A FINE SHOWING.

Department of Agriculture
Issues its Yearly Report.

**MARVELLOUS INCREASE
IN CANADIAN FARM
PRODUCTS.**

**And Wonderful Progress
Has Been Made Along
Dairying Lines.**

Ottawa, Feb. 26.—The report of the Department of Agriculture was issued today. In his remarks at the introduction, Hon. Sydney Fisher mentions the enormous progress which has been made by the agricultural classes during the fiscal year ending June 30, 1902. He mentions the progress of the country and points out wonderful advertising which Canada is receiving through the foreign exhibitions, and mentions with pleasure the success of the arch erected in London at the Coronation.

During the year Mr. Fisher paid his first visit to the Lake St. John country in Quebec and was much struck with the evident fertility of the soil and the thrift, industry and enterprise of the people.

While in Quebec Mr. Fisher paid a visit to the quarantine station at Grosse Ile and found that his instructions regarding improvements were being properly carried out.

Mr. Fisher goes on to say:

THE NORTHWEST CROP.

"Notwithstanding the enormous crop which our Northwest produced last year, it has been exceeded in the present season, and I can venture again to prophesy that in the years to come it will constantly increase in a most marvellous manner. The agricultural production of Eastern Canada has been full to overflowing this year. Butter and cheese have been produced and exported in much larger quantities than ever known before, while the prices have been so high that the value of the exports is much the greatest in the history of our country. The pork industry has also been stimulated by the very high prices, and although the increase in quantity is not so very great, the increase in value is most satisfactory. Poultry and egg production have been again much stimulated. The only difficulty in fact in regard to these products is that the buyers cannot find in Canada enough to meet their demands. This may also be said of our hog products. It is indeed a fact that this year in Canada farmers could have sold far more than they had to sell, at prices which were uniformly profitable; the only difficulty that has appeared in our agriculture in Canada being the lack of labor to produce what we could sell and to develop an increased area of productive fields.

THE FRUIT MARKS ACT.

"I am happy, also, to be able to say that another year of the working of the Fruit Marks Act has still more shown the utility of this law. Constant reports have come from Great Britain to show that our apples especially, and our fruit generally, are packed more evenly according to the grade marked upon them. We have been enforcing the Act rather more strictly, and paying more attention through the efforts of our inspectors, to the marketing of fruit in Canada under the Act, with the result that a larger number of prosecutions have been taken out under the Act notwithstanding the fact that in general the packing of the fruit has been decidedly improved. The invariable success of these prosecutions has shown that the Act can be easily and successfully carried out.

THE CANADIAN CENSUS.

"The work of compiling the census schedules has been carried forward during the year, and the first volume has

NATURE'S BLESSING

Is Found in Health, Strength and Freedom
from Pain.

This Gift is Meant for All—On It the Happiness and Usefulness of Life Depend—Without it Life is an Existence Hard to Endure.

Health is nature's choicest gift to man and should be carefully guarded. Ill health is a sure sign that the blood is either insufficient, watery or impure, for most of the diseases that afflict mankind are traceable to this cause. Every organ of the body requires rich, red blood to enable it to properly perform its life-sustaining functions, and at the first intimation that nature gives that all is not well, the blood should be cared for. Purgative medicines will not do this—it is a tonic that is needed, and Dr. Williams' Pink Pills have been proved, the world over, to surpass all other medicines in their tonic, strengthening and health-renewing qualities. From one end of the land to the other will be found grateful people who cheerfully acknowledge that they owe their good health to this great medicine. Among these is Mr. Elzear Robidoux, a prominent young man living at St. Jerome, Que. He says: "For some years I was a great sufferer from dyspepsia. My appetite became irregular and everything I ate felt like a weight on my stomach. I tried several remedies and was under the care of doctors but to no avail and I grew worse as time went on. I became very weak, grew thin, suffered much from pains in the stomach and was frequently seized with dizziness. One day a friend told me of the case of a young girl who had suffered greatly from this trouble, but who, through the use of Dr. Williams' Pink Pills had fully regained her health and strength, and strongly advised me to try these pills. I was so eager to find a cure that I acted on his advice and procured a supply. From the very first my condition improved and after using the pills for a couple of months I was fully restored to health, after having been a constant sufferer for four years. It is now over a year since I used the pills and in that time I have enjoyed the best of health. This I owe to that greatest of all medicines, Dr. Williams' Pink Pills, and I shall always have a good word to say on their behalf."

