## GULF COAST STORM SWEEP,

And it is Feared There Has Been Great Destruction of  
Life and Property.

New York, Sept. 30.—(Special.)—A despatch from New Orleans to the Tribune says: "Although no details have been received up to the present, it is believed that the entire Gulf coast has suffered from one of the worst storms in the last year."

Last night the barometer registered the same as it did in 1894, when 2000 persons were killed, and their bodies found in the tops of trees along the coast.

Telephone messages received here last night indicate that for the last

twenty-four hours a storm has been raging along the entire coast, and that a number of vessels have been swept ashore. So far no bodies have been washed ashore.

The reports received show that bathing houses and other buildings have been swept away all along the coast, and the storm was constantly increasing in violence.

At Gulf Port the water is already over the railroad wharf, and the same is true at Milneburg and other

points.

## A NASHWAAK MAN

Who Has Accepted a Professorship in a Texas  
University

St. John, Sept. 30.—(Special.)—Word has reached here that Rev. Dr. Calvin E. Goodspeed, who last year resigned the chair of systematic theology in McMaster University, with the object of retiring from active service, has been prevailed upon to change his mind, and has accepted a professorship in Baylor University, Waco, Texas.

His subjects will be systematic theology, apologetics and polemics.

This is the same institution that secured Dr. Newman McMasters, the renowned historical writer, some four years ago.

Dr. Goodspeed is a New Brunswicker, born at Nashwaak, York County.

He studied at the old Baptist seminary at Fredericton, at the University of New Brunswick and for some time was editor of The Messenger and Visitor.

## ST. JOHN'S JUVENILE DEPRAVITY.

Police Unearthing Another Tanyard Gang—Lads Formed Association For Theft.

St. John, Sept. 30.—(Special.)—The police believe that they have unearthed another gang of bad boys, which may prove as bad as the celebrated tan yard gang of the Doherty murder case.

A lad named Curren, arrested for petty theft, has confessed to the police that another boy was concerned

with him in the theft.

An investigation in progress shows that there is a certain association between the lads for the purpose of theft, and several small robberies are fastened on them.

The police expect to unearth a regularly organized gang of boy thieves.

## WELL BORING CAR.

I. C. R. Will Guard Against Water  
Famine.

Moncton, Sept. 30.—(Special.)—The well boring car, recently secured by the I. C. R., is to be put in operation along the road, as the intention is to sink more wells and construct half a dozen tanks.

Some tanks will be constructed along the Canada Eastern, recently acquired by the government.

The well boring car is a new contrivance on the Intercolonial, and the intention is to guard against a recurrence of the state of affairs which existed along the road in some sections during the past summer.

## HAVE LEFT OTTAWA.

Ottawa, Sept. 30.—(Special.)—The National Transcontinental Railway commissioners, Hon. S. N. Parent and Messrs. Reid, McIsaac and Young, with Assistant Engineer Macpherson, left for the Maritime Provinces yesterday afternoon.

They go by way of the Temiscouata Railway from River du Loup, and will investigate the respective merits of the St. John valley and the central routes.

## DIAMOND ROBBERY.

Montreal, Sept. 30.—(Special.)—A diamond robbery took place in the Bellevue apartments last night.

A sneak thief is supposed to have got into the rooms, and made off with two rings valued at \$400.

The police are investigating.

## BIG GAME NOTES.

Distinguished Hunters from Pennsylvania en Route to the Woods.

Two distinguished sportsmen from Pennsylvania, passed through the city yesterday en route to the Northwest Miramichi, where they will hunt big game for a few weeks under the guidance of Mr. Arthur Pringle. They were Dr. Maurier of Shomakin, and Mr. Morris Williams, president of the Pennsylvania Coal Company of Philadelphia. While here they were entertained to a drive about the city by Mr. W. T. Chestnut.

Mr. Halfenstien, Penn., passed through the city a few days ago on his way home from a hunting trip to the Bald Mountain country. He secured a caribou, with antlers carrying twenty-seven points, also a deer and three bears. He saw sixty caribou altogether and twenty-three moose, but failed to find one of the latter with a head large enough to suit him.

Mr. Warham Whitney of Rochester, who returned yesterday from a hunting trip to the Little Southwest Miramichi, remained over until today, and will take this evening's train for home.

