

That was a Cold Trick of the Weather Man

To so suddenly turn off the heat from us. You can't depend upon him at this time of year. The supply of heat is now about exhausted for the season, and from now out the weather will be served up cold.

Underwear, Good Warm Woolen Underwear

Is what is wanted now on a man to make him feel warm and comfortable, and we have certainly a fine stock this Fall. The best mills in Canada have made it for us. We couldn't get any better, no matter where we might try. Any kind you want we have it for you, from 50c to \$5.00, all sizes. You'll have satisfaction with your Underwear if you get it from us, because there is none better.

THE ANGLICAN SYNOD.

Turned Down Proposal to Establish Permanent Diaconate—Generous Donation to Missions.

Quebec, Sept. 14.—Yesterday the Anglican Synod was pretty well occupied with the discussion of the proposal introduced by Charles Jenkins, providing for a permanent diaconate. Under its provisions certain persons could be recommended by a congregation to the bishop to be ordained deacon, and these persons would not be advanced to the priesthood excepting in exceptional cases. Nor would they be called upon to give up their worldly callings. Rev. Prof. Clark supported the resolution, particularly emphasizing the assistance a deacon would be to the priest in assisting at the holy communion in a way that a lay reader could not. Among the strongest speeches in opposition to the resolution was one by Rev. Dr. Scott of Quebec, who claimed that the church had now all the machinery necessary if it would make use of it. He did not see how

there could be two grades of deacons. Either a man was in holy orders or he was not.

Canon Crawford and Dr. Davidson both spoke against the resolution, which was supported by Judge MacDonald, Judge Ermentinger, and others.

Rev. Mr. Lloyd, formerly of St. John, now of the west, approved heartily of the canon and thought that its passage would aid the church in the Northwest.

Mr. Hoyle also supported the motion, which was, however, defeated by an adverse majority of fifty to thirty-five. Several of the clergy from the Northwest spoke against the resolution, indicating that the West was not unanimous on the question.

During the afternoon session a letter written by Geo. C. Thomas, treasurer of the American Church, who was one of the delegates from that

church to the Synod here to the bishop of Quebec, was read, in which he enclosed a check for five hundred dollars, to be devoted to the mission work of the church. In the course of his letter Mr. Thomas congratulated the church in Canada on the stand it had taken against divorce, and said that its action would help the church in the United States.

A cordial vote of thanks was passed to Mr. Thomas for his generosity and his kind sentiments.

In the evening the question of Christian unity came up. Among the speakers was Rev. Mr. Lewis of Toronto, who claimed that the Congregationalists, Presbyterians and Methodists were discussing Christian union and that they showed no disposition to unite with the Church of England. He did not think any such union was practical at present. Judge McDonald, who had made the motion that the committee on Christian union be continued, spoke of the pleasing conferences the committee had with the committees of other Christian bodies and thought that by continuing in this work steps towards Christian union would be taken. He hoped the motion, which met with the thorough approval of the house of bishops, would be passed without opposition.

The motion was then carried unanimously, Dr. Langtry seconding it. The subject of beneficiary fund was taken up on a proposition for reciprocal arrangements between dioceses so that a clergyman who has been for a number of years paying into the beneficiary fund of one may receive credit for the years he has paid in when he removes to another.

THE GREATEST YET.

Preparations Almost Complete for the Big Fair Next Week.

Preparations for the big exhibition next week are going on splendidly, and with fine weather it will undoubtedly put in the shade any fair held here in previous years. The entries close on Monday, and already the list is larger than that of the very successful show held here in 1903. Nearly every department is filled up, and the committees have been compelled to provide additional accommodation. The poultry shed has been enlarged by thirty feet and many extra stalls have been provided for horses, cattle and sheep.

The several committees are hard to work and are leaving nothing undone to make the show a grand success. The special attractions of this year promise to eclipse anything ever shown at an exhibition in the maritime provinces. Twice daily there will be free exhibitions by Diavolo, the wonderful loop-the-loop bicycle, and also by Prof. Leondo, who mounted on a bicycle, leaps a thirty-five foot chasm.

