

LOCAL EVENTS.

The News of the City and Vicinity

SINCE YESTERDAY.

General, Social, Personal and Political Items of Interest.

Weather Probs.

(Special to Daily Herald.)
Toronto, Feb. 25.—Maritime: Moderate to fresh westerly winds, fair and cold; Tuesday southwest winds, fair, warmer.

A Clean Sheet.

The city was very sober Saturday night and Sunday, and not a solitary prisoner was presented to Col. Marsh at the police court this morning.

Horse Pinkeye.

An epidemic of pinkeye is prevalent among horses throughout Carleton Co. This is a serious disease and not at all relieved by owners of valuable horseflesh.

Social Function.

Mrs. W. T. Whitehead has issued invitations for an At Home at her residence Thursday afternoon from 5 to 7. Gentlemen as well as ladies are included in the invitations.

Hockey Matches.

Several hockey matches are on the tapis for the near future. A game with a St. John team will probably be the first to come off. A team from Sackville wishes to visit this section and will play both Marysville and Fredericton teams. The city team is now tied with Marysville and a match will likely come off early in March. The game with St. John will likely be played in the curling rink, but the other games will be played in Marysville.

Religious Effort.

Miss Little, who is travelling in the interest of the Y. W. C. A., addressed a meeting of Y. W. C. A. and Y. M. C. A. of the University in the Methodist church yesterday afternoon. Miss Little is a graduate of the University of Toronto, and her address was of a most pleasing and instructive nature. Her object is to

organize societies, where they do not exist, and to improve the organization in places where it is defective. She pays particular attention to the working of committees, having charge of different departments, such as bible study, etc. She is also endeavoring to secure a large delegation from sections she visits for Northfield, Mass., next summer. From Fredericton, Miss Little will proceed to all the chief towns and educational institutions of the Maritime Provinces.

Lent. Summer in a Runaway.

Mayor Sumner's grey horse ran away Friday. It was being driven over Main street crossing by Mr. Roy Sumner when it was frightened by the hunter and started down Main street at a rapid gait. Mr. Sumner showed great pluck. The breaching broke and the sleigh at every jump struck the horse's heels. Mr. Sumner, however, steered him through Main street, and at the post office, the horse being thoroughly winded, fell, breaking the shafts and cutting its knees quite badly.—Moncton Transcript.

A HEAVY STORM.

A Foot of Snow Fell and the Railways were Kept Open.

Snow commenced to fall Sunday morning at 6 o'clock, and continued until 4 in the afternoon, fully a foot of the beautiful covering the earth. It is very light however and easily handled. The railway authorities were on the lookout and prevented another blockade by well directed efforts. On the main C. P. R. line and on the Gibson and Fredericton branches snow plows were kept at work all day, and the Canada Eastern was also worked in the same way. Conductor Hagerman and his crew made a trip to Fredericton Junction and return, and Conductor McGibbon and his men reached Woodstock and returned Sunday. The train this morning from St. John was only half an hour late, and the reports from the Canada Eastern and Gibson branch show that no great difficulty will be experienced.

Not in It

It has been incorrectly reported that S. Dow Simmons, of this city, is to be associated with Dr. Hannay in reporting the debates of the legislature. Mr. Simmons says Dr. Hannay has made no arrangements with him for doing any part of the work.

G. F. Anderson of St. John, and E. A. Bash of Toronto were among the arrivals at the Barker today.

CURLING NOTES.

Campbellton and Chatham Players Heading for Fredericton.

A Campbellton despatch says that two rinks of the Campbellton players left for Chatham and Fredericton and may possibly extend their trip to take in St. Stephen, St. John and Moncton. The Fredericton curlers say they know nothing of the Campbellton men's visit except what is contained in the above despatch.

A couple of rinks from Chatham are expected here on Wednesday to play a friendly game with the home club.

The final game in the curling league—Amherst, Moncton and Sackville—was played between Moncton and Sackville Saturday, Sackville winning 73 to 58, and thus becoming champions of the three clubs named. E. H. Allen skipped one of the Moncton rinks in Saturday's game, but was beaten 19 to 10 by skip J. M. Palmer, who like Mr. Allen, was a former member of the Fredericton club.

In the A series committee of management, rinks skipped by J. Van Baskirk and A. E. Masie played Saturday night. The latter won, 11 to 10. R. F. Randolph's rink now leads in this series with Rutter second.

