

HELP WILL BE WELCOME.

Bulk of Western Wheat Not Yet Ready.

HARVEST WILL BE AT ITS HEIGHT AT THE END OF NEXT WEEK—ALL REPORTS SAY IT WILL BE THE GREATEST IN THE HISTORY OF THE COUNTRY.

Winnipeg, Aug. 25.—The weekly crop bulletin of the Canadian Northern Railway, which will be issued tomorrow, contains reports of the commencement of the wheat harvest in some localities, and shows that the harvest will be general throughout the country within a week or ten days. The grain is maturing splendidly, and there has been no damage from any cause. The yield will run from twenty to thirty-five bushels per acre, and is probably the heaviest general yield in the history of the country. The company are preparing to handle a big grain traffic this fall.

The Canadian Northern Railway Company will have considerable new mileage available for the wheat traffic this week. This will include the Wakopa extension, the Rosburn extension, the Brandon short line, the Prince Albert line, and the extension from Hartney to Virden, providing the company receive permission to cross the Canadian Pacific at Hartney in time. The Edmonton line will also be available for grain traffic as far west as Vermilion.

About one thousand harvesters arrived from the Maritime Provinces today.

Regina, Aug. 23.—The Northwest Grain Dealers' special train returned here last night from a run over the Arcola branch and on the Kirkella

branch to Tipton. During this trip the excursionists viewed a large section of the best wheat lands of the Territories, and they are unanimously of the opinion that the crop is the heaviest ever known.

A Globe representative saw J. R. C. Honeyman, Deputy Commissioner of Agriculture for the Territories, who accompanied the excursion, and he was asked if there was any ground for the impression that is stated to be gaining ground in the east that the harvesters arriving in September would be too late. "There is no ground whatever for such an idea," said Mr. Honeyman. "While it is true that under the exceptionally favorable weather experienced lately ripening has been greatly hastened, so that some of the crops in the lighter lands are now ready for the binder, yet by far the greater proportion, including the best of the crop, will hardly be ready to cut before the end of next week. We want all the help we can get, and more, too, as the work of cutting, stacking and thrashing will be exceptionally heavy and take a long time. The harvesters, however, will this year have the advantage of not having to hang around the towns waiting for a job, as some of them had to do last year. They will be snapped up quickly, and likely at good wages.

sent to St. John, and early in the morning the citizens generally turned out to search the surrounding country. At two-thirty in the afternoon two of the seekers found her on the road leading to Milltown. She was taken to her home and last night was resting easy.

Mrs. Whitlock has far some time been in poor health and has been under the care of a nurse. While the nurse was absent Tuesday evening she left her home, accompanied by a young girl who lives with her, and whom she left some distance back of the town.

Dr. Blair, who is attending Mrs. Whitlock, said last evening that he did not fear any serious consequences. Mrs. Whitlock, who is a lady of sterling qualities, was formerly Miss Sisson of Fredericton.

PRINCE AT OTTAWA.

His Serene Highness of Battenberg Given Rousing Reception at Capital.

Ottawa, Aug. 24.—Prince Louis of Battenberg and his blue jackets and marines have firmly established themselves in the affections of the people of Ottawa. His serene highness was cheered everywhere he appeared today while the march through the streets of "The Hardy Men" and of the red and blue marines was a triumphal procession.

Prince Louis arrived this morning at 11.15. He wore a cocked hat and tunic and the regulation white trousers of the British navy. There was a respectable crowd at the station who doffed their hats and cheered heartily, to which greeting the admiral responded with a kindly salute.

Sir Wilfrid Laurier, Sir Frederick Borden, Mr. Fielding and Mr. Fisher and several officers in gold laced uniforms met the prince on the platform. The prime minister having met his serene highness before at Quebec had a friendly hand shake and introduced his colleagues.

A few minutes were spent in conversation and then the prince drove to Rideau Hall. Soon after 1 o'clock the admiral was the guest of the Canadian Club at the Russell House. W. L. MacKenzie King, the president, occupied the chair and among those present were the prime minister, Sir Frederick Borden, Messrs. Fisher, Fielding, Paterson, Munro, and Broderick, Sir Henri Taschereau, General Lake, General Aylmer, Colonel Hanbury Williams and Flag Lieutenant Sowerby. Mr. King's speech in proposing the health of the guest was eloquent and felicitous; so much so that he won a tribute from the admiral himself.

Prince Louis spoke briefly, expressing appreciation of the kind welcome.

