

ONLY A FEW MORE DAYS

AND JANUARY AND

OUR BIG SALE...

Will be something of the past. We have to thank our patrons for the very liberal attendance accorded us at this Sale during the cold month of January. We made liberal sacrifices to make it a success, and the public have endorsed it by their generous response. Any who have not received as much attention as they or we would desire during the rush will please not take it as an offence, as we did our best to give all the best service. During the remaining days of this month and up to stock-taking, a general clearing out of all odds and ends will take place. No reserve.

All the Men's Tweed Suits, Worsted Suits and Serges that sold from \$8.00 to \$12.00, marked down to \$6.50 a suit. Ask for them and see how quickly you get them.

One lot of Boys' Suits in 2 and 3 piece. Some 50 Suits, for ages 3 to 10 years, \$1.45, former price \$2 to \$3.

A lot of about 75 Suits, for ages 4 to 12 years, marked down to \$1.90. Some of them only 1/2 price.

Boys' Suits, for ages 10 to 15 years, old prices \$3.75 to \$6, all go at \$3 for choice.

A lot of Men's Odd Tweed Vests to clear at 50c. each. A few Boys' Vests at 25c each.

Men's Winter Caps, blue and black Beaver and Grey Frieze, priced 75c to \$1.25, silk lined, choice 69c. each.

All the Men's Tweed Suits that were sold at \$5.00 and up to \$7.50, a suit, special price for those days \$4.95. Interest yourself and see what this means.

A lot of Boys' Reefers, for ages 6 to 8 years, at \$1.25. Some worth \$2.50.

Boys' Blanket Coats, regular Mackinaw, pipe 1 with red, with hood, sold at \$5, only \$3 each.

Boys' Raglanettes \$2.75, \$3.75 and \$4.75 for the \$7.50 goods.

Nearly all lines of Ladies' Goods, advertised on our big poster will appear on sale to clear, so as not to have them in our stock inventory.

The usual bargains in Hamburgs and Laces that have pleased so many Fredericton Ladies.

A Vacuum Pressure Experiment.

Chemical science has taught us how to overcome the dreaded diseases that have swept away whole cities in the past. It has taught us the manufacture of explosives and munitions of war and has made possible the greatly improved modes of travel, and it may be truly said that to chemistry we owe the most material progress the world has made.

While this little experiment will not deal with the hidden secrets that live in the famous laboratories or treat upon the mystic powers of viscosity and relegation, it will show what power the absence of air has in attracting movable substances into the place that has been vacated by the air. Few think when they breathe the atmosphere that surrounds them that it has a pressure of fifteen pounds to the square inch or that it can attract even a piece of iron into the space which it leaves.

For an example of the strength of air take any tumbler, fill it about half full of tissue paper, set fire to the paper, turn over the glass in a basin containing water about one-half inch deep and then watch the water ascend the interior of the glass.

Didn't Know His Own Child.

At Antietam, just after the artillery had been sharply engaged, the Rock-bridge (Va.) battery was standing waiting orders. General Lee rode by and stopped a moment. A dirty faced driver about seventeen said to him: "General, are you going to put us in again?"

Think of such a question from such a source to the general of the army, especially when that general's name was Lee!

"Yes, my boy," the stately officer kindly answered, "I have to put you in again. But what is your name? Your face seems familiar somehow."

"I don't wonder you didn't know me, sir," laughed the lad, "I'm so dirty. But I'm Bob."

It was the general's youngest son, whom he had thought safe at the Virginia Military Institute. "God bless you, my son; do your duty," and the general rode on.

Spoke Too Soon.

Alexandre Dumas was one day the guest of Dr. Gistal, a leading practitioner in Marseilles. After dinner, while the coffee was being handed

round, the host requested the great novelist to enrich his album with one of his witty improvisations.

"Certainly," replied Dumas, with a smile, and, drawing out a pencil, he wrote under the eyes of his entertainer the following lines:

Since Dr. Gistal came to our town
To cure diseases casual and hereditary
The hospital has been pulled down—
"You flatterer!" here exclaimed the doctor, mightily pleased; but the poet went on:

And we have made a larger cemetery.

Mrs. Hamilton's Ice Cream.

Mrs. Alexander Hamilton had the first ice cream in the city of Washington. She used to tell with amusement of the delight with which President Andrew Jackson first tasted it. Guests at the next White House reception were treated to the frozen mystery, and great was the fun of the initiated when they saw the reluctance of others to taste the cold stuff. Those from the rural districts especially eyed it suspiciously, then melted each teaspoonful with the breath before swallowing it. The next time they had a chance they ate it with delight.

MILBURN'S HEART AND NERVE PILLS

Make Weak Hearts Strong.
Make Shaky Nerves Firm.

THEY CURE

Nervousness—Sleeplessness—Palpitation of the Heart—Nervous Prostration—Faint and Dizzy Spells—Brain Fog—After Effects of La Grippe—Anæmia—And all Troubles Arising from a Run-down System.

Read what T. L. Foster, Minesing, Ont., has to say about them:—I was greatly troubled with palpitation of the heart, a sudden blindness would come over me, and floating specks before my eyes caused me great inconvenience. Often I would have to gasp for breath, and my nerves were in a terrible condition. I took MILBURN'S HEART AND NERVE PILLS, and they have proved a blessing to me. I cheerfully recommend them to all sufferers from heart and nerve trouble.

Price 50c. per box, or 3 for \$1.25; all dealers or The T. Milburn Co., Limited, Toronto, Ont.
