

SEASONABLE SPORTS.

A Peep Into the World of Base Ball, Racing, Golf Bowling and Athletic Sports Generally.

BASE BALL.

NATIONAL LEAGUE.

At Chicago.—First game.—Chicago 2, Philadelphia, 2. Second game.—Chicago, 6; Philadelphia, 0.
At Providence.—Providence, (Eastern) 8; Boston (American), 7.
At St. Louis.—First game: St. Louis, 2; Brooklyn, 1. Second game: St. Louis, 3; Brooklyn, 5.
At Cincinnati.—First game: Cincinnati, 4; New York, 5. Second game: Cincinnati, 4; New York, 3.

AMERICAN LEAGUE.

At Newark.—Detroit (American), 3; Newark, (Eastern) 2.

WILL BET \$5000 ON BOSTON.

Herman Long, the old Hub favorite, is likely to be the new manager of the Boston National team, although Owner Frank Y. Dunn will not give out authoritatively that he has been secured, but is willing to admit that he is a very warm candidate.

Mr. Dunn originally had three men in mind to manage the Hub Nationals next year when he has possession of the club. They were Hugh Duffy, of the Phillies, Jack Dunn, of the Champion Providence Grays, and Herman Long, who, with the Les Moines team, has just won the championship of the Western League.

Duffy has signed a contract for another year with this team and Jack Dunn has intimated that he will stick with Providence, so that it remains to be heard what Long has to say, and as he will be in the Hub in a day or two something definite will be known.

Mr. Dunn says that next season he is going after John I. Taylor, of the Champs, for the best ball team in Boston, and will be willing to bet him \$5,000 on the result.

Such a proposition will meet favor with the fans, who can see some high class talent performing at both parks when next season rolls around. In regard to the possibility of letting "Young Cy" Young go to any other club, Mr. Dunn says positively that such a deal will not be thought of after he takes possession on Nov. 1. He thinks that Barney Dreyfuss is trying to get back at him for the offer he made early in the season for the team to be sold for a cash consideration which the Pirate owner turned down without notice.

The coming Hub magnate says that "Young" of all players on the team, is not for sale, so far as he is concerned, as he considers him too valuable for the team's interests.

THE TURF.

GREAT PACERS MAY MEET.

It is very likely that Audubon Boy and Dan Patch will meet in a race. An offer of ten thousand dollars for a contest between the star sidewheelers has been made by the Texas State Fair management to take place at Dallas some time next month. Owner Gatzert of the chestnut horse has already received word from the Southern people regarding the race, but is undecided, as Audubon Boy is scheduled to go to a few exhibitions against the world's record in the near future. Audubon Boy is to try to improve on his, the world's record, over the Belmont Park, Philadelphia, Wednesday.

"One of the fastest tracks in the world," said Starter Murray, of the Woodbine course, on his return to New York.

Jockey Arthur Redfern will not be able to ride again this year. He was taking a spin on his motor cycle when he collided with another machine and received a bad fall. His left arm was fractured at the elbow, and his body was covered with bruises.

Jockey Hildebrand's badge was taken up at the Brighton Beach gate. He was obliged to pay his admission into the track. Last winter Ed Corrigan offered him a bonus of five thousand dollars to go to New Orleans and ride as a free lance on the City Park track. Hildebrand was then in Los Angeles. Tod Sloan was finally secured as the attraction. Times have changed for Hildebrand.

Artful was sent out for a gallop just after the first race. She acted propply and sore, and Trainer Rogers decided not to assume the responsibility of starting her in the Cup Preliminary without first consulting Mr. Whitney, who is expected home from between now and Saturday she will not be sent after the ten thousand dollars Brighton Cup, two miles and a quarter, which looks to be easy for her. The Cup eligibles can start, was first run in sixteen hundred and three, when Hernie was victorious in 2:32 1-5.—New York Sun.

CRICKET.

MARYLEBONE TEAM'S AVERAGES.

New York, Sept. 27.—The records of the tour of the Marylebone Cricket Club of England through the United States and Canada this season have just been compiled by F. F. Kelly, Secretary of the Metropolitan District Cricket League. Of the eight games played five were won by the visitors, two drawn and only one lost.

In the games they won they had as opponents the Gentlemen of Philadelphia, New York, Toronto, Ottawa and eighteen of Quebec. They were defeated in their second game with the Gentlemen of Philadelphia. The drawn games were against the colts of Philadelphia and Montreal.