Mr. J. F. Burke, of New York, manager for Diavolo and Leondo, arrived yesterday with the apparatus and will start a crew of men to work tomorrow setting it up on the exhibition grounds. He says that Fredericton has an exclusive contract with him in the maritime provinces.

Secretary Hooper is attending the exhibition at Halifax this week in search of information and is expected home on Saturday. Mr. A. D. Macpherson is looking after the clerical work in his absence.

Mr. C. H. Thomas, chairman of publicity, says that the exhibition has been well advertised and he looks for a record breaking attendance.

THE BIG STORM.

Big Rise of Water Reported at Grand Falls and Boiestown.

The heavy rain storm of yesterday the most severe experienced here this season, slackened up about 9 o'clock in the evening. The wind shifted around to the northwest, and increased in strength during the night until it had almost developed into a gale. This morning dawned bright and clear, but a chilly wind prevails, which is apt to remind people that the autumn season is at hand.

The water in the river at this point is so low at the present time, that a slight rise or fall can scarcely be distinguished from the variations of the tide. It is likely, however, that the river has risen about three inches since yesterday, and a rise of several feet during the next few days would occasion no surprise. Indeed, lumbermen are quite confident that such a rise will take place, and this view is strengthened by advances from up river points. The storm was general all along the river, and this morning it was reported that there had been a two foot rise of water at Grand Falls during the night. At Woodstock the river rose seven inches, and is rising to-day at about the same rate.

The Southwest Miramichi river at Boiestown, has already risen two feet since the storm and is still coming up.

Lumbermen are much elated over the change in the weather, and are confident that driving operations can now be resumed, and that there will be no difficulty in bringing out the stranded lumber.

ROBBED OF \$300.

Wm Kennedy Loses His Hard Earned Savings of Two Years.

Wm. Kennedy, quartermaster on the steamer Prince Rupert, lying between St. John and Digby, stands to lose \$300, the amount of two years' careful saving, unless the efforts of Detective Killen meet with success.

Mr. Kennedy had given the man-

agement notice on Monday afternoon of his intention to leave, and his time was finished on Tuesday afternoon, as a 24 hours' notice is sufficient. He brought the money on board with him on Monday, drawing the amount from the bank, where he had it to his credit. He placed the money in a wallet and secreted both in the mattress in his berth. This is in the forward part of the vessel and communicates with the other men's quarters.

He worked Monday night in loading freight from nine to eleven o'clock, and made the return trip to Digby the next day. He did not look for his money till Tuesday afternoon about 5 o'clock, when he considered himself free and prepared to take his things ashore.

He ran his hand under the mattress where he had left the wallet, but found nothing. A close search failed to reveal it, and it was evident the wallet and money had been taken out of the berth. He at once told the officers of the loss, and Detective Killen was informed of the robbery.

As Mr. Kennedy had left the money in the berth for 24 hours without once looking at it, many chances were given the thief to get in his work undetected.

There is no one suspected of the offence, though as a matter of coincidence it might be noted that one of the deck hands left the same day. Kennedy belongs to Newfoundland.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For the great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Lying near the door of her bedroom, where she had been overtaken in her effort to escape, the charred body of Mrs. Beal, sixty-three years of age, was found early Wednesday morning at Toronto, after the alarm of fire had been given by Miss Taylor, the only other occupant of the house, at 49 Shannon street. The exact cause of the fire and the time it broke out are unknown. It is certain, however, that it originated from a lamp by which the aged lady was in the habit of reading her Bible each night. Miss Taylor had been awakened some time afterwards by the crackling of fire, but the other woman was dead.

WEATHER PROBS.

The weather probs today say: West to north winds, fine and cool today and on Friday. Light local frosts.

INTERCOLONIAL RAILWAY

On and after Sunday, June 4th, 1905 trains will run daily (Sundays excepted), as follows:
