Wine of Tar Honey and Wild Cherry

A Lubricant to the Throat.
A Tonic to the Vocal Chords.

The Baird Co, Ltd. Gentlemen.—We can always depend upon your WINE OF TAR, HONEY AND WILD CHERRY. It is always the same
THOS. P. TRUEMAN.

THE DAIRY SCHOOL.

Twelfth Session to be Held at Sussex,

Under Direction of Hon. L. P. Farris, Commissioner for Agriculture.

The creamery course will begin on Tuesday, Feb. 28th, and close March 10th, 1905.

The cheese course will begin March 13th, and close March 23rd, 1905.

The creamery course is intended especially for butter-makers and their assistants, and will comprise practical instruction in cream separation, butter making, milk-testing, preparation and use of starters, factory records and accounts, care and management of engines and boilers, also the breeding, feeding and management of dairy cattle.

Special attention will be given this season to instruction in making export saltless butter and the operation of combined churns and workers. The school is equipped with the leading makes of cream separators and the most improved style of churns, which will place it on a par with any up-to-date school of its kind.

All cheese makers and their assistants should take the cheese course, which comprises theoretical and practical instruction in cheese making, milk testing, factory records and accounts, care and management of boilers, factory machinery and utensils, together with the breeding, feeding and management of dairy cattle and the manufacture of cheese boxes. Before entering either of these courses, students are advised to spend at least one season in a cheese factory or creamery, as we do not consider students who have had no practical experience previous to attending the school competent to manage either.

The teaching will be free to all students from the maritime provinces.

Certificates of standing will be given to those who pass all prescribed written and practical examinations and manage a creamery or cheese factory successfully for one season after taking the course.

The number of pupils for either course is limited to thirty.

For admission to the school the applicant must be of at least seventeen years of age and have a common school education. All students will be required to have two suits of workroom uniforms consisting of overalls, jackets and caps of white duck, to be had in the town at a cost of $1.50 to $2.00 per suit.

The application for admission to the school shall be made upon a blank, a copy of which will be sent on demand, in which the pupil will state how long he has been working either as a maker or a helper.

All applications should be sent in as soon as possible, addressed to Superintendent of the Dairy School, Sussex, N. B.

The students will have in the school, study and working rooms at their service, but they must sleep and board outside at their own expense.

In the immediate neighborhood of the school, board can be had at from $2.50 to $4.00 per week.

A deposit of $2.00 will be required of all students to cover possible breakage. This sum, if not required for breakage, will be refunded at the end of the course.

L. P. FARRIS,
Com. for Agriculture.

Fredericton, Feb. 10.

A BLOATED STOMACH.

Distension and pains from indigestion are cured quickly by Nerviline. When you get an attack of stomach trouble take a stiff dose of Nerviline, which is perfectly harmless but marvellously quick in effecting a lasting cure. "I was once taken ill with stomach trouble," writes Edward Rowell, of Rochester. "I was in great pain and distress but half a teaspoonful of Nerviline fixed me up in a few minutes. I can recommend Nerviline for sick headache and cramps and consider it an invaluable household remedy. Price 25c.

Tay Settlement.

((Special Correspondence to the Herald.)

Gibson's Camp,
Grand John, Feb. 6, 1905.

As we are all done yarding I thought I would let you know how we are hauling them in. We have five teams hauling and one on the water tank. The leading team is driven by Judson Arnold and he is the boy to put on the logs. Then we have Sam Arnold, Sandy Arnold, Prescot McDowell and the famous Nat driving the other teams. It would be hard to get a lot of teamsters to do any more work than they do.

Rev. A. D. MacLeod paid us a visit recently. He had his phonograph with him and gave us some fine music.

A party of young ladies and gentlemen from the settlement called on us one evening and we had a nice time in playing games and in singing. Our cook, Mr. Higgins, waited on them in fine shape.

Mr. Titus and his son Wallace, lumber scalers, gave us a call recently.

It keeps our boss, Mr. Bruce, busy keeping the sleds repaired. He is the right man for the job

Mr. Donnison, our counter, is out early and late, as it is a long way to the landing four miles; then our road monkeys, the Higgins boys, are kept busy keeping the roads fixed up. Harry Arnold is driving the team on the water cart and has Edward Higgins to go with him. They haul a lot of water in a day, as the tank holds about 40 barrels of water. I must say that our cookee keeps the boys in music evenings, playing on the accordeon.

The Widow's Cap.

A very ancient origin, dating back to the time of the old Egyptians, has the widow's cap. The Greeks borrowed from the latter the custom of shaving the head and beard in time of mourning. The Romans copied, but, being a smooth shaven people, had only the head upon which to operate. This, when shaved, they covered with a wig. The women did not necessarily shave their heads, but they were careful to hide their hair beneath a cap. The use of crape upon the arm is a naval and military emblem of bereavement, come down to us from days of chivalry, when ladies fair bound scarfs upon the arms of their champions as they went to test their skill and courage in the tournament.

Right Doing.

One's rightful work is often halted by fear of what others will say about it. This may be even more a barrier to the work than the fear of not doing the work at all. It takes courage to do what we believe we ought to do when we think we shall be criticised or misunderstood or scorned. But the real calamity lies in not doing what we ought. Of this it is well to have so strong a fear that we shall have courage to face whatever others may say of our right doing.

Easy Language to Learn.

Mr. George Wyndham, M. P., in his Glasgow address as rector of the university alluded to the story that the Scots who founded the kingdom of Dalriada killed all the men and women who were Picts and spoke their non-Aryan language. "I know that only five words of the Pictish tongue remain," he said. "In an examination which allowed to candidates a free choice from all languages I should select the Pictish language. It can be mastered in one minute."

Those who pray most for each other will generally do most for each other.

Afflicted with Erysipelas For Ten Years.

Cured by Four Bottles of Burdock Blood Bitters.

Mrs. N. Peister, of Brighton, Ont., was Cured Two Years Ago and Has Had No Return Of It Since.

Read what she says:—"It is now about two years since I was cured of a terrible attack of Erysipelas, with which I had been afflicted for about ten years. I had tried almost everything, including medicine from several doctors, but could get no relief. I had given my case up as hopeless, but I procured five bottles of Burdock Blood Bitters, and it completely cured me. In fact, the cure has been permanent. It is now two years since I took Burdock Blood Bitters, and I have not had the slightest sign of the disease returning. I fully believe that your wonderful remedy has taken it so completely out of my system that I shall never be bothered again with it. I have the greatest of faith in Burdock Blood Bitters."