H. J. Wyld, with an average of thirty-five fifteen, was most successful at batting, and played in fourteen

innings, while L. J. Moon, who took part in four innings, follows with thirty-three. F. A. H. Henley, in the match against Toronto on Aug. seven, eight and nine, made the highest individual score of the team, with ninety-two not out. The next best was eighty not out, by H. J. Wyld against Ottawa on Aug. ten and eleven.

Although H. C. McDonnell secured the most wickets, taking sixty-one at a cost of nine sixty-one runs apiece, F. A. H. Henley is first on the list, with a record of forty-two wickets at eight nineteen. Henley also has the distinction of being the only bowler to do the "hat trick." He performed this feat against eighteen of Quebec.

The highest innings scored during the tour was three hundred and forty-two against Toronto, and the lowest seventy-one, against Ottawa.

THE RING.

TIMELY BOXING TALK.

Able Attell has returned from England with the announcement that he has been matched to meet Joe Bowker in London some time in November. This match is for twenty rounds and is to be decided at a bar. This match is for twenty pounds, that very few of Bowker's friends believed he would consent to fight at. Whatever may be Bowker's reason for agreeing to face the American at this scale, the fact remains that Bowker is much too heavy for the bantam division and that he is now beyond a doubt a simon pure featherweight. Bowker is a world's champion, which fact he has indisputably demonstrated. The best bantams have been defeated by him in particular two Americans, Frankie Neil and Piny Evans. Evans did not amount to much, but Neil did. Before Bowker whipped him he was the kingpin of the one hundred and sixteen pounds in this country.

Now that it is true that Bowker is no longer a bantam, but a full fledged featherweight, it is hoped that the contest between Attell and the Englishman will take place. Attell aspires to the American honors in this class and thus far he has done enough efficient work to warrant recognition. It is the opinion of many that he is the best featherweight in the United States and that if he elected to tack the title of champion to his name no one could dispute him. By arranging a match at one hundred and twenty pounds, no matter what time the weighing takes place, Bowker will practically face Attell for the featherweight championship of the world. This title has been in abeyance so long that the enthusiasts will welcome the contest. It will show at any rate who is in this division. As to Attell's chances of victory it must be said that he has the opportunity to prove whether his cleverness is of any worth. Attell is acquainted with all points of boxing. What he does not know about finesse is not worth knowing. He has speed, generalship and stamina, and he is resourceful.

Bowker is clever, too. While nowhere near Attell's equal in science, he can strike a harder blow and is more rugged in constitution. If the fight is a case of points alone, Attell should win by a big margin. But if it is a case of endurance and punishing powers, Bowker's end looks to be the better to wager on. At any rate no matter who wins, the fight should be one of those fistie treats that are rare nowadays.

The mill will be full of action. It is safe to predict that there will not be much chance for a lull. Neither can afford to let up on this fighting. The one who does so, in the opinion of the experts, certainly will be the loser.

BOWLING.

Bowling the new sport which is taking such a decided hold in Fredericton, is in the United States almost the national winter game. A new bowling alley was recently opened at Rochester, N. Y., when Rev. Dr. Taylor, or Presbyterian pastor in an address of welcome, said in part:

"I think you will agree that this is an unique affair, never heard of a bowling alley being opened with a speech from a Presbyterian parson and a teacher of a Bible class. There are several reasons why I have kindly feelings toward bowling clubs. It is a wholesome sport. You can shovel sand or pull weights for physical exercise, but there is no fun in that, while bowling is a sport in which physical exercise, social intercourse and the element of sport is finely blended.

"Physical exercise is necessary for our constitution and the most pleasure is derived from the exercise when it is done in sporting events. But let us remember that sports are subject to two limitations. First, they must be kept in their proper place. When sport becomes the stronger interest in a man's life legitimate sport stops. The other requirement is that sports should be free from drinking, gambling and evil men and women, as this place is to be."

TAXIS RIVER.

Sept. 26.—Threshing is the order of the day. Messrs. Arthur Bois and Berton Bruce are doing the threshing of this place and are giving good satisfaction, the grain is giving forth a fine yield.

Mr. Robert Fairley met a big loss in having his beautiful five year old team nearly spoiled on a barb-wire fence. Their wounds were dressed by Dr. King.

