F. E. BLACKMER,
280 Queen st., directly opposite Officers' Quarters.

AN ASSURED SUCCESS.

Everything Moving Splendidly in Fredericton's Big Show.

WHICH COMPETENT AUTHORITIES DECLARE ONE OF THE BEST EVER SEEN IN EASTERN PROVINCES.

Opening Day's Attendance was Ahead of Last Year's.

SOME INTERESTING FEATURES OF THE EXHIBITION.

Attendance first day 1273 1502
First Day 1266 1502

A special train load of live stock and other exhibits for the Fredericton exhibition left Halifax today and is expected to reach here by the I. C. R., at two o'clock tomorrow morning. A number of horses entered for the exhibition races, will arrive by the same train.

About three hundred excursionists from Woodstock, accompanied by the Woodstock band, arrived by a special train over the Gibran branch at noon today. The river boats, including the Aberdeen, brought a large number of excursionists from down river points. The chances are that Monday, Tuesday and Wednesday will be the big days at the exhibition.

Mr. W. A. Lindsay has the exhibition dining room in first-class order, and did a rushing business yesterday. He has a splendid staff of waiters and his culinary arrangements are first-class.

HORSE RACE TOMORROW.

The three days' race meeting at the driving park is being looked forward to with great interest by horsemen. On Saturday the 2.40 and 2.23 classes will be pulled off, and sharp contests are expected. Mr. Frank Power of Halifax, is to act as starter. The races will be called at two o'clock sharp.

Special prizes for the best and largest display of sweet peas grown from Burpee's seeds, sold through their agent, Geo. Y. Dibblee.

1st.—Harry Cook, Fredericton, first prize.

Geo. Y. Dibblee, prize for best collection sweet peas, from Burpee's seeds.

Harry Cook, first.

PROGRAMME FOR TODAY.

10.30 a. m.—Sheppard's moving pictures.
2.15 p. m.—Leonda leaping the chasm.
2.30 p. m.—Sheppard's moving pictures.
4. p. m.—New York Vaudeville Co.
7.15 p. m.—Leonda Leaping the chasm.
7.30 p. m.—Sheppard's moving pictures.
8.45 p. m.—Leondo leaping the chasm.
9 p. m.—New York Vaudeville Co.

The program will be the same for Saturday except that the loop-the-loop exhibition will be substituted for the chasm act.

The Fredericton exhibition is now in full swing and the weather outlook is as favorable as anyone could possibly have wished for.

The opening yesterday was a most auspicious one, and the attendance was much larger than was expected. Altogether 1502 people passed the turnstiles, which is a better showing than was made on the opening two years ago.

The vaudeville and moving picture performances in the amusement hall were liberally patronized, and made a great hit. The moving pictures are beyond a doubt the best ever seen in this city. They are shown on a large square of canvas, the hall being darkened for the time being.

A THRILLING RIDE.

By far the greatest of all the special attractions is the wonderful loop-the-loop exhibition which is exactly as advertised and it is certainly the most remarkable and thrilling feat of daring ever seen in this city. Diavola rides a bicycle down a steep incline a distance of about one hundred feet in the twinkling of an eye and makes a complete circle of the loop. This exhibition was given three times yesterday in the presence of large crowds.

All of the exhibits were not in place yesterday, but it is expected that by tonight everything will be in apple pie order. The display in all departments is splendid, and the great variety and excellence of the exhibits is a surprise and a delight to visitors.

The agriculturral produce display occupies an entire building, and is a feature of the show. Mammoth pumpkins, squash, mangolds, turnips and cabbages are shown, and the exhibit of potatoes is as fine as one would wish to see. There is a splendid collection of grain in the straw displayed about the walls. Mr. C. N. Goodspeed is in charge of this department.

The poultry house, which has been enlarged since the last exhibition, contains a splendid exhibit of fowls and pet stock, such as rabits, pigeons, etc. In the poultry line there are ducks, geese, turkeys, and chickens, many fancy breeds being represented. An incubator in full operation is shown by Mr. A. D. Thomas, and is attracting much attention. Several brace of nice Belgian hares are shown, and there are also Angora rabbits.

GOVERNOR SNOWBALL'S EXHIBIT.

Two carloads of stock belonging to Lieutenant Governor Snowball, the first farmer of New Brunswick, arrived last evening an the freight from Chatham. Shorthorn cattle, pure bred sheep and poultry are included in the exhibit, and as might be expected, it is a most creditable one.

MANUAL TRAINING EXHIBIT.

One of the exhibits in the gallery of the main building, which is attracting a great deal of attention is from the Consolidated School at Kingston, and is in charge of Mr. T. B. Kidner. In the collection are shown several varieties of weeds and seeds, vegetables and fruits, grown in the school garden; articles of woodwork, made by manual training pupils, and samples of cookery and fancy work, from the Household science department.

ON FAKIRS ROW.

The number of side showman and small bore fakirs about the grounds is unusually large this year, but no flagrant skin games are allowed. There is a large tin type galley, near the main building, where tin types and medallions can be taken while you wait. There are a number of dime museums about the grounds, but newspaper men as a rule are too sceptical to be inveiled into them, so a discription cannot be given. They are propably the same as all side shows, a great deal of bark and very little bite.

BIG EXCURSIONS COMING.

Mr. W. E. Farrell, the hustling and gentlemanly chairman of the transportation committee, has arranged for a number of cheap excursions to Fredericton during the exhibition. They will be run from Woodstock, Houlton, Presque Isle, St. John and Loggieville and will undoubtedly bring large crowds. Arrangements have been made to have the Marysville surburban held until eleven o'clock each night during the exhibition.

Premier Tweedie yesterday provided all the normal school students with tickets of admission for Saturday.

