A CALL FROM THE WEST.

The Herald learns that Mr. H. G. Perry, the efficient principal of the Charlotte street school has had a flattering offer to take the principalship of the public schools at Kamloops, B. C., and is considering the matter. Mr. Perry's services in Fredericton are very highly appreciated by parents and others who know of the splendid condition of the schools under his charge, and if he should feel called upon to resign his present position there would be a feeling of general regret.

The West is offering good inducements to eastern teachers, and many from New Brunswick have availed themselves of the opportunities offered in that part of Canada. The superintendent of education for British Columbia, Mr. David Wilson, is a New Brunswicker and a graduate of the U. N. B.

The Herald does not know what Mr. Perry's intentions may be with respect to the offer he has received from Kamloops, but it is hoped that he may see his way clear to remain in Fredericton, for the present at least, but teachers, like clergymen and other mortals are subject to the temptation of larger salaries, and we cannot hope to retain efficient men and women in the profession in New Brunswick unless the remuneration is increased.

A WISE CONCLUSION.

There is plenty of water in Yoho Lake of good quality too, but it's too far and too expensive to bring it to Fredericton. Such is the conclusion of Engineer Barbour and Fredericton taxpayers are not disposed to quarrel with him. Surely nobody seriously contemplated laying pipes sixteen miles to obtain a water supply for this city, when the St. John river is at our very doors with a water system from it already supplying the citizens. The water may need purifying, but that would be a small matter compared with developing an entirely new system at an enormous expense.

In the meantime a nice little bill is being run up with these explorations, which most people think will come to nothing. It will, however, be open to next year's council to start off on a new track.

So it seems the result of the peace conference pleases neither Russia nor Japan. The former claims that Witte conceded too much, while the Japs are disappointed that their costs in the war will not come out of Russia. The world at large, however, rejoices that the war is over and will not very closely look into the peace terms.

Sir Wilfrid Laurier and Prince Louis of Battenberg, not being available to open the Fredericton exhibition, some other celebrity will have to be approached.

The Toronto exhibition has opened in a blaze of glory with Prince Louis of Battenberg, three hundred of his sailors, and the Irish Guards band as the star attractions.

Hope Young sentenced to death at Dighy, is the first woman to receive the death penalty in Nova Scotia.

Even the College professors in Russia are on strike.

The vice-regal and government party en route to attend the Alberta inauguration ceremonies at Alberta on Friday passed through Winnipeg Tuesday night on the C. P. R. Imperial Limited. His Excellency Earl Grey was welcomed by Sir Daniel McMillan, lieutenant governor, and several members of parliament, and prominent politicians called on Sir Wilfrid Laurier in his car during the stay at Winnipeg. Lady Grey remains there a few days, the guest of Sir Daniel and Lady McMillan at Government House.

It is not likely that the Dominion government will be able to take over the Halifax fortifications on Sept. 15, as the Royal Garrison has not moved out, and until they do the Canadians cannot get possession. Some thirty men left Toronto Wednesday to augment the Canadian forces at Halifax.

A report was received Wednesday from Crown Attorney Wood of Peterboro, Ont., on the Hill shooting case at Norwood by the attorney general's department. The attorney general at once issued an order for the prosecution of Charles Gowe, who admitted the shooting, but who was acquitted by the coroner's jury.

A detachment of marines and sailors from the German cruiser Buzzard surprised about one thousand insurgent natives, half of whom were armed with rifles, near Kowoni, German East Africa, Aug. 25. The Germans killed seventy-three of the insurgents and drove many others into the River Riffi, where they were drowned. No German casualties have been reported.

Bishop O'Connell, of Portland, Maine, has, it is said, been assigned to the important mission of visiting the Emperor of Japan, to extend the papal congratulations because of the settlement of the war between Russia and Japan, and thank the emperor for interest he has shown in the welfare of the Catholics of his realm and express the hope of the Holy Father that the same kindly concern will continue.

When questioned regarding surveys which the C. P. R. is making in Maine and New Brunswick, general manager McNicoll denied they were for the purpose of building a line between Mattawamkeag and Debec junction. Mr. McNicoll said that the rumor was utterly groundless, and that the C. P. R. had no intention of breaking away from the Maine Central, whose line they use from Mattawamkeag to Vanceboro. The Canadian Pacific, however, has some surveying parties out in that part of the country, but the sole end of their work is the improvement of the road, and there is no thought of building such a branch as reported.

David Lindsay, a well known and highly respected resident of South Tilley, Victoria, Co., N. B., accidentally shot himself last week and died shortly afterwards. The deceased had lived alone on his farm for the past 30 years. His will was found complete, but without witnesses to his signature. He left half of his estate to be divided between two nephews in Oregon, and the other half to a nephew in Scotland.

A tornado struck the northern part of Carleton Place, Pa., Wednesday night, and demolished a score of houses, barns and railway cars, but fortunately caused no fatalities. The storm came from the west and had a path of two hundred feet. Its centre had the appearance of a funnel-shaped cloud, not black but luminous. There was no accompaniment of lightning, thunder or rain, and the stars were shining immediately before and after it passed.
