In buying a Watch here you can depend on getting good value for your money.

Every watch is guaranteed to give good satisfaction.

Call and see our large and well assorted stock and get our prices.

F. E. BLACKMER, 222 QUEEN ST.

NOT MUCH HOPE FOR PEACE.

M. Witte Declares Suggested Japanese Terms Are Impossible.

AND PEACE NEGOTIATIONS AT PORTSMOUTH MAY BE BROKEN OF IN A WEEK.

New York, Aug. 2.—(Special.)—The staff correspondent of the Herald on board the steamer Kaiser Wilhelm Der Grosse, sends his paper the following despatch by wireless telegraphy:

"M. Witte, the Russian envoy, said Tuesday night, 'I am afraid that negotiations will be ended within a week, as Japan's conditions will be so intolerable as not to admit of discussion.'"

Speaking of the Russian imperial telegram appearing in yesterday's Official Messenger, in which the Czar, replying to an address from Khabarovsk, expressed his hearty appreciation of the recommendation to continue the war till the enemy is crushed and above all, not to think of the cession of territory or paying

an indemnity, the St. Petersburg correspondent of the Times says:

"The personal character of the Russian monarch precludes the faintest suspicion of bluff, and the repeated asseveration of the Czar's warlike mood, directly after an interview with the German Emperor at Bjorkoe, compels attention."

The inspired Russ, declares that M. Witte has been instructed by the Czar as to what conditions are impossible of accepting, and it is easy to see from the Czar's telegram to Khabarovsk what these conditions are.

The Russ adds, that if the Japanese make any such demands M. Witte will break off negotiations, and reduce the chances of peace.

THE 500 CELEBRATION.

Americans and Canadians Rejoice at the Recurrence of Important Anniversary.

Sault Ste Marie, Mich., Aug. 2.—(Special.)—With the city crowded with thousands of visitors bunting flying in the breeze from all buildings on both the American and Canadian sides of the St. Marie River, and salutes from government ships in harbor the two days' celebration of the semicentennial of the opening of the St. Marie ship canal which connects Lake Superior with the lower lakes was begun today.

Semi-Centennial celebration, and the erection later of a monument as a permanent memorial was made possible by an appropriation of ten thousand dollars by the United States, fifteen thousand dollars by the State of Michigan, and the contribution of a considerable amount from vessel interest of the great lakes.

TELEGRAPHER'S STRIKE.

Helena, Mont., Aug. 2.—(Special.)—Despatches from Montana points indicate that a strike has been ordered by telegraphers on the Northern Pacific and Great Northern.

In this city, which is a relay point, sixteen operators, including two wire chiefs, two operators in the yard quit upon receiving a signal from President Perham.

Operators in the Montana Central except the dispatchers, about 50 altogether, went out on the entire Rocky Mountain division. The Northern Pacific is reported to be tied up by the strike.

THE MOUNT ALLISON LADIES' COLLEGE.

A copy of the 1905-06 catalogue of the Ladies' College at Sackville, New Brunswick, has just come to our table. This flourishing college begins its fifty-second year of work on the seventh of next month and offers, in the prospectus before us, some very attractive courses in the departments of literature, household science, music and art. As will be observed elsewhere in our issue, the Oratory Course is intimately related with that at the Emerson College of Oratory, Boston; the household science course prepares teachers and a diploma is now awarded in the art department which is under the direction of John Hammond, R. C. A.

We note that the attendance at the Ladies' College, during the past year has been 306; more than one half of whom have been resident students. This increase is some fifty students, over the total number for any previous year in the history of the college. We congratulate the able principal, Dr. Borden.

MONTREAL STOCK MARKET.

Montreal, Aug. 2.—(Special.)—The stock market quotations today were as follows:

Twin City, 113½, 113, 113.
Montreal Power, 90½, 90½, 90½.
Richlieu and Ontario Navigation, 73½, 74½.

LOCAL ANGLERS IN LUCK.

Had Good Salmon Fishing With Rod and Fly at Springhill.

Mr. James S. Neill, hardware merchant, and Mr. Joseph Walker, merchant tailor, are probably the proudest men in Fredericton at the present time. Any one doubting this statement has only to spend a few minutes in their company and listen to their account of a fishing expedition recently made to Hart's Island, in the vicinity of Springhill. These gentlemen have made the startling discovery that salmon and grise can be caught in the St. John River, with rod and fly, and more than that they have actually had the pleasure of catching them.

