

## UNIVERSITY GRADUATES.

## An Estimate of the Young Men and Women Who Took Their Degrees at Last Enceoina.

(From the University Monthly.)

The following is a list of the '05 graduates with a short description of each member. In bidding them farewell in this manner we wish them all a prosperous journey through life and hope they will continue their zeal to the Alma Mater, of which they are such creditable members.

## MISS VIOLET GOLDSMITH.

Miss Goldsmith was a graduate of Prince of Wales College, P. E. I. She entered the University in her Junior year. She was a diligent and painstaking student, graduating in first division and was a delight to the Professors on account of her punctuality. She was a pillar of the Y. W. C. A. and a leading light in the Delta Rho, from both of which Societies she will be greatly missed. Miss Goldsmith has gone to the wild and woolly west where she has undertaken the arduous task of imparting her knowledge to the youth of Stockholm, Sask. No doubt her influence for good will be felt even more there than it was in her short stay at the U. N. B.

## MISS M. M. WINSLOW.

Miss Winslow was the classical genius of '05 and graduated with first-class honors in her favorite subjects and also won the Montgomery Campbell prize. Miss Winslow took much interest in the Y. W. C. A., of which she was a valued member and her melodious voice heard above all others in the Delta Rho will no doubt be much missed. Miss Winslow was a great addition to the Basketball team, but unfortunately she had to give it up in her last term. We believe Miss Winslow met her fate at a Y. M. C. A. reception and from the numerous epistles passing between Acadia and U. N. B. that memorable occasion has not been forgotten. Miss Winslow deserves great credit and we are sure she is now meeting with deserved success in her school near Halifax.

## MISS ALICE STERLING.

Miss Sterling was President of the Ladies' Society in her Senior Year. She took the Brydson-Jack Scholarship for physics and was graduated with first-class honors in Physics and Mathematics. She was a member of the Delta Rho and has waxed eloquent on certain occasions. She also took keen interest in the Basketball team, being one of the more enthusiastic players and in the gym. one often heard the familiar cry, "Us don't care, do we Marty?" It is not every girl who has a Chinese laundry in residence named after her, but the sign "Star-Ling" over one of the doors was a proof of her popularity. The Ladies' Society will miss Miss Sterling greatly not only on account of the efficient and business-like way in which she conducted the meetings but also for her suggestions and untiring energy in bringing the various receptions to a successful issue.

## MISS HENRIETTA RUEL.

Miss Ruel was one of the foremost members of her class. She was a good debater and her decisive words were able to make any opposing Freshman subside. She was an enthusiastic Basketball player and was on the Senior Team. She always took a lively interest in the "Con" and especially in the evening. One of her faults was the constant use of the telephone and the reports of one conversation are too "hot" to mention. Surreptitious tete-a-tetes were often held with a fair haired Junior and those held in the library must not be overlooked. Miss Ruel had so many admirers we cannot pass "Judge"ment on them here. She graduated "In Absentia" with distinction in English and since then has taken a course at the Business College in St. John and is now taking special lectures at the Normal School.

## MISS MARTHA OSBORNE.

Miss Osborne was one of the most energetic members of her class. She won the Douglas Gold Medal in her Junior year and graduated with distinction in French and English. She was an enthusiastic Basketball player and was captain of this team. Miss Osborne was one of the best workers for the "Con" and will be much missed this year. As an actress she performed her role to the satisfaction of all and was the leading lady in the U. N. B. Theatrical Club. Although she was a Senior she did not despise a Freshman's assistance in French—at least they were often seen together, so we presume that was the subject of their conversation. Miss Osborne's charming countenance is conspicuous by its absence in the '05 class picture. The reason for her having withheld her picture is not in keeping with the high ideals which should have been inculcated during her four years at the U. N. B. Miss Osborne is now teaching at Rolling Dam but to the delight of a young St. Mary's youth who owns a fiery mustang, she will be back shortly to complete a course at the P. N. S.

