Manager. Editor

DAILY HERALD.

WEDNESDAY, SEPTEMBER 3, 1902.

Now we are getting weather that was due us in the summer.

Lumbermen are making contracts to cut this season for \$10 a thousand.

Our country friends are strongly supporting the matrimonial boom, but in the city the situation is quiet.

The directors of the D. and D. school are wondering how they came to take so much for granted.

The skating rink promoters are enjoying a large degree of popularity with the youth of the city.

Looks as if lovers of the ardent in the country districts will have to come to town to wet their whistles.

A London cable says that the King's health is completely restored. His Majesty is at present yachting around the Scottish coast.

An exhibition and a murder trial the same week would have been too much for St. John, so the latter has been postponed till Sept. 16.

The Deaf and Dumb school enquiry is rivalling in length of time consumed the famous McCarthy murder trial at Dorchester some years ago.

The attendance at the St. John exhibition Tuesday was nearly 12,000, and the management is delighted with the prospect of financial success.

Mr. Pitts is leaving us to follow the gas business at Ottawa, and thus one after another are the former great Tory lights passing hence to be with us no more.

The farmers are delighted with the continued fine weather which is giving them opportunity to finish haying, and harvest their grain which is an abundant crop.

The plea of insanity on behalf of murderers is generally considered the last resort. One would suppose, however, that in a certain sense all murderers are insane.

Fog has been interfering with the pleasure of St. John exhibition visitors. Tuesday night it was so thick that the crowd could scarcely see the fire works display.

The Normal school has re-opened with a large attendance of intelligent, healthy and energetic looking young people, who will doubtless find their stay in Fredericton all too short.

The aldermen could have at least treated Mr. Edgecombe's petition with the courtesy of a reference to the assessment appeals committee. Why make an exception in his case.

We have the new horse cart, now for the horses to haul it. An excellent job has been done preparing the central station for the new service, and Ald. Stockford is receiving praise for it.

Premier Tweedie is in the city today, his first visit since returning from England, and he received a hearty welcome from his numerous friends. Mr. Tweedie is looking remarkably well, and no doubt is in fine fettle for the electoral fight which the opposition allege is to take place shortly.

Dr. Jameson has admitted in the Cape Colony legislature that the raid in which he figured was a mistake. The presence of Jameson in the Cape legislature is also a mistake, an irritating circumstance which will not fail to arouse the antipathy of the Dutch, whose influence in that body appears to be uppermost. Gen. Brabant, who has just returned to England from the Cape, says "we are in danger of losing everything we gained by the war."

The young Fredericton lawyers who are seeking opposition nomination for the legislature, are not stopping to count the cost. Who do they expect will put up the necessary cash? As Mr. Tarte has well said, "elections are not made with prayers."

A new danger has arisen in connection with railway travelling in the west. At Waseca, Minn., Saturday, a train was struck by a tornado and hurled over an embankment, killing two people instantly, and fatally injuring three others.

Mr. Hatheway of St. John says he will not accept the labor men's nomination unless it is endorsed by the opposition convention. He wants two strings to his political bow, and even that will not be sufficient to elect him.

The condition of George and Charlotte streets show what a good road can be made with the exercise of common sense and Belle Isle gravel. Less macadamizing and more gravel is wanted on other streets of the city.

All the gentlemen mentioned in connection with opposition nominations in St. John are Conservatives, some of them very prominent in that party's machine. What does the Globe think of the situation.

The premier of Australia is visiting Toronto and is being very hospitably entertained. Next to Sir Wilfrid Laurier, Sir Edmund Barton was the most conspicuous colonial visitor at the coronation.

It is said that Mr. Balfour, the New British premier, who is a bachelor, is a believer in woman suffrage. He should marry, however, before becoming an advocate of women's other alleged rights.

Mr. Peters, deputy commissioner for agriculture, says the show of live stock at the St. John exhibition is the largest and finest he has ever seen at any provincial exhibition in New Brunswick.

A True Nerve Tonic.
Will act, not so much directly upon the nerves as upon the digestive functions and the abundant formation of red, vitalizing blood. Nerves can't be fed on medicine. They can, however be restored and strengthened by assimilated food. The marvelous action of Ferrozone arises from its action over the digestive and assimilative processes. When you take Ferrozone the blood is purified, strengthened, and grows rich and red. Then you grow vigorous, healthy and beautiful ready for work because you have the strength to do it. No tonic for the brain blood or nerves compares with Ferrozone. Price 50c. Sold by C. A. Borchill Hamilton's Pills Are Effective.

"Think he's better fitted for Congress than anyone else in your district? 'I should say so; he's a natural born Congressman. Why he can take any old anecdote twist it around a little and tell it as if it had been an actual experience of his own.'—Philadelphia Press.

Edmund G. Vail, a blacksmith was nominated for Congress by the Democratic Convention at Cleveland.

At Waseca, Minn., two persons were killed, three fatally injured and several others hurt on a train that was blown over an embankment by a tornado.

Faelten System.
Mr. Wilnot Lemont has made a special study of the method of music instruction as devised by Carl and Reinhold Faelten. It is by far the most successful method for children's instruction yet devised.—Aug. 27 d.t.f.

Royal Palace Tea.
Are you satisfied with the tea you drink? If not, just try a pound of Royal Palace, 40 cts. per pound at G. T. Whelply's.—d.

Mrs. Samuel Mitchell an Ottawa lady was killed by falling downstairs.

FIRST-CLASS
Laundry Opposition

Shirts 5 cts., collars 1 ct., family washing 15 cts. to 30 cts. per doz. Everything cheaper than the other laundries. If done up not satisfy done over again, no charge. Best Laundry you never show.
