FOR RECIPROCITY.

Congressman Perkins Asserts That
New York State is Overwhelm-
ingly in Favor of It.

Washington, D. C., Sept. 21.—Representative James Brock Perkins of the Rochester (N. Y.) district who spent yesterday in Washington, is a tariff revisionist to the extent of securing reciprocity with Canada.

Mr. Perkins, however, sees no rosy prospects of tariff revision by the coming Congress, in this regard in his view agrees with that of Representative Tawney of Minnesota, another revisionist, now in town. Mr. Tawney thinks the sentiment of the country is less aggressive for revision than three years ago, because of the continued prosperity. Mr. Perkins reasons along similar lines.

"Were a vote on reciprocity with Canada to be taken in my district, which comprises Monroe county," said Mr. Perkins, "I believe nine out of every 10 votes would be in favor of it. We have many large business and manufacturing plants in Rochester. They want more trade with Canada."

"But our city, like many others, is prospering, and the sentiment for reciprocity is not so aggressive as it

might be. I personally believe the tariff should be revised in some of its schedules. Up our way we should like free lumber and coal, but I suppose, under present conditions, it is practically impossible to get the duty abolished."

"The regulation of transportation rates is a favorite topic with the President. I presume we may expect something on that this winter. Personally, I do not place great faith in the efficacy of laws to correct many of the things complained of."

Mr. Perkins came here to intercede at the treasury department for patent medicine firms of his city affected by the decision requiring a government liquor license for drug stores that sell these medicines. Mr. Perkins was informed the decision would not be modified.

The statements of Republican members who have already come here indicate clearly that there is small hope of any tariff revision at the coming session of Congress, and that the agitation therefore will be less militant than heretofore. The problem of revision is different than any a Republican majority has ever undertaken. Every tariff law the Republican party has enacted was either a law to take the place of a Democratic law, for revenue only, or a tariff law for the reduction of the surplus. As the Republicans have never yet enacted a revision tariff law there are members of the ways and means committee loath to undertake the task.

DEMOCRATS, TOO.

Sought Campaign Funds from the
New York Life.

New York, Sept. 21.—Political contributions of the New York Life Insurance Co., and the connection of Andrew A. Hamilton of Albany with the alleged political activity of the company were the points around which the hearing before the legislative insurance investigating committee turned yesterday.

President John A. McCall of the New York Life Insurance Co., was the chief witness, and for several hours he was subjected to a fire of questions by Charles E. Hughes, counsel for the committee, concerning the money paid for political purposes.

The climax was reached when Mr. McCall declared that the soliciting of funds for campaign purposes was not confined to the republican party in the campaign of 1904, and announced:

"My life was made weary by the democratic candidates chasing me for money in that campaign. Some of the very men who today are being interviewed in the papers and denouncing men who contribute to campaigns are in fact, my political friends. I took looking for money. One—the candidate himself, Parker—if he would show up his books when he was chairman of the democratic state committee it would give you a fit. He never rejected a dollar in the world. He would take every dollar that was paid to him."

Judge Parker was chairman of the democratic state executive committee in 1885.

With great care the accounts of Andrew A. Hamilton with the company were analyzed by Mr. Hughes, who asked Mr. McCall about every item and made it clear that a search was being made for political contributions.

Mr. McCall stoutly maintained that he had given Mr. Hamilton no money to be used in influencing legislation at Albany, but the admission was obtained from Mr. McCall that Hamilton's expenses at Albany were paid from the company's funds and that his accounts were not submitted to audit.

It was shown that \$135,000 has been paid to Hamilton, with only a verbal accounting to President McCall, and that Hamilton now owes the company about \$60,000, but Mr. McCall said he felt sure that Hamilton, who is now in Europe, will repay this sum upon the company's demand.

Mr. Parker denies Mr. McCall's allegations.

TEACHER ASSAULTED.

Had Punished Child and Incurred
Father's Anger.

Sackville, N. B., Sept. 21.—A very regrettable incident occurred here at one o'clock yesterday afternoon. A. D. Jones, principal of the Sackville High School, was walking on Main street and when near Blair Taylor's carriage factory, was accosted by Leonard Baisley, who had a grievance.

One of his children, it seems, was punished by Jones yesterday morning. As it was near school time, Jones told Baisley that he had time to discuss the matter then, but for Baisley to come to the high school after school and they would talk it over. Jones then walked towards the high school, being followed by Baisley.

When opposite Blair Taylor's house, a few rods from the school, Baisley struck Jones on the face and head several times, knocking out two teeth, drawing blood and causing painful injuries.

In a somewhat dazed condition Jones made his way to the school house and dismissed the pupils in his department. He proceeded to the office of Walter Cahill, police magistrate, where he laid information against Baisley for assault. The case comes up Saturday morning.

The incident is the talk of the town, and various reports are going. Some say that Baisley, who was formerly a sailor, was drinking at the time of the assault.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio.

ANNIVERSARY NUMBER.

The October Canadian Magazine will be an Anniversary Number to mark the completion of the twenty-fifth volume of that publication. The occasion is unique in the history of Canadian journalism, as no other general monthly periodical, with the exception of one French-Canadian literary magazine, has succeeded in maintaining itself for so long a period of time. The Canadian Magazine has been most creditably conducted since its foundation in March, 1880.
