### BABY TRIES SUICIDE.

Hearing Voice Calling From Grave, Makes Two Attempts to End Life.

Norfolk, Neb., Nov. 25.—By two attempts at suicide within three weeks, six-year-old Dewey Nehill, at Tilden, Neb., has tried in vain to join his father, whose voice, the child declares he can hear calling him to the hereafter.

Not long after his father, a miner, was buried, the brooding baby stole away from his mother, and with a butcher knife taken from the kitchen table came near ending his life. When found he had the long, sharp blade jammed down his throat.

He was so nearly dead that it was feared he would not recover. But he did, and the minute he had strength he grabbed a hammer and began pounding at his temples with all the energy in his little arms. His head was much bruised before the hammer could be taken from him.

"Dewey, I shall put you down in a hole in the earth if you don't stop this," cried his distracted mother.

"That's where I want to go, mamma," he replied. "That's where papa is, and I want to go to him."

The child has been taken to the country, where a change of environment, it is hoped, will take his thoughts from the voice which he says calls continually to him from "down in the earth."

## The Bad Cold of To-day May Be Pneumonia To-morrow.

The Sore Throat or Tickling Cough that, to the careless, seems but a temporary and trivial annoyance, may develop into Bronchitis.

Every hour delayed in curing a cold is dangerous.

**Dr. Wood's Norway Pine Syrup**

contains all the lung-healing virtues of the pine tree, and is a sure cure for Coughs, Colds, and all throat and lung troubles. Miss Bertha E. Craig, Almont, Ont., says:—"Last fall, for over two months, I had a very bad cold, and although I tried several remedies, it seemed as if I was getting worse instead of better. While looking over the Burdock Blood Bitters Almanac, I read about Dr. Wood's Norway Pine Syrup, and decided to give it a trial. When I had used about half a bottle, I found it was doing me good, so kept on until I had taken two bottles. It is the best cure for a cold I ever heard of."

Price 25 cents per Bottle.

TORONTO, ONT.

The whole district was covered with deep snow, but the day was bright. Queen Amelie and the ladies of her suite joined the party at luncheon in a big marquee.

While awaiting the ladies King Charles and the other shooters threw some balls at a mark. This was too tame for the king who, catching Marquis Desovers, the Portugal ambassador to Great Britain, off his guard, made an accurate shot at the dignified diplomat. King Charles' example was quickly followed and the whole party engaged like school boys in an active snowball match. While none of the missiles were actually aimed at his majesty, a number of distinguished personages were less fortunate. For some minutes the fun was fast and furious, the king being the most active and one of the most accurate among the fighters.

### POKED FUN AT THEM.

Well Known Englishmen Objected to a Yankee Notion.

London, Nov. 25.—The annual Thanksgiving banquet of the American Society at the Hotel Cecil last night was marked by the presentation to Ambassador Choate of a portrait of himself, painted by Hubert Herkomer, and paid for by subscription by members of the society. An unusual note for such a gathering was introduced by Sir Edward Clarke, who proposing Mr. Choate's health, sarcastically derided the title "American" ambassador declaring that the word American implied domination over the whole of the western hemisphere, which the United States does not possess, and is not entitled to as Great Britain is territorially a larger power on the American continent than the United States. Sir Edward suggested that a more suitable title would be Usona, signifying United States of North America.

### HOSTS OF CARIBOU.

Northumberland Miners Saw 250 Animals in the Bald Mountain Region.

Newcastle Advocate.—There is an army of caribou in the woods of the Miramichi. It has virtually taken possession of the Bald Mountain district. Returned sportsmen describe its antics and its ways.

On Sunday R. T. D. Aitken, E. H. Sinclair and S. W. Miller reached Newcastle from Bald Mountain.

Two hundred and fifty caribou were seen by the party during their week's stay in the woods. In one herd there were over fifty and the party ran across several herds of thirty or more. They brought back three excellent specimens with them which is as many as the law will allow. The party also saw two moose.

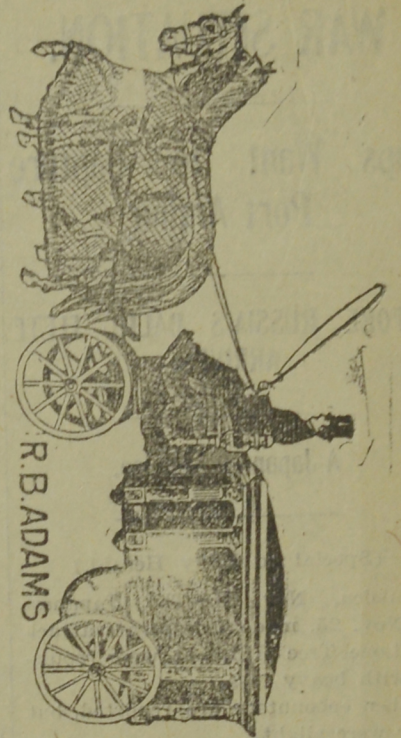

Mr. Aitken said that there was from a foot to eighteen inches of snow in the woods. The party travelled four days over the mountains.

### Preferred the Stage.

Winnipeg, Man. Nov. 24.—Preferring single life to matrimonial bliss, Eva Williams, a member of the Princess Chieftens, jilted William McLeish here, after going with him to the very door of the church; Little is known of McLeish here but he is a Toronto traveller.

Yesterday he met the lady at dinner in the Leland Hotel. Within twelve hours he had proposed and been accepted. He took Miss Williams for a drive in the afternoon and saw her home from the theatre in the evening. She thought his proposal was in the nature of a joke and accepted. It was only at the last moment, just as they entered the doors of Holy Trinity Church that Miss Williams changed her mind and withdrew. McLeish lost his temper and threw the gold wedding ring at her. Miss Williams went on to Fargo yesterday afternoon with the troupe.

The death of Collins was through neglect, first causing mental derangement.