## MISS ALBERTA ROACH.

Miss Roach entered college in her Sophomore Year. She was Vice-President of the Ladies' Society when a Junior. Occasionally she was seen at the debating Society and once she honored the Y. W. C. A., with her presence. She was a good student and graduated with honors in English and Philosophy and distinction in French, capturing the Governor General's Medal. Miss Roach was quiet and reserved but a great favorite with all the girls—the boys sometimes wondering whether she really didn't like them or was

only pretending. We know she was only pretending as we frequently heard her express her admiration for one of the giant-like Juniors. Miss Roach is continuing her studies at her home in St. John.

## MISS ANNA GROSVENOR PURDIE

Miss Purdie was a mere child when she entered this institute of learning, but as the years rolled by she advanced in beauty and wisdom, until in her Senior year she eclipsed her fair classmates in such a marked manner as to gain the admiration of a beauty loving Adonis from "far off Quebec." However, Anna was of a very coquettish disposition and led this young man a merry dance. He is said to have challenged one rival to a duel but they concluded to trust their luck to Fate and accordingly played cards to see who should bask in the charms of the fair Grosvenor. We did not learn of the outcome of this method of arbitration but from the despondent mien of "The Challenger" we think he must have lost. Anna is at present taking a course in the Provincial Normal School and doubtless creates havoc among the hearts of the gentlemen attending there.

## MISS MARY LENIHAN.

Miss Lenihan was one of the most studious members of the class. She was Secretary-Treasurer of the Ladies' Society in her Sophomore year and in the same year was one of the best players on the Basketball Team. Throughout her course she showed great partiality to certain favored members of the opposite sex. One of her chief admirers graduated in '04 and went to Yale. One would naturally think that Mary would remain constant but what was our surprise when we saw her carried off by a youth coming from St. Joseph's College. Miss Lenihan was ill during the last month of her Senior year, yet despite this fact she graduated very creditably, taking Honors in Philosophy and Economics.

## ARCHIBALD H. BARKER.

Barker came in as a Senior Matriculant and made a good record while at college. In his sophomore year he won the belt given to the man making the most points in the annual sports, and he was Captain of the Football Team and also of the Basketball Team. He was also president of the Y. M. C. A. and will be greatly missed from that organization as he exerted a great influence over the other members. Although living on this side of the river, he spent much of his time in Saint Mary's and was also a habitue of the College Library.

## VICTOR C. BEDELL.

Bedell is now an engineer on the B. & A. railroad and is rapidly making a name for himself. While at college he took a great interest in sport and education so much so that he was a constant visitor at the Normal School openings until one day and day he was requested to appear before Col. March and never again to appear at the before-mentioned institution. This was a great blow to Victor and his chief pleasure henceforward was in walking along country roads, preferably the one leading to Woodstock. He played on his class Basketball Team and was always foremost in a scrag, besides being the only man in college who could eat glass, wire nails etc. He was the only Engineer, too, who ever got fat on the cooking at Engineering Camp.

## ALLAN R. CROOKSHANK.

Crookshank was a good worker and an amateur photographer. He did not go into sport to any great extent but always supported the College Basketball Team, consequently he was a great favorite with the young ladies and will be greatly missed by them. He won the Ketchum Gold Medal and we expect he will do well in his chosen profession.

## EDMUND S. DIBBLEE.

Dibblee was the Beau Brummel of the class of '05, and in all social affairs was the leader. The Glee Club will miss him, as well as the ordinary reading room singers, as he always had the latest songs and could play the piano in a way that could bring tears to the eyes of Padewski. He did not devote himself to sport as his time was chiefly taken up with his studies and also with Society. He is now at McGill in the fourth year Science.

## ERSE R. GOLDING.

Golding was one of the popular men in the class. Quiet and unassuming he made friends with all. In his Senior Year he was one of the Editors of the Monthly and is now at Harvard pursuing the study of law. He was the first President of the U. N. B. Rifle Association and exercised a great moral influence over the under classmen. In his last year he was leader of the opposition at Mock Parliament and did the best that could possibly be done by the leader of such a party.

## ALLAN K. GRIMMER.

Grimmer was a member of the class of '04, but during his Senior year became ill and dropped back to '05. He was a star half back and was also a very fair hockey player. He was always well up in his classes and took a prominent part in all social life while here. He also took great pleasure in explaining to new men the benefits to be gained by going in for the Con. At present he is engaged as chief engineer of the York and Carleton Railway Co.

