FREDERICTON, N. B., FRIDAY, AUGUST 4, 1905

NO. 178

St. Mary's Departmental Store.

S. Herbert Logan, Manager, - St. Mary's, N. B.

This store has met with popular favor since opening a few months ago. We are endeavoring to keep up to our original intention of having a store which would fill a long felt need in St. Mary's—a store keeping a large and well varied stock at purse saving prices. If you have any suggestions to offer which you think would give our customers a better service, we are always glad to hear from you.

St. Mary's Departmental Store.
ST. MARY'S, N. B.

SIR WILFRID LAURIER.

Will be Invited to Open the Fredericton Exhibition.

EXECUTIVE HOPEFUL THAT THE PREMIER WILL ACCEPT.

A Lot of Business Transacted at a Meeting This Morning.

A meeting of the exhibition executive was held at the office of the Secretary Mr. W. S. Hooper at ten o'clock this morning. President Campbell in the chair. Among the gentlemen present were Messrs. F. P. Robinson, C. H. Thomas, J. D. Hanlon, M. Tennant, C. H. Giles, Geo. Y. Dibblee, W. E. Farrell, F. W. Hatheway, F. L. Cooper and the secretary.

The secretary laid before the committee a list of the judges of live stock which were recommended by the Dominion Department of Agriculture. The report was accepted. The names of the judges were the same as published in the Herald some days ago.

The appointment of other judges in the agriculture and fruit classes was left in the hands of a committee composed of Messrs. Giles, Dibblee and Hatheway, with the secretary. It was unanimously resolved to extend a formal invitation to Right Hon. Sir Wilfrid Laurier, Premier of Canada, to open the big exhibition on Sept. twenty-first, and it is expected that he will accept the same.

To Division No. one, Horses, of the Prize List, a new class is added to be known as class 7a, Roadster horses, in which there will be two sections. Mare or gelding first prize ten dollars, second prize, six dollars, and third prize four dollars. A section for matched teams of mares or geldings with the same prizes. These two new sections will cancel section four of class seven, referring to matched teams under one thousand pounds.

The secretary was authorized to employ a stenographer who will also be expected to take charge of the information bureau during exhibition week.

The matter of getting the information bureau into working order regarding the placing of visitors to the city and like matters was left in the hands of the secretary.

The appointment of police for buildings and grounds will be made by the building and grounds committee and the secretary of departments were authorized to employ their own assistants.

The printing and advertising were authorized to take charge of the printing and issuing of all the tickets and also employing ticket sellers and gate-keepers.

The tenders for refreshments dining-room will close on August fourteenth.

The chairman of the different committees made reports which were very encouraging. Many matters of detail were gone into and several small bills were ordered paid.

The meeting adjourned until Wednesday, August sixteenth.

Secretary Hooper leaves on Monday next for an advertising trip to the North Shore.

During his trip down the Annapolis Valley last week, Mr. Hooper met with a very hearty reception from leading business men and agriculturists, everything points to a most successful week for the big show.

Secretary Hooper wishes to state that he will supply envelopes free to any person wishing them, so that not a letter will pass through the Fredericton post office that is not enclosed in an exhibition envelope.

Many of the leading business and professional men are now using these envelopes thus advertising the big show of September twenty-first to twenty-seventh.

ALEX. T. WILSON DROWNED.

Popular Fredericton Engineer Meets a Tragic Death.

LOST HIS LIFE AT LONG LAKE, P. Q., YESTERDAY AFTERNOON.

At Last Accounts the Body Had Not Been Recovered.

SAD AFFAIR HAS CAST A GLOOM OVER THE COMMUNITY.

Mr. Alexander T. Wilson, C. E., only son of Judge Wilson, of this city, was drowned in Long Lake, province of Quebec, yesterday.

The sad news was contained in a telegram received by Mr. George E. Howie from Mr. A. F. McCallum, the engineer in charge of the G. T. P. surveying party, working between the New Brunswick border and Quebec. Mr. Howie at once called at the residence of Judge Wilson and broke the news to himself and family. It is needless to say they are completely broken down with grief over the tragic event.

