DROPPED DEAD.

Sudden Death of Samuel Wheary, a Well Known Colored Man.

THE END CAME NEAR MILLER'S FACTORY ON KING STREET.

Was Widely Known as a Musician Throughout the Country.

Samuel Wheary, a colored resident of Springfield, who was well known throughout the city and country, dropped dead in the yard of Eben Miller's carriage factory at noon today. He was seen to stagger and fall by Mr. Miller, who at once went to his assistance, and was greatly shocked to find that life was almost extinct. Dr. Vanwart was immediately summoned, but when he arrived the poor fellow was beyond medical aid. In falling he had collided with a carriage wheel, and blood flowed profusely from a gash inflicted on the side of his face. Dr. Vanwart gave it as his opinion that heart failure was the cause of death.

Coroner G. W. McEwan after viewing the body and learning the circumstances, decided to hold an inquest at York Hotel at 7.30 o'clock this evening.

Mr. Wheary who has been in the city for several days, last night attended a dance at Wilmet's Alley. He complained to some friends of feeling

BRYAN TO ROOSEVELT.

Silver Champion Wants President to Propose a Peace Tribunal.

TO WHICH DISPUTING NATIONS MAY REFER QUESTIONS AT ISSUE.

Lincoln, Neb., Sept. 15.—(Special) A letter addressed to President Roosevelt from W. J. Bryan, in which a plan for preventing war is suggested was made public last night.

Mr. Bryan congratulates the President on his success in bringing Russia and Japan together, and adds: "Why not as congress to authorize the president to submit international questions (when agreed cannot be reached by the parties interested) to an impartial board of investigation to report. Investigation will in every case remove the cause of complaint and reconcile the parties."

Questions to which the nation might be unwilling to submit to arbitration in advance could be settled by investigation by an impartial international board.

"It was a generous thing to bring the war between Russia and Japan to a close, but it would have been better to have avoided the frightful loss of life.

The congratulations which you have received from the hands of governments strengthen the chances of success.

"If the leading nations of the world will enter into an agreement for the creation of such a board and pledge themselves to settle disputes by the board of investigation instead of declaring war, the danger of war would be reduced to a minimum.

"But few men have had it in their power to do so much humanity.

"Will you improve your opportunity?"

(Signed) W. J. BRYAN.

Ottawa, Sept. 15.—(Special)—Sir Wilfrid Laurier and Hon. Mr. Hyman received a delegation from the Ottawa Water Power owners of the Chaudiere, asking the government to prevent owners on the Quebec side in a project which was being started from diverting water to the Hull side of the river.

The premier said he would look into the matter.

SHOCKING ACCIDENT.

Runaway Horse Impaled on Wire Fence and Seriously Injured.

Mr. M. S. L. Richey, agent of the Bank of Montreal, had a rather exciting experience on the highway bridge last evening, and narrowly escaped serious injury. He was driving over the temporary span of the structure towards the city about five o'clock, when his horse took fright at a tug, and threw him out of the carriage. He fell heavily on the floor planking but escaped with nothing more serious than a severe shaking up.

After throwing the driver out the horse broke away from the carriage and dashed across the bridge, and in Carleton Street to the old burying ground where it became impaled on a barbed wire fence. It struggled furiously to free itself, and finally did so, but not before it had frightfully cut and mangled itself about the forelegs. The animal was taken at once to the owner's stables, where Veterinary Stockford was soon in attendance. He found the horse's injuries to be of a very serious nature, and it is doubtful if it can recover. A piece of flesh about three inches square was torn from the forearm, and it was found that two arteries had been severed. There were a number of smaller gashes about the legs and shoulders.

In Australia there are 210 churches to every hundred thousand people, a larger number per capita than any other country. England has 141 and Russia but 55.
