

Allen's Lung Balsam

The best Cough Medicine.

ABSOLUTE SAFETY
should be rigorously insisted upon when buying medicine, for upon that depends one's life. ALLEN'S LUNG BAL-SAM contains NO OPIUM in any form and is safe, sure, and prompt in cases of CROUP, COLDS, deep-seated COUGHS. Try it now, and be convinced.

A CAMPAIGN LIE.

Promptly Nailed by Senator Choquette.

IT WAS STARTED TOO SOON AND WAS PROMPTLY OVERTAKEN.

The campaign lie to be effective should be sent out about two days before the polling, so that the contradiction cannot overtake it. Some ingenious gentleman up in Quebec has started a pretty good one too soon. The Quebec Chronicle reported Senator Choquette as saying to an audience at L'Ange Gardien on Sunday:

"Are our religious interests not more assured in the hands of one of our own, like Sir Wilfrid Laurier, than in the hands of an English Protestant like Mr. Borden?"

"I despise race prejudices, but blood is thicker than water. Let us support our own blood in preference to that of Mr. Borden!"

The Mail and Empire added to the story this characteristic touch: "Senator Choquette was formerly a member of parliament. On the occasion of the victory of 1896 this gentleman was appointed to the bench. He has been a judge for eight years or thereabouts. A few days ago Sir Wilfrid Laurier invited him to descend from the bench and to take charge of the government campaign in Quebec. He accepted and was appointed a senator, with the promise of a portfolio. He received from Sir Wilfrid the lines upon which he was to fight, and appeared at Chateau Richer with the message for the people. The message is contained in the language just cited from his speech."

The Globe yesterday wired Senator Choquette as to the truth of the statements. He answered as follows:

"I have sent the following letter to the Chronicle: 'To the Editor Morning Chronicle: Sir,—Believing that your good faith has been imposed upon, I took the trouble yesterday to call on you personally to deny the part of the report which appeared in The Chronicle on Monday last, respecting the political meeting held at L'Ange Gardien on Sunday last, which accredited me of having used expressions calculated to raise race prejudice. I made a straight denial of the fact, which seemed to satisfy you, and you promised to publish a denial. But instead I notice in this morning's edition that you accept my denial only so far as to believe that I have no recollection of having given utterance to the expression attributed to me in your report of the proceedings and speeches in your issue of Monday last. This, sir, is an injustice to me

personally and dishonest in so far as it concerns the public. You ought to have accepted, purely and simply, my denial without quibble or equivocation as a matter of justice. In the editorial published this morning you say that you have the testimony of several influential persons who heard me make use of the statements. I repeat now what I told you yesterday, that I do not care who these influential persons may be, but if they would dare to come before me and repeat the assertions that I used the expressions I object to, I would purely and simply tell them that they are Tory liars.

SUNBURY AND QUEENS.

Excellent Prospects of Dr. Hay's Success—A Silly Tory Canvass.

To the Editor of The Herald:

Sir,—I was thinking you and the readers of your paper would like to have the impressions of a traveller who has just passed through Queen's County and partly through Sunbury, and having no influence or interest in either counties I deemed my views, being unbiased, would interest many of the electorate.

I could not help but be impressed with the strong feeling there is in all the parishes in Queens in Dr. Hay's favor. In talking with them they say no one can help but feel that the government will be sustained, and we realize that we want a government supporter, a man that can do something for the two counties, and then I heard the opposition member for the two counties was using the canvass that he had got for Sunbury, the \$6,500 wharf, also their \$25,000 steel bridge and many fully believed it.

I could not reconcile such a thing as likely and I made it a particular point when in Sunbury, to make enquiries as to the truthfulness of the canvass and they just laughed and said, Oh! they don't believe that, do they? and one old chap said they say conservative at that said!

"Why darn it all, I know myself that some of the people got some indirect Liberals to go up and ask the members of the Local Government if they would not help us to induce the Federal Government and they said that the ministers took quite an interest and I promised that they would write right away to Messrs. Blair and Tarte and also told them to go home and write Hon. A. S. White and other influential men in St. John. They got answers back saying they had written and strongly impressed the government of the necessity of the wharf with the result that ten days after Hon. Israel Tarte said on the floor of the House of Commons that \$6,500 was to be expended in building the wharf at Oromocto. The opposition member got us the wharf. Why, when he was a member of the House supporting the Conservative government, what did he ever get us? Just a wharf at his own door which has become rotten as no one uses it and the steamer's don't stop at it on an average of once a week.

In conclusion, those that I talked to said Dr. Hay has a first class chance as so many have expressed the feeling that they are tired of being in the opposition. What we want is a man that can help the country and get us our share.

If you think these ideas from an outsider are worth publishing in your paper you are at liberty to do so, as I thought there was a lot of common sense in their remarks.

Yours,
UNBIASED ONLOOKER.

900 DROPS

CASTORIA

A Vegetable Preparation for Assimilating the Food and Regulating the Stomachs and Bowels of

INFANTS & CHILDREN

Promotes Digestion, Cheerfulness and Rest. Contains neither Opium, Morphine nor Mineral. **NOT NARCOTIC.**

Recipe of Old Dr. SAMUEL PITCHER

Pumpkin Seed -
Aloes -

THE HERALD OFFICE

NOW I notice a decided improvement in the cultivation of tobacco in Cuba.

The soil is artificially fertilized and the plants regularly tended by experienced men to keep down the destructive caterpillar—and keep the plant nipped back so that only as many leaves are left on the plant as nature will allow it to properly mature—consequently the quality of the tobacco has so improved that when I buy the well matured and well cured leaves I obtain the choicest smoking material the world produces.
