DAILY HERALD.
TUESDAY, OCTOBER 24, 1905.

THE PRINCE'S RECEPTION.

Arrangements for the reception and entertainment of Prince Louis of Battenberg in Fredericton are rapidly taking shape, and the program will give all an opportunity of doing honor to the distinguished admiral of His Majesty's navy.

The civic reception in the afternoon is a happy idea, which His Serene Highness has promptly accepted to be followed by the more formal reception and ball in the parliament buildings in the evening.

A gratifying feature of the Prince's visit to Fredericton is the announcement which he makes to the Lieutenant-Governor, that Prince Alexander of Battenberg, son of Princess Beatrice, nephew of King Edward and grandson of Queen Victoria, will accompany His Serene Highness to this city. The young Prince, who is only seventeen years old is a midshipman, on one of the cruisers now at Halifax, and his presence will add to the interesting functions in honor of the admiral.

THE LOCATION SURVEYS.

An Ottawa despatch to the Telegraph says: "The location survey on the New Brunswick section of the National Transcontinental Railway is expected to keep the surveyors at work throughout the winter. The commissioners are of the opinion that it is better to spend generously on surveys than to fail in locating the line to the best possible advantage."

From the above it is evident that the new surveys will be most thorough, and that when they are completed, the commission and the government will be in a position to make an intelligent decision on the question of routes. The surveying parties will probably be ready to take the field early next week, and it is expected will complete their work before next Spring, so that the assertion of the Herald some weeks ago that the route would not be chosen for some months yet, is likely to prove strictly correct, notwithstanding the Transcript's frequent denials.

FAVORS FILTRATION.

It is gratifying to know, says a New York exchange that the Board of Water Supply of this city have laid it down as a sine qua non, in any future extension of the water supply, that the plans shall include a system of filtration.

The same newspaper adds that there is a growing conviction among sanitary engineers and the boards of water supply of our large cities that filtration is the only sure method of providing a water supply free from pollution, and particularly from the germs of typhoid fever. In cities in which filtration plants have been installed the decrease in typhoid fever has been very marked and immediate. How great is the typhoid peril may be judged from figures recently given by the State Commissioner of Health, who announced a few days ago to several hundred sanitary officers of the various counties of the State that since January 1 there has been the enormous number of 60,000 cases of typhoid fever in this State, and that in Greater New York alone there have been 500 deaths from typhoid during the nine months of the present year.

"Sockless" Jerry Simpson, a New Brunswick who for some years held a seat in the United States Congress, is dead at Wichita, Kansas. He was born in this province March 31, 1842. At 14 he began life as a sailor, and during 23 years following the sea commanded many large vessels on the great lakes. In the civil war he served in the twelfth Illinois infantry. He went to Kansas in 1878. He served three terms in congress. After he left congress in 1899, he had been engaged in stock-farming.

President Roosevelt is visiting the Southern States and taking the people by storm. "A Solid South" is what the Democrats generally count on in a presidential election, but if Roosevelt runs again, his popularity make no important break in the Democratic phalanx. The American newspapers chronicle with detailed minuteness all the incidents of the

president's trip, even mentioning the fact that he went swimming on Sunday after church.

The Orange Sentinel, conservative scolds Premier Whitney of Ontario for accepting a banquet from the French Canadian Conservatives of Montreal.

BITS OF NEWS.

Items of Interest Culled from Our Exchanges and Other Sources.

The first mate of the schooner Minnedosa that foundered in Lake Huron was Trevor Waller, of Charlottetown P. E. I., aged thirty-eight, who left there in the spring to join his ship, Seymour Inman, from Vernon River, was another Prince Edward Islander on board.

In attempting to climb the face of East Rock, near New Haven, Monday, John Tracy, 22 years old, slipped after almost completing his task and fell headlong down the precipice, a distance of 100 feet. He was picked up at the base terribly injured and taken to Grace Hospital, where it is expected that he will die. His head was cut open, several bones were broken and he is internally injured.

About 10.30 o'clock Sunday night the Catholic church at Grand Anse was discovered to be on fire. At the time most of the people had retired and before assistance could be got the fire had spread to the Presbytery and barns, completely destroying them. Nothing was saved from the church and very little from the house, and only the horse from the barn. The cause of the fire is unknown. Loss, seventeen thousand dollars; small insurance.

