NO. 5

NEURALGIC PAINS

Are the Cry of the Nerves for Better Blood.

Enrich the Blood and Neuralgia will Disappear—It is only Those Whose Blood is poor and watery That Suffer.

No part of the human system is more sensitive than the nerves. Many of the most excruciating pains that afflict mankind come from weak, shaky shattered nerves, and among the nerve pains there is perhaps none that causes intense suffering than neuralgia, which generally attacks the nerves of the face and head, sometimes causing swift, darting, agonizing pains—at other times a dull heavy aching feeling which makes life miserable. There is only one way to get rid of neuralgia and other nervous troubles, and that is through the blood. Poor watery blood makes the nerves shaky and invites disease. Rich, red blood makes the nerves strong and banishes all nerve troubles. No medicine in the world can equal Dr. Williams' Pink Pills as a blood builder and nerve tonic; every dose helps to make rich red blood, and every drop of this new blood feeds and strengthens the nerves and banishes all nerve aches and pains. Among those who offer strong proof of this is Mr. John McDermott, Bond Head, Ont., who says: "A few years ago while working as a carpenter in Buffalo I got wet. I neglected to change my clothes and next morning I awoke with cramps and pains throughout my entire body. I was unable to go to work so called in a doctor. I followed his treatment, but it did not help me. As I was unable to work I returned to my home at Bond Head. Here I consulted a doctor who said I was suffering from neuralgia, but though he treated me for some time he also failed to help me. I had often read of Dr. Williams' Pink Pills, so decided to try them. I had not used more than three boxes before I felt they were helping me. From that on I gained day by day, and after I had used some ten boxes I had fully recovered my old time strength and have since been able to work at my trade without any trouble. The pains and aches no longer torture me and I have gained in weight. I think Dr. Williams' Pink Pills an invaluable medicine and shall always have a good word to say for them."

Neuralgia, sciatica, rheumatism, St. Vitus dance and the many other blood and nerve troubles all vanish when when Dr. Williams' Pink Pills are used—but you must get the genuine bearing the full name, "Dr. Williams' Pink Pills for Pale People," on the wrapper around every box. Sold by druggists or direct by mail at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

Transferred to Ottawa.

Mr. Wallace Forbes, of the I. C. R. accountant's office, Moncton, has taken a position in the office of the auditor general of the Dominion, and will leave for Ottawa early next week. He will be joined later by his wife and family.

Some time ago, when the representatives of the Auditor General's department were here on an official business, Mr. Forbes' work pleased them, and it is at the request of the department, and with the consent of the Hon. Mr. Emmerson, that Mr. Forbes is transferred to the auditor general's department at Ottawa.—Moncton Transcript.

A Mother's Precaution.

There is no telling when a medicine may be needed in homes where there are young children, and the failure to have a reliable medicine at hand may mean much suffering and perhaps the loss of a priceless life. Every mother should always keep a box of Baby's Own Tablets in the house. This medicine acts promptly and speedily, cures such ills as stomach and bowel troubles, teething troubles, simple fevers, colds, worms, and other little ills. And the mother has a guarantee that the tablets contain no opiate or harmful drug. One wise mother, Mrs. Geo. Hardy, Forchu, N. S., says: "I have used Baby's Own Tablets and find them a blessing to children. I am not satisfied without a box in the house at all times." If your dealer does not keep these Tablets in stock send 25 cents to the Dr. Williams' Medicine Co., Brockville, Ont., and you will get a box by mail post paid.

It is a wise young man who leaves a good quality of cigars on the mantel when he calls upon his girl.

A woman will economize by keeping the gas burning so that she can save matches.

PREMIER TWEEDIE.

Full Text of His Judgment In the Westmorland Mining Lease Case.

INVESTIGATED BY HIM AT THE CROWN LAND OFFICE ON THURSDAY.

Ex-Governor Ladd Retains the Lease But Must Operate it Within a Year.

Following is the full text of the decision of Premier Tweedie, acting surveyor general in the Westmorland mining lease case, lately investigated by him:

"This is an application made by David E. Taylor, of the city of New York, in the United States of America, Master Mariner, to have a mining lease issued to Herbert W. Ladd, Esquire, of the city of Providence, in the State of Rhode Island, in the United States of America, on the Tenth day of December, A. D. 1900, of certain lands situated at Cape Meranguin, in the County of Westmorland, in the Province of New Brunswick, forfeited under the provisions of the General Mining Act, by reason of the said lessee not having effectively and continuously worked the said property since the grant of said lease, and having failed to comply with the terms, covenants and stipulations therein contained.

