

MR. EMMERSON

Made An Eloquent and Practical Address

TO THE BROTHERHOOD OF LOCOMOTIVE ENGINEERS

Canada's Great Future.

Montreal Aug. 10.—The annual meeting of the Canadian Division, Grand International Brotherhood of Locomotive Engineers, began here this morning.

The feature so far was an address to the delegates by Hon. H. R. Emmerson, Minister of Railways.

Mr. Emmerson said he appreciated very highly indeed the courtesy extended to him by the Brotherhood, as evinced by the invitation to participate in the demonstration of that evening. He had been glad to come to Montreal for this particular purpose. At first he had thought that his duties at Ottawa would render it impossible. Coming, as he did, from a place where speech-making was at a discount, he would not be expected to address them at any great length.

Some years ago, in his own province, he had been present at a gathering of the Brotherhood; that was during the days of Grand Chief Arthur. Since then Mr. Emmerson said that he had had a very high appreciation of the Brotherhood. "Individually," he said, "I have known them, and I have found them to be the salt of the earth." (Applause.) In listening to the acting mayor, Mr. Emmerson continued, he had felt somewhat slighted to hear that gentleman refer to the C. P. R. and the G. T. R., and make no reference whatever to the Intercolonial. (Laughter.) Did 'Ald. Sadler not know that there was an Intercolonial Railway and that it ran into Montreal. At this, amid laughter, 'Ald. Sadler smiled deprecatingly. "The Intercolonial has been somewhat left out in the cold," proceeded Mr. Emmerson, amid renewed laughter, "but will still continue to the fore. All in all, the Intercolonial, man for man, will compete favorably with the employees of any other railroad on the continent. I can speak with appreciation. I have associated with them uninterruptedly for a number of years, and I know the high standard of citizenship to which they have attained."

Proceeding, Mr. Emmerson said that he had every sympathy with the objects of the Brotherhood. He knew how it had been worked out along conservative lines. Their methods had thus earned for them the respect of the community. As far as the Intercolonial was concerned, he felt that there was a happy condition upon the road. The people of Canada appreciated the engineers and that feeling was having its effect upon the management of railways. It should be their effort to preserve a continuance of that sentiment. Had they ever thought of the expansion that was going on in Canada, not less in regard to the construction of railways than in every other branch of activity. There was a future before them that few of them realized.

They should cogitate the required extension of railways in the next ten years if they would have some idea of their future powers. Raileading in Canada was practically only in its infancy. He often thought that the people of Canada lived in a country, the full potentialities and promises of which they scarcely realized. There were signs that this period was rapidly passing. The people were waking to a realization of what was before the country. It was well within his recollection when a man who crossed the line was ashamed to say that he was from Canada. Now none there were who would not be proud to say: "I am a Canadian." (Cheers)

In conclusion Mr. Emmerson said that having established a reputation for silence during the session of parliament that had just been brought to a close he would be sorry to disappoint any expectations as to the brevity of his remarks which might have been built upon that reputation. And so without further ado the Minister of Railways resumed his seat.

ANAEMIA--POOR BLOOD.

Headaches. Dizziness. Heart Palpitation and Consumption Follows.

Anaemia — watery blood — is a treacherous trouble. It steals insidiously from slight symptoms to dangerous disease. The thin watery

blood shows itself at first in pale lips, wan face, breathlessness, heart palpitation, lost appetite. If the trouble is not checked and cured, consumption follows: coughing, spitting, clammy night sweats, a total breakdown and death. What the anaemic sufferer needs is more blood — more strength. And there is nothing in the whole wide world will give new blood and new strength so surely and so speedily as Dr. Williams' Pink Pills. Every dose helps to send new, rich, red blood coursing through the system, bringing strength to weak lungs and all parts of the body. Thousands testify to the truth of these statements, among them Miss Emerine Vilandre, St. Germain, Que., who says:—"While attending school my health began to give way. The trouble came on gradually and the doctor who attended me said it was due to overstudy and that a rest would put me right. But instead of getting better I grew weaker. I suffered from headaches and dizziness, and at night I did not sleep well. I was troubled with pains in the back, my appetite left me and I grew pale as a corpse. Finally I became so weak I was forced to remain in bed. As the doctor did not help me any, I asked my father to get me Dr. Williams' Pink Pills. Before I had used two boxes there was an improvement, and when I had taken a half dozen boxes I was again in perfect health. I believe all weak girls will find new health if they will take the pills."

