Always in Stock:

A BEAUTIFUL LINE OF

Friendship,

Engagement and

Wedding Rings

Don't forget our removal to 290 Queen st., opposite Quarters.

F. E. BLACKMER.

PERHAPS QUADRUPLE MURDER.

Bodies of Two Men and a Girl Found in the Woods.

AND MOTHER OF LATTER WILL DIE WITH CRUSHED SKULL.

Awful Tragedy Discovered at Middleton, New York.

Middleton, N. Y., Oct. 7.—(Special)—A triple murder was revealed here today, when the bodies of Willis and Fred Olney were found in the woods half a mile from their home, at which last night was found the body of murdered Alice Ingerick.

Both brothers had been shot. Before night the crime is expected to have one more victim, Mrs. George Ingerick mother of the girl Alice. The mother who was found unconscious in the barn of Olney Bros' farm last night has not yet regained consciousness and is said to be dying with fracture of the skull. Her son says that when light per-

mitted a search was made for Fred and Willis Olney who were missing from home last night, when Mrs. Ingerick was found unconscious and her daughter dead and a wagon track leading across the fields to the woods near the house were seen by the searchers. The tracks were fresh.

Just beyond in the woods were found the bodies of Fred and Willis, each lying in the same position on their backs with their arms across their breasts. All the pockets in their clothing had been turned inside out, and marks in the underbrush showed that the bodies had been dragged from the wagon to the place where they were found.

A PECULIAR PROPOSITION.

Citizens of Houston want Negro Lynching Made Legal.

Chicago, Oct. 7.—(Special)—A despatch to The Tribune from Houston, Texas, says that a petition from a number of citizens has been presented to Governor Lanham, asking the State to permit mob punishment of negroes who assault women. It is asked that the governor endorse a policy of absolute unprotec-

tion to negroes guilty of assault and insuring that they may be hanged instantly as soon as apprehended. Governor Lanham's response is principally directed to the legal phase of the proposition, and replies that for him to countenance such a policy in view of his oath of office and in face of legislation is impossible.

POKANOKET DISABLED.

Struck on the Rocks at St. John and Laid up for Repairs.

St. John, Oct. 7.—(Special)—The Star Line Steamer Pokanoket met with an accident, when coming through the Falls this morning from Lower Cove Slip, where she had been for repairs.

She struck the rocks on the west side, starting the plates and causing a leakage.

The pumps were set to work and she is now lying at the May Queen's wharf, and will be taken back through the Falls as soon as possible.

As a result of the accident she was unable to start on her regular trip to Fredericton.

NEW YORK BLAZE.

Hundred Thousand Dollars' Worth of Property Goes up in Smoke.

New York, Oct. 7.—(Special)—Two city blocks were burned shortly after midnight. Fifteen business establishments were destroyed and hundreds of tenement dwellers were forced to flee for safety from the flame enveloped homes.

One fireman was injured, one watchman was burned and 250 crazed horses were roaming through the crowded streets for over an hour.

There was a desperate three hour struggle with the flames. The fire threatened to destroy a large portion of the upper east side water front shortly after midnight. Loss was \$100,000.

DOWN ON KISSING.

Disagreeable Doctors Condemn a Popular Practice.

New York, Oct. 7.—(Special)—A special cablegram to the Sun says

that among the various anti-phthis measures discussed at the International Tuberculosis Congress yesterday, one vehemently advocated the discontinuation of kissing. Prof. Fournier opened the discussion. Numerous cases of disease had arisen from kissing and he gave scientific reasons why the practice should be abandoned.

One learned doctor described it as that unpleasant custom and some referred to the custom with impatience, scarcely removed from disgust, while others treated it as almost criminal.

TOGO WITH SHIPS!

May Visit European and American Waters.

New York, Oct. 7.—(Special)—According to a cablegram from London to the American, Admiral Togo with a squadron of the best ships in the Japanese navy will visit European and American waters some time next year.

According to the latest reports from Tokyo the Japanese government believes that Japan's position in the family of nations would be strengthened by the appearance abroad of her magnificent sea fighting machines and the crews which have accomplished such successes in the war just ended.

It is understood that the squadron about to sail will consist of two first class battleships, two armored cruisers and several smaller craft. They will go first to England and may visit France as well, then proceed to America and from there home.

MRS. CLOSE HERE.

English Lady, Who is Promoting a Philanthropic Scheme for Pauper Children.

Mrs. Ellinor C. L. Close, of London, England, who is promoting a scheme for child immigration to Canada, is in the city today, a guest at the Queen. She came to Fredericton, away from towns, and have the children sent out here. She does not intend that more than fifteen or twenty children should be placed on one farm. Her idea is that

LOCAL LEGAL TANGLE.