Four men were badly wounded in a serious fight between the officers and crew of the lumber schooner Ida B. Gibson of Seaford, De., and afterwards between Milton Cardery, the cook of the Gibson, and the police at New York, Monday. For an hour about daybreak, the cook, armed with a breech-loading shotgun, stood off the police and wounded a detective and night watchman. The detective is now in the hospital with a heavy charge of buckshot in his side.

E. L. Simmers, a special policeman of the Philadelphia & Reading railroad, had a thrilling fight with eight tramps on top of a freight train running 30 miles an hour Saturday afternoon. A robbery had been reported and Simmers ordered them to turn out their pockets. The leader tried to throw Simmers off the train. Simmers knocked him senseless, drove the rest back at the point of a revolver and kept them covered until Snyderstown was reached, where four were captured and the others escaped.

The Hamburg-American Packet Company's steamer Euphemia, Capt. Vosse, en route from Montreal with a general cargo for Hamburg, collided with the Norwegian steamer Tordenskjold, under charter of the Dominion Coal Company, off St. Antoine, about thirty miles west of Quebec, Monday morning at 1 o'clock. Both steamers immediately put back to Quebec unassisted, and the Euphemia entered the Louise Basin with her stern carried away and a large hole in her bow above the water line. The Tordenskjold is lying at anchor in the stream with the forward part of her starboard side stove in and her No. 1 compartment full of water.

STAR COURSE OPENING.

Reserve Seat Plan to Open at McMurray's Monday Morning, Oct. 30th.

The most novel, entertaining and instructive and cheapest series of entertainments ever offered in Fredericton will be those of the Spencer Star Course, which will, during the coming season provide entertainment for many hundreds of our citizens. Those who have procured their course tickets will be glad to learn that the reserved seats go on sale at McMurray's next Monday morning, Oct. 30th.

Those who have not as yet secured the season ticket which sells for but one dollar, have not much time to spare in reference to the matter. This ticket or book of tickets, as it really contains five coupons, each admitting to an entertainment, costs but \$1. and admits without an additional charge to all save reserved seats. The reserved seats cost 25 cents extra to those who hold subscribers tickets, and are 75 cents to non-subscribers.

The Y. M. C. A. members are now pushing the canvas of tickets thoroughly, and they hope to have the house sold out for the season before the first entertainment, as is the case in Calais, Amherst, St. John and several other places where the same course is being held. Course tickets are now on sale at McMurray's and will be until the first entertainment, if they are not all disposed of before that time.—d.

NEW BRIDGE OPENED.

Miramichi Politicians with Chief Commissioner Joined in the Ceremony.

Chatham, N. B., Oct. 23.—A very large number attended the formal opening of the new steel bridge at French Fort Cove yesterday afternoon.

Among the speakers were Mayor Miller, Newcastle; Mayor Nicol, Chatham; P. J. Hennessey, ex-alderman, Newcastle; Allan Ritchie, ex-alderman, Newcastle; Alderman Snowball, Chatham; Alderman Morris, Chatham; Donald Morrison, M. P. P.

John Morrissey, M. P. P., W. S. Loggie, M. P., Robert Murray, M. P. P., Premier Tweedie and Hon. Chas. LaBrosse, chief commissioner of public works, who declared the bridge opened to the public. The Newcastle band was present and played at intervals.

The bridge was built and erected by Charles D. Ruddock, proprietor of the Miramichi Foundry and Machine Works, Chatham (N. B.). All the materials used except the steel was found on the Miramichi and only Miramichi workmen were employed.

There are large substantial stone approaches on both sides of the bridge, having a span of steel between them 702 feet long. At various points along the span the structure is supported by steel uprights resting on stone piers. The height of the bridge from the water is from 50 to 53 feet. There is a 17 feet clear roadway across the bridge and a steel railing four feet three inches high on both sides; a new road of from 14 to two miles in length has been built.

The alteration in the highway will be of great convenience to the travelling public and will shorten the road on the north side of the river between Chatham and Newcastle about three-quarters of a mile cutting out two very rough and steep hills. To a loaded team it means a saving of about an hour's hauling.

The government is to be commended for its wisdom and knowledge of development and needs of the country indicated by the building of such a handsome and substantial structure. The public always had an objection to traveling on the north side of the river on account of the steep hills at French Fort Cove which have now been cut out of the highway.

QUINCES.

G. T. Whelpley is offering fancy American quinces today.—
