See pamphlet, mailed free. **The Wood Medicine Co., (formerly Windsor) Toronto, Ont.** Wood's Phosphodine is sold in Fredericton by all Druggists.

The new Roman Catholic church building which was dedicated today at St. Mary's is an evidence of what united effort on the part of pastor and congregation can accomplish when they start to work in good earnest.

The new church is an ornament to the locality in which it is situated. It can be plainly seen from this side of the river and occupying as it does, a commanding position near the river bank is one of the points of interest to visitors on incoming steamers.

It is as well a monument to St. Anthony's congregation and their devoted priest, Rev. Father Ryan, who has worked hard to bring the building to completion, and it is the result of much self sacrifice on their part.

The work on the building was done by localmen and is an evidence that we have in this locality men and firms which can compare favorably with any from abroad.

The woodwork, including the handsome new pews, came from the establishment of the J. C. Eisten Co., of this city, and it is only necessary to say that the work was done by this firm and the public will know it could not be surpassed.

Mr. Edward Hurley, the well known plumber and galvanized iron worker, had charge of this line of work on the new church, and it was performed in such a manner that it should be a good advertisement for his firm.

Mr. Lewis Boone, of St. Mary's,

NEW ST. ANTHONY'S

Church Dedicated To-day at St. Mary's a Great Credit to Rev. Father Ryan and His Parishioners.

DESCRIPTION OF THE EDIFICE--SKETCH OF THE PASTOR.

ridge of nave, forty-eight feet. A tower of twelve feet square projecting its full size from the wall of the building stands at each side of the front corners. One of these finishes a little above the aisle with a low square spire roof; the other together with a well proportioned spire rises ninety-one feet above the ground and contains a belfry with couplet louver openings on each of the four sides. There are three front entrances to the ground floor; one in each tower and one in the centre of the building.

A looking. The sanctuary floor is raised one step above the audience room, and is finished with a handsome open rail, which shows the rich Brussels carpet covering the sanctuary.

The altar, which was built by Lucien Benoit of Montreal, is a splendid specimen of the Gothic style, in keeping with the church. It sits back in a handsome alcove especially designed for it, in the rear of the sanctuary. Over the hood of the alcove in gold letters, within a scroll is the

present the following subjects:

On the Gospel side: The Sacred Heart, St. Michael, St. John the Evangelist, St. Francis.

On the Epistle side: The Immaculate Conception, St. Anthony, the Baptism of St. John and the Blessed Virgin with St. Ann.

The vestibule contains four emblematic windows representing The Challice, the Sacred Heart, the Holy Ghost, and the Cross and the Crown. These windows, like the altar, the statues, and the handsome sanctuary lamps, are all gifts from parishioners and friends of the parish.

The painting on the building was done under the direction of Mr. W. Bruce Dayton, and is certainly a credit to him, fully sustaining the reputation he has already earned as a decorator.

The exterior is handsomely finished in cream with dark green trimmings. The main body of the interior is finished in white and cream, with gold trimmings, while the ceiling and ribs are of a rich cream color. Both the exterior and interior of the building present a grand appearance.

SKETCH OF THE PASTOR.

It is fitting that some reference should be made here to Rev. Father Ryan, the beloved pastor of St. Anthony's church, to whom with the assistance of his devoted congregation is due the credit of erecting this beautiful edifice as well as making

A TRULY IDEAL WIFE

HER HUSBAND'S BEST HELPER

Vigorous Health is the Great Source of Power to Inspire and Encourage—All Women Should Seek It.

One of the most noted, successful and richest men of this century, in a recent article, has said, "Whatever I am and whatever success I have attained in this world I owe all to my wife. From the day I first knew her she has been an inspiration, and the greatest helpmate of my life."

Mrs. Bessie Ainsley

To be such a successful wife, to retain the love and admiration of her husband, to inspire him to make the most of himself, should be a woman's constant study. If a woman finds that her energies are flagging, that she gets easily tired, dark shadows appear under her eyes, she has backache, headaches, bearing-down pains, nervousness, irregularities or the blues, she should start at once to build up her system by a tonic with specific powers, such as Lydia E. Pinkham's Vegetable Compound.

Following we publish by request a letter from a young wife:

Dear Mrs. Pinkham: "Ever since my child was born I have suffered, as I hope few women ever have, with inflammation, female weakness, bearing-down pains, backache and wretched headaches. It affected my stomach so I could not enjoy my meals, and half my time was spent in bed. "Lydia E. Pinkham's Vegetable Compound made me a well woman, and I feel so grateful that I am glad to write and tell you of my marvelous recovery. It brought back my health, new life and vitality."—Mrs. Bessie Ainsley, 311 South 10th Street, Tacoma, Wash.

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Ainsley it will do for every sick and ailing woman.

