They Make You Feel Good.

The pleasant purgative effect experienced by all who use Chamberlain's Stomach and Liver Tablets, and the healthy condition of the body and mind which they create makes one feel joyful. For sale by all druggists.

Moving in Spanish Cities.

An odd sight to be seen in Spanish cities is the manner of moving household effects. In cities like Toledo and Cordova the streets are mostly very narrow and the houses tall, sometimes six or seven stories. The streets are often so narrow that horse vehicles are not permitted in them. When the people move from place to place their household goods and chattels are transported in handcars. Then, instead of being painfully lugged up the narrow staircases, for there are no elevators, they are hoisted in large baskets by means of block and tackle to the particular floor to which they are destined. When there, they are passed in through large doorlike windows. In most of these cities one sees ornamental iron hooks projecting from the topmost cornice of the facade, to which the tackle is adjusted. It works on precisely the same plan as that followed in American stable lofts for hoisting hay.

Don't break down a boy's pluck with a broomstick. There is a better way. You cannot educate the mind with a club.—Schoolmaster.

TAX ON HATS.

In the reign of George III. hats were taxed. The least tax was 6 cents. Those above \$3 in value paid a tax of 50 cents.

A Mighty Man in Thessalia.

Polydamus of Thessalia, an old time Samson, was almost the equal of Milo, both in prodigious feats of strength and enormous appetite. One day (so it is recorded) he seized a bull by his hind feet. The enraged animal finally managed to escape, but is said to have left both hoofs in the athlete's hands.

Philippine Snakes.

Above the length of nineteen or twenty feet snakes in the Philippine Islands increase greatly in bulk for every foot in length, so that a snake nineteen feet long looks small beside one twenty-two feet long.

The Proper Treatment for Sprained Ankle.

As a rule a man will feel well satisfied if he can hobble around on crutches two or three weeks after spraining his ankle, and it is usually two or three months before he has fully recovered. This is an unnecessary loss of time, for in many cases in which Chamberlain's Pain Balm has been promptly and freely applied, a complete cure has been effected in less than one week's time, and in some cases within three days. For sale by all druggists.
