

COAL SMOKE AND MUD. Chicago, in addition to being a windy city, has one other fault: it is an exceedingly dirty city. As stated in a previous letter, the water works system has a daily capacity of 350,000,000 gallons, and if the people used water as liberally as they do in Fredericton and other enlightened communities it would be impossible for them to get along with less than double that amount. As it is, the pumping stations have an able auxiliary in the form of numerous beer tanks, thus the strain on the water works is less than it would otherwise be, and more water is available for washing purposes. All Chicago seems to burn soft coal, with the result that great clouds of black smoke hang over the city like a pall. This smoke contains a good percentage of gas and soot, and is remarkably cohesive. It seems to have a strange enmity for white shirt collars and

Hay Fever can be Cured by Japanese Catarrh Cure.

IT KILLS THE GERM WHICH IS THE CAUSE OF THIS MOST PREVALENT COMPLAINT.

Hay fever has been the cause of much scientific study and research by many of the most prominent physicians throughout the world. Many of them differ as to its real cause, but the majority agree that the cause is due to the little germs contained in pollen grains, principally hay pollen, but many other flowers and plants contribute largely to its cause. Japanese Catarrh Cure has been found the only complete cure for hay fever. It contains an organic compound of iodine, which is a thoroughly harmless antiseptic, and destroys the hay fever germs completely. It soothes, heals and gives almost immediate relief. You will find it pleasant to use. We will be pleased to send you a trial quantity free. Enclose a cent stamp for postage, to The G. B. H. & M. Co., Limited, 121 Church St., Toronto. Sold by all druggists, 50 cents, or mailed direct.

fronts, and seeks out and overcomes them very early in the day, making the laundry business a cinch. It also compels people to take a bath more frequently than possibly they otherwise would, thus the quantity of water available for drinking purposes is restricted, and people in their despair are obliged to imbibe as substitutes such concoctions as Milwaukee lager and Kentucky mountain dew.

Spring in Chicago commences the first of March, and there is very little snow after that date. They do, however, have some pretty stiff weather during the early part of the month; in fact there are days when it is decidedly uncomfortable out of doors, especially to an Easterner. A chilly, penetrating wind from the Lake strikes you at every turn, and for the time being you are apt to imagine you are some degrees further north than New Brunswick, which of course is not the case. The city of Fredericton sometimes has muggy streets, but they are not in the same class with those of Chicago. In Fredericton the people have to contend with the genuine article, which is bad enough; in Chicago you plod your way through a vile mixture resembling railroad axle grease. Of course parts of the business thoroughfares are kept clean, but the mud is not far to seek. Fortunately many of the streets are wood paved, which limits the depth of the mud, otherwise it would be necessary to carry a life preserver along. It is only during the month of March, however, that Chicago's streets are in this desperate condition.

One of the street superintendents is a lady, and she seems to thoroughly understand her business. I saw her on several occasions standing in the middle of the street giving orders to a large crew of men, who were wrestling with the mud problem. She wore rubber boots and a long cloak, and kept her hands in her pockets, something after the style of road masters nearer home. I did not envy her her job very much, but could not help admiring the way she made those fellows toe the mark.

PLEASE TELL THE PEOPLE.

Mr. Coderre Wants Everyone to Know His Story He Had a Very Bad Case of Dyspepsia, and Dodd's Dyspepsia Tablets Cured Him. After Everything else had Failed—His Testimonial Letter.

Everybody in St. Jacques, Que., knows Ademar Coderre. He has given for publication the following letter:—"I certify that for two years, I suffered with Dyspepsia and Inflammation of the Stomach. I have taken several medicines, but have secured no relief. I was very discouraged.

"One day, I read an account of the cure of a similar case by the use of Dodd's Dyspepsia Tablets. I determined to try again. I bought two boxes of them. From the very first, they relieved me, and now I am completely cured.