Anaemia, indigestion, heart trouble, rheumatism, kidney trouble, and the special ailments of women are all due to poor blood, and are all cured by Dr. Williams' Pink Pills. You can get these pills from any medicine dealer, or by mail post paid at 50 cents a box or six boxes for \$2.50 by writing the Dr. Williams' Medicine Co., Brockville, Ont.

Meductic.

(Special Correspondence to the Herald)

Aug. 10.—Mr. and Mrs. Allan Dow spent Sunday at Riverside Camp meeting.

Miss Eva French is visiting friends in Fredericton.

Mrs. Jewett and her daughter, Lulu of Providence, R. I., spent the past week with Miss Reta Marston.

Norman Dow is very ill with typhoid fever.

Mrs. R. J. Berry, of Malden Mass., has been visiting her sister, Mrs. Edwards the past week.

Two little strangers have arrived at the homes of George Gibson and Wellington Rogers—both are boys.

Miss Helen Marsten is spending a few days in Houlton with her cousin, Violet Porter.

Mr. and Mrs. Fred Hodgins, of Boston, are visiting her father, Mr. Edwards.

Mr. T. C. Hendry, has returned from his vacation.

A very painful accident occurred to Miss Mary Dickinson, as a result of which she is suffering from a broken hip. Miss Dickinson is eighty-four years of age. She was visiting Will E. Dickinson at the time the accident occurred.

D. W. Olts and Mrs. Olts of Benton spent Sunday with Mr. Olts brother G. P. Olts.

Woman is often referred to by man as "doubling his joys and halving his sorrows." That may be complimentary but it would seem to be rather hard on the woman. For in plain terms it means that where things are going well with the man his wife makes them go better. But when things are going ill with him, he expects the wife to share his burden. And there's more truth than poetry in this presentation of masculine selfishness. Men don't appreciate the fact that the strain of motherhood alone is a burden bigger than all the loads that rest upon male shoulders. They see the wife grow thin, pale, nervous and worn without a thought that she is over-burdened. Among the pleasant letters received by Dr. Pierce are those from husbands who have waked up before it was too late to the crushing burdens laid upon the wife, and in the search for help have found in Dr. Pierce's Favorite Prescription a restorative which has given back to the mother the health of the maiden and the maiden's happiness. "Favorite Prescription" always helps, and almost always cures. It has perfectly cured ninety-eight out of every hundred women who have used it when afflicted with diseases peculiar to women.

Going to Oxford.

Wm. G. Pugsley, A. B., expects to go to Oxford in September to begin the study of law. Mr. Pugsley, during his recent course at the U. N. B., from which he was graduated with honors in June last, has had an excellent preliminary training for this line of work, having taken very high standing in his class. A year or two will be spent in England in company with Chester Martin, the Rhodes scholar, and without doubt these two young men will give an account of themselves both at Oxford and in their after life such as their city and alma mater may well be proud of.—Sun.

MINTO'S REPLY

To the Joint Farewell Address of Parliament.

LEAVES CANADA WITH REGRET.

His Striking Tribute to Canada

Speaking in reply to the farewell address of the Dominion Parliament, Lord Minto said:

Hon. gentlemen of the Senate, gentlemen of the House of Commons, I am deeply sensible of the honor the parliament of the Dominion has today conferred upon me. I assure you I shall always treasure the speeches in which the leaders of both Houses have alluded to my services, and I thank you from my heart for the appreciative words of your address now that I am leaving Canada at the close of a term of office which I believe has somewhat exceeded the usual period of administration of my distinguished predecessors.

