

Have you ever tried Scott's Emulsion for a thin, weak child, one backward in growth and slow in development? Those who have know the pleasure of seeing their delicate child grow strong and become well-developed under the gentle but effective influence of Scott's Emulsion. For the weak growth of the bones, Scott's Emulsion supplies those powerful tonics, the hypophosphites. For the lack of proper healthy flesh Scott's Emulsion provides the nourishing cod liver oil in an easily digested and palatable form. Any child that needs more and better nourishment—effective nourishment—will get it in Scott's Emulsion. There is no other remedy or food that combines so much that is necessary in maintaining good health and right growth in children.

We'll send you a sample free upon request.

BRITISH COLUMBIA.

WHAT THE PACIFIC PROVINCE CAN
RAISE ON ITS FARMS.

Its Agricultural Area a Vast Surprise to the Average Uninformed Canadian—Lower Fraser Valley the Garden of the Province—Fruit Raising Rapidly Increasing—A Nutsell View of Farms and Products in British Columbia.

Many people are of the opinion that we raise nothing in British Columbia but fish, minerals and pin-headed politicians, but such is not the case, says The New Denver, B.C., Ledger, judging from what J. K. Lindsay said in Winnipeg the other day. He says:

"The agricultural area of British Columbia would be a big surprise to the average person, who is under the impression that the province is practically a sea of mountains," says Mr. Lindsay. "While part of this is timbered, yet when it is cleared, which can be done at a very moderate cost, its productiveness is unequalled in Canada."

Speaking of the lower Fraser Valley Mr. Lindsay says it is probably the garden of the province. A tour through this immense district would be a revelation to one unacquainted with the possibilities of the wonderful climate enjoyed by that district. Says he: "The warm days and cool nights produce luxuriant yet hardy vegetation."

"Mixed farming is the usual occupation, stock-raising and dairying being the most profitable. On account of the wonderful pasture an acre will pasture one animal per year. I saw one farm of fifty acres on which a dairy herd of forty netted the owner over \$2,400 in one year. According to the creamery statistics, cattle, practically speaking, are out the year round. Pork is another remunerative product, the comparison of production between here and there will demonstrate this—the one feeding skim milk and clover and the other grains."

"The high prices paid for produce and the fact that British Columbia does not and cannot produce enough for home consumption, importing produce to the value of \$600,000 yearly, will always keep the prices up. Butter, for instance, nets the farmers from twenty-two to twenty-eight cents per pound. At present eggs are worth from twenty-five to fifty cents per dozen, with other produce in comparison."

"Stock-raising is rapidly increasing."

Tendency of the Times.

The tendency of medical science is toward "preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by all druggists.

Apples, plums and pears grow to perfection and also bring good prices. For instance, apples net \$1 per box—three and one-half boxes would equal one barrel. Crop failure is practically unknown. In grains wheat is not grown extensively, the land is too valuable for dairy purposes. Oats bring tremendous yields. Peas one to one and a half tons per acre.

"Timothy hay, seven tons per acre is not an uncommon yield. Much land is yet available, and much cheaper than corresponding lands to the south in Washington. Wild lands run from \$5 to \$15. Improved farms from \$20 to \$70. In the municipality of Chilliwack, for instance, a valley of forty thousand acres, only twenty thousand acres are under cultivation. While one hundred and sixty-acre farms are the average here, forty acres comprise a good-sized farm; in fact, hundreds are making a good living off ten acres. Ten dollars per acre is usual yearly rental, and in some cases \$15."

"Vancouver Island contains many beautiful farms in the vicinity of Victoria," says Mr. Lindsay, "the climate being similar to that of England. All vegetation produced there goes exceedingly well. Kamloops, which is in the dry belt, will have thousands of acres opened up in the spring, through a very extensive plan of irrigation now nearing completion. The land will grow anything from a peach to a watermelon. In the Kootneys are thousands of acres owned by the Canadian Pacific Railway Company. These lands are situated on the Kootney Lakes, north and east from Nelson and in the Cranbrook district. These lands can be bought from \$1 to \$5 per acre, and contain many valuable minerals. The bottom lands are taken up, and many thousands of acres can be used for grazing lands. The rolling and sheltered nature of the country makes it an ideal cattle country, as the large areas in the Territories are being rapidly cut up and this must be the cattle country in future. The climate is also much milder."

"The Okanagan district contains the finest fruit-growing land in the province, also producing an excellent grade of cereals. Lord Aberdeen's Coldstream ranch is a magnificent sight."

Canadians in Congress.

At least six present. United States Senators can never occupy the White House because of the constitutional provision requiring Presidents to be native-born, says The Washington Post. Patterson of Colorado was born in Ireland, Nelson of Minnesota in Norway, Millard of Nebraska in Canada, Wetmore of Rhode Island in England, Gallinger of New Hampshire in Canada, and Kearns of Utah in Canada. The proportion of foreign members of Congress is much greater in the Senate than it is in the House, for while six of the eighty-eight Senators are foreigners, all save seven of the 386 members of the House are natives. The House members who were born abroad are Lorrimer of Illinois and Baker of New York in England; Lucking of Michigan and Hughes of West Virginia, in Canada; Lind of Minnesota, in Sweden; Barthold of Missouri, in Germany; Rodey of New Mexico, in Ireland, and McLachlin of California, in Scotland. For voting purposes Gaine of West Virginia might as well have been a foreigner, for he was born in the District of Columbia.

A Greedy Bird.

The adjutant, or marabou, is a tall bird of India about five feet high. The wings expanded measure about fifteen feet from tip to tip. It readily swallows a cat or a hare whole.

Cured After Other Remedies
Had Failed.

These Wonderful Kidney Pills will Cure
the Most Obstinate Cases of Kidney
Trouble if Only Given a Fair
Trial and Used According
to Directions.

Read what Mrs. Geo. H. Alward, Whites Point, N.B., has to say about them: "This is to certify that I have used Doan's Kidney Pills for pain in the back and kidney trouble and I do most gratefully recommend them to any person suffering in this way. I was so bad with kidney trouble that I could not get around the house. My feet and ankles were so swollen and painful that I could get no rest day or night. I tried several remedies but could get no relief whatever until a friend advised me to try Doan's Kidney Pills. I soon perceived a decided change for the better and had only taken two boxes when I was able to do my housework again, and these boxes made a complete cure."

Doan's Kidney Pills are 50 cts. per box, or 3 for \$1.25, all dealers or

SHOT GUN - PRESCRIPTION -

We suppose we are not revealing any trade secrets when we say that many medicines are made up on the principle of the so-called "Shot Gun" Prescriptions, which were formerly somewhat in vogue. The idea of the Shot Gun Prescriptions was to put into a medicine a large number of different drugs, each useful for different purposes, in the hope that some of them might hit the case.

The most successful physicians we know use a more direct method. The medicine we sell over our own name, and guarantee, does the same. This medicine is called

Staples' Dyspepsia Remedy.

It is the best remedy we know of for Dyspepsia in all forms, such as Indigestion, Costiveness, Biliousness, Sour Stomach, Heartburn, Water Brach, Sick Headache and all the terrible diseases caused by Dyspepsia. It is not a scattering "Shot Gun" Prescription but it goes straight to the mark, and has cured so many people right here in town, that it gives us confidence to sell it on an absolute guarantee, as follows: If you use a bottle and it does not help you, we will give you your money back without a word of complaint. We could not afford to guarantee it so boldly if we had not seen it succeed ninety-eight out of every one hundred cases.