"I desire to make my case known to the public, so that all who suffer from that malady may find the only remedy that will cure it. Please tell all the people that Dodd's Dyspepsia Tablets cured me."

It is not after that any remedy receives such very high and unqualified commendation as Mr. Coderre gives to Dodd's Dyspepsia Tablets. There can be nothing plainer than his straight-forward statement of the facts of his case and its cure.

No one in St. Jacques doubts Mr. Coderre's truthfulness, and no one who hears him speak of Dodd's Dyspepsia Tablets can doubt his sincerity.

The earnestness of the statements made by the friends of Dodd's Dyspepsia Tablets is the distinguishing feature of their testimonials.

Almost everyone refers to the fact that they have tried other treatments without success, and all manifest a desire to impress upon other sufferers, the fact that Dodd's Dyspepsia Tablets are not as other medicines are, but will instantly relieve and permanently cure all stomach trouble.

Do I say that Dodd's Tablets is an honest remedy, endorsed heartily by honest people.

They are no experiment, but a tried and proven remedy. Thousands have used them and everyone tells the same thankful story of restoration to health. Better not delay longer. Try them. You'll not be disappointed.

A Few Words With the People of Fredericton About Waterproofs.

You do not buy a waterproof for the fun of it, but you want that garment to protect you from rain, therefore ask a guarantee—no matter where you buy it—to be strictly waterproof, to look like one, no matter how cheap a dealer offers you one, that the manufacturers can sell 30 or 40 per cent cheaper. Do not believe when one offers you a gold dollar for 50 cents that one is going to do it. He will give you one that looks like a gold dollar, and it is not always the cheapness of the thing that gives satisfaction. It is your money's worth that does it, and above all when you get that which you expected to get, that makes you satisfied. I guarantee every waterproof to be strictly so. I cut every garment to your measure and style, you like best, I keep every coat in repair for two years, free of charge, and if you belong to Fredericton, and are unable to pay all cash I will give you credit.

Talking about cheap coats, if you believe in a cheap waterproof, come and I will sell you one for two dollars and guarantee it to be as good as you get for four dollars of your ready made jobbers. And above all remember that I manufacture those coats right here in Fredericton and you are welcome to come and get a good look before you buy one.

PAINE'S CELERY COMPOUND

Releases Women of all Ages From Ailments Peculiar to Their Sex.

A truly wonderful work is done by Paine's Celery Compound for young and middle-aged women as well as for women of advanced years.

Paine's Celery Compound in the past has brought vitality and new life to pale, weak, nervous, despondent and discouraged women. The great medicine has the same blessed power today upon woman's weak and peculiar organism; it is woman's friend and health protector in the home, always sure and unfailing.

In spring time when the ailing and suffering use Paine's Celery Compound, the nerves and blood quickly feel the magic power of the great medicine, and new, fresh vitality is imparted, irregularities and functional disorders are corrected, digestion is perfected, sweet sleep and rest are assured, the face glows with health and the eyes sparkle. Mrs. W. Wigginsworth, Liverpool, N. S. says:

"For fifteen years I suffered from nervous diseases and other serious troubles. A lady friend recommended me to use Paine's Celery Compound, and I have since received great benefit. Paine's Celery Compound has done what no other medicine could do for me. I can sleep well now, and my appetite is splendid. I advise all who are sufferers from nervousness and other diseases to use it. Seven bottles restored my health wonderfully."

BROCKWAY.

(Special correspondence to the Herald.)

April 8.—The ice is all out of the river and brooks are at freshest height.

The Upper Trout Brook drive will be down to the mouth of the brook tonight, where it will be left till the drive comes from up river.

The rain which has flooded many cellars in Brockway and given some people the blues has been worth, at least, \$500 to R. Anderson in getting his logs out of Trout Brook.

Upper Trout brook bridge threatens to go out.

Our teacher, Miss Scirellin, went home for Easter.

Miss C. J. Moulton spent Easter with Mrs. A. H. Libbey.