Miss Cora Mitchell, Avery's Port-

ago efficient school teacher, spent Sunday with friends in the place. Quite a number of our young men have spent a vacation in the woods since the season for big game opened with good success.

Mr. David Linscott is finishing his house upstairs.

Mr. William Davis is putting up a new shed and granary which will add to the comfort and beauty of his residence.

Mr. and Mrs. Moses Hanson, Miss Sarah M. Brown, Mrs. Jas. Fairley and daughter, Miss Mary, Miss Stella Linscott, and a number of others called on Miss Bessie Canroy on Sunday, this shows the high esteem in which the public feel for a fellow being in pain and misery for Miss Bessie has been a helpless cripple for two years and a half, but we hope she will yet be able to enjoy the life and comfort of the healthy.

WHAT CAUSES SNORING?

When asleep, people that snore breathe through the mouth instead of the nostrils, which are choked with catarrh. Just use "Catarrhzone" before retiring, and you will be very quickly cured of that snoring habit. By destroying the cause of catarrh, and healing the membranes, Catarrhzone makes a complete cure in every case; it cleans the nostrils, stops the discharge and prevents drooping in the throat in a few minutes. Nothing so pleasant or certain to cure snoring, catarrh or colds as Catarrhzone—that's worth remembering.

GAYNOR AED GREENE.

United States Official at Montreal to Take the Fugitives Home.

Montreal, Sept. 29.—George F. White, U. S. marshal for the southern district of Georgia, and Joseph F. Doyle, district attorney, arrived in the city today to take Colonel Gaynor and Captain Greene back to Savannah for trial on various charges of defrauding the United States government. The warrant they have bears the signature of President Roosevelt himself.

The officers will remain here until the warrant arrives from Ottawa for the extradition of the two fugitives, when they will immediately proceed to Savannah direct. It was expected that the extradition warrant would reach the sheriff's office today, but the latest report from Ottawa states that the signature of the minister of justice has not yet been affixed to the warrant of surrender.

It was learned today that there will be no further action by the lawyers for the defense as far as any appeal from Judge Quinn's decision is concerned. If there is any other chance for the accused to continue the fight against extradition it will be on lines quite unexpected.

Ottawa, Sept. 29.—The warrant for the extradition of Gaynor and Greene went to Quebec this afternoon, directed to the lieutenant governor in council, to whom the United States government will have to apply for the delivery of the two fugitives.

THE EDITOR AND THE PREACHER.

A preacher came at a newspaper man's house. "You editors do not tell the truth. If you did you could not live; your newspapers would be a failure." The editor replied: "You are right and the minister who will at all times and under all circumstances tell the whole truth about his members, alive or dead, will not occupy his pulpit more than one Sunday, and then he will find it necessary to leave town in a hurry. The press and the pulpit go hand in hand with whitewash brushes and pleasant words, magnifying little virtues into big ones, the pulpit, the pen and the grave stone are the great saint-making triumvirate." And the great minister went away looking very thoughtful while the editor turned to his work, and told of the surpassing beauty of the bride, while in fact she was homely as a mud fence.

Schooner Ida May, Captain Gale, bound from St. John (N. B.) for Boston, with lumber, lost all her headgear in a gale off Little Manan Island light Tuesday. With difficulty the vessel was worked to Cross Island and from there was towed to Machias, Me., for repairs.

There are some very beautiful schemes that suddenly turn ugly when you try them out.

The Better Way

The tissues of the throat are inflamed and irritated; you cough, and there is more irritation—more coughing. You take a cough mixture and it eases the irritation—for a while. You take

SCOTT'S EMULSION

and it cures the cold. That's what is necessary. It soothes the throat because it reduces the irritation; cures the cold because it drives out the inflammation; builds up the weakened tissues because it nourishes them back to their natural strength. That's how Scott's Emulsion deals with a sore throat, a cough, a cold, or bronchitis.

GIRL LEFT TO DIE ALONE IN ROOM.

Jury Declares Maine Farmer Guilty of Cruelty to Orphan Girl From Boston—Her Limbs Were Black.

Houlton, Me., Sept. 30.—For two days Cyriace Damboise, of Fort Fairfield, has been on trial here, charged with cruelty to 14-year-old Annie Peters, of Boston, whose death occurred on June 27 last of consumption. A verdict of guilty was found. It is a case fraught with great interest.

In 1903 and 1904 a large number of homeless Catholic children of Boston were brought to Maine, and homes secured for them with the town and farm people of the state, among the followers of the Catholic faith in every instance, and this is the first time there has been a complaint that any of the children were in any way ill treated or neglected.