Immediately after the luncheon his serene highness was conducted to the city hall where an address of welcome, amid the plaudits of a crowd of onlookers, was read by Acting Mayor Black.

Prince Louis read his reply which contained references to Ottawa's fine public buildings and to the hospitality of Canadians to the King's sailors. "For one hundred years," he said, "the navy has had before it the signal which Nelson made to this fleet on the last day of his life and to which you refer. The King's subjects throughout the empire, whatever their race, creed, or language may rely that the navy will, should the necessity arise, act up to this injunction and do its duty by them all, and thus insure the safety and tranquility of every fraction of the earth over which the Union Jack flies."

Tonight the chief justice of the supreme court gave a dinner in honor of Prince Louis. This afternoon, 301 officers and men of the cruiser squadron arrived on a three day's visit to the capital. They were cheered by the band of the 43rd regiment and by the King's men in the crowded streets to their camp on Cartier square.

CIVIC IMPROVEMENT.

To the Editor of the Herald: Sir.—The importance of keeping the work and needs of the Local Improvement Association constantly before the public so that enthusiasm may not be allowed to flag has often been written in your columns, and for which the society owe you their thanks.

I think the Association should go farther. It might put up what they have done, and what they would like to do if means were placed in their hands; and also call attention to the individual instances of improvement about the city, and suggestions for others; also ask citizens to contribute articles to the press on subjects like these—"Our Duty as Citizens," "The Sidewalk Question," "Trimming of Trees" &c. &c.

Fredericton can boast of some fine trees, some beautiful trees, and we should do all in our power to protect them. It will pay in the future and well worth our while to protect and is well worth our while to protect need is to prevent their further mutilation by the wire-men, for during the last few years some of the most beautiful trees have been ruined and cut back to make room for the telegraph or telephone wires almost to a point of ruin.

All this is in direct violation of the peoples' rights, the trees should be protected the same as private property.

The city's interest should be guarded and the citizens should be wide awake to the necessity of its improvement in every way, and it is unquestionably a good sign when you see its foremost men are found to be giving their time and money to the subject, which is of so much vital interest to everyone.

It will be a glorious day for us when Fredericton becomes to be recognized as a beautiful city and at-

A Young Lady Transformed!

All the charm of Girlhood restored.

This is only one of hundreds of cases in which "Fruit-a-tives" changed Pale, Sallow Skin into the Rosy Bloom of Health.

Too many women have sallow skin—bad complexions—dark circles under the eyes—headaches—backaches—sick stomachs.

Too few women have the robust health and rosy bloom of girlhood—that "Fruit-a-tives" preserve.

Some women don't realize how surely Constipation undermines the health and brings premature old age.

The intestines do two things—give up nourishment to the blood—and carry off waste matter.

But—if Constipation keeps the waste IN the intestines, the blood takes up poison instead of nutriment.

It is this waste—carried all over the system by the blood—that causes Heartburn, Sour Stomach, Indigestion, Bad Breath, Headaches, Backaches, Sallow Skin, Pimples, Paleness and Thinness.

The woman who wants

- a fine complexion
- to be free of headaches and backaches
- to eat well, sleep well and look well
- to feel well ALL THE TIME

can have her wish if she takes "Fruit-a-tives."

Miss Jamison tells how she found the happiness of health in

Fruit-a-tives
or Fruit Liver Tablets.

Masson, P.Q., Nov. 15th, 1904.
Fruit-a-tives Limited,
Ottawa, Ont.

Gentlemen—
I have much pleasure in reporting to you the great benefit I have received from taking "Fruit-a-tives"—and I feel that I cannot say too much in favor of a medicine which has done me so much good. I was a martyr to that distressing complaint, Chronic Constipation, accompanied by severe headaches, backache, sick stomach and all the symptoms of dyspepsia. I had also a dreadful complexion, sallow in the extreme and black under the eyes. I had every symptom of kidney irritation and I had been told by physicians that my kidneys were affected. I consulted a number of physicians and took various remedies but received very little benefit. Last May I was advised to try "Fruit-a-tives" and when I began to take them I had little faith of getting anything to give me permanent relief, but after I had taken half a box the constipation was relieved, the headaches left me, the pain in my back was better and I could sleep as soundly as when I was a child. Also, my complexion began to clear up again, all the sallowness disappeared

and the black circles under my eyes went away. The pain in the back gradually left me and all signs of kidney disease disappeared by the first of August after I had taken three boxes. Since then I have continued to improve and now I have none of my old symptoms and my appetite is good, digestion splendid and my complexion as clear as when I was a young girl. Also the constipation from which I had suffered so long has been entirely cured and it is not necessary for me to take the "Fruit-a-tives" now as I am quite well in every way. I took no medicine but "Fruit-a-tives" but I followed faithfully the directions as to diet etc. given in the pamphlet which accompanies each box of "Fruit-a-tives."