Mr. William Allen, a Pennac farmer, shot a good sized moose in a field near his home one day this week. He had seen the animal in the field a number of times during the past month, and took out a license especially for it, feeling confident that he would get a shot at it some day.

Mr. H. P. Mason of Washington, who left here ten days ago for the Sisson branch of the Tobique on a hunting trip, will return by the Gibson train this evening. This morning he wired that he had been successful in securing a moose and caribou. He had Mr. Robert Barr of Macquac, for guide.

## THE BANK MERGER.

More Rumors About B. of M.'s Absorption of B. of N. B.

It is definitely stated, says the Sun, that the transfer of stock of the Bank of Montreal, will be at the rate of \$350 per share. Montreal stock will be put down at \$250. Holders of the New Brunswick stock will get for every share they own, one share in the Bank of Montreal stock and \$100 additional.

There was a meeting of the directors of the local institution yesterday at which the amalgamation was further considered, but nothing was given out. It is stated, however, that the directors before ever considering the transfer secured the opinion of enough of the larger stockholders to practically guarantee the deal going through if a satisfactory arrangement could be made.

It is supposed that the present Bank of New Brunswick will be utilized for the business of the institution. That property is owned by the local bank, while the Montreal bank does business in leased premises.

Mr. Shadbolt will, it is understood, remain in St. John as manager, and Mr. Stavert as maritime superintendent will also have his office in St. John.

## THE VALLEY ROUTE.

Delegation Starts up River to Meet the G. T. P. Commissioners.

Senator Thompson, and W. T. Whitehead, P. P., left this morning for Edmundston, to meet the commissioners of the Grand Trunk Pacific Railway and point out to them the advantages possessed by the valley route over the proposed route through the centre of the province.

Mr. F. B. Carvell, the energetic M. P. of Carleton, joined the party at Newburg Junction. As stated in these columns yesterday an effort will be made to have the commissioners travel down the river by automobile to this city.

Mr. Guy C. Dunn, district engineer also went to Edmundston this morning to meet the commissioners.

The national transcontinental railway commission is composed of Hon. S. N. Parent, ex-premier of Quebec, chairman, and Messrs. McIsaac, Reid and Young.

## THE BUG HOUSE.

Were you into the bug house? If not or even if you were, don't forget to attend the F. B. festival next week at the Arctic Rink. Admission to all only 10c. Plenty of dance music will be furnished by the band.

## F. B. BAND FESTIVAL.

The band boys are making a great hustle to make this festival eclipse all other entertainments of this nature. Don't forget the dates, next Wednesday and Thursday evenings. Secure your tickets from members of the band.

## An interesting Skull.

Prof. Montgomery of the Toronto University has recently received a cast of the skull of the animal between man and the ape, remains of which were found by Dubois a few years ago in the Island of Java. The skull shows a greater brain capacity and a higher intellectual conformation than the skull of either the Chimpanzee or the Gibbon, the highest of the existing apes. A thigh-bone and two molar teeth were also found by Dubois in the same rocks and within a short distance of the spot where the skull was discovered. The thigh-bone indicates that the animal walked in an erect position.

The expert scientists who examined the remains at Leyden, where Dr. Dubois had brought them by the authority of the Dutch Government, gave the opinion that they were those of a creature very little lower than man, and a step in advance of the Simian or ape animals. Several of them also expressed an emphatic opinion that the rocks in which the remains were found are of Pliocene age, as proved by the collection of other fossils taken therefrom, they being similar to those occurring in the Pliocene of the Siwalik Hills of India. As to the capacity of the skull, this animal, which has been named Pithecanthropus erectus, was very close to the fossil man known as Spy number one found in Belgium. Prof. Hanouvier of Paris, Sir William Flower, Haeckel and the late Prof. Huxley were among the eminent scientists who viewed the remains of this creature along with the other collections made by Dubois and exhibited to the congress of zoologists and paleontologists in Leyden.

## All in the Family.

Mrs. Cloak—I'm so sorry the dressmaker I recommended to your wife did not give her a fit. Mr. Soak—Never mind. Her bill gave me one.

