## EXCITEMENT RAN HIGH.

### Short but Interesting Session of British House of Commons.

### ADVERSE VOTE MAY LEAD TO RESIGNATION OF GOVERNMENT.

### Meeting of the Cabinet Called for This Afternoon.

London, July 21.—(Special.)—The House of Commons sat barely half an hour today and adjourned until Monday to await the government's decision regarding future action in view of the defeat of the ministry last night on John Redmond's motion to reduce the vote of the Irish land commission.

The house was packed in every part, and great excitement was visible, as there was a disposition to view the defeat of the government as more serious than was generally regarded in the earlier hours of the morning.

Immediately after the house assembled Sir Henry Campbell-Bannerman, Liberal leader, moved an adjournment declaring it unseemly under the circumstances to proceed with business while the government was considering its position.

Premier Balfour declined to adjourn the house until a bill dealing with the differences of the United Free Church and the Free Church had been passed. This was quickly accomplished. The house then rose and excited members swarmed into the lobbies eagerly discussing the probable decision of the cabinet which has been summoned to meet this afternoon.

The view that the government will resign is not held in circles, which are generally well informed of the government's intentions, and it is reiterated that the resignation of the Balfour ministry is not likely in view of the almost practical certainty that the government will be re-habilitated by the normal majority on a trial of strength on July 24th, to which the opposition have formally challenged the ministry.

## DEFRAUDED CANADA'S CUSTOMS.

### Germans Work the Preference in Collision With British Firms.

London, July 21.—(Special.)—Some Canadian manufacturers now returning have gathered startling information regarding the fraudulent use to which German manufacturers, acting in collusion with certain British merchants, have been putting the Canadian preference. Large quantities of German hosiery and other manufactures have been shipped to Canada and other colonies through London under preference, although nothing like the required twenty-five per cent. of British labor has entered into their manufacture.

Often the only British labor involved has been the transshipment and re-packing. Some even allege that the preference benefits are frequently ninety per cent. to German industry and only ten per cent. and even less to British.

It is understood that the Canadian Government has possessed for some time past specific evidences of this fraud. Surprise is expressed that no action has been taken to prosecute. It is hoped the Canadian Tariff Commission will thoroughly investigate the matter, for which purpose a secret commission should be at once despatched to probe the frauds here with a view to penal action. It is also urged that the provision of the preference law requiring only 25 per cent. of British labor should be amended if the preference is to realize the intentions of the Canadian Parliament. Mr. Chamberlain's attention has been called to the matter.

## FARMER COMMITS SUICIDE.

### Samuel Haines of Scotch Settlement Ends His Life by Swallowing Paris Green.

Mr. Samuel Haines, a well known farmer of Scotch Settlement, Parish of Bright, committed suicide yesterday afternoon by swallowing a dose of Paris green. He had been despondent for some time, and previously made two attempts to end his life. From particulars of the sad affair that has reached the city, it appears that the unfortunate man went out into the barn immediately after dinner and there swallowed three table-spoonsful of dry Paris green. The dose, a very heavy one, made him sick to his stomach, and after vomiting he seemed to rally somewhat. About three o'clock he swallowed another dose in the presence of his wife, and afterwards went out into the field back of the house. His son followed, and finally induced him to return home. Some neighbors were then called in, and a messenger was dispatched for Dr. J. W. MacNeill, who resides several miles distant. Emetics were administered, and when the doctor arrived he tried to give the unfortunate man relief by the aid of a stomach pump, but all to no purpose, and at five o'clock the sufferer breathed his last. An inquest was not considered necessary. The melancholy affair has cast a gloom over the community, and the greatest sympathy is felt for the bereaved relations.

Mr. Haines has not been in the enjoyment of good health for two years past, and frequently talked of doing away with himself. On one occasion he tried to hang himself, and his later attempted suicide by cutting his throat. He was a man of fifty-five years of age, and was in fairly comfortable circumstances. He is survived by a widow and a family of three sons and four daughters.

## A SHARP SKIRMISH.

### Small Force of Russians Routed by the Japs.

Tokio, July 21.—(Special.)—A telegram from Otsumi says that the Russians, who were defeated at Maline, were about two hundred in number, with six field and three machine guns, and, taking the fullest advantage of the topographical character of the district, offered a most desperate resistance.

The Russian positions were hidden among the thick forest, and it was impossible for the Japanese gunners to make a close observation.

The cannonade, however, opened by the Japanese at six o'clock in the morning of July 7th, and was kept up until dusk.

The Japanese infantry gradually gained ground, closing in on the enemy's line of defence, awaiting an opportunity for the infantry charge.

It was nearly two hours past midnight when the enemy's line of defence strengthened by barricades and trenches, was taken.

This success was vigorously followed up, but it was not until nine o'clock in the morning of July 9th that the enemy was driven out of the second line of defence and victory secured.

The nature of the ground exposed the Japanese assailants to a great disadvantage and risk.