To all persons suffering from constipation and indigestion, headache and backache, and particularly those with sallow complexions, I would strongly recommend them to try "Fruit-a-tives" and faithfully carry out the directions in the pamphlet, and I feel certain they will find this medicine simply marvelous. I might also say that the action of "Fruit-a-tives" is very mild and non-irritating, no griping is felt and the stomach is sweetened by taking them.

[Signed] FLORENCE JAMISON.

"Fruit-a-tives" are NOT cathartics.

They contain NO calomel, jalap, cascara, "oil," or "sals."

"Fruit-a-tives" are fruit juices in tablet form.

They are a discovery that deserves to rank with anaesthetics and vaccine.

"Fruit-a-tives" are a tonic for the bowels. They tone up the intestines, make them move regularly and naturally.

Manufactured by FRUIT-A-TIVES LIMITED, OTTAWA.

"Fruit-a-tives" cure Constipation just as surely as chloroform deadens pain.

If you are suspicious of your health, don't wait for proof and sickness. Take "Fruit-a-tives."

All druggists have these health preserving, pleasant tasting fruit tablets.

See a box—and worth ten times so, to any woman who wants to enjoy the luxury of perfect health.

target visitors for that reason alone.

Public sentiment may be depended upon to back up so promising a movement, but it must be afforded every possible opportunity for education.

There has been a great interest in maintaining neatness of public and private property since the society was organized. This is encouraging.

Yours truly,

C. T. Fredericton, N. B., Aug. 24th, 1905.

NO LOVE LOST.

London, Aug. 24.—The Berlin correspondent of the World says that great tension exists between the courts of Berlin and St. James, or so, at least, the inspired portion of the German press declares, and although it is notorious that representatives of the German press are not received at court there is no reason to suppose that their information and the Emperor William. Complaint is made that the Emperor has been repeatedly cut by his royal Hohenzollern during the Mediterranean Gibraltar several hours before the Hohenzollern arrived with the Kaiser, fresh from his visit to Tangier.

It is stated that King Edward owes his nephew a visit in Berlin and that until that visit has been paid there can be no question of the restoration of friendly relations between Germany and Great Britain.

King Edward offered to pay a visit to the Emperor in Berlin early last year, but the date suggested did not fit in with the dispositions monarch then consented to attend the Kiel festivities, and his presence at the German naval port last year was regarded by everyone at the time as equivalent to a formal visit to Berlin.

The German Empress is further said to be deeply incensed because Queen Alexandra has not thought fit to visit her in the German capital. She thinks that as she has been Empress longer than Alexandra has been a Queen it is the duty of the latter to take the initiative in the matter of a visit.

In washing woollens and flannels, Lever's Dry Soap (a powder) will be found very satisfactory.

THE WORLD OVER
Thousands of Mothers
are using
DR. CODERRE'S
INFANTS' SYRUP

For Children's ailments, you cannot but admit the fact that this preparation is one of merit and is all that is claimed for it. It is safe, pleasant and soothing for children teething, and a prompt checker of bowel and stomach troubles.

Physicians and Professional nurses recommend it.

In purchasing, see that Dr. Coderre's signature and portrait is on every wrapper. Beware of the many SYRUPS put up in a similar form and made to look like Dr. Coderre's.

Price, 25cts. per bottle, or by mail on receipt of price.

ENGINEERS' CAMP.

Practical Work Being Performed by the Scientific Arm of the Militia.

Quebec, Aug. 25.—The first encampment of Canadian engineers, under command of Lieut.-Col. Paul Weatherbe, of the headquarters staff, is Ottawa, is now being held at the old Engineers' Camp at St. Joseph de Levis. The various corps of engineers went under canvas a week ago and, all told, there are seven officers and eighty non-commissioned officers and men, from Toronto, London, Kingston, Ottawa and St. John's, P. Q. The commanding officer, Lieut.-Col. Weatherbe, are: Capt. Houlston, Ottawa; Lieut. Lindsay, Kingston; Lieut. Stuart, London; Lieut. Hughes, Toronto; Lieut. Benoit, St. John's, P. Q.; and Lieut. Bogart, acting adjutant.