## Something Coming to Him.

Maisie—Funny, isn't it, that Alger non doesn't smoke? Daisie—Well, he will soon. I overheard papa say that he was going to fire him.

## The way to be nothing is to do nothing.

## BITS OF NEWS.

Items of Interest Culled from Our Exchanges and Other Sources.

Mayor House, of Nelson, B. C., a member of the legislature missing for some time, has been located in a Nevada mining camp. He is behind in his accounts at Nelson \$5,000.

Alderman Walter Vaughan Morgan, has been elected Lord Mayor of London for the ensuing year. Mr. Morgan is a septuagenarian, a banker and a bachelor.

Invitations are out for the marriage of Miss Helen E. Baird, third daughter of Col. and Mrs. J. D. Baird of Grafton, Carleton County, and Frederick B. Hebert, Winnipeg. The wedding will take place at the home of the bride on Oct. 3rd.

Roderick McLean, the well known Moncton grocer, is in receipt of news telling of the tragic death of his half brother, Albert Hazlett, in a hotel fire in Drake, North Dakota. From the particulars it appears the unfortunate man was suffocated in his room during the fire.

About one hundred and thirty miles of the G. T. P. road west of Portage la Prairie is now under sub-contract, and work is being pushed forward with all possible speed. All these contracts will be completed early next spring and the grading will reach Touchwood hills easily by midsummer.

An Ingersoll, Ont., despatch says: Five men were arrested here and taken to the county jail charged with the murder of a man whose body was found in the river Thursday, and was supposed to have fallen off the bridge. There is great excitement in the arrests, the town hall being surrounded by a mob.

William R. Travers, a millionaire, son of the Wall street operator, William Travers, committed suicide Friday by shooting himself through the head in his apartments in Madison Avenue, New York. The suicide is not explained Mr. Travers being in good health and the possessor of a large fortune.

After the grand jury had been discharged at the Kent Circuit Court, Tuesday, the Clerk of the Court, R. Hutchinson, K. C., on behalf of the bar of Kent Co., welcomed Solicitor General Jones to the County, it being his first professional visit there. The Solicitor General responded briefly, and the court adjourned sine die.

A young man named Geo. Steeves, aged 19, son of Enoch Steeves, fooling with a revolver at his home at Birch Ridge, Kent County, charged the weapon the bullet taking effect in the ear. Medical aid was summoned, but report says that Steeves' condition is not dangerous. The bullet has not yet been removed.

Miss Phyllis Emily Frances, eldest daughter of Mr. and Mrs. Charles Porteous of Montreal, was married on Wednesday last to Paul Fleatford Sise of that city. The bride's mother is a daughter of the late W. Chipman Drury of St. John, and a cousin of Mr. T. Carleton Allen of Fredericton. The bride's father was at one time in the Bank of Montreal at St. John, but is now connected with the interests of James Ross, Montreal.

It has been decided by the physicians in attendance upon President Harper, of Chicago University, that nothing will save his life but a surgical operation of heroic character. It is admitted that there is practically no chance for saving his life until the cancer can be checked by removal of a portion of a large intestine. It is, however, admitted, that the chances are greatly against a permanent relief even if the operation is performed.

The plaintiff company in the Cushing case propose to appeal to the Supreme Court of New Brunswick to get a final order from that court so that it may be appealed to Ottawa. This will be only a formal appeal as Judge Davies refused their application on the ground that they had not appealed to the Supreme Court at Fredericton since Judge McLeod's order was made. The plaintiffs have secured an order from Judge Tuck granting until October fourteen to appeal to the Supreme Court of New Brunswick.

Mr. Geo. H. Ham of the C. P. R., sailed Tuesday for England on the C. P. R. steamer Lake Champlain from Montreal. He will be abroad two months. Mr. Ham is slowly recovering from his lengthy illness, but has been ordered by his physician to cross the ocean in the hope that the trip may restore his health, a change of scene and the invigorating breezes of the sea being required. He will visit Scotland before returning, and spend as much time as possible yachting and cruising along the Scottish coast.

Keeps Them Aired.

"Mrs. Chatterbox is an incessant talker, isn't she?"

"Yes; she says that a person's opinions get musty if they aren't aired often."—Detroit Free Press.
