Bowling and Athletic Sports Generally.

FOOTBALL.

FOOTBALL "CANTS."

A southern expert in the United States has prepared some football "Cants," which are attracting attention among the players and coaches. Following is the list:

You can't play football without brains.

You can't run with the ball over your stomach.

You can't gain ground without a quick start.

You can't break through a man with your head up.

You can't go too hard.

You can't afford to waste time in useless talk, but you can't do any harm by encouraging your comrades.

You can't play well without understanding team work.

You can't play well without understanding the rules.

You can't play well with a swelled head.

You can't make touchdowns if you stack up when opposed.

You can't imagine how tired the other team is also.

You can't catch or pass a ball with your wrists.

You can't play well if you can't learn the signals.

You can't afford to play offside—it doesn't pay.

You can't play well if you lose your temper.

You can't play well unless you train strictly.

You can't afford, as a student athlete, to loaf any during football season.

TO IMPROVE COLLEGE SPORTS.

Kingston, Ont., Nov. 17.—The Queen's Athletic Committee met this week, in joint session with the executive of the hockey and football clubs, to consider the organization of a Canadian Intercollegiate Athletic Union, which will take charge of the eligibility of players. At present the rules in the football union differ in a few particulars from those used by the hockey union. The idea is that all shall be uniform on the establishment of the athletic union, and that a man eligible to play in one intercollegiate sport shall be equally eligible to play in all. The other colleges left the drawing up of a suitable constitution to Secretary McInnes of Queen's Athletic Union. After the meeting had expressed itself in favor of the inauguration of such a union, the drafted constitution was considered clause by clause. It names the conditions upon which a university may become eligible for membership, provides for the appointment of a board of reference in cases of alleged ineligibility of a player, for the furnishing of certificates of eligibility of players to the union, and other colleges competing in the events, for the election of officers, for fees, etc. It also states a definite rule of eligibility to be adopted by the union and provides for changes thereto from time to time. The proposed constitution, as approved of by the meeting, will be forwarded to the other colleges to pass upon and returned to Queen's for consideration of any amendments suggested.

ON CRIPPLED LIST.

Cambridge, Mass., Nov. 17.—Harvard's varsity football eleven is playing in hard luck. At present the five fullbacks who have played regularly are on the crippled list. Carr the choice, has been out for three weeks with a lame back.

Paul broke a collar bone against the Indians. Guild has a bad thigh. Lockwood hurt his elbow against Pennsylvania. and Harrison, who appeared yesterday for the first time, did not have on his toes today on account of what he called a slight injury.

Somes, who is playing fullback, is a fifth rate and Harvard will fare poorly if she relies upon him against Dartmouth and Yale.

The practice today was hard and long. Five touchdowns were scored, the feature being the work of Parker at centre, and Wendall at right half back. Squires played poorly at right tackle, fumbling frequently and once letting Craft of the second get the ball and score from the thirty-five yard line.

Knowlton out only a fair game at end and is likely to supplant Squires in his old position.

THE RING.

BRITISH MARINE WON.

New York, Nov. 17.—A three round boxing exhibition between William E. Cokayne, a royal marine from Prince Louis of Battenberg's flagship Drake, and middleweight champion of the British navy, and Tack Reine of the battleship Iowa, said to be champion in his class in the American fleet, took place tonight in Tom Sharkey's gymnasium. The British marine was easily the best man. He was said to weigh 154, and beside his burly antagonist looked slight.

In the first round Cokayne drew first blood. The gong saved the American from a knockout in the second, and he was on his knees taking the count when the gong closed the third and last round. No decision was given by Referee Sharkey, but he said that the cup for which the men fought would go to Cokayne as having made the best showing.

The hall was packed. None of the high officers of the fleet were present. There appeared to be no betting as the unknown quantity of the American made his fellow countrymen cautious with their money.

GARDNER-SULLIVAN.

San Francisco, Nov. 15.—The date of the Jimmy Gardner-Mike Sullivan boxing match is approaching rapidly, and the lovers of the game are talking about the event in a way

that presages much excitement and a big crowd when the men face each other in the ring at Woodward's, November 27. Both men are working hard and should be in prime shape.

The circumstances attending this particular fight are such that the first slur in regard to the honesty of the affair is yet to be uttered. Sullivan and Gardner are rising young boxers. Each of them is eager to be known as the best of his weight, and what is also to the point, the personal rivalry between them is quite intense and of long standing.

Each man has been seen in the ring in San Francisco. Sullivan's work with Joe Angeli did not attract as much attention as Gardner's fights with Rufe Turner and Buddy Ryan for the simple reason that Sullivan drifted to San Francisco comparatively unheralded. His affair with Angeli did not attain the dignity of a "man event." It was no ordinary every day "preliminary."