Last November Annie Peters and her brother George, aged 11, were taken from Boston to Fort Fairfield, and a home for them secured with the Damboise couple, Fr. Manning, so it is understood, vouching for them. At the time, and for that matter ever since, Mrs. Damboise was in poor health. Little Annie and her brother showed no signs of ill-health then, though tuberculosis developed later in the girl.

As to just when the first signs of consumption became manifest in Annie is not known, but it was not until June 25, two days before her death, that anyone thought she was being neglected.

On that day, Sunday, one of the hired men went to the house of a neighbor, and said that the little girl was dying. The woman, Mrs. Ireland, at once hastened to the house, in company with a Mrs. Orser. They found the girl in a small room, up stairs, lighted by a single window, which was closed. She was gasping for breath and could not speak. They opened the window, drew the bed to the centre of the room, began fanning her and she soon revived.

She had on a white shirt waist, the bosom of which was covered with dry blood. Her hands and face were smeared with it, so that she presented a very pitiful sight. Her legs were so black, say the ladies, that they could not tell the natural color of them. They say it was dirt, but the Damboise couple in court contended that it was caused by rubbing them with camphor, kerosene and turpentine. The child died on the following Tuesday.

In defence the Damboises say that never, from the time the little girl became ill, to the time of her death, she was neglected. They called Dr. W. G. Chamberlain once, and he told them what was the trouble and that it was useless for him to call again, as there was no help for the little one. He left some tablets and other medicine to alleviate her sufferings and make her last days as comfortable as possible.

Further, they say that she was

well cared for and that it was at her own request that she was placed in the room upstairs, so that she might not get the odors from the kitchen, which were disagreeable to her. Arrangements were made so that little George slept in the room with her, that she might have attendance and all the doors were left open at night, so Mr. and Mrs. Damboise could hear the slightest sound from the room. They said the dried blood was the result of a hemorrhage which occurred after their departure from the house.

Fr. Manning stated on the stand he was still of the opinion that the Damboise home was a good place for the children.

When cross-examined Mr. Damboise admitted he had one of the hired men make the coffin in which Annie was buried, and that when his own baby girl died in March he made the coffin himself.

A SEVENTY ACRE STATE.

Smallest in Europe, And is Ceded To Belgium.

Brussels, Sept. 30.—An agreement has been reached between the Belgian and Prussian Governments for the cession to Belgium of the neutral territory of Moresnet in exchange for a strip of land adjoining the town of Eupen, in Prussia, eleven miles from Aix-la-Chapelle, and close to the Belgian frontier. Thus the smallest European State has been blotted out. The existence of Moresnet as an independent State dates from the treaty of Aix-la-Chapelle. Later it was under the joint protectorate of Prussia and Belgium. The latter country now takes over the sovereignty of the territory.

Moresnet is divided between the Belgian province of Liege and the Prussian Rhine Province southwest of Aix-la-Chapelle. It is divided into Prussian Moresnet, Belgian Moresnet and neutral Moresnet. The neutral territory, just ceded to Belgium, is about seventy acres in extent, and contains the valuable calamin mine of Altenberg.

Bernier's Temptation.

Captain Bernier will have a Government ship in which to sail the Arctic Sea—but only to patrol the Canadian coast and put down smuggling. The captain will be under a terrible temptation to break away and make a dash for the Pole.

Where It Hit.

Mrs. Hobbs—Isn't that Henry practicing on his cornet? Mr. Hobbs—Fartly on his cornet, but principally upon my nerve centers.

Applicant in the Wrong Room. During the excitement of a physical examination of candidates for places on the police force in city hall a mild mannered man wandered into the room and somehow got mixed up with the aspirants for places on the force. He was instructed to remove his clothes partly, and in a few minutes was hard at work with the other men in the room, raising dumbbells, inflating his chest and undergoing a general physical examination.

"Run around the room," he was commanded, and, on a trot, he made the circuit of the room a dozen times. Almost out of breath, he stopped then and inquired:

"Look a here, what else have I got to do to get my license?"

"What license?" queried the surgeon, in surprise.

"Why, my marriage license. That's what I came in for," was the reply. "Say," said the surgeon, "you're in the wrong room. I thought you wanted to be a policeman. The license bureau is downstairs."—Philadelphia Record.