"Due notice of the application in writing having been served upon the said Herbert W. Ladd, the matter came on for hearing on Wednesday, the seventh day of September last past, at the office of the Department of Crown Lands, when Samuel W. Taylor and Alfred Taylor, of Taylor's Village, Mr. Brainard, councillor-at-law, of New York, and Mr. James Friel, barrister-at-law, appeared in support of the application; and J. H. Barry, Esquire, K. C., appeared for the lessee, Mr. Ladd.

Certain objections were taken by Mr. Barry as to the insufficiency of the service of notice upon Mr. Ladd, which I overruled. It also appeared by the statement of Mr. Friel that his client David E. Taylor died on the day preceding the hearing; viz., the sixth day of September, and thereupon further objection was taken by Mr. Barry that the proceedings must therefore stop, and if necessary be commenced de novo.

Not concurring in this view, I decided to go on with the application, as it appeared from the statement of Mr. Friel that prior to his death Mr. Taylor had assigned all his interest to one Mr. Morse, and that an agreement had been executed and a deed prepared for all the said deceased's interests in the lands, which said deed was held in escrow, until the terms of the agreement between Morse and Taylor had been complied with.

After hearing the evidences of Alfred Taylor and Samuel W. Taylor, and after certain documentary evidence had been given by Mr. Friel, on behalf of the applicant, the further hearing of the matter was adjourned till the first of November, at 11 p. m., but upon the application of the parties concerned the hearing was still further adjourned till this fifth day of January, at the office of the Surveyor-General, Fredericton, at which time Mr. Friel appeared for the applicant and Mr. J. H. Barry appeared for Mr. Ladd, the lessee, who was also present.

Mr. Friel submitted a certified copy of the deed, from David E. Taylor to Mr. John T. Morse, which is held in escrow as aforesaid, and which was objected to by Mr. Barry.

RACKING PAIN IN THE JOINTS.

Also every form of rheumatism, neuralgia and sciatica are best cured by Nerviline the quickest relief for muscular pain yet discovered. It's because Nerviline strikes in and penetrates right to the core of the pain that it gives such unbounded satisfaction. "I caught cold in my shoulders while driving and suffered great pain, writes U. E. Dempsey of Berlin. I used Nerviline freely and was soon quite well. I have found Nerviline an excellent remedy for rheumatism and neuralgia as well as for cold on the chest. I recommend Nerviline highly and wouldn't be without it." Price 25c.

When chilled to the bone a dose of Perry Davis' Painkiller in hot, sweetened water will quickly warm you up. It is a thousand times better than drinking whiskey. Wards off and cures Colds and Coughs.

THE MAN WHO WORKS HARD.

Perseverance and will-power he must have, but whether he has strength and vigor is another consideration. Hard working men usually have irritable nerves and should fortify their systems with a course of Ferrozone, a tonic that rebuilds and revitalizes beyond all telling. It is just wonderful the strength that Ferrozone imparts to broken down men. It forms new blood, supplies the system with abundant nourishment, and where formerly there was tiredness and lassitude Ferrozone establishes a reserve of energy and vim. Try Ferrozone,—price 50c. per box.

Mr. Ladd was sworn and gave testimony on his behalf, which concluded the evidence.

It was claimed, on behalf of the applicant, that the lease should never have been granted by the Crown Land Department, as Mr. Taylor, the owner of the lands, had never any notice of the granting of the lease and was unaware of the same until within a short time prior to his making this application for forfeiture. It was also claimed that Mr. Taylor had expended a considerable sum of money in developing the property, and had mined a considerable quantity of gypsum and had shipped some from said mine to the States.

On the other hand, it was submitted by counsel for the lessee, that he had expended large sums of money since the obtaining of the said lease, amounting altogether to the sum of \$5,269.88, and that from the time of obtaining the same up to the present, he had been continuously endeavouring to form a company for the purpose of fully developing the said property, and that no demand from the time of granting the said lease up to the present, had been made upon him by the Crown Land Department to operate such lands.

In opinion the contention of the applicant that the lease should not have been issued, cannot be entertained here. If the Crown Land Department improperly issued the lease, the applicant can have recourse to a Court of Equity to set it aside, and as this lease was granted over four years ago by a former Surveyor-General, I feel it my duty to assume that all conditions have been complied with and that the lease has been properly issued.

The question, therefore, resolves itself to this:—Should the lease be forfeited under the provisions of the General Mining Act, by reason of the lessee not having worked the lands continuously or effectively, or having neglected to carry the work on for the space of six months?

