

The healthy woman need not fear the change which comes as the beginning of life's autumn. It is the woman who is worn out, run down and a sufferer from womanly diseases who naturally dreads the change of life. This is the critical period of woman's life, and the prevalence of womanly diseases makes it the duty of every woman who would avoid unnecessary suffering to take especial care of herself at this time.

The ills which vex so many women at the change of life are entirely avoided or cured by the use of Dr. Pierce's Favorite Prescription. It makes weak women strong, and enables the weakest to pass through this trying change with the tranquility of perfect health.

"I have been a very healthy woman, and this time has been very hard with me," writes Mrs. Maggie Morris, of Munson Station, Clearfield Co., Pa., Box 16. "I am come to the time of change of life, and I have been sick a great deal off and on. When Mrs. Hemmis moved beside me, I was sick in bed, and when she came to see me and we were talking over our sickness, Mrs. Hemmis told me to try Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,' also 'Pellets.' I got her to bring me a bottle of each from the drug store and I used them. They did me a great deal of good, and I got two more bottles of 'Favorite Prescription.' I never saw such a wonderful cure. Before I commenced your remedies I was good for nothing; was in such misery I hardly knew what to do with myself, now I can do all my work myself and feel well."

Dr. Pierce's Pleasant Pellets are easy and pleasant to take.

Watch Your Shoulders.

When standing before a looking glass, notice if your shoulders are the same height. Generally the right is higher than the left. The reason for this unevenness lies in the way one sits. You get into a comfortable chair at your desk, and at once you rest your right elbow on the arm of your chair or your desk, thus throwing one shoulder higher than the other. This is especially the case where one writes a great deal. When you notice that one shoulder is higher than the other, the thing to do is to change your way of sitting at your desk. Two simple exercises will be beneficial. The arm of the lower shoulder should be extended upward, the hand grasping a dumbbell. That of the higher shoulder should be lowered and made to support a heavy weight.

English Brass.

The composition of English brass is about seventy parts of copper and thirty of zinc. "Prince Rupert's metal" contains 75 to 80 per cent of copper and on account of its golden color is employed to some extent in jewelry.

The kind of brass called tombac contains still more copper, nearly eighty-five parts in a hundred. It is the alloy used for the manufacture of what is called Dutch metal, an imitation of gold leaf. It can be rolled into sheets, and these can be beaten out till they are only fifty-three thousandths of an inch in thickness.

A HISTORIC SCHOOL.

It Was Established at Dorchester, Mass., in 1639.

The first public school in America to be supported by direct taxation "upon the inhabitants of a town" was established at Dorchester, Mass., in May, 1639.

In 1636 David Thompson had settled upon Thompson's island, off the coast of the colony town, and in 1638 he gave the island to the town on the payment of 12 pence yearly rental. Having transferred the island to the town, the town council met May 20, 1639, and adopted the following order:

It is ordered the 20th day of May, 1639, that there shall be a rent of £20 a year imposed forever on Thompson's island, to be paid by every person that hath property in said island, according to the proportion that any such person shall from time to time enjoy and possess there, and this toward the maintenance of a school in Dorchester. This rent of £20 a year to be paid to such schoolmaster as shall undertake to teach English, Latin and other tongues, also writing. The said schoolmaster to be chosen from time to time by the freemen, and it is left to the discretion of the elders and the seven men for the time being whether maids shall be taught with the boys or not. For the levying of this £20 yearly from the particular persons who ought to pay it according to this order it is further ordered that some man shall be appointed by the seven men for the time being to receive this, and on refusal to levy it by distress and not finding distress such person as so refuseth payment shall forfeit the land he hath in propriety in said island.

Here the first teacher was the Rev. Thomas Waterhouse.

Camera Shows Twins to Be Unlike.

"It is a curiosity of photography that two persons who look alike in the flesh look entirely unlike in a picture," said a photographer. "I saw that peculiarity of the human countenance strangely exemplified in the case of two girls whom I photographed a few weeks ago. The girls were twins. Each was the dead image of the other, and I felt positively uncanny when posing them, for I expected the result to be two pictured faces startlingly alike. But they did not turn out so. The features were the same, to be sure, but in the photographic process the underlying expression had been brought to the fore and had given to each girl an individuality of her own which diminished the resemblance wonderfully."

"I have noticed the same peculiarity in other cases of photographing doubles, although never in so pronounced a degree. In some faces expression counts for much more than feature, even in photography, and, although the cheeks, nose and mouth may be cast in the same mold, the camera gives results widely different."

A WELL KNOWN ALBANY MAN

Recommends Chamberlain's Colic, Cholera and Diarrhoea Remedy.

About eighteen months ago Mr. W. S. Manning, of Albany, N. Y., widely known in trade circles as the representative of the Albany Chemical Co., was suffering from a protracted attack of diarrhea. SHOT GUN

- PRESCRIPTION -

We suppose we are not revealing any trade secrets when we say that many medicines are made up on the principle of the so-called "Shot Gun" Prescriptions, which were formerly somewhat in vogue. The idea of the Shot Gun Prescriptions was to put into a medicine a large number of different drugs, each useful for different purposes, in the hope that some of them might hit the case.

The most successful physicians we know use a more direct method. The medicine we sell over our own name, and guarantee, does the same. This medicine is called

Staples' Dyspepsia Remedy.

It is the best remedy we know of for Dyspepsia in all forms, such as Indigestion, Costiveness, Biliousness, Sour Stomach, Heartburn, Water Brach, Sick Headache and all the terrible diseases caused by Dyspepsia. It is not a scattering "Shot Gun" Prescription but it goes straight to the mark, and has cured so many people right here in town, that it gives us confidence to sell it on an absolute guarantee, as follows: If you use a bottle and it does not help you, we will give you your money back without a word of complaint. We could not afford to guarantee it so boldly if we had not seen it succeed ninety-eight out of every one hundred cases.
