DAILY HERALD.

SATURDAY, AUGUST 26 1905.

THE EXHIBITION.

Everybody is beginning to talk of Fredericton's big exhibition which opens on Sept. 21st, and continues for six days and of the horse races to be run off during that time.

The exhibition managers are offering \$10,000 in premiums and have reason to anticipate an enormous attendance of exhibitors and spectators. The show is well advertised, and is the only one being held this year in New Brunswick, so that prospects for a grand success seem assured.

The managers are providing special features which are sure to be popular and the horse races will attract many hundreds of sporting men. The race premiums amount to \$1800 and a fine field of horses is promised. All features of the show are in excellent hands and Fredericton no doubt will be crowded with visitors.

A WISE COURSE.

There is no need of hurry in the appointment of a civic tax commission, and the council very properly decided to further consider the matter before naming the personnel of the commission.

While no objection can be properly taken to the gentlemen proposed by the majority of the finance committee, there is a strong feeling that the real estate interests should be well represented on the commission, and perhaps delay in the appointment may solve the difficulty.

There are plenty of people enquiring what's it all about anyhow, and whence came the demand for the appointment of the commission. They believe that while the present assessment law is inequitable in many respects, bearing especially hard on income men, a more reasonable application of it would cure many hardships and make the law more acceptable to the people.

TRIBUTE TO GIEBORN BULYEA

The Winnipeg Free Press pays this tribute to Hon. G. H. V. Bulyea, the talented New Brunswicker who has been appointed governor of the new province of Alberta:

"The honor of representing the Crown as Lieutenant Governor, is one that by general consent is well deserved by Hon. G. H. V. Bulyea, who throughout his career in the public life of the northwest, has served the country ably and honorably. His record is one of useful public service faithfully done. There could be no more representative man chosen, nor any more intimately acquainted with the West, and in closer touch with Western opinion and sentiment. Mr. Bulyea has the respect and esteem of all classes, and deservedly so. His appointment is one that is regarded with general approval and satisfaction."

THE STRENUOUS PRESIDENT.

President Roosevelt had a new and rather startling experience yesterday—voluntary to be sure—but none the less startling for that. He went on board a submarine boat at Oyster Bay, and spent fifty minutes on the bottom of the Long Island Sound seeing how the machine worked.

There is nothing too strenuous or exciting for Roosevelt, but it may be a serious question whether the head of a great nation should so expose himself to personal danger. It is safer hunting mountain lions in the western wilds, than fooling with a submarine, and Roosevelt has done both.

Some day he will take a trip in an air ship, and nobody will be surprised at even that.

The Toronto Globe pertinently observes that if President Roosevelt is doing all that American correspondents at Portsmouth, N. H., credit him with, the Russian and Japanese envoys need waste no more time in futile discussions concerning peace terms. They might just as well take a holiday while the president engrosses an agreement to which they will attach their signatures.

The city council has taken another forward step towards securing a system of sewerage, by employing Mr. F. A. Barbour, C. E., to prepare plans and specifications showing the cost of an adequate system, and when these are completed the

council will be in a position to invite tenders for the work.

The city council did the proper thing in extending an invitation to Prince Louis of Battenburg to visit Fredericton, and now the exhibition managers should get after him and induce him to formally open the big show. The Prince's present address is Toronto.

ROOSEVELT'S PLUNGE.

Strenuous President Went to Bottom of Long Island Sound in a Submarine.

Oyster Bay, Aug. 25.—President Roosevelt this afternoon made a descent in Long Island Sound on board the submarine torpedo boat Plunger. He was aboard the vessel about three hours. At one time the little boat was submerged for fifty minutes, and in that time was put through all of the submarine feats of which she is capable. The president expressed his delight at the novel experience, and said that he was immensely impressed with the boat and with the manner in which she was handled. In thus braving the dangers of submarine manoeuvring, the president has endeared himself to naval officers and men the world over, and made Lieutenant Charles H. Nelson, commander of the Plunger, the proudest and happiest man in the United States navy.

The special trial of the boat with the president on board took place in Long Island Sound, just off the entrance to Oyster Bay.

A stiff northeast breeze kicked up a heavy sea in the sound, but the Plunger behaved beautifully. The water is about forty feet deep, too shallow in the opinion of Lieutenant Nelson and his experts to enable the vessel to do her best work.

Soon after the vessel reached the necessary depth she was directed downward until she rested on the bottom, when the mechanism of the craft was explained minutely to the president by Lieutenant Nelson, so that he afterward experienced no difficulty in understanding the manoeuvres.

Lieutenant Nelson then began to put the Plunger through her paces.

During the operations of the Plunger, the tender Apache remained within a short distance, prepared to render any assistance that might be necessary.

In describing his experience President Roosevelt expressed great satisfaction. He remarked particularly on the possibilities of the submarine torpedo boats in warfare. Not even the members of his family knew of the president's intention to make the descent in the Plunger. One result of the secrecy maintained was that the Plunger had practically the entire Long Island Sound to herself.

EXHIBITION RACES.

Everything Points to a Successful Meeting.

A meeting of the executive of the Fredericton Park Association was held at the office of Recorder Colter last evening with all the members present except Dougald McCatharine. The advertising committee reported that the exhibition races had been extensively advertised in the maritime provinces, Maine, Quebec and Massachusetts, and that gratifying results were looked for.