In the B series Dr. Bridges' rink defeated R. S. Barker 17 to 5 Saturday evening. The former rink now holds second place in the series, having won 6 games and lost 3. Dibb's rink is ahead with 5 games won, and 2 lost. Dibb and Bridges play tonight. In the B series A. Randolph's rink completed all its games, winning 7 games out of the 12.

"GAT" HOWARD KILLED.

Lord Kitchener Advises the War Office of the Gallant Officer's Death.

Ottawa, Feb. 25.—Kitchener's cable that Major A. C. Howard, better known as Gat Howard, had been killed, caused a sensation here, where he has been well known for years. His connection with the Canadian forces dates back to the Riel rebellion in 1885, when he was in charge of a Gatling gun sent out with the force. Howard lived at Brownsville, sixty miles from Ottawa, and left home last year with the second contingent, to assume charge of a Colt battery in the South African campaign. He remained in Africa on the departure of the Canadians to organize a corps of Canadian scouts, and was leading them when he met his death. The loss of the fatality has not yet been officially confirmed here. Howard left here as a lieutenant and was soon promoted. In a recent letter from the front Howard said: "We have added one battery pom-pom, so we have quite a force, six Colt guns, pom-pom, and 100 scouts. We have had two brushes with the enemy since you left, and made them bump each time. I may come back in July and recruit a regiment of halfbreeds. The Boers are cutting up bads around here. I will meet you in England next June."

"Gat" Howard first came to the front in Canada during the Riel rebellion of 1885. At the battle of Batoche, May 10, Howard contributed greatly to the defeat of the rebels.

New Haven, Conn., Feb. 25.—Major A. C. Howard, mentioned in Lord Kitchener's despatch as having been killed in the Transvaal on Feb. 17, was for a number of years, in the eighties, a resident of New Haven, holding a position in the Winchester Arms Company. He left this state to go to Canada shortly before the Riel rebellion in 1885. While here Major Howard was prominent in state military circles as an expert on ordnance, and is still well remembered in this city.

PHONOGRAPHS AT A WEDDING.

Bride Had Diphtheria. So the Machines Were Used to Ask Questions and Record Answers.

Binghamton, N. Y., Feb. 25.—There was a novel wedding in the town of Union yesterday, when Miss Estella Rockefeller of Chicago was married by means of phonographs to H. Allen Bush, of West-

point, Ky., thereby overcoming a strict quarantine, and being wedded on the day fixed for the nuptial ceremony.

Miss Rockefeller and Mr. Bush had planned to be married at the home of the bride's sister in New York. Miss Rockefeller came east for that purpose.

She stopped for a brief visit with friends in Union, and was the victim of a diphtheria. The house was quarantined, no one being admitted, but the bridegroom conceived the idea of a phonographic wedding. He procured a clergyman and two phonographs. In one of these the minister's questions and Mr. Bush's answers were recorded.

The cylinders were then transferred, and the machines sent to the bride. When they were set in motion she answered the questions propounded through one machine into the mouthpiece of the other.

THE GUIDES' PARTY.

Arrival at Montreal—Kindly Treated by a Fredericton Med.

(Special to the Daily Herald.)

Montreal, Feb. 25.—The New Brunswick contingent for the Chicago Sportsmen's show, reached here at ten o'clock Sunday morning with their exhibit, and spent the day sight seeing.

Bert Wiley, a Fredericton boy attending McGill University, took the party in hand and showed them all the points of interest.

The collection of birds and animals stood the journey well and will reach their destination in the best condition. Something went wrong with the heating apparatus of the car on the way up and it was thought that the exhibit would have to be transferred, but happily this was averted.

Last night the members of the contingent attended Notre Dame Cathedral and enjoyed the impressive service very much. They left for Chicago by the 9:30 train and will reach there this evening.

Dr. Heber Bishop, the well known known Boston sportsman, is at Chicago and will meet the New Brunswick contingent on their arrival.

THE KING IN GERMANY.

His Majesty Visiting His Sister in Her Illness.

(Special to Daily Herald.)

London, Feb. 25.—King Edward left Funching for Cronberg at six o'clock last evening. Owing to his desire to visit his sister, he has declined Emperor William's invitation to stay at Homburg Castle, and will be his guest at the Friedrichshof Schloss.

London, Feb. 25.—As the royal yacht entered Funching harbor with King Edward, a crowd of fishermen and girls sang the Volkslied and other Boer hymns. They were dispersed by the police.

The British minister and the court chamberlain of Queen Wilhelmina went on board the yacht to greet the King.

