

WORTH REPEATING.

"A Useful and Truthful Saying will Always Bear Repitition."

We have been telling you through the columns of this paper and others what we can save you in money by trading with us. A large number have responded and you will find them a well satisfied lot of people, as well dressed as their neighbors, and a balance in their pockets. They can bear testimony in our behalf. We are not yet satisfied, we want more. We are after those that have not, for reasons best known to themselves, patronized us. We are working for our own interest 'tis true, but we are working for your best interests to advance our own. Try our stores for your Saturday purchases. See display marked in figures that for value cannot be turned down.

Too Great a Risk.

In almost every neighborhood someone has died from an attack of colic or cholera morbus, often before medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by all druggists.

School Nurses.

The child born today may expect four years' longer life than the child born fifty years ago. One of the agents to bring about this result is the school nurse, who goes from school to school treating incipient ailments. Many a cough or a cut or a sore is quickly cured which through inattention would develop into serious trouble. So successful has been the work of a single nurse in the New York schools the past winter that twelve more have been appointed.

Another Wireless Method.

Peter Cooper Hewitt has perfected a wireless method which, it is said, is superior to Marconi's method. The device consists of a glass globe of ten inches in diameter, having two tubes containing mercury sealed to the bottom of the vessel. The operation of this device depends upon a new phenomenon in physics which Mr. Hewitt discovered and no one else knows.

Eagles in the Tennessee Mountains.

There are many eagles in the Tennessee mountains, and consequently there are many mountaineers who are expert catchers of the young eagles. These reap rich rewards in return for their perilous risks and adventures, and some of them receive as much as \$2,000 for a single year's catch. The keen eyed hunters watch the nests until the young are hatched, and then, patiently waiting for the mother bird to leave in search for food, make quick work of the capture, while the mother bird is invariably shot to death upon her return to the nest and in her frenzied search for her young. Bolder hunters than these make their attack at night, while the less experienced use snares and nets, a method, however, in a majority of cases unsuccessful.

Quite Necessary.

"Well," said the plain citizen, "there are always two sides to a question."
"Of course," replied the diplomat, "otherwise how could we dodge it?"

Good at a Bad Thing.

Bill—That man is a horrible liar.
Jill—Oh, I don't know. I think he's very good at it.

Didn't Try Both.

Chased by a dog, I climbed a tree.
My trousers are a sight to see!
I am constrained, therefore, to write,
"The bark was far worse than the bite."

Could Not Sleep At Night.

Was All Run Down.

Had No Appetite.

FOOD WOULD NOT DIGEST.

Mrs. I. W. Warner, Riverdale, N.S., is glad there is such a remedy as

Burdock Blood Bitters.

IT CURED HER
AND WILL CURE YOU.

She says: "I wish to add my testimony to the many others who have spoken so highly as to the unfailing virtues of Burdock Blood Bitters. I was all run down, had no appetite, lost all ambition, could not sleep much and had terrible headache and backache, and my food did not digest properly. I saw B.B.B. advertised, so concluded to give it a trial, thinking if it did no good it could do no harm. But after using one bottle I began to feel better, and by the time I had used three bottles I was feeling like a new person. I am so glad there is such a remedy provided for suffering humanity, and cannot praise it enough for I think there is no medicine like it on the market."