No particulars of the accident were given other than the statement that the drowning occurred in Long Lake, P. Q., (which is near the New Brunswick border,) and that men were grappling for the body.

Mr. Howie will leave tomorrow morning for Clair Station, and the body, when recovered will be brought by him to this city.

The accident occurred about twenty-five miles from a railway station and possibly the body may not be brought out of the woods before Sunday.

The victim of the accident as already stated, was the only son of Judge Wilson, and was a native of this city. He was educated at the Fredericton schools and the University of New Brunswick, graduating

from the latter institution with the degree of B. A. in 1903. Soon afterwards he accepted a position on the I. C. R. and remained in the employ of that road until December last, dividing his time between Moncton and Halifax.

At the commencement of the Christmas holidays he received an appointment on the G. T. P. survey, and commenced work early in the new year as trainman with Mr. McCallum's party, in the province of Quebec. He continued in that capacity up to the time of his death.

The deceased was a young man of splendid ability, and exceptionally high character, and gave promise of achieving distinction in his chosen profession. The old saying that death "loves a shining mark" is truly exemplified in his case.

Mr. Wilson was in his twenty-third year and unmarried. Besides his father he leaves two sisters, the Misses Florence and Jean Wilson of this city, to mourn his sad and untimely death. The heartfelt sympathy of the community will be extended to the members of the family in the awful bereavement which has come so suddenly upon them.

The unfortunate young man had a great many warm friends in this city to whom the news of his tragic death will be a painful shock.

A WORLD BEATER.

New Motor Boat Shows Speed of Thirty-five Miles Per Hour.

Bridgeport, Aug. 4.—(Special.)—The trial trip just made by the motor boat was a world beater. He in F. Herreshoff, at the plant of the American and British Manufacturing Company here, is said to have demonstrated that the craft is the fastest ever built.

Although Mr. Herreshoff declined to give the figures at present, he said the boat was a world beater. He intimated that she made much better time than 35 miles an hour. "Let it go at that," he said, "for it would be impolitic for me at this time to give any information. I have wired my officials in New Jersey and will give the figures later."

The boat is said to have engines of 75 horse power, is about 32 feet long and less than five feet beam. Very much secrecy has been maintained in her construction.

VICTORIOUS JAPS.

Russian Cavalry Column Routed and Compelled to Surrender.

Tokio, Aug. 4.—(Special.)—A report, giving details of the final pursuit and surrender of the majority of the Russian garrison at Shakhalin Island has been received as follows:

"An independent cavalry column on the afternoon of July 28th attacked the enemy south of Paleo, and routed them, driving them southward, and capturing two field guns, besides a number of rifles and a quantity of ammunition."

"On July 29th, the cavalry being re-inforced, vigorously pursued the enemy south of Taylan, which lies 25 miles south of Rykoff. The enemy halted 25 miles south of Taylan at 5 o'clock on the morning of July 30th, and sent a letter under flag of truce to the Japanese commanding officer, General Liapoff, saying that bandage material and medicines were exhausted and in consequence of their inability to succor the wounded compelled them from a sense of humanity to terminate hostilities."

A London cable says that Lord Roberts is not coming to Canada this year on account of ill health.

NARROW ESCAPE.

Diabolic Attempt to Blow up a Ship in Mid Ocean.

San Francisco, Aug. 4.—An attempt to blow up a ship in mid-ocean was reported to Captain Torse, of the French ship Asutra, which arrived here from Swansea, Eng., today, loaded with coal. He left that port on January last, six weeks later, when far out at sea, discovered several fuses, such as are used by miners to explode charges of dynamite. These were discovered in the hold of the ship. Had one of these fuses become ignited by a shock in the part of the hold where coal gas had accumulated, the ship would undoubtedly have been blown to atoms. Two or three of them had exploded, but fortunately at points where there was no gas, consequently no damage was done. The presence of the fuses among the coal was discovered by accident.