SHARPERS ABROAD.

The usual crowd of fakirs are in attendance at the exhibition and a word of warning to the public might not be out of place. A well known medical man yesterday found a culprit endeavoring to enter his pockets. As soon as detected the pickpocket hurried away but the doctor followed him up and discovered him trying to work his game on another man. This happened during the loop-the-loop performance in the afternoon and no police were around to effect an arrest.

Two cripples, one having lost a leg and another an arm are offering for sale envelopes containing lavendor powder at whatever price you wish to pay. This is purely a fake. The vendors are able to earn their living by work and know how to enjoy cigarettes and other luxuries.

OUTSIDE OPINIONS.

One of the leading farmers of Westmorland County pronounces the exhibition as being ahead of the Halifax show. This refers to every department. Even the fruit is better. In fact he never attended a better exhibition. He also praises the management.

A prominent farmer from Sussex, who exhibits regularly at St. John and Halifax and esewhere in the eastern provinces, thinks our exhibition is a leader this year and compares favorably with any he ever attended. We have more sheep and pigs now than ever were shown at Halifax, and the sixteen carloads which will arrive tonight will bring the rest of the stock at least to a par. He has good words for Secretary Hooper and other members of the committee of management.

A local banker says the exhibition is the best regulated show he ever attended.

PRIZES AWARDED.

The judges in several of the departments commenced work last evening and up to noon today the following awards had been made:

CUT FLOWERS, BOQUETS, ETC.

Best collection of carnations—John Bebbington, 1st; Ada Schleyer, 2nd.

1st.—Mrs. Thomas Flemming, Fredericton.
2nd.—Miss C. H. Perley, Fredericton.
Highly commended.—Mrs. A. A. Belmore, Fredericton.

SEC. NO. 2.

Best loaf pound cake from wheat grown in maritime provinces:
1st.—Mary L. Jewett.
2nd.—Miss C. H. Perley.
Highly commended.—May Cunningham.

SEC. NO. 3.

Best pan of biscuit made from wheat grown in maritime provinces:
1st.—May Cunningham.
2nd.—Mary Jewett.
Honorable mention.—Mrs. J. Bebbington, Fredericton.

CLASS 106—NO. 2.

Maple syrup in glass. Not less than 6½ quart bottles.—2nd, Byron McNally, Kingsclear.

LOSS NOT SERIOUS.

Mr. John Kilburn returned today from a visit to the scene of his lumbering operations in the province of Quebec. He reports the destruction of two of his dams by forest fires, but fortunately his timber limits escaped damage. The dams can easily be rebuilt and the loss will not be serious.

PRINCE TO VISIT FREDERICTON.

His Serene Highness of Battenberg will be here Monday, October 30.

St. John, Sept. 22.—(Special) — The dates of the St. John carnival have been changed to October 26 to 31st.

The reason of the change is that Prince Louis of Battenberg and his ships will come here then, but could not come earlier.

The Prince will visit Fredericton on Monday, October 30th, and it is reported will be entertained to a ball in the parliament buildings that evening.

NO COLOR LINE THERE.

White Married Woman of Amherst Caught Eloping With a Negro.

Moncton, Sept. 22. (Special)—The I. C. R. police received a telegram from an Amherst colored man named Morris, this morning asking them to delay his son, Laurie, who had eloped with a white married woman.

Upon the arrival of the Springhill train the eloping couple were located and taken charge of by the police.

Young Morris and his companion had tickets for Montreal. When shown the telegram from Morris' father, the couple agreeh to return to Amhertt without making any trouble.

First they objected to being stopped, but when threatened with arrett they decided to return peacefully and were accordingly sent back to Amherst on the morning train.

YORK COUNTY INSTITUTE.

Business of This Morning's Session---Officers Elected

The morning session of the teachers' institute today was opened by an illustrated talk on manual training by Mr. T. B. Kidner, Director of Manual Training for New Brunswick.

Mr. Kidner by the aid of charts pointed out the nature of the work in its different stages and showed the benefits resulting to the pupils from the teaching of the system.

At the conclusion of the address a discussion on the aims and uses of manual training took place.

Miss Agnes Lucas, sloyd teacher in the city schools, read an interesting paper on "Ambidexterity" or the equal use of both hands in doing school and other work. This paper contained much subject for thought and brought forth a considerable discussion.

Miss Thorne of the High School staff, who laet summer visited several of the leading schools in Boston, Chicago, Buffalo, Toronto and other cities, as well as the educational department of the St. Louis Fair, delivered an interesting and instructive address on educational matters as she saw them in these places. She described the different subjects taught and showed that in music, physical culture, drawing and in some other subjects the schools in the American cities excelled our own, but as a general rule the New Brunswick schools could hold their own with most of the schools abroad and our standard of teachers were higher. At the same time Miss Thorne referred to the kindly treatment accorded to visitors by both teachers and pupils in the United States schools. She also made some interesting comparisons regarding the system of examinations and marking in these schools as compared with our own. The paper was discussed by Dr. Hay, Inspector Bridges, J. T. Horseman and others.

The report of the scrutineers of the election of officers was received and the following were elected officers for the ensuing year:—President, C. D. Richards; vice-president, Miss Sadie Thompson; secretary, Miss Ella Thorne. Executive committee.—B. C. Foster, H. G. Perry, Chas. Sanson.

The session adjourned until two o'clock when Dr. W. C. Murray of Dalhousie University, addressed the assembled teachers.

For enrolment of members see elsewhere.

ENGINEERS FOR HALIFAX.

Moncton, Sept. 22,— (Special) — Some forty Royal Engineers from Kingston, in charge of Col. Weatherbee, passed through here today from Quebec to Halifax, where they will be stationed.