Frankfort on the Main, Feb. 25.—King Edward arrived here this morning and was cordially greeted by Emperor William. They left at once by train for Cronberg, which was reached in safety.

From there the monarchs drove in sleighs to Friedrichshof where the German Emperor said farewell and returned to Homburg.

The King proceeded to the bedside of his sister, the Dowager Empress.

Cronberg, Feb. 25.—King Edward remained with his sister a quarter of an hour and on leaving betrayed no evidence of anxiety. From this it is inferred that the Empress' condition is favorable.

INSANE WOMAN'S ACT.

Drowned Her Six Children in a Well.

(Special to Daily Herald.)

Collar, Wash., Feb. 25.—Mrs. Wurzer, widow, in a fit of insanity, drowned her six children, aged from 4 to 12 years, at Uniontown, Washington, yesterday. Two were boys and four girls. She threw them into a well 30 feet deep, containing two feet of water, then jumped in herself and held the heads of the children beneath the surface until all were drowned. Mrs. Wurzer was found alive in the well, with her six murdered children, by the neighbors, who pulled her out with a rope. She is violently insane. The woman's husband died a year ago, since which time she has been supported by the county and charity of neighbors.

(Special to the Daily Herald.)

WANT CANADIAN SOLDIERS.

British War Office Would Like to Recruit British Regiments in this Country.

(Special to the Daily Herald.)

London, Feb. 25.—Mr. Brodrick, the war secretary, and Mr. Chamberlain, the colonial secretary, are trying to arrange with the Canadian government for the establishment in Canada of permanent recruiting depots for the British army.

In order to avoid the political feelings which such steps might engender in the dominion, it has been suggested that a new Canadian regiment be established. The negotiations between the Earl of Minto, the governor general of Canada, and Sir Wilfrid Laurier, the Canadian premier, and the officials in London are still in progress, without definite result.

Thanks to the Canadian contingents in South Africa, it is believed they constitute an element very necessary in the British army, and while the deeds of the local Canadian forces are not being overlooked, it is hoped that a permanent supply of Canadians for waging Great Britain's wars will eventually be secured.

Sincerely Mourned at Ottawa.

(Special to the Daily Herald.)
Ottawa, Ont., Feb. 25.—The one topic in military circles today is the death of Gat Howard. The hero is being paid on every side tribute of affectionate remembrance. He was brave to a fault and was beloved by all. He came to Canada during troublous times, and his services were greatly appreciated.

Prominent Engineer Killed.

(Special to the Daily Herald.)
Galt, Ont., Feb. 25.—John Hislop, C.E. formerly of this city, latterly mayor of Skagway and superintendent of the Skagway Pass railway, was killed in a railway wreck at Chicago Saturday, while returning with his bride of two weeks to her home in Minneapolis from Ottawa, Montreal and Galt.

Cuba's Status Defined.

(Special to the Daily Herald.)
Washington, Feb. 26.—The United States congress has defined the future status of Cuba. While a large measure of independence is granted, the American government practically exercises suzerainty over the island. It is very doubtful whether the condition will be acceptable to Cuba.

Nature Is Kind in California.

The New England farmer must fortify himself in his stronghold against the seasons. He must be ready to adapt himself to a year that permits him to prosper only upon decidedly hard terms.

But the Californian in the country has during the drought more leisure unless, indeed, his ambition for wealth too much engrosses him. His horses are plenty and cheap. His fruit crops thrive easily. He is able to supply his table with fewer purchases with less commercial independence.

His position is therefore less that of the tenant than of the free dweller in the summer cottage, who is, indeed, not at leisure, but can easily determine how he shall be busy. It is of little importance to him who his next neighbor is. At pleasure he can ride or drive to find his friends, can choose, like the southern planter of former days, his own range of hospitality, can devote himself, if a man of cultivation, to reading during a good many hours at his own choice or, if a man of sport, can find during a great part of the year easy opportunities for hunting or for camping both by himself and for the young people of his family.

In the dry season he knows beforehand what engagements can be made without regard to the state of the weather, since the state of the weather is predetermined.

Have No Sense of Value.

The African native has no real sense of the value of money and if he is in the mood for work will toil as readily for 43 as 3 shillings, but if he has once been paid a certain sum for labor he will never work for less, but will sooner starve, and a very amusing instance is given of a native who would not sell some fowls for 18 pence each because he had heard that a friend had been paid 2 shillings. He was asked 130 miles to try and get the higher price, and still being only offered 18 pence, tramped home again with the birds.—London Graphic.