Judge Gregory Grants an Order in the City Board of Health and Municipal Council Dispute.

WHICH WILL BE HEARD BY THE FULL SUPREME COURT BENCH.

His Honor Judge Gregory yesterday granted an order restricting the Board of Health of District No. 3, York Co., from taking proceedings against F. St. John Bliss as secretary treasurer of York, for contempt of court, in not obeying the order made by the chief justice for the payment of \$300 on condition to the Board of Health.

The council at the July session voted \$200 as required by the Board of Health, but reduced two of the accounts submitted to them, and attached as a condition to the payment of the money that these two accounts should be paid in full but at the figure to which they were reduced.

On the application of Dr. McNeill chairman of the board of health, the

chief justice made an order directing the secretary to pay the amount unconditionally.

Judge Gregory's order stays proceedings to allow the municipality an opportunity to apply to the full court to set aside the chief justice's order.

The grounds of the motion are that Dr. McNeill acted without authority of the Board of Health, as no meeting having been held and no resolution of the board was passed authorizing him to make the application to the chief justice, and that therefore His Honor had no jurisdiction to grant the orders in question.

The matter will be brought before the full bench at the Michaelmas term of the Supreme Court.

REVOLTING CRIME.

Girl at Chicago Criminally Treated by a Physician and Finally Murdered.

THE BEAST AFTERWARDS ATTEMPTED SUICIDE, BUT LIVES TO ANSWER FOR HIS MONSTROUS CRIME.

Chicago, Oct. 7.—(Special)—Dr. Oliver B. Hart, a young physician residing in the suburbs near Roger's Park, is in the custody of the police, pending further investigation into the death of Irene Klokow, ten years old, which occurred yesterday at the residence of the physician.

The girl died in a bed-room of the Hart residence, in which she and the physician had been located for several hours. The opinion of the authorities based on facts disclosed of the inquest is that the girl was maltreated and then poisoned in an attempt to conceal a crime.

After finding it impossible for the child to recover, the physician swallowed morphine and lay in an unconscious condition all night and during the greater part of yesterday. Late yesterday afternoon he partially recovered and was brought to the city and locked up.

The girl was taken about a year ago from an Illinois Industrial Home for girls by Dr. Hart and wife, 'who

described she could serve in a measure as a companion for Mrs. Hart, who is but 17 years of age, and at the same time could do light work about the house.

The police inspector subjected Hart to an exhaustive examination in an effort to secure a statement of the occurrence in the house during the afternoon, but the physician insisted throughout that the girl was not murdered, that he did not harm her, nor he did attempt to commit suicide.

He declared repeatedly that the girl had taken poison by mistake and said that his excitement was caused by the fear that he might be accused of her death.

After finding the girl was dead, he declared he took an injection of morphine to quiet his nerves but took an overdose.

Dr. Lewke the coroner's physician, who examined the body of the girl, declared there was not the slightest doubt that she had been criminally treated.

of Hartford, Conn., left Salmon River at three o'clock yesterday afternoon to get a moose, and at six o'clock they were back again after having seen a big bull go down before Mr. King's rifle. The moose was killed on the property of the Bay Shore Lumber Company.

A hunting party composed of H. B. Gillert and S. W. Small of New York, W. F. Hodgins and S. M. Hodgins of Lambert Lake, Me., and Roy Von Edgerley of Oldtown, Me., returned yesterday from a trip in the New Brunswick woods. They had splendid success, bringing with them as trophies of their skill as hunters four fine moose heads. The finest of the four specimens measures sixty-two inches from tip to tip. The guides employed by the party were Robert McEwen and his two sons of Bathurst. The party was in the woods about two weeks and greatly enjoyed the outing.

Truro, N. S., Oct. 7.—There was a disastrous fire yesterday at Bass River, sweeping out the entire plant, warehouses, and works of the Fossil Flour Company and causing a loss of over \$30,000. The fire caught on a drying machine and spread rapidly, leveling all the buildings in a short time.

There are no particulars as to the insurance. David S. Collins, sole owner, was at the mill at the time of the fire.

This is the enterprise that created much interest at the time it was started some eight years or more ago, by building a pole railway from the mill to the shipping point at Bass River. This railway was largely noticed in the press and pictures of it appeared in leading English magazines. The railway proved a failure and has been abandoned for five years.

The factory turned out two hundred tons of Fossil flour last year, and as the stuff is valuable it means a considerable outlay in operating, which will be missed in Bass River if not rebuilt. Thirty tons of flour were in the warehouse and went up in flames.

BIG GAME NOTES

A telephone message from St. Martins to The Telegraph last night told of the prowess of Ora P. King, M.P. for Sussex, as a hunter, and also of the evident abundance of big game in the woods about Salmon River. Mr. King, accompanied by H. Bristol