## JOHN W. HILL.

Hill came in as a Senior Matriculant and while here took a prominent part in College Life. He was the class poet and was one of the Editors of the Monthly. Deacon was popular with the boys and was a great believer in Co-Education. He greatly resembled Rudyard Kipling in feature and modeled his life and writings after that writer of strenuous English. He was Demonstrator in Chemistry in his Senior year. While taking no active part in sports he always helped the boys out, being the most vigorous rooster at all college matches.

## E. BRUCE JONAH.

Jonah entered here in his Sophomore year having taken his Freshman year at Acadia. He was one of the best forwards on the football team. He is now at Dalhousie taking Law, and is also a member on the football team there, which speaks well for his ability as a player. In his Senior Year he was president of the U. F. A. which arduous position he filled to the satisfaction of all. While at College he made many friends and we will all miss Bruce very much.

## GRAHAM L. LUTWICK.

Lutwick was a very earnest student and took a little part in sport, as he was not a firm believer in the strenuous life. He is now in the employ of the I. C. R. at Moncton.

## HARRY W. McLEOD.

McLeod came in as a Sophomore. He was a captain of the second football team in his Senior year. His greatest enjoyment was in arguing and his sage advice will be a great loss to all. He supervised the Engineering Department of the Monthly and was always willing to help in all college functions. He is now with the I. C. R. between Montreal and Halifax.

## JOHN McNAUGHTON.

McNaughton was the leader of the government at Mock Parliament, and also one of the members of the Debating Team, which was so successful last year. He took a and always kept up with his class. He edited the Monthly last year and it is due to his efforts that the last edition was so successful. Popular with all the fellows, Jack will be greatly missed, and we are pleased to know he is doing well in Montreal, where he is on the staff of The Witness.

## JOHN E. PALMER.

John was the secretary of the Sophomore class, when the present Seniors were Freshmen. We have never recovered from the awesome feeling with which John inspired us when he bore down upon the crowd, vested with all the powers of the R. A. F. After we knew him better we liked him and he performed all his duties well, particularly as secretary of the U. F. A. In a quiet way John possessed a very humorous vein and was a firm believer of Co-Education. He is now at McGill studying medicine and our best wishes follow him.

## J. E. JACK PATTERSON.

Patterson was the most popular engineer of the class and was thoroughly up in his work. He had quite an amount of experience as a surveyor and was a great help to underclassmen at the annual engineering camp. He accepted a position last June with the Grand Trunk Pacific and is at present engaged on a survey in British Columbia.

## CLARENCE SANSON.

Sanson was one of the quiet men of the class. He was very generally liked by the boys, to say nothing of those who frequent the upstairs apartment. He is now in charge of the school at Fredericton Junction.

## CLARENCE MCN. STEEVES.

Steeves was one of the clever men of '05. He always ranked well in his work and is now with the I. C. R. During his stay here he resided on George street, but spent most of his time on Regent street, or wandering about the back streets with a member of the opposite sex. He came from Sussex and accordingly was a great authority on all dairy matters. He is the originator of the saying that Fredericton milk is three parts water and one part chalk.

## GUY B. WHITEHEAD.

Monk was the manager of the football team, which was so successful last year. He was the champion bowler in college and was deservedly popular. He usually gave a temperance sermon at each Enceoina or other gatherings, and was always listened to respectfully by his audience. His absence will be felt by all those who knew him well, as Monk was one of the squarest of the class of '05.

## ARTHUR WILBUR.

Wilbur came here from St. Joseph's. He started in as an Arts student, but found his natural bent turned to engineering, and in his second year he adopted that course. He took great interest in all athletic meets, and was a strong backer of the hockey team, which he usually accompanied on trips. He was possessed of great literary abilities and wrote during his last year an interesting sketch entitled, "St. John from a Visitor's Standpoint." Arthur held very strong opinions regarding the temperance question, and rarely missed a chance to guide the erring Freshman. At present he is located in Chatham, where he is holding a responsible position with the city government.