Through their action on the blood and nerves, these pills cure such diseases as rheumatism, sciatica, St. Vitus' dance, indigestion, kidney trouble, partial paralysis, etc. Be sure that you get the genuine with the full name "Dr. Williams' Pink Pills for Pale People" on every box. If your dealer does not keep them they will be sent post paid at 50 cents a box or six boxes for \$2.50 by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

gone through the press. It deals altogether with population, in the various phases of families, sexes, conjugal conditions, religions, origins, nationalities. In the ten years 1881-1891 the population grew from 4,324,810 to 4,833,239 and in the ten years 1881-1891 from 4,833,239 and in the ten years 1891-1901 from 4,833,239 to 5,371,315, the increase in the former decade being 508,429 and the latter 538,076. In Manitoba, the Northwest Territories and British Columbia the increase in the last decade was 275,330 and the total population of those parts of the Dominion is shown to be 592,808. The land and water area of Canada above tide level is 3,745,574 square miles, and the largest province is British Columbia, which has an area of 372,630 square miles or nearly one-tenth of the whole. Quebec stands second, with an area of 351,873 square miles, and Ontario third with 260,862 square miles. PRINCE EDWARD ISLAND.

The smallest province is Prince Edward Island, which has an area of only 2,184 square miles. Bit in density of population the island ranks first, having 47.23 per square mile. Nova Scotia is second, with 21.45, New Brunswick third with 11.87, Ontario fourth with 8.37, Quebec fifth with 4.78, and Manitoba sixth with 3.46 per square mile. In British Columbia and the Northwest Territories the population is less than one per square mile and for the whole Dominion it is 1.43, which shows that we possess an enormous field for settlement. By origins, 3,063,195 or 57.03 per cent. are British, 1,649,371 or 30.71 per cent. are French, 310,501 or 5.78 per cent. are German, and 348,248 or 6.48 per cent. are of various origins. By nationalities, 4,671,815 or 86.98 per cent. were born in Canada, 405,883 or 7.56 per cent. in the British Islands and possessions, and 293,617 or 5.46 per cent. in foreign countries, at sea, and not given.

NUMBER OF IMMIGRANTS.

The total number of immigrants from foreign countries is 278,788, of whom 123,908 are naturalized citizens and 124,880 are aliens. But as 159,283 of the whole

number arrived during the 5½ years preceding the date of the census it is apparent that the immigrants are merging fast into citizenship. Immigrants born in the United States number 127,899, and of these 87,049 are naturalized. The only people who adhere to their own nationality are the Chinese, as less than four per cent. of the 17,043 born in China are Canadians. The rural population of the country 3,349,516 and the urban is 2,021,709, the latter embracing all incorporated cities, towns, villages. There are 62 cities towns, of over 5,000 whose total population is 1,311,108. In 1891 there were 45 cities and towns of this class, and their population was 1,021,319.

AGRICULTURAL PRODUCTS.

The difference in the amounts of some classes of agricultural products exported during the fiscal year of 1902 compared with 1896, the last year of Conservative regime is very marked. A few of them are as follows:

	1896	1902
Wheat.....	\$5,771,521	\$18,688,092
Flour.....	718,433	3,968,850
Oats.....	273,861	2,052,559
Oatmeal.....	364,655	344,332
Peas.....	1,299,491	1,805,718
Cattle.....	7,082,542	10,663,819
Sheep and lambs..	2,151,283	1,483,526
Cheese.....	13,956,571	19,686,291
Butter.....	1,052,089	5,660,547
Pork, bacon and ham.....	4,446,884	12,357,863
Poultry, dressed and undressed..	18,992	238,047
Eggs.....	807,036	1,733,242
Fruits.....	1,716,278	1,992,303

AGRICULTURAL SOCIETIES.

There are throughout Canada a large number of agricultural societies and farmers' clubs, the majority of which have done no work outside of holding an annual show. These associations receive from various sources nearly \$1,000,000 per year. As one means toward improvement, an effort was made last year to inaugurate a better system of conducting county and townships fairs. A number of fairs were arranged in a circuit, and expert judges furnished for the live stock classes.

CANADA'S BUTTER TRADE.