THE GROWING WEST.

Homestead Entries for July Show Big Increase.

Ottawa, August 4.—(Special.)—The homestead entries for July show an increase of 701 over July 1904, the entries for the past month being 3729 against 3019 for July last year.

The largest increase was at Regina, where the number rose from 743 to 1010.

Battleford came next with 622 against 277 for July 1904.

MONTREAL STOCK MARKET.

Montreal, Aug. 4.—(Special.)—Business on the stock exchange this morning was rather quiet. There was a notable advance in twin city, but other lines were quiet. Quotations were as follows.

Dominion Coal, 78½, 77. Dominion Iron & Steel, 22½, 22½. Dominion Iron & Steel preferred, 71, 72, 72. Nova Scotia Steel, 57, 57, 59½. C. P. R., 155½, 155½, 156. Twin City, 115½, 117½, 118½. Montreal Power, 90½. Rich & Ont., Navigation, 74½, 74½, 74½.

WAR SITUATION.

London Press Comments on Approaching Peace Conference.

New York, Aug. 4.—(Special.)—A London despatch to The Times says: "Many newspapers point out that the Japanese attitude toward the war has been studious self contained and moderate, that Japan carefully refrained from all vaunting conduct calculated to bring increased humiliation to her opponent."

"Now she approaches the conference quickly and courteously, without boasting. Nevertheless, it is declared that Japan's unbroken succession of victories constitutes a fact which cannot be blanked, and justly confers on her the right to speak in the tone of a conqueror to impose the terms of peace."

"Whereas, on the contrary, Russia behaves as if she were the mistress of the situation, and entitled to dictate the terms, having only consented to open negotiations as an act of benevolence towards Japan."

Apparently Russia counts upon three things, the chances of Linevitch's success, the intervention on her part of the powers and Japan's exhaustion.

Concerning Linevitch's prospects Japan says nothing. Concerning the intervention she says that if a world wide conflagration is caused, the responsibility will rest with Russia. Concerning Japan's exhausted condition she says she will speedily prove her ability to continue the war with greater vigor than ever. She now comprehends that a fresh series of object lessons is necessary in order to educate Russia to a truer appreciation of the situation. It is significant that these utterances are unequivocal, endorsed by journals which habitually avoid an aggressive tone. All the leading papers assert that there is little hope of immediate peace while military preparations are so conspicuously vigorous.

HARVEY STATION.

Aug. 4.—Haying is progressing slowly, the work is much retarded by the showery weather which has prevailed during the past few days. The grain crop is good on most farms and will be ready for harvesting in a short time.

The remains of Wilbert Moffatt of McAdam, who died there on Tuesday, were brought here for burial yesterday. The funeral was largely attended, about twenty Orangemen from the lodge at McAdam where deceased was a member attended the funeral in regalia. Many of the members of Harvey Lodge were also in attendance. Deceased was a son of Mr. George Moffatt of this place.

A. H. Barker, B. A., of Fredericton, is spending a few days here, he is a guest at the residence of Mrs. D. E. Smith, he will conduct service here on Sunday in the absence of Rev. Mr. McLean, who is to preach in St. Paul's church, Fredericton.

Mrs. Harold Gibbons of New York, accompanied by her sister, Miss Maude Hunter of Boston, are visit-

ing relatives and friends here. The trustees in school district No. two, are having much difficulty in getting men to work at the school house which is being repaired, but expect to have it ready for opening the school on the fourteenth.

Mrs. George Speedy who was severely hurt in a runaway accident at Tweedside a short time ago, is making good progress toward recovering. She is being attended by Dr. B. H. Dougan.

LACROSS CHAMPIONSHIP.

St. John, N. B., Aug. 4.—(Special.)—Truro won the final game in the lacrosse championship series today by defeating the Nationals by a score of three to one.

Ald. McFarlane has resigned his position in the Moncton city council to accept the position of tax collector at a salary of \$700 per annum.
