

A Little Coal Goes A Long Way

towards heating a house if fed into a Furnace made to heat—one which does not send the fuel up the chimney in smoke.

'Sunshine' Furnaces

will extract more heat from a unit of coal than any other good Furnace.

Every square inch from the bottom of fire-pot to top of dome is a direct radiating surface.

The dome is made of heavy steel-plate, which makes it amore effective heater than the cast-iron dome put in common Furnaces.

The "Sunshine" has everyimproved feature and still is so simple that any person can operate it.

THE ABUSE OF SOCIETY.

A Titled Lady Makes a Few Pertinent Remarks on the Subject.

The abuse of society is a favorite occupation with most people who cannot force an entrance into it. It is not even new. Cynics and satirists, preachers and writers have waged war on social amenities all down the ages. We know how Daniel denounced the Babylonian court and how Horace revealed the profligacy of Augustan Rome. Every leader of a regenerating movement, whether it be St. Bernard exhorting to crusades, St. Francis teaching Utopian poverty or John Knox preaching reformation, has denounced the easy morals and the easier standard of the toleration of current society. The reformers of every age denounce their own contemporaries in accents of varying degrees of violence. Rousseau and Voltaire poured out diatribes from different points of view against the frivolous society which was cut off so abruptly by the guillotine, but their denunciations fell on deaf ears. "Nobody," said Talleyrand,

"could have any conception of how pleasant society could be who had not lived before the French revolution." To reform those who will not be reformed is difficult. The grandmother of Ambrosine, holding a scented pocket handkerchief to her nose to keep off the odor of the crowd as she tripped to the guillotine, and Mary, queen of Scots, yawning in the face of Knox, exactly typify the attitude of all ages toward the Jeremiahs hammering at the portals of society.—A Countess in London Outlook.

Musk.

Musk in the raw looks a good deal like axle grease and smells worse. The popular notion that the musk of commerce is obtained from the muskrat is a mistake. There is obtained a somewhat similar perfume from the muskrat, but most of the supply comes from the musk deer, a creature that is carefully reared in India for the sake of the secretion. The secretion is shipped in the crude state and is used not only in the manufacture of the liquid perfume sold as musk, but also in very small quantities to give strength and staying power to many perfumes made from the essential oils of flowers.

Curiously enough, the blossoms of two native plants have a noticeably musky odor. One is the small yellow blossom of a creeping vine known as the musk plant. Its odor is marked and is counterfeited in the commercial perfume called musk. The other is the bloodroot. The pure white blossom of that early spring plant has a distinct though delicate musky odor. A bean known as the musk bean is a

Young Wasps Fried.

Young wasp grubs fried in butter do not at first sight appear to be the most alluring dish in the world, yet they have been pronounced delicious by those hardy experimenters who have tried them. Fed as they are upon the sweetest juices drawn from fruits and flowers, they naturally possess a delicate flavor. Perhaps the best way to prepare them is to bake them in the comb.—London Tablet.

The Best Liniment.

"I have derived great benefit from the use of Chamberlain's Pain Balm for rheumatism and lumbago," says Mrs. Anna Hazeltine, of Tuckahoe, N. J. "My husband used it for a sprained back and was also quickly relieved. In fact it is the best family liniment I have ever used. I would not think of being without it. I have recommended it to many and they always speak very highly of it and declare its merits are wonderful." For sale by all druggists.

True and Unfailing Help for Suffering Women.

PAINE'S CELERY COMPOUND

The World's Medicine for the Cure of Female Troubles.

A large share of the evils and sufferings which women are liable to, result from special female weaknesses and diseases. From the girl entering womanhood to the woman who arrives at the Grand Climacteric or "Change of Life," there are troubles, ailments and irregularities—too often borne in silence—which undermine the health and result in disease. Where such conditions exist, Paine's Celery Compound helps the poor sufferers to fully realize their perils and dangers!

It is well known that ordinary medical treatment too often fails to build up the delicate nervous system of woman, and give necessary tone and strength to the

important female organs. The experience of years, medical testimony and letters from tens of thousands of cured women, point to Paine's Celery Compound as woman's friend and life giver. Jessie M. Ross, Quyon, P. Q., says:

"It affords me much pleasure to testify to the great good that Paine's Celery Compound has done for me. I was completely rundown in health and a victim of female weakness, and after using three bottles of Paine's Celery Compound I was completely cured. It is the best blood purifier I know of, and I recommend it to all who are troubled as I was."