It is believed that an account of a shortage of ammunition and provisions the Russians at Sakhalin can not hold out longer.

## ST. JOSEPH'S COLLEGE.

### Important Changes in Faculty May Take Place Soon.

St. John, N. B., July 21.—(Special.)—It is learned on good authority that there will be several changes in the faculty of St. Joseph's University.

Rev. L. V. Brougall, C. S. C., who last year succeeded A. B. O'Neill, C. S. C., as prefect of English studies, will be professor at St. Lawrence College, Montreal, during the coming year and a professor from the latter college will fill the position vacated by reason of Father Brougall's removal.

It is understood that there will be several new professors at the University when college opens about September 1st.

### TIME EXPIRED SOLDIERS.

### An Effort to be Made to Have Them Settled in Canada.

London, July 21.—(Special.)—In two or three weeks' time some three thousand time expired men of good character, all under 35 years of age, will be discharged at Horsham Barracks, Sussex. The Canadian emigration commissioner is in communication with the authorities for permission to distribute literature, also to deliver an address on the advantages of Canada. The request will probably be granted, and it is hoped that many will be induced to make their homes in Canada.

Every one of these men will have between thirty and forty pounds each in cash.

### MONTREAL STOCK MARKET.

Montreal, July 21.—(Special.)—The stock market quotations today are as follows:

Dominion Coal, 85½, 80, 80.  
Dominion Iron & Steel, 24, 25½, 25½.  
Dominion Iron & Steel, preferred, 71, 71.  
N. S. Steel, 54½, 55½.  
C. P. R., 151½, 151½.  
Twin City, 112½, 112.  
Montreal Power, 91, 92.  
Rich. & Ontario Navigation, 74½, 74, 74.

Yankee Constables' Batons.—The New York police have an ideal baton. This is made of extremely heavy wood judiciously coated with india-rubber, and has this merit, that while it will knock a man down with a single blow, it will stun without breaking his head.

### KITE CARRIED BOY.

When the accident occurred Robert and his elder brother, William, were playing together. William asked Robert to hold the cord attached to the kite while he went below for a moment. The little lad, however, was not strong enough to control the kite, which in its zigzag flight carried him over the edge of the roof. New York, July 21.—While flying a kite on the roof of his home at No. 1,100 Stebbins avenue, the Bronx, yesterday, Robert Matthews, aged eleven, fell one hundred feet to the pavement, receiving internal injuries which may prove fatal. He was taken to Lebanon Hospital.

### WESTERN WOOL CROP.

Winnipeg, July 21.—(Special.)—The outlook for the wool crop in the territories is splendid. The total will be about 700,000 pounds, of which Alberta will give about 290,000 lbs., Medicine Hat 60,000 pounds, Walsh 90,000 pounds, and Maple Creek 220,000 pounds. The best class of western wool is very fine, almost pure merino, and will clean up to 60 per cent. of scoured wool.

Free Beer for Life.—In return for a small favor done by a policeman, a millionaire brewer at Allegheny, Pennsylvania, has presented him with an order entitling him to a glass of beer whenever he likes to call at any one of his breweries. Although the limit is 1,000,000 glasses, the man can still call for twelve glasses every day for nearly 230 years.

In Drowning Cases.—In Java it is supposed that, if a live sheep is thrown into the water, it will indicate the position of a drowned person by sinking near it. A curious custom is practised in Norway, where those in search of a drowned body row to and fro with a cock to the boat, fully expecting that the bird will crow when the boat reaches the spot where the corpse lies.

## Vacation Days are KODAK Days

Picture taking will add immensely to the pleasure of your vacation.

KODAKS \$5 to \$108

BROWNIE CAMERAS \$1 to \$9

C. Fred. Chestnut,  
Apothecary,

## Watches AND Chains

Either Ladies' or Gent's sizes

Very large variety to choose from.  
Every Watch guaranteed.  
See our special Chateline Watch at \$6.00

F. E. BLACKMER, 222 QUEEN ST.

## ONE DEAD; FOUR INJURED.

### Fatal Automobile Accident at Los Angeles, California.

### MILLIONAIRE PLOW MANUFACTURER AND FAMILY THE VICTIMS.

### Wreckless Driving the Cause of the Disaster.

Los Angeles, Cal., July 21.—M. T. Hancock the well known millionaire plow inventor and manufacturer, is dead as a result of an automobile accident in this city last night in which his wife, son and daughter, were seriously injured. Mr. Hancock sustained two fractures of the skull and concussion of the brain. He died in a hospital without regaining consciousness.

The party were travelling at the rate of forty miles an hour when the machine collided with a buggy. The car swerved to the curbstone and crashed into a pole, demolishing it and hurling the occupants to the street.

J. Saul Dairyman, driver of the buggy was thrown to the street and severely hurt. M. T. Hancock, Jr., a 16 year old boy, was driving the machine at the time of the accident. With him in the front seat was his young brother, Newton Hancock, who was the only one of the party escaped unhurt. In rear with Mr. Hancock, was