There has been a great development of the Canadian butter trade in the last few years. The number of packages of butter carried in cold storage from the port of Montreal increased from 227,863 in 1900, to 410,893 in 1901, and to 525,735 in 1902. Canadian butter has won a higher place relatively in the markets of the United Kingdom than it occupied before. The special inquiries by cold storage inspectors reveal the need for more careful maintenance of low temperatures at creameries before the butter is shipped, in order that it may be delivered at the point of export without any injury to its quality from heat. The following statement gives the number of packages of butter carried in cold storage, from the port of Montreal, during the seasons of navigation since 1898:

	Packages.
1898.....	209,172
1899.....	429,734
1900.....	227,863
1901.....	410,893
1902.....	525,735

The contracts entered into with agents of steamship companies to provide a regular cold storage service for the carriage of butter and other perishable products from Montreal to points in Great Britain, in chambers cooled and kept cool by mechanical refrigerating machinery of the best and most modern sort, terminated at the close of navigation from Montreal in 1901.

BRIGHT BABIES.

Only Those Perfectly Well are Good Natured and Happy.

When a baby is cross, peevish or sleepless, the mother may be certain that it is not well. There are little ailments coming from some derangement of the stomach or bowels which the mother's watchful eye may not detect, which nevertheless make themselves manifest in irritability or sleeplessness. A dose of Baby's Own Tablets given at such a time will speedily put the little one right and will give it healthy, natural sleep, and you have a positive guarantee that there is not a particle of opiate or harmful drug in the medicine. Thousands of mothers give their children no other medicine, and all mothers who have used the tablets praise them. Mrs. A. McDonald, Merton, Ont. says:—"Baby's Own Tablets are the best medicine for little ones I have ever used, and I always keep them in the house in case of emergencies." Good for children of all ages from birth upward. Sold at 25 cents a box by medicine dealers or sent post paid by writing direct to the Dr. Williams' Medicine Co., Brockville, Ont.

Pretty Women in Sandals.

Berlin, Feb. 26.—Society here has discovered a new fad initiated by the performance of Miss Duncan, an American, who interprets classical music by dancing barefooted. Miss Duncan told an interviewer that the gospel of beauty she is thus preaching is being received by Berlin society.

She added that it is a common occurrence for Berlin women boasting of pretty feet to appear at private entertainments wearing sandals. She refused, however, to name any of the devotees of the cult. She declared that her wealthy patrons had decided to build a Greek theatre to be devoted to Miss Duncan's branch of the terpsichorean art.

A fashionable chiropodist of Charlottenburg says that in connection with an amateur performance of classical plays at the residence of a well known sculptor last week his services were in greater demand than those of the hair-dresser.

To put the brake on the wagon going down the hill is a help to the horse, when the wagon is heavily loaded. But what driver would think of applying the brake to a loaded wagon going up hill? If he did, his sensible horses would probably balk. Many a man is in the condition of pulling a load up hill with the brake set against him. When his stomach is out of order, and the allied organs of digestion and nutrition impaired in their functions, a friction is set up which has to be overcome in addition to the performance of daily duties. A foul stomach makes a foggy brain, and the man with a disordered stomach has often to grope his way through the day's business like a man in a fog. He forgets appointments. Problems seem presented to his mind "wrong end to." This condition is entirely remedied by the use of Dr. Pierce's Golden Medical Discovery. It puts the stomach and digestive and nutritive system into a condition of perfect health, and gives a clear brain, a steady hand and a light step for the day's duties. When constipation clogs the channels of the body, Dr. Pierce's Pleasant Pellets will work an effectual cure of that disastrous disease.

The Effect of Good Times on the Grocery Trade.

(Halifax Chronicle.)

"Good times in Canada have created a demand for a better quality of food products than existed in years gone by," said a well known city dealer to the Chronicle yesterday. "Consumers want the best, and will not in many cases be persuaded to take anything else.

"For instance, in flour, I am selling two barrels of 'Ogilvie's Hungarian' flour today where I only sold one two years ago. Quality is the popular demand, and I think it is likely to continue."

Dying by Slow Degrees.

Although not always aware of it yet thousands die by slow degrees of catarrh. It first attacks the nose or throat, then the lungs, and finally spreads all through the system. Catarrh is the only remedy that will immediately prevent the spread of this awful disease. Every breath from the Inhaler kills thousands of germs, clears the throat and nose, aids expectoration and relieves the pain across the eyes. Catarrh is eradicated every vestige of catarrh from the system, and is highly recommended also for Bronchitis, Asthma, Deafness and Lung Trouble. Price \$1.00; trial size 25 cts., all druggists. Polson & Co., Kingston, Ont.