The Mining Act of the province has been framed largely upon that of Nova Scotia and other provinces, where mineral development has been going on for years. In deciding this matter, consideration must be given to the position of the province in regard to mining. Up to the present time very little mineral has been produced throughout this province; no great mineral wealth has been developed, and so far, much more money has been received. I think it is important that the province, in order to encourage mineral development within its area, should endeavor to treat all persons applying for mining areas with the utmost consideration and liberality.

True, if I were to follow the strict letter of the law, I might fairly decide in this case that the lease was liable to forfeiture by reason of non-compliance with the covenants and conditions, but if I did so, I would be committing a grave error and injuring the future prospects of the province as a mineral centre. It certainly is desirable that every facility should be given to all persons who are desirous of investing money within the province to have an opportunity to gain a return of the money so invested in every reasonable way. I therefore think that the application should not be granted, and that in the interests of justice a further time should be given to the lessee in which to develop the property contained in the lease.

My judgement therefore is, that the application be refused and that the lessee have until the tenth day of December next to carry on effective mining operations on the leased premises. And if the said lessee, or his assigns, shall not commence and prosecute effective mining operations, to the satisfaction of the Surveyor-General, according to the true intent and meaning of the terms, covenants and stipulations in the said lease contained, such mining areas shall then be forfeited and the lease cancelled.

Dated at the Crown Land office, Fredericton, January 5th, A. D. 1905.

THE VERDICT OF PUBLIC OPINION.

Is with the best article every time. That's why Putnam's Corn Extractor has been in the lead for the last half century. It cures corns painlessly in twenty-four hours and never fails. Use only Putnam's for corns and warts, warts.

FACTORY COMMISSION.

Took Some Evidence at the Town of Woodstock.

Woodstock, Jan. 5.—The factory commission were here in session today. This morning they met in the council chamber and heard evidences from representatives of various factories and foundries in town. The personnel of the commission is Mayor John Palmer of Fredericton, Kilgour Chives of Campbellton, Mrs. Emma W. Fiske and M. J. Kelly of St. John, and James G. Stevens of St. Stephen.

The witnesses this morning were D. A. Groat of the Woodstock Carriage Company; Alex. Dunbar, sr., of the firm of A. Dunbar & Sons, iron founders; Hubert Seeley of the Woodstock Woodworking Co.; Frank Hillman, foreman of the A. Henderson Furniture Manufacturing Co.; W. A. Sherwood, representing the Imperial Packing Co.

Mr. Grant said his factory employed some twenty hands, but none were employed who are under 14 years of age. He did not remember having studied the terms of the proposed factory act, and was not in a position to give an opinion as to its merits. His factory was supplied with water closets and conveniences for a rapid exit in case of fire.

Mr. Seeley said his employees were all over 14 years of age. The factory was furnished with sanitary appliances. He doubted, if a special room were provided for those employees who did not go to their homes at midday, if they would use it.

Frank Hillman said that if the proposed act would be for the benefit of the men he would favor it. He thought that the proprietor of the establishment, Mr. Henderson, would be willing to pay the necessary fees for respecting the act if the act was a good one, as he was a progressive man.

Alex. Dunbar asked if the steam arising from liquid moulding was not injurious to the men, replied that injury was likely to arise only in the case of moulding brass. He had no boys employed under 14. The men took their meals with them, ate in the shop, and in warm weather out of doors. He did not think the men would use a separate room for eating.

Mr. Sherwood said that he thought the men in his establishment would be glad to avail themselves of a separate room for eating. They employed no boys under 14 years of age, and only girls when they did the carving, which was but a short period in the year. He had heard of the act, but was not in a position to speak as to its feasibility.

During the afternoon the members of the commission visited the wrapper factory, woolen mills, steam laundry, and other institutions of the kind. They left for St. Stephen by the six o'clock train.

WEARY SHOP GIRLS

PALE TIRED WOMEN

You Feel "Draggy," Lifeless Nervous, Never Rested.

FERROZONE

WILL MAKE YOU FEEL LIKE NEW—IT VITALIZES, TONES AND STRENGTHENS.

The best medicine for restoring verity and strength is Ferrozone.

The time to take Ferrozone is when you first feel tired, and when appetite fails, when nerves get irritated.

Its record is marvellous—it makes you feel strong and sturdy, brings health that outlasts old age. Mrs. Mary Melong, of Harbor Rouché, Nova Scotia, writes:

"Ferrozone built me up. Before using it I scarcely knew what good health meant."

"I was just as miserable and weak as any woman could be."