Gardner on the other hand, came with quite a flourish of triumphs. He had been touted as a world beaten long before he reached the coast. The patrons of pugilism were quite worked up over him before he put up a hand. A good showing was expected from him. He made it and it is thoroughly appreciated.

Looking back, a judge of fighting can easily satisfy himself that Sullivan displayed considerable class in his bout with Angeli. He boxed neatly, was careful to waste no punches and he gave the San Francisco lightweight no rest. Angeli's defeat was encompassed in a smooth, artistic manner and it was evident at the time that Sullivan was not extended. The go was little more than an exercise gallop for him.

FITZ AND O'BRIEN.

San Francisco, Nov. 17.—Fitzsimmons and O'Brien signed articles yesterday and the third party to the agreement was Eddie Graney, acting for Promoter Colbroth, who is still in the East.

These articles are not the same as those to which Fitzsimmons agreed in New York. Under the present agreement, Fitzsimmons and O'Brien will fight twenty "or more" rounds at Mechanics' Pavilion, between December 20 and December 31, the definite date to be decided by Colbroth before December 1. The fighters will get 60 per cent. of the gross receipts, of which the winner will receive 75 per cent. and the loser 25 per cent. Forfeits of \$2,500 each are deposited.

Eddie Graney is named as referee in the articles of agreement.

THE TURF.

THE 2.10 LIST.

The list of horses which have performed in 2.18 or better during the past season, including both trotters and pacers and those already in the 2.10 list, but which have reduced their records, during the year, shows the western stallion Gratton 2.13; Atherton, 2.09; and Derechum 2.05; to be in the lead, the first named having one trotter and four pacers to his credit, and Derechum two trotters and one pacer. There are forty-four trotters and ninety-five pacers which have performed in 2.18 this season, including those who made their first appearance in the select list and those already in which reduced their records. One hundred and twenty-one stallions are represented by this list of 1.39, 2.10 performers, only eleven stallions having sired two or more, and only the three above mentioned three or more. All the stallions that have sired two or more trace in the direct male line to Hambletonian 10, the majority of them through the George Wilkes branch. The development theory receives signal vindication from the showing of these stallions, as there are only seven in the lot that do not either have records themselves or were sired by a horse with a record.

THE SOURCE OF NEURALGIA.

It runs hand in hand with poor blood and weak nerves. Health runs down, nerves get irritable, neuralgic torture follows. For a moment applications may relieve—but to thoroughly cure, the system must be strengthened with nutritious blood.

What can equal Ferrozone? It increases the appetite, forms abundant rich, life-giving blood, supplies nutriment and building material for worn-out nerves. Ferrozone completely cures neuralgia. Every root and branch of the disease is killed. Absolute success in every case. Stop suffering—fifty cents buys Ferrozone. Fifty chocolate coated tablets in a box at any drug store.

BRITISH SAILOR WON.

Tar of Prince Louis' Command Easily Knocked out the Yankee.

New York, Nov. 18.—A three round boxing exhibition between William E. Cokayne, a royal marine from Prince Louis of Battenberg's flagship Drake, and middleweight champion of the British navy, and Jack Reine of the battleship Iowa, said to be the champion in his class in the American fleet, took place last night in Tom Sharkey's gymnasium. The British marine was easily the best man. He was said to weigh 157 pounds. The American was said to weigh 154, but besides his burly

Say "Yes"

To This Offer, and See the Good You Will Get.

Write us if you are ready to try Likozone. Let us buy the first bottle for you. Let the product itself prove the good it can do.

You who are waiting don't know what you miss. There are plenty to tell you if you would ask; for millions have already used it. Some use it to get well; some to keep well. Some to cure germ diseases; some as a tonic. You will use it as they do, when you learn what the product does. And you will then regret that you delayed so long.

What Likozone Is.

The virtues of Likozone are derived solely from gases. The formula is sent to each user. The process of making requires large apparatus, and from 8 to 14 days' time. It is directed by chemists of the highest class. The object is to so fix and combine the gases as to carry into the system a powerful tonic-germicide.

Contact with Likozone kills any form of disease germ, because germs are of vegetable origin. Yet to the body Likozone is not only harmless, but helpful. That is its main distinction. Common germicides are poison when taken internally. That is why medicine has been so helpless in a germ disease. Likozone is exhilarating, vitalizing, purifying; yet no disease germ can exist in it.

We purchased the American rights to Likozone after thousands of tests had

been made with it. Its power had been proved, again and again, in the most difficult germ diseases. Then we offered to supply the first bottle free in every disease that required it. And over one million dollars have been spent to announce and fulfill this offer.

The result is that 11,000,000 bottles have been used, mostly in the past two years. Today there are countless cured ones, scattered everywhere, to tell what Likozone has done.

But so many others need it that this offer is published still. In late years, science has traced scores of diseases to germ attacks. Old remedies do not apply to them. We wish to show those sick ones—at our cost—what Likozone can do.