Dr. Hamilton's Pills Cure Biliousness.

Convicted by His Own Act.

A provincial lawyer tells a good story of his own expense. He would sometimes return home late at night, after his wife had retired, and when she asked him what time it was would answer, about 12, or a little after midnight.

On one occasion, after making the inquiry, she said:

Alfred, I wish you would stop that clock; I cannot sleep for its noise.

All unsuspecting, he stopped the pendulum. In the morning, while dressing, his wife inquired artlessly:

Oh, by the way, what time did you get home?

About midnight, replied the mayor.

Alfred, look at that clock. The hands of the clock pointed at 2.30. The lawyer was crushed.

The Evils of Constipation.

This dangerous condition causes sick headache, abdominal pains, piles, and in

severe cases insanity and apoplexy. The most agreeable and satisfactory remedy is Ferrozone, which makes the bowels so well ordered that natural and unassisted action is established. It is mild and certain in action and never causes distress or inconvenience, and may be taken as long as required. Pains in the stomach and intestines, piles, biliousness and headache disappear at once when Ferrozone is used. Recommended and sold by Druggists. Price 50c. By mail from N. C. Polson & Co., Kingston, Ont.

No Pills Like Dr. Hamilton's.

The man serving a six months' term in the St. Louis work house, who lived in that city for some time as "Lieut.-Col. F. Seymour Barrington," a member of the British nobility, and married a woman of Kansas City, who believed his story of wealth and title, has been positively identified as George Barton, a noted English criminal. A picture of Barton, received from Scotland Yard, completed the identification, and finally the prisoner himself admitted it.

Paine's Celery Compound

Rapidly Repairs Wasted Tissues, Puts it in Firm Condition and Expels Waste Poisons From the System.

The tissues of the human body are rapidly wasted by fevers, and great quantities of waste poison are poured into the blood. The rapid break down of tissue and the charging of the blood with poisons, bring unfortunate victims to a condition of weakness and helplessness that is pitiable to behold. Thousands of young and old who have just passed the critical stages of typhoid, inflammatory, gastric, typhus, intermittent and other forms of fevers, demand the closest attention and best treatment if life is to be saved.

With true candor, honesty and earnestness we suggest and urge the use of nature's nerve food and nourisher, Paine's Celery Compound, the only medicine in the world that has proved its value as a builder of wasted tissue, a bracer of weak and irritated nerves, a never-failing blood purifier and enricher. Paine's Celery Compound has made tens of thousands well and strong; it has saved afflicted ones from the grave when everything else has failed. No other medicine so quickly fortifies feeble men and women; it gives them that robust health that makes life a joy.

America has discovered a new poet. Her name is Georgia Louise Wass, she is thirteen years old and "hails" from Madison, in the state of Wisconsin. According to the "Herald," she has just published her second volume, which is called "Little Jewels." The same paper publishes an extract from what it calls a "poem on Lincoln."

Lincoln was a great man.

He was very kind and good,
And when a young man
He had to split wood.

Lincoln had large feet,
And a large heart, too,
And large hands,
With them he hardly knew what to do.

Is Your Back Lame.

Does it hurt to stoop or bend down? Have you a heavy dull pain at the base of the spine? If so, the best remedy is Nerviline; it will invigorate the tired, sore muscles, make them supple and strong. Nerviline will drive out the pain and make you well in time. Nothing so good as Nerviline for Lumbago, Stiff Neck, Rheumatism, Neuralgia and Sciatica. Buy a 25c. bottle of Polson's Nerviline today, and try it.

Hamilton's Pills cure Constipation.

Many a man would be glad of the opportunity to chew all he could bite off. It is easy to admit that a man is level-headed if he is below your level.

Don't Forget About Your Corns.

Cure them in one night by an application of Putnam's Painless Corn and Wart Extractor. It is sure, safe, painless, and guaranteed to cure or your money back. Refuse a substitute.

Between the engagement and the wedding the man in the case does a lot of guessing.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder dusted in the bath softens the water at the same time that it disinfects. 15

Laxative Bromo Quinine on every
Cures a Cold in One Day, Grip in 2 Days. *E. W. Brown* box 25c