I can look back upon a past full, indeed of stirring incidents in the history of the Dominion, but marked with an ever-increasing prosperity. I look back upon it with pleasure, full of admiration for those magnificent resources which the world is beginning to recognize and the development of which my sojourn amongst you has given me the privilege of witnessing; and, though I am now bidding farewell to you in my official connection, I know that you will believe that I shall always continue to share in the hopes and aspirations of this great country.

In delivering up to the King the charge Queen Victoria committed to me, I look forward not only to assuring His Majesty of the loyal devotion of the people of Canada, but to testifying to the growing strength they are every day contributing to his Majesty's vast empire. Gentlemen, Lady Minto is much touched by your kindly expressions toward her. Her work in Canada has been very welcome to her. She hopes that in the discharge of her social duties she has made many firm friends, and she will always remember the encouraging assistance she has received in the furtherance of those organizations which she has had so much at heart, and the future success of which she will always hear of with affectionate interest.

In bidding you farewell, gentlemen, and in thanking you again for the kind words of your address, Lady Minto and I cannot but feel that we are not only severing official ties, but that our residence in Canada has brought us into very close touch with the daily life of the people of the Dominion.

We shall carry away with us the warmest recollections of a happy home amongst them, and we assure them, through you, of our constant interest in their future happiness and prosperity.

When the Governor finished speaking Senator Edwards jumped upon a chair and called for three cheers and a tiger for their Excellencies, which were given with a will.

G. P. R. ENTERPRISE.

Selling Forth the Charms of Canoeing on the St. John.

The Canadian Pacific Railway has issued in very attractive form an illustrated booklet on "Canoeing on the Upper St. John," telling how an ideal canoe trip can be made at trifling cost from Grand Falls to Fredericton.

The descriptive article was written by Frank B. Ellis, of the Globe, who has made the trip himself, and is an enthusiastic canoeist. The story of the river is well told, and with handsome views of Grand Falls, Tobique Narrows, Lunt's Ferry, Indians building a canoe, and pretty canoeing scenes on the river is certain to attract the attention of persons who want a pleasant outing. Information is given as to canoes, supplies, camping outfits and guides. The latter may be engaged through C. B. Foster, district passenger agent of the C. P. R., at St. John, or R. P. Allen, secretary of the New Brunswick Guides' Association, Fredericton.

This trip is particularly attractive for parties of ladies and amateur

canoeists, who do not care to venture back into the woods, and unsettled districts.

The guides who are engaged in this business are thoroughly capable men, members of the New Brunswick Sportsmen's Guides' Association, and are well equipped with canoes, tents, cooking utensils, and camping outfits generally.

District Passenger Agent Foster has forwarded copies of the booklet to all the C. P. R. agents east of Winnipeg, and is arranging to have them distributed at the principal summer resorts reached by the railway.

FELL INTO A THRESHER.

George Stafford's Terrible Death.

Aurora, Ont., Aug. 10.—George Stafford, a farm hand employed by F. C. Welton, was killed at 5 o'clock this afternoon at a threshing on the farm of Levi T. Walton, near the village of Kettleby. He was climbing into a mow to pitch and was pulling himself up by a brace of the barn framework near the top of the barn, when the brace gave way and he fell head first into the cylinder of the threshing machine which was running at full speed. He was instantly killed, the cylinder lacerating his head and shoulders. Deceased was a respectable young man and had no relatives in this country. He had been out from Ireland a few years, and had always worked with farmers in this district.

Firewater Killed Squaw.

Moncton, Aug. 12.—Joseph Ginnish an Indian, camped near Rogersville, with his wife and family procured three bottles of alcohol from the effects of drinking which his wife died before medical aid could be summoned. It is said the man's death is only a matter of time. It was a very sad sight. The Indian woman died outside the little hut they occupied, while her husband lay stupefied. There was also a boy six months old, and three other small children. The woman died Wednesday morning and lay outside until Thursday, when they buried her. It is said to be known from whom the liquor was obtained and the case calls for an investigation.

CORBETT AT HALIFAX.

Noted Pugilist Boxed In a Good Cause.