The engineers have done a lot of practical work since they went into camp, digging trenches, making bridges, laying mines and learning the art of handling detonating explosives, including cordite. Under instructions from Lieut.-Col. Weatherbe and officers they have also practised how to lay field telephones as in active service, and have stretched wires for eight miles from camp headquarters over the fields. This is the first time in the history of the Canadian militia that field telephones have been laid. The wires are attached to a tent which communicates with headquarters and Lieut.-Col. Weatherbe can call up the orderly in charge at any hour of the day and find out what they are doing and how far advanced they are in their work without going to take observations in person. The men, who will remain in camp until the fifteenth of September, are comfortably situated and content. As soon as the weather gets cooler, they will move from under canvas into wooden buildings, at present occupied by the Royal Garrison artillery, who will, however, vacate the same and return to the Quebec Citadel.

KEEP THE BOWELS REGULAR.

If your bowels didn't move for a week you would be prostrated. If more than one day goes by you become languid, blood gets bad, breath horribly offensive, you feel sick all over. To remedy this take Dr. Hamilton's Pills which regulate the bowels and cure constipation. Taken at night you are well by morning. They purify and cleanse the system, prevent headache, biliousness and sick stomach. Prompt and certain are Dr. Hamilton's Pills of Mandrake and Butternut, 25c. per box or five for \$1.00 at all dealers.

HOW TO OVERCOME INSOMNIA.

When the mind is crowded with unwanted cares and thoughts, even an ordinarily sound sleeper becomes wakeful just at the time when most needing rest. Then the brain teems with things to be remembered and fear of forgetting makes one broad awake. A simple practice soon overcomes that sort of insomnia. Every night before going to bed have a candle and matches with a pad and pencil on a table beside the bed. Every time you wake with a good idea, or a thought of something that must be remembered, light the candle and write it down. This relieves the mind and you can go to sleep feeling assured that you have captured, and can have, the thought when you wake in the morning to transfer to the invaluable notebook. Never crowd your notebook's pages. Space everything so that when looking for a memorandum your eye will quickly light upon it. A closely written note-

DON'T FOR BOYS AND GIRLS.

Don't flaunt your worldly possessions and social prestige before poor children who are forced to live humbly. Remember that they would occupy better positions were it in their power to do so.

Don't laugh at the misfortune of others, nor turn to ridicule another child's staidness. Dullness of intellect is a curse of birth and the child so handicapped should rouse your deepest sympathy and receive from you any assistance it is possible for you to render.

Don't make light of another's disgraces. The child who must go through life with a hairy or crossed eyes is truly an object of pity.

Don't destroy life wantonly. Kill no harmless bird, insect or animal for the mere pleasure (?) of taking life. Cruel boys and girls are disliked by their fellows, and grow up to be unsuccessful men and women.

Don't mistake arrogance of manner and loudness of speech for ease and independence. Those who trust themselves on the attention of the public belong to the vulgar.

Don't think it smart to "show off." That sort of conduct is excusable only in the monkey.

Don't think you know more than your elders do. They have gone over the same road you are now traveling and know all its pitfalls.

NOT SLEEPING WELL.

Without sleep there can be no bodily or mental vigor, consequently sleeplessness is a dangerous condition. Nothing so surely restores sleep as Ferrozone; it's harmless—just a nourishing, strengthening tonic. Ferrozone vitalizes every part of the body, makes the nerves hardy, completely rebuilds the system. The cause of sleeplessness is removed—you can work, eat, sleep—feel like new after using Ferrozone. Don't put off—Ferrozone costs 50c. per box at all dealers; get it today.

A LADY'S DISAPPEARANCE.

Gave Much Concern to Her Family and Friends—Here Whereabouts Finally Discovered.

At three o'clock Wednesday morning J. T. Whitlock of St. Stephen, who was in St. John attending the meeting of the Masonic Grand Lodge, received a telegram asking him to return by the morning train. He did so accompanied by his friend, George J. Clarke, M. P., to whom the reason for the summons had been communicated.

Early in the morning it had become known throughout the town of St. Stephen that Mrs. Whitlock was missing from her home. On Tuesday evening at eight o'clock she went out for a short walk. As she did not return at the time expected search was made for her. This was continued until late, when the message was
