JAPS WIN A VICTORY.

Over 200 Killed and 500 of the Enemy Captured.

MIKADO'S SOLDIERS MAKING SHORK WORK OF THE ENEMY AT SAKHALIN ISLANDS.

Stoessel Relieved of His Command--The Peace Conference.

Tokio, July 30.—The following despatch has been received from the Japanese army headquarters:

"Our independent cavalry which entered Rykoff, on Sakhalin Island, 45 miles northeast of Port Du, July 27, withdrew on finding order in the city unfavorable to its occupation. Our army, intending to crush the enemy's forces before they retreated from the eminences west of Rykoff, commenced to advance at three a. m. of July 28.—The van, together with an independent body of cavalry, advanced by forced march, attacking and dislodging the enemy holding the northern extremity of Rykoff and rushed into the town. Confused street fighting ensued, but the town was completely taken at eight thirty in the morning.

The enemy's main strength, which opposed our right column, fled in disorder southward, taking the short route leading to Parano. On July 28 a detachment which was sent south in pursuit of the enemy, met the enemy's infantry, some 800 strong, at a point six miles to the south of Rykoff, and killed more than 200 and captured 588.

The enemy's strength opposed to our right column was of some 3,000 infantry and four guns and four machine guns, and that opposed to our left column some 2,000 infantry and four guns.

The enemy's loss in trophies is under investigation."

JAPS CHASING RUSSIANS.

Tokio, July 30.—The following report has been received from the headquarters of the imperial army:

"Our force on the Island of Sakhalin, advanced on the 27th inst. and completely chased the enemy from early in the morning. Our vanguard occupied Delbosko the same afternoon. While our cavalry entered Rykoff another detachment was sent against the enemy at Nomia and Ivovsoe, dislodged the enemy's forces holding Vydenicovsky and the vicinity, and immediately commenced pursuit. The enemy holding the latter place consisted of infantry with several guns. The temperature is ninety-three degrees fahrenheit."

STOESSEL RELIEVED.

St. Petersburg, July 30.—General Stoessel has been relieved of command of the third Siberian Army Corps.

THE PEACE CONFERENCE.

London, July 31.—The Daily Telegraph's correspondent on board the Kaiser Wilhelm Der Grosse, on which M. Witte, the Russian peace plenipotentiary is a passenger, sends an interview which he has had with M. Witte, in which the latter said that if Russia and Japan had agreed upon a common basis before appointing plenipotentiaries it would have been much better. As it was, M. Witte said, he regarded himself rather as an imperial courier sent to ascertain the terms of Japan. He was prepared, he added, as his powers were very complete, and he would discuss the demands based on Japan's actual military and naval strength.

A FATAL BOLT.

Five Persons Killed and Many Injured by Lightning at Coney Island.

New York, July 31.—During a thunder storm of terrific intensity, which passed over New York yesterday afternoon, five persons were struck by lightning and instantly killed, and nine others seriously injured at the Parkway baths at Coney Island. At the same time one man was killed and three were prostrated at Gravesend beach.

The intense heat of the morning attracted a great multitude to the shore resorts, and late in the afternoon, when the storm blew up from the westward, the Parkway beach was thronged with bathers and spectators.

When the rain descended in torrents hundreds of men, women and children sought shelter under the big bath house which is elevated above the sand on piles. Lightning and terrific thunder claps were incessant.

A few minutes before five o'clock a bolt struck the flagstaff of the bath house and grounded in the very thickest of the crowd. Nearly fifty persons were prostrated and the rest, screaming with terror, rushed into the surf. Those who had remained in the water were also panic stricken and fled in all directions, not daring to enter the bath house, which appeared to be on fire.

Ambulances were summoned from all the nearest hospitals, and on their arrival five persons were found to be dead and nine unconscious under the bath house. The bodies of all were badly scorched by the electricity. The nine injured were removed to a hospital, where it was said that some probably would die. A slight fire in the bath house was quickly extinguished by the rain.

During the same storm Henry Ransweiler was struck and killed while standing under a tree at Gravesend Bay, and his son William, John Apple and Daniel McCauley were rendered unconscious.

When did you say? August 3rd? Oh, yes, I'll be there.

F. E. BLACKMER, 222 QUEEN ST.

Bridgeport, Conn., July 30.—Loses of life and immense damage to property followed the bursting of reservoirs north of this city as a result of the unprecedented fall of rain early today. The precipitation in the series of showers which struck across Connecticut last night and this morning reached a total of seven inches in this section a downfall which overtaxed the city sewers and caused the flooding of cellars of business buildings in down town streets. North of here, in the towns of Easton and Trumbull, the rainfall was even heavier, and so quickly did the water rise at the dam at Wards' mill at Easton that the dam went out at two o'clock this morning, sending a great body of water down through the town of Trumbull. In a short time the dam at the paper mill reservoir broke and the body of water swept down into Berkshire pond. There was no warning to the people who lived on the banks of what is usually a small water course. The house occupied by Joseph Lesco, his wife and several children, was picked up by the flood and carried a mile below. The Lesco family were asleep at the time, but all were rescued after a perilous journey.

A house occupied by Michael Moran was hurled against the Berkshire bridge and smashed to kindling wood, and it is believed that Moran was drowned. Police and firemen went to the rescue and saved several lives. Inside of an hour the great body of water which had been sweeping down from Easton had reached North Bridgeport and was pouring down under the Berkshire bridge. It caught the harbor craft, which were moored just below the bridge, unprepared, and several hawseers gave way under the strain. The barge Clara, owned by McCaffery & Sons of New York, was torn away from a dock and carried against the East Washington avenue bridge later under it. The family of Captain Keneally of the barge was rescued, but Captain Keneally was knocked overboard and later was rescued from a pile. While the barge Clara was drifting down the stream the three-masted schooner, Hope Haynes, from Bangor, Me., was torn from her moorings at Millers Rocks, and being driven down street bridge and broke her jibboom. She brought up against the Congress street bridge and broke her jibboom through the structural work and tore down the electric lights. The escape of current from the wires and the flashes as the live ends touched the pavement set fire to the gas which was escaping from a broken main. This brought an explosion which shook up the entire neighborhood and brought out the fire company from a nearby department house. The fire communicated to the barge and schooner, but was soon extinguished.

The schooner Dora Allison, Capt. Rosa of Richmond, also broke loose, but her crew let go her anchors, which held fast. The barges Marion E. Bally and Margaret Hart also were torn from their moorings and drifted down stream. The former struck the draw on the Stratford Avenue bridge, and caused it to open, the barge going through and being carried down the harbor out into the Sound, narrowly escaping a collision with the steamer Allen Joy. Capt. Robert Meyers, his wife and two children were rescued by the tug Senator Rice.

At the same time that the reservoirs at Easton and Trumbull were emptying themselves the floods had caused the overflow of Pembroke Lake in another part of North Bridgeport. The water swept against the Barnum Avenue bridge and wrecked it just when an ice wagon was crossing it. In the wagon were William Kowzski and John Starkin. The wagon and horses were swept away and Kowzski was drowned. His body was found late this afternoon. Starkin was swept out of the wagon, but was able to swim ashore.

All day sightseers visited the course of the flood in North Bridgeport, and in Easton and Trumbull walked over the large going through and being drained reservoirs. In the city proper a great many cellars had been flooded, so that fire engines were used to pump out the water. The trolley service for a number of hours was almost at a standstill, and the telephone and telegraph service was impaired greatly.