If you have symptoms you don't understand, write to Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, at Lynn, Mass. Her advice is free and always helpful.

administer spiritual comfort to the sick and dying parishioners or to hold the regular Sunday services and instruct the children in the Christian truths. By the aid of special mission and other services from time to time he has also been the means of an inestimable amount of spiritual good, which is bound to bear fruit.

Father Ryan is an eloquent and impressive preacher and he has frequently given his aid in this respect at special services held by other Catholic congregations in the diocese, including St. Dunstan's in this city.

As an administrator, Father Ryan has shown rare executive ability. When he looked over the parish of St. Mary's for the first time he found the church and parish buildings much in need of repair, and not much money in the treasury to enable him to do the work. He bought a piece of land in the rear of the rectory and afterwards thoroughly remodelled that building. The graveyard of Sunnyside was found to be in a bad state owing to it being flooded with water. This was remedied by a system of drainage.

The churches at Stanley, Tay Creek, Kingsley and Mauderville, were also remodelled, after which the attention of the reverend gentleman and his energetic congregation were turned to St. Mary's.

The church was very small and entirely unfit for the needs of a growing congregation from St. Mary's Gibson, the town of Marysville and other places who attended service in the old building.

The result of a couple of years hard work on the part of the pastor and successful co-operation and willing aid from the parishioners is shown in the new church building. In order to build this church it was necessary for the congregation to hold picnics, festivals and other similar functions and they have always been willing when called upon to contribute to the work.

Pilgrimages to the shrine of St. Anne de Beaupre have been held on two different summers and in this the pastor of St. Anthony's has always had the co-operation and assistance of priests from all over the diocese who were anxious to help him in the good work he was carrying on.

As a resident of this locality the reverend gentleman is popular with all classes of citizens by whom he is respected for his broad minded Christian principles, his devotion to duty and his kind and gentlemanly manners. On more than one occasion gentlemen of other denominations than his own have given practical evidence of the respect which they have felt for the hardworking pastor of St. Anthony's parish.

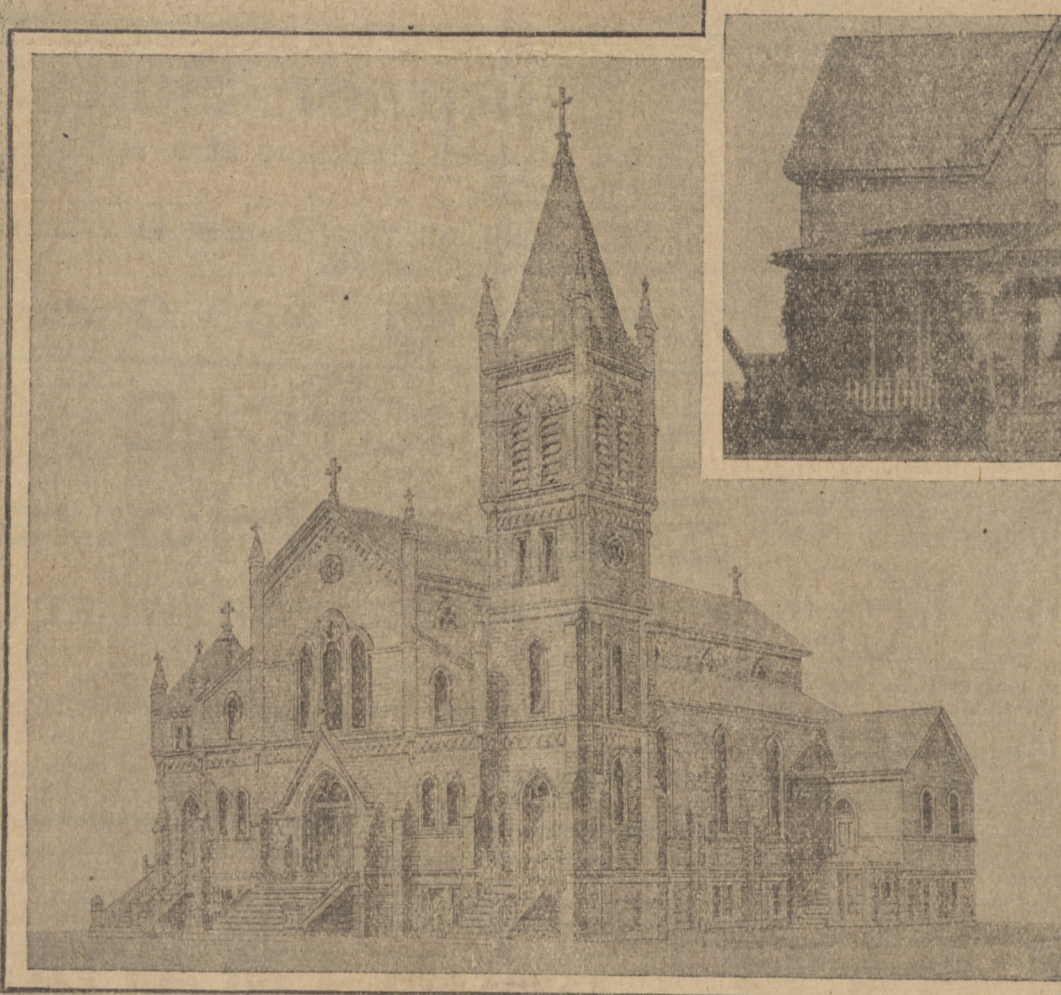

MILLION DOLLARS SQUANDER-ED.