The secretary reported that he had received a large number of letters of enquiry in regard to the different classes and he had reason to hope that the entry list would be a large one.

Messrs. D. E. Hanlon, A. B. Kitchen and L. B. C. Phair, were appointed a committee to have the grand and judges' stands, track and stalls put in order for the meet.

It was decided that the matter of disposing of the privilege of selling refreshments on the grounds be left in the hands of a committee. The sale of intoxicating drinks will be strictly prohibited.

Mr. T. S. Wilkinson was appointed chief ticket seller, and Messrs. Hugh Doherty and A. C. Fleming are to do gate duty.

City Marshall was appointed to maintain order on the grounds during the races and will have twelve assistants, who will be sworn in special constables.

The question of appointing judges, starters and timers was brought up at the meeting, but no action was taken.

Messrs. Colter and Phair were appointed a committee to procure a proper score card for the races.

Owing to the large amount of work that will fall to the lot of Secretary Colter during the ten days preceding the races, it was decided to allow him an assistant and Mr. T. S. Wilkinson was appointed.

All indications point to a highly successful race meeting.

WARMLY WELCOMED.

Rev. J. C. Wilson and His Bride's Homecoming Celebrated at Gibson.

The home coming last evening of Rev. J. C. Wilson, the popular and esteemed pastor of the Gibson Free Baptist church, and his charming bride, was a very pleasing affair, on which occasion a large number of Mr. Wilson's congregation and friends assembled at the handsome residence of Mr. Melbourne Bailey and extended a hearty welcome to the pastor and his wife. It was certainly a right roy-

al reception. On behalf of the assembled guests Mr. Theodore Jones acting as chairman, presented Mr. Wilson with an address and well-filled purse. Although the rev. gentleman was taken completely by surprise he made a very suitable reply. During the evening ice cream and refreshments were served and a very enjoyable time spent by all. With the usual parlor games, plenty of good music, a jolly good crowd and abundance to eat, the evening passed very pleasantly. For the present Rev. Mr. and Mrs. Wilson will board at Mr. Bailey's, but they expect to occupy the parsonage early this fall.

ST. MARY'S CHURCH.

Tenth Sunday After Trinity—Eve of the Feast of St. Augustine of Hippo.

The feast of St. Augustine of Hippo, Greek or Latin, is called the letter day in the Anglican calendar, but it will be observed at St. Mary's church, as it is allowed that the Saint was one of the greatest, if not the greatest of the primitive fathers of the Christian church.

St. Augustine belonged neither to the Anglican, Greek or Roman churches, but is honored by all. He was a son of Carthage, an African, and belonged to the great Berber nation, a branch of the Gauls or Celts (the C is hard, Gael and Celt, are but variants of the same root) who migrated southwards from Palestine and the Zagros Mountains. It is remarkable that the branch migrating northwest, to the Western or British Isles, produced St. Patrick (Augustine's father was also named Patrician) the great apostle of Ireland.

The Rev. Dr. Duffy will preach on the great St. Augustine, his subject being: "St. Augustine a Warning to young men, a model for mature men."

MR. BARBOUR AT WORK.

Mr. Frank A. Barbour, C. E., of Boston, who has been engaged to examine and report on the Fredericton water supply, arrived here yesterday and is a guest at the Queen. He commenced work yesterday afternoon and expects to finish the job in a week or ten days. Mr. Barbour is a nephew of Senator Thompson of this city and a graduate of the U. N. B. He has been very successful in his chosen profession and is believed to be the right man to solve the water problem here.

This afternoon Mr. Barbour, in company with George E. Howie, drove to Tower Lake to look over the ground and ascertain the prospects for a gravitation system.

A LARGE MARKET.

The market this morning was a large one, and all lines of country produce were in fair demand. Prices were about as follows:

Potatoes per bbl.	\$1.40

Cucumbers per doz.	80
Blueberries per pail	25
High bush cranberries per pail	1.00
Raspberries per pail	1.13
Ham per lb.	13
Cabbages each	04

Hon. Murray Dodd of the Cape Breton county court, died Friday, aged sixty-two.

The municipal authorities of Venice have placed a memorial tablet on the house where John Ruskin lived.

Jennie Watson, the Sheriff street St. John child, who was so badly burned Thursday afternoon, died Friday in the hospital.

An artificial bait consisting of a gelatinous paste has been invented by a Frenchman for use in the Newfoundland fisheries.

Each year the Kaiser gives a prize to the officer who does the best work at the annual manoeuvres. The prize this year consisted of a complete field kit, uniforms, mess chest and everything.

Thos. E. Hill, about 12 years old, the son of Robt. Hill, was shot and instantly killed about 12 o'clock Thursday night at his father's residence on the seventh concession of Dummer, about eight miles north of Norwood, Ontario. His sister, Mabel Hill, was shot in the hand. The outrage was committed by a mob, supposed to be neighbors of the Hill family. Bad blood has been existing in the locality for some years.

BORN.

At 81 Mecklenburg street, St. John, on August 21th, to the wife of Alfred E. McGinley, city editor of the Evening Times, a daughter.