John Vail and Edward Davies have gone down to cook for Dewar's drive.

The census enumerator, Robert Little, is expected in Brockway this week.

Test of Merit.

If the test of merit is the length of time a proprietary medicine remains a seller, then BUCKROCK BLOOD PURIFIER is a record breaker. It has now been over twenty years on the market and stands out prominently as one of the biggest sellers to-day. In all that time you can

count on one hand all the (\$1) dollar preparations that have sold over 100,000 bottles in any one year. B. B. B. is one of them, and still stands in the first rank, not only as a seller, but in the estimation of those who have used it as a family medicine for the cure of boils, pimples, dyspepsia, constipation and bad blood. Its healing, cleansing and purifying properties manifest themselves in curing all blood and skin diseases from a common pimple to the worst scrofulous sore.

Testimony from one who has used it:

October 22, 1900.
Mrs. PRICE, Hamilton, Ont., says: "About three months ago I was covered with pimples, was very nervous, and had dizzy spells several times a day. I took three bottles of BUCKROCK BLOOD PURIFIER and it completely cured me. I now recommend it to all my friends."

"Take care of the pennies and the pounds will take care of themselves."

Large things are but an aggregation of small things. If we take care of the small things we are in effect taking care of the large things which the small things combine to make.

Take care of what you eat, when you eat, and how you eat, and your stomach will take care of itself. But who takes care of such trivial things? That is why, someday, the majority of people have to take care of the stomach. When that day comes, there is no aid so effective in undoing the results of past carelessness as Dr. Pierce's Golden Medical Discovery. It strengthens the stomach, and restores the organs of digestion and nutrition to a condition of healthy activity. It cures biliousness, heartburn, flatulence, indigestion, palpitation, dizziness, cold extremities and a score of other ailments which are but the symptoms of disorder in the stomach and its allied organs.

On the Verge of the Other World.

It has doubtless been noted that Gail Hamilton has recently recorded what she has deemed to be an observation into the world of the future as an incident of her late nearly mortal illness. She represents herself as really hovering between two worlds, and having the sensation of returning to the present one of these with acute physical pain. This is not without examples in other experience. William S. Robinson, so well remembered in Journalism as "Warrington," recorded in his last illness something very like it. Mr. Robinson was neither a sentimentally imaginative person, nor had he any affinity with what are recognized as religious visions with regard to the future. He had been critical in this respect, not being a church attendant in any form of faith. Yet, as he neared his end, he constantly spoke of visions of the future life, saying that he was sure he was having them. "Why this world and the next are joined as closely as my two hands," he would say, clasping them together. "There they are, no break between them, no gulf to pass. I feel every day like one who walks by a hedge, and is looking for a gate, a gap to pass through, to walk on the other side. I don't know half the time whether I am in the body or not." Mr. Robinson reasoned with all the keenness for which he was noted on the subject, and he never accepted the theory of spiritualism. He insisted that he saw visions, and saw them while wide awake. They did not trouble him, for he said he was not afraid of ghosts. Like Coleridge, "he had seen too many of them."

Consumption is a Contagious Disease.

The Philadelphia Board of Health has declared consumption a contagious disease. Cases are to be isolated, but the immediate friends of consumptives are asked to exercise the greatest care to prevent infection. An absolute safeguard against consumption is found in Catarrh-zone. It maintains an antiseptic condition of the body and prevents the development of the germ. No better proof of this can be offered than its striking influence upon the disease when fully established. It aids expectoration, soothes the cough, and by its antiseptic properties conduces to the comfort of the sufferer. Consumptives and their friends are strongly urged to use Catarrh-zone. It is a sure preventative, and those who use it are perfectly immune to consumption, diphtheria, &c. Supported and endorsed by the highest medical authorities everywhere. Sold in two sizes, \$1.00 and 25c. at druggists or N. C. Polson & Co., Kingston, Ont.