It has been known for some time that salmon in large numbers haunt the pools in the neighborhood of the islands at Springhill, and fishermen could see no reason why they should not rise to a fly if given the chance. Messrs. Neill and Walker, who are probably the most expert of local nimrods, have long talked of visiting the locality and trying their luck, but not until Monday afternoon did the opportunity come to put their plans into execution.

They drove to Springhill, and, procuring a boat, rowed to what appeared to be a likely spot, and began to fish. The result was most astonishing and exceeded their most sanguine expectations. In a little more than two hours they succeeded in killing four fine grise, and Mr. Neill had two rises from salmon in that time, but failed to hook them.

Yesterday afternoon they again visited the locality in company with Mr. W. T. Whitehead, M. P., and the latter succeeded in catching two grise.

Mr. Neill, in conversation with The Herald this morning, said that he had had a great deal of experience at salmon fishing, but never did he

have finer sport than fell to his lot on Monday afternoon. He claims to be the first man to catch a salmon with a rod and fly in this section of the St. John River, and is naturally very proud of the achievement. He is confident that the St. John River between this city and Woodstock offers ideal sport for salmon anglers.

Said Mr. Neill:—"For years I have been making trips to the Ungaroon and other rivers at considerable expense, after salmon, never dreaming that better sport was to be had so much nearer home. It is true that many fishermen have tried the pools at Springhill before but they did not succeed, because they did not fish at the proper time or use the proper flies. The conditions were perfect on Monday afternoon, and I do not want better sport than was mine on that occasion."

Mr. Neill stated that the flies used were the Silver Doctor, the Darnall Ranger and Wilkinson. The fish caught averaged about four and one half pounds in weight.

The discovery made by Messrs. Neill and Walker has naturally created great excitement among the local anglers, and the chances are that there will be quite a exodus to Springhill during the next two weeks.

Some years ago, Judge Steadman, who is an enthusiastic angler, while fishing at Grand Pass, and a salmon rise to the fly, but did not succeed in catching it. As far as can be learned, Messrs. Neill, Walker and Whitehead have established a record. Mr. Neill is confident that the salmon fishing in the St. John with rod and line can be successfully carried on, and he believes that a number of visiting anglers will be attracted to this locality next season.

SERIOUS SAN JUAN RIOT.

Death and Injuries from a Clash of Strikers With the Police.

CITY IN THE HANDS OF A MOB FOR TWO HOURS.

San Juan, Porto Rico, Aug. 2.—(Special.)—One dead, four so seriously injured that they may die, and nearly forty more in the hospital, is the result of a riot last night, growing out of the longshoremen's strike for increase in wages to twenty-five cents an hour, which has been in progress a month.

For more than two hours, the greater part of San Juan was under the control of the mob numbering about a thousand.

They dug up paving blocks and stones, and with these and other missiles, rushed through the streets, fighting the police, who were armed with rifles. Scores of shots were fired.

WANT HIM RELEASED.

Petition Being Circulated to Get Reilly out of Jail.

Kingston, Ont., Aug. 2.—(Special.)—A movement has been started for the release of Frank Reilly, confined in Belleville jail in connection with the bogus ballot box.

Prevailing opinion is that Reilly has condoned his offence and if he much longer remains in confinement,

he will never live to leave the jail. Mr. Avery, M. P., has sanctioned his name being used and the county councillors are also quite unanimous in signing the document.

The petition is addressed to W. J. Paul, M. P., for Addington.

J. E. PRICE IS DEAD.

Superintendent of the I. C. R. and a Worthy Citizen of Moncton.

Moncton, Aug. 2.—(Special.)—J. E. Price, superintendent of the Intercolonial Railway, died at two thirty this afternoon after a brief illness of diabetes with complications of jaundice.

(Mr. Price, who was an efficient and popular railway man, was a native of Havelock, Kings County, and

son of Station Master Price, of Pottitocadiac. He was about 55 years of age and was connected with the I. C. R. for many years. He leaves a wife and family, also two brothers, Dr. Price and Claude Price of the I. C. R. Moncton. Mr. Price was a prominent Baptist and a gentleman of excellent repute.)

Mr. A. C. Atkinson, of Boston, is spending his vacation in the city. He is a guest at Windsor Hall.

Messrs. S. Dow Simmons and F. H. Peters have gone on a fishing trip to the north shore.