## JAMES C. WILSON.

Jake was the chaplain of the class of '05. Since leaving college he has married and is now settled at St. Mary's, where he attends the wants of his congregation. He is always pleased to have the college boys attend his services. He very seldom took part in sport as he preferred a sedentary life. He was a strong worker in the Y. M. C. A. as well as a regular attendant at Debates.

## WHY SO WEARY?

Always Restless and Weak Isn't Natural— But It's Dangerous.

You have to work hard. This uses up lots of nerve force and tears down the body faster than it can build up.

The result is a half dead feeling that you can't shake off. Somehow you must get more vitality. The water in your blood must be turned into nutriment and building material.

This is just what happens in using Ferrozone, which renews the blood and nerves, and makes each organ do the work that nature expected of it. Ferrozone quickly increases your weight, brings appetite and healthy color, instills a reserve of vigor into the system that defies weariness, exhaustion, debility or sickness of any kind.

The enormous strengthening power of Ferrozone is proved in the case of Mrs. Edward Hill, Otr Lake, Ont., who says:

"Two years ago I had a nervous breakdown. At night I tossed restlessly in bed, unable to get any rest from sleep. In the morning I suffered from over powering weakness. My appetite was poor. I grew pale, thin and despondent. A slight hacking cough also added to my burden. My doctor said to try Ferrozone, and it did me good in a few days. I increased in strength, the nervous sensations disappeared, and with my appetite came back my color and my good spirits. I have gained over 10 pounds in weight, and as my age is over 65, I consider that Ferrozone is a marvel." (Signed.) Mrs. Edward Hill.

REMEMBER THIS: Ferrozone is a true tonic—not an alcoholic stimulant. Fifty chocolate coated tablets in a box for fifty cents, or six boxes for \$2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Geo. W. Buttrick and Wm. Jackson were burned to death Sunday in the city jail at Lake City, Iowa, by fire having been started by Buttrick. The two men with J. E. Hipple and Isaac Allen, were arrested for carousing on the streets. Soon after being lodged in jail, smoke was seen issuing from the cell occupied by Buttrick and Jackson. Marshal Miles arrived in time to rescue Hipple and Allen, but the other two were dead when the officer reached their cell.

## QUICK, EASY HOME 'COLORING.

"D Y-O-L A" makes a pleasure of coloring at home. It is simple to use—does not stain the hands or boiler—and works easily and quickly. "D Y-O-L A" is entirely different from any other dye you have ever used before. The same package of "D Y-O-L A" colors wool, cotton, silk, laces and mixed goods—colors any one or all of these fabrics together. Just try "D Y-O-L A" and see how much brighter and prettier the colors are—and how much more you can color with one 10 cent package. Send two cent stamp to The Johnson-Richardson Co., Limited, Montreal, Canada for color card.

## Fur Goods

NICE  
WARM  
FURS

Come and see them and you will buy from us.

## Estey &amp; Hagerman

Old Mines  
Sydney Coal

In stock and to arrive.

This Coal is unequalled for general household purposes. Also

## Blacksmith Coal

Of different varieties which we are prepared to ship promptly to outside customers.

## Feed of all kinds

HAY and STRAW.

## F. H. EVERETT.

Telephone 116.  
P. O. Box 83.

DOWNWARD  
TIPLESSThe DOWNWARD  
TIPLESS  
Electric Lamps

Have many advantages, chief of which, are that it gives five times the light power of the usual form of Lamp and gives the light directly beneath the Lamp on desk or counter. It is worth much more and costs little less than the common kind.

... SOLD BY ...

## JAMES S. NEILL,

Wholesale and Retail Hardware.

## Every Person

## Needs a Black Suit

And during the month of August I am offering a Fine Black Worsted Suit made to your order and to fit you

For \$18.50.

Best value in the city.

## JAS. R. HOWIE, 150 Queen St.

## YOU WANT AN OVERCOAT

I have some very nice lines of Fancy Goods in checks and stripes, some pretty patterns in Fall Suitings. We make a specialty of Wedding Suits from \$18.00 to \$36.00