Halifax, N. S., Aug. 13.—One thousand people paid \$1 apiece, and two thousand more paid 50 cents apiece, to see James J. Corbett spar two exhibition bouts in this city last night. He was loudly cheered when he entered the ring, and in response to calls for a speech told how much he was enjoying his visit to Halifax, and how glad he was to see so great a crowd gathered on behalf of a benefit fund for a citizen who needed the help.

His first bout was with William White, a member of the Halifax police force, who formerly was in the Royal Artillery, and has a good reputation as a boxer. White is credited with being the most scientific exponent of the manly art in Halifax. Corbett easily showed himself superior to White, winning great applause for his agility and remarkable ducking abilities, at the same time landing many good blows. But White also was able to land several good ones.

His second bout was two rounds with Professor Mullins, a teacher of boxing in this city, who was announced as from Boston. Mullins is a great deal lighter than Corbett and seemed to be no match for him. No decisions were given in either bout. The proceeds are to be given to W. J. Sullivan, who lost his eyes by an accident in the Halifax dock-yard.

G. T. P. COMMISSIONERS.

Names Prominently Mentioned for Appointment.

Ottawa, Aug. 12.—Within the next few days the members of the commission to supervise the construction of the Winnipeg-Moncton end of the new transcontinental railway will be appointed.

The commission will consist, so far as can be learned, of the following:—F. B. Wade, M. P., chairman; James Duffield, London, Ont.; C. A. Young, Winnipeg; Mr. Brunet, Montreal, formerly manager of LaBanque Nationale.

For the position of chief engineer the name of Mr. Lumsden, of Toronto, is favorably mentioned.

"PE-RU-NA SAVED MY LIFE,"

Writes Mrs. W. McRoberts.

MRS. L. M. GRIFFITH, Arco, Idaho, writes: "I am thirty years old and never had any children; but since beginning your medicine I gave birth to a 10-pound baby girl. I am stronger than I have been since I was quite young. God bless you and your medicine forever."

MRS. L. M. GRIFFITH.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

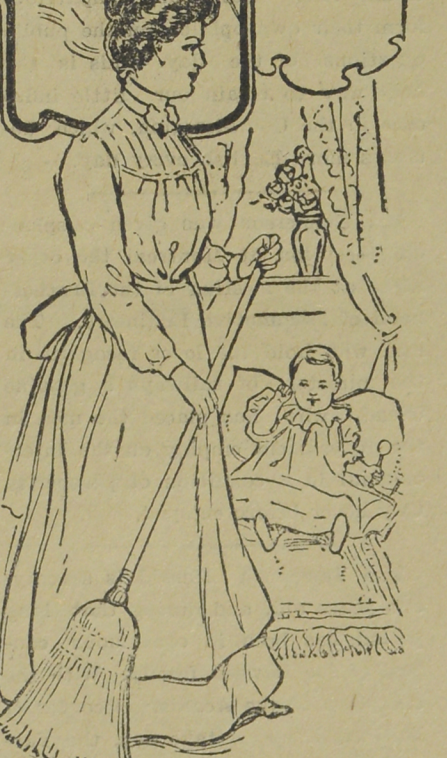

"I Do All My Housework and Take Care of My Baby and I Feel So Good."

A YOUNG MOTHER'S LETTER.
Mrs. W. McRoberts, writes to Dr. Hartman from Delano, Miss., the following:

Delano, Miss.
Dr. S. B. Hartman, Columbus, Ohio:
Dear Sir:—"I feel perfectly well of catarrh. I did as you directed me to and took Peruna and Manalin. The third of March I gave birth to a ten pound baby girl and we are both well and happy. I am very thankful to you and Peruna saved my life. I recommend it to everyone and can't praise it enough.

"I send you my own and my baby's picture. She is so sweet and good,—she is a Peruna baby. I have such good health now. I do all my housework and take care of my baby and feel so good.

"There are three or four of my neighbors using Peruna now since it did me so much good. They were just run down, and they think it is fine, it is so good to give strength."—Mrs. W. McRoberts.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.
