

## PERTINENT PARALLEL.

Sir Wilfrid Laurier on Canadian Duty and Patriotism.

## WITH RESPECT TO SCHOOL QUESTION IN NEW PROVINCES.

(From Sir Wilfrid Laurier's Autobiography Speech.)

However, let me put a question to my hon. friend: If we were in the year 1867 and not in the year 1905; and if we had to introduce into this Dominion the provinces of Alberta and Saskatchewan, would my hon. friend tell me that these provinces would not have the same rights and privileges in regard to separate schools as were granted to Ontario and Quebec? "You shall have your separate schools," Alberta and Saskatchewan shall be denied that privilege? The thing is prosperous. Let us rise above such considerations as these. In everything that I have said I have refrained from saying a single word upon the abstract principle of separate schools. I approach the question upon another and a broader ground. I approach the question not from the view of separate schools, but I approach it upon the higher ground of Canadian duty and Canadian patriotism. Having obtained the consent of the minority of this form of government, having obtained their consent to the giving up of valued privileges and their valuable position of strength, are we to tell them now that Confederation is established, that the principal upon which they consented to this arrangement is to be laid aside and that we are to ride roughshod over them? I do not think that is a proposition which will be maintained in this house, nor do I believe it is the intention of the House.

I offer at this moment no opinion at all upon separate schools as an abstract proposition; but I have no hesitation to say that if I were to speak my mind upon separate schools I would say that I never could understand what objection there could be to a system of schools wherein after secular matters had been attended to, the tenets of the religion of Christ, even with the divisions which exist among his followers, are allowed to be taught. We live in the confidence of the seven provinces that constitute our nation today where, by the will and by the tolerance of the people in every school, Christian morals and Christian dogmas are taught to the youth of the country, and we live by the side of a country, a great nation, a nation for which I have the greatest admiration, but whose example I do not take in everything, in the schools of which these morals and these dogmas are not taught for the fear that dogmas might be taught in which all do not believe. When I compare these two countries, when I compare Canada with the United States, when I compare the status of the two nations, when I think of their future, when I observe the social condition of the civil society in each of them, and when I observe in this country of ours a total absence of lynchings and an almost total absence of divorces and murders, for my part I thank heaven that we are living in a country where the young children of the land are taught Christian morals and Christian dogmas. Either the American system is right or the Canadian system is

Was Not Able To Walk For Three Months.

Was Given Up to Die.  
The Doctor Said So.

Burdock Blood Bitters  
Saved Her Life.

Read what Mrs. Wm. Castillonx, Newport, Quebec, has to say about Burdock Blood Bitters:—"Last December I fell very sick after confinement. I was not able to walk for three months, and was given up to die by the doctor. My husband read of the many wonderful cures made by Burdock Blood Bitters, so procured me two bottles. After using it for about ten days, I was able to get around, and could mind my baby without help from anyone, and am now well, and able to do my own work. I told a lady friend of mine who was troubled in the same way, and she used it with equal success. I cannot too highly recommend your medicine, for I know just how good it is, and hope and wish that anyone suffering as I did will give it a trial."

## We Will Buy

A 50c. Bottle of Liquozone and Give it to You to Try.

We want you to know about Liquozone, and the product itself can tell you more than we. So we ask you to let us buy you a bottle—a full-size bottle—to try. Let it prove that it does what medicine cannot do. See what a tonic it is. Learn that it does kill germs. Then you will use it always, as we do, and as millions of others do.

This offer itself should convince you that Liquozone does as we claim. We would certainly not buy a bottle and give it to you if there was any doubt of results. You want those results; you want to be well and to keep well. And you can't do that—nobody can—without Liquozone.

## We Paid \$100,000

For the American rights to Liquozone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Liquozone destroys the cause of any germ disease.

Liquozone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a Liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you.

Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetal matter.

There lies the great value of Liquozone. It is the only way known to kill germs in the body without killing the tissue, too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

## Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

## A GLUT OF HERRING.

Hundreds of Tons Lying in Bottom of Departure Bay.

Nanaimo, B. C., Feb. 25.—Again has that most remarkable phenomenon of hundreds of tons of dead herring lying at the bottom of the water occurred in the channel near Departure Bay, and there seems to be absolutely no explanation for it except that they came rushing up in such tremendous quantities that they

smothered with the very density of their own numbers.

That there was a remarkable run of herring along the channel all day and the preceding night is told by the fishermen who had their nets set, and in going out to gather them in had their boats fairly lifted out of the water by the bulk of herring underpeath. They came rushing through the water like the swish of escaping steam, seemingly gasping and panic-stricken, leaving hundreds of thousands of dead in their train. All night and most of yesterday this was kept up, and at the present time the bottom of the channel is white with dead fish, heaped up to a depth of two or three feet.

A conservative estimate of the amount of herring killed at this one spot and in the course of a few hours, is about a thousand tons—almost as much as the amount

drawn from the harbor by fishermen during the whole season.

The local fisheries guardian secured a number of the dead herrings and sent them over to Chief Inspector Sword at New Westminster, with a complete account of the occurrence, and it is expected that Mr. Sword will have the fish dissected for the purpose of discovering, if possible, what was the cause of death.

When a man begins to take whiskey for a medicine he soon becomes a chronic invalid.