It was estimated that this sum was wasted last year by people trying to get a cure for catarrh. Foolish for sufferers to experiment when it is so well known that "Catarrhazone" is the only remedy that cures permanently. Other treatments only relieve, but Catarrhazone cures and prevents the disease from returning. "I had catarrh in its worst form," writes G. F. Fadden of Royan, Que., "it was so bad that ordinary medicine didn't even relieve. Catarrhazone cured me perfectly." No chance of disappointment with Catarrhazone—it's certain as death to cure Catarrh—just try it.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way. Buy Sunlight Soap and follow directions.

ST. PATRICK'S CHURCH STANLEY, N.B.

ST. ANTHONY'S NEW CHURCH & GLEBE ST. MARY'S FERRY, N.B.

who had charge of the carpenter work, has fully sustained his reputation as a master builder, and on the recent visit of Mr. J. C. Dumeresi, the architect of the building a few weeks ago, was congratulated by that gentleman on the work.

Architecturally the building is imposing and handsome and is a credit to the Messrs. Dumeresi, who have designed many leading buildings here. An improved form of acetylene gas has been installed into the building as well as into the presbytery and hall and the grounds are also illuminated by this gas. It makes considerable improvement not only to that property, but also to that portion of the village.

The beautiful lawn and driveways in front of the church and presbytery are being much admired.

Take it all in all St. Anthony's congregation have now one of the best pieces of church property of its size in the province.

ITS ARCHITECTURE.

The building, which is a very fine rendering of the Gothic style is constructed on the nave and aisle principle. The width of these together being forty-three feet, and the length ninety feet. Height from ground to

the latter placed in a deep recessed projection with pediment hood and buttresses. At each side of the rear end of the building is a vestry wing sixteen by twenty-two feet, each having a separate outside entrance.

The superstructure is framed with the best seasoned spruce and handsomely finished with Gothic windows buttresses, cornices, circular corner pinnacles to front and tower angles as well as into the presbytery and hall.

The front entrances lead to a spacious vestibule which runs across the full width of the building, including the towers. There is a stairway in each tower leading to the basement, and to the gallery, the latter being over and projecting the vestibule partition finishes with balustrade.

The audience room is finished with first quality of spruce in grain form with ribs resting on carved capitals to the nave columns and finished thirty-one feet above the audience floor in the nave.

The walls are plastered in the new or rough finish, with hoods over the windows. The wainscoting is of California red wood as are the base of the columns and gallery fronts. The whole effect while simple is very rich

invocation in Latin, "St. Anthony pray for us." Within the altar space are three hoods in each of which is a statue, the centre and highest niche containing that of St. Anthony, patron of the Church, with the Child Jesus. On the Gospel side of the church is that of St. Francis Xavier and on the Epistle side, one which represents Saint Alysius. Immediately below these statues is that representing two adoring angels.

Doors connect with the vestry at each side of the sanctuary.

There is a fine basement under the entire building finished throughout, and containing an audience room, vestry, boiler room and fuel rooms. There are four entrances to the basement each through a spacious porchway. A stairway leads from the back of the basement to the ground floor for access from the lower to the upper vestry. The foundation walls are of stone faced with brick on the exterior surfaces above ground and have freestone quoins to all angles and window reveals.

The stain glass windows are much admired. In the centre is a large triple window representing "The Good Shepherd," and on either side St. Patrick and St. Bridget. In the body of the church the windows re-

other improvements in the parish and adjoining missions.

The Reverend gentleman, who is under 40 years of age, was born in the classical city of Cork, Ireland, a city which has furnished Canada with many learned and self sacrificing priests. He came to this country at an early age and after pursuing his studies for the priesthood was ordained by the late Bishop Sweeney on July 16, 1892. After spending a short time as curate to Rev. Father Doyle at Milltown, he was stationed for nearly three years at Silver Falls St. John County. He came to St. Mary's in October, 1895, on the removal of Rev. Father Kiernan to Montreal.

The parish over which Father Ryan was called to preside was a very large one, the different missions connected with it including Stanley, Tay Creek, Kingsley and down river as far as Sheffield.

Although his predecessors had done a large amount of work, the young priest found on coming to his new charge that a considerable amount of work yet remained to be carried out in addition to attending to his usual parochial duties. Through summer heat and winter storms he has driven all hours of the day and night to