Where It Applies.

These are the diseases in which Likozone has been most employed. In these it has earned its widest reputation. In all of these troubles we supply the first bottle free. And in all—no matter how difficult—we offer each user a two months' further test without the risk of a penny.

Asthma, Abscess—Anemia, Blood Poison, Bowel Troubles, Coughs—Colds, Consumption, Contagious Diseases, Cancer—Catarrh, Dysentery—Diarrhea, Dyspepsia—Dandruff, Eczema—Erysipelas, Fevers—Gall Stones, Gout—Gonorrhea—Gleet, Hay Fever—Influenza, La Grippe, Leucorrhea, Malaria—Neuralgia, Piles—Quinsy, Rheumatism, Scrofula—Syphilis, Skin Diseases, Tuberculosis, Tumors—Ulcers, Throat Troubles.

Also most forms of the following: Kidney Troubles, Stomach Troubles, Women's Diseases, Fever, inflammation or catarrh—impure or poisoned blood—usually indicates a germ attack. In nervous debility Likozone acts as a vitalizer, accomplishing remarkable results.

50c. Bottle Free.

If you need Likozone and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and will pay the druggist ourselves for it. This is our free gift, made to convince you; to let the product itself show you what it can do. In justice to yourself, please accept it today, for it places you under no obligations whatever.

Likozone costs 50c. and \$1.

Give full address—write plainly.

Note that this offer applies to new users only. Any physician or hospital not yet using Likozone will be gladly supplied for a test.

CHAMPION MOOSE KILL.

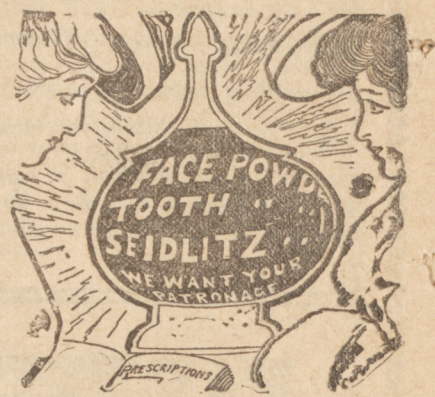

The champion moose "kill" of the season is reported from the little town of Epping in Washington county, Maine.

A lad named Floyd went over into Whitneyville, six miles distant, for game, and carried with him just enough cartridges to fill the magazine of his rifle. He also had with him his knife and hunter's hatchet. In bringing down a buck deer he used up nearly all his bullets and was considerably startled as he neared his quarry to see a moose approach with the evident idea of learning what caused the strange noises.

When the big animal saw the hunter he showed plainly that he was in an angry mood and gave indications of a desire to fight, shaking his head and mane defiantly and charging toward the young man.

Floyd fired his remaining cartridges, directly at the head and breast of the big animal and made up his mind to run, when he noticed that the moose had given up the battle turned tail.

The young man put after him and got near enough to slash the hind legs time after time with his hatchet until the animal fell to the ground in exhaustion and died. The next day Floyd returned with a team of horses and a sled boat and hauled both the deer and the moose home.

THE YOUNGEST BISHOP.

Rev. Isaac O. Stringer Elected Bishop of Selkirk.

Winnipeg, Nov. 17.—Rev. Isaac O. Stringer, of White Horse, was elected Bishop of Selkirk by the House of Bishops.

Rev. I. O. Stringer is a graduate of the University of Toronto of 1891 and of Wycliffe College in 1892. He went immediately thereafter to Fort Simpson to work under the bishop of Mackenzie River, then two years later of his own motion he pushed on five hundred miles farther north to Herschel Island. His slight failing the doctors forbade him to remain longer in that region, so he came back to Toronto, on leave of absence, spending two winters here.

He returned to White Horse, where he was associated with Bishop Bonpas, Bishop of Selkirk. The latter asked for assistance, and recently he resigned his see to continue in work as a missionary to the Indians.

Rev. Mr. Stringer's election has come as a result of this action, having been arranged some little time ago. He becomes the Bishop of the whole diocese, taking upon himself the entire episcopal duties, which his zeal and energy well qualify him to perform.

Bishop Stringer is the youngest Bishop in Canada, being not more than about forty years of age. His home is in Kincardine, where his father, a farmer, died some five years ago. His wife was a Miss Alexander and comes from the same place.

When a man is short on cash he generally has to be long on Josh.

YOUR MONEY BACK IF GIN PILLS DO NOT CURE.

Gin Pills for the Kidneys

We believe we have in Gin Pills the most perfect remedy that has ever been discovered for all kinds of Kidney Trouble. So positive are we that Gin Pills will cure any case of Kidney disease that we guarantee every box and authorize any druggist to refund the price in case of failure.

All Druggists, so sets, per box, 6 boxes for \$4.50, or direct from THE BOLE DRUG CO., WINNIPEG, MAN.