"Tired from morning till night, bothered by trifles, unceasingly nervous."

"The first box of Ferrozone improved my blood, gave me appetite. In a short time I was like a new person. Now I rejoice in abundant good health."

Get Ferrozone. It will make an unexpected improvement in your looks, your feeling, your health. 50c. per box, or six for \$2.50. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

Please bear in mind that what is called a skin disease may be but a symptom of bad blood. In that case, Weaver's Cerate, externally applied, should be supplemented with Weaver's Syrup, taken daily.

Monkey Brand Soap cleans kitchen utensils, steel, iron and tinware, knives and forks, and all kinds of cutlery.

SNIFFELING AND SNEEZING COLDS.

Can be stopped in a few minutes and permanently cured in one hour by inhaling fragrant healing Catarrh-ozone. No remedy compares with Catarrh-ozone for cold in the head and nasal catarrh. It soothes and heals the inflamed mucous membranes prevents sneezing and coughing, clears away the "stuffed up" feeling in the forehead. If you haven't used Catarrh-ozone get it today and try it on your next cold. You'll be surprised at the efficiency of this delightful inhaler treatment which pleases everyone because it cures so quickly. Complete outfit \$1.00; trial size 25c.

MANY LIVES LOST IN EXPLOSION

On the Ohio River—Of the Crew of 38 Men Only Nine Escaped Serious Injury.

Huntington, Va., Jan. 5.—By the explosion of the boilers on the tow boat Defender, in the Ohio river near here, a number of lives have been lost. Of the crew of thirty-eight men, only nine escaped without serious injury. Several dead bodies have been recovered. Five others are so badly burned or scalded that they will die, six more of the crew cannot be accounted for, and it is believed that their lifeless bodies now lie at the bottom of the river.

A partial list of the dead and missing is as follows:—Perry Spencer, mate, Point Pleasant, W. Va.; Horace Wetzel, Pittsburg; James Cease, lamp trimmer, Pittsburg; Thomas Duffy, Scott Hamilton, James firemen, Pittsburg; supposed to have been burned to death; William Wetzel, George Hild, David Adkins, deck hands, Pittsburg.

The Defender was owned by the Pittsburg Tow Boat Company, and was one of the biggest tow boats on the river. She had been one of the first boats out of Pittsburg on the recent rise, and towed a heavy line of coal barges to the Cincinnati market. She was returning to Pittsburg in company with the big tow boat Victor, of the same company, and the statement is made that the two big steamers were racing at the time the explosion occurred. The Victor was about a mile ahead of the Defender at the time, and her crew knew nothing of the disaster that had befallen her.

The work of rescue of the victims was difficult, owing to the darkness, and only a few yawls could be secured to go to the scene. Captain Woodruff, of the Defender, was picked up fifty yards from the steamer by some small boys who rowed in a yawl from the Ohio shore, and he was taken to that side of the river. He is not seriously injured. One victim was found half a mile below the scene, clutching a portion of the wreckage, being so chilled that he could not speak.

The boat almost immediately after the explosion sank to the bottom, not more than sixty yards from the West Virginia shore. The barges in tow were soon all aflame, but they were cut loose and they floated down the stream. They were finally landed fire department.

Those rescued from the steamer are so seriously injured that they can give no names or information regarding the catastrophe.

It is believed that many bodies were blown into the river and may never be recovered. It is impossible to give any accurate list of the dead or wounded as yet.

Caught an Eagle Alive.

Angeola, Ind., Jan. 5.—Edward Baker, eighty three years old, living five miles north west of Angeola, caught alive an American eagle, after a spirited struggle. He has the bird in his corn crib to show for his prowess.

While walking over his farm he noticed a dark object on the ground. He saw by the wind ruffling the feathers that it was a large bird. The bird apparently was asleep, with its head over its back and under its wing. When within a few feet of the bird, which proved to be an eagle, Mr. Baker laid down his gun and quickly placed his arms around the bird.

The fight was on at once. The eagle and the patriarch were equally game. Around and around they struggled, the man never losing his hold upon the bird, which he had determined to capture alive. Finally with the right arm still encircling the body, Mr. Baker grasped the neck of the bird with his left hand and subdued it.

The aged man bore his prize, beating its talons against the air, to his corn crib, where it now is, alive and well. It is a fine specimen and stands about three feet high, with wings measuring seven feet from tip to tip.

"A Little Cold, You Know" will become a great danger if it be allowed to reach down from the throat to the lungs. Nip the peril in the bud with Allen's Lung Balsam, a sure remedy containing no opium.
