At 103½ Prince Wm. street, St. John, N. B., are the offices of
Albert J. Machum,
MANAGER of the
Union Mutual Life Ins. Co.
of Portland, Me.
Established 1848

It is a strictly Annual Dividend Company, the surplus or profits being apportioned every year upon all plans of insurance and a statement of same given to each individual policy holder at the expiration of the first and each subsequent year. The result is that every holder of one of these contracts knows exactly what profits have accumulated every year on his own particular policy. He can make use of such profits any time he so wishes, and in event of his death, such additions are paid, besides the full amount for which the policy is written.

If "A Bird in the Hand is Worth Two in the Bush," how much is a policy worth which guarantees annual dividends as above, compared with a policy under which no profits are apportioned until the end of twenty (20) years?

"Union Mutual" policy contracts are the most liberal issued. The guaranteed reserve value is equal to that of any company in the world. If you require insurance of any kind consult a "Union Mutual" agent, or write direct to

Just One More Question.

Pa—Come, come, don't ask me any more questions. Everything I say to you goes in one ear and out the other. Willie (after a pause)—Pa, if I plugged up one ear what you say to me would have to come out the same ear it goes in, wouldn't it?—Philadelphia Press.

EARN CASH

In Your Leisure Time

If you could start at once in a business which would add a good round sum to your present earnings—WITHOUT INVESTING A DOLLAR—wouldn't you do it?

Well, we are willing to start you in a profitable business and we don't ask you to put up any kind of a dollar.

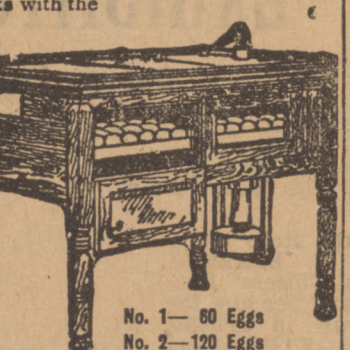

Our proposition is this: We will ship you the Chatham Incubator and Brooder, freight prepaid, and

You Pay No Cash Until After 1906 Harvest.

Poultry raising pays. People who tell you that there is no money in raising chickens may have tried to make money in the business by using setting hens as hatchers, and they might as well have tried to locate a gold mine in the cabbage patch. The business of a hen is to lay eggs. As a hatcher and brooder she is out-classed. That's the business of the Chatham Incubator and Brooder, and they do it perfectly and successfully.

The poultry business, properly conducted, pays far better than any other business for the amount of time and money invested.

Thousands of poultry-raisers—men and women all over Canada and the United States—have proved to their satisfaction that it is profitable to raise chicks with the

No. 1—60 Eggs
No. 2—120 Eggs
No. 3—240 Eggs

CHATHAM INCUBATOR AND BROODER.

"Yours is the first incubator I have used, and I wish to state I had 62 chicks out of 62 eggs. This was my first lot; truly a 100 per cent. hatch. I am well pleased with my incubator and brooder. T. M. McARDUR, Chilliwack, B.C."

"My first hatch came off. I got 170 fine chicks from 180 eggs. Who can beat that for the first trial, and so early in the spring. I am well pleased with incubator, and it could not get another money could not buy it from me. Every farmer should have a No. 3 Chatham Incubator.—F. W. RAMSAY, Dunnville, Ont."

"The incubator you furnished me works exceedingly well. It is easily operated and only needs about 10 minutes attention every day. R. McQUEEN, MOOSE JAW, ASSA."

The Chatham Incubator and Brooder is honestly constructed. There is no humbug about it. Every inch of material is thoroughly tested, the machine is built on right principles, the insulation is perfect, thermometer reliable, and the workmanship the best.

The Chatham Incubator and Brooder is simple as well as scientific in construction—a woman or girl can operate the machine in their leisure moments.

You pay us no cash until after 1906 harvest.

Send us your name and address on a post card to-day.

ASTONISHED THE DOCTOR.

Mrs. Eaton Recovering, Although her Physicians said she Might Drop Dead any time.

"The Doctor told me I had heart disease and was liable to drop on the street at any time," says Mrs. Robert Eaton, of Dufferin, Ont.

"My trouble began four years ago with a weak heart. I was often afraid to draw my breath, it pained me so. I was bothered with nervousness, shortness of breath, dizziness, loss of appetite, sweating and sinking spells, and I could not sleep."

"Sometimes a great weakness would seize me and I would have to lie down to keep from falling. My hands and feet would seem to go to sleep and a numbness would come over me. I heard the voice of the blood would rush to my head and a series of hot flashes would envelop me."

"I took all kinds of medicines, but kept gradually growing worse until about eight weeks ago, when I began using Dr. Leonard's Anti-Pill. From the start I improved until now my appetite has returned, I can sleep well, and have no nervousness, dizziness, palpitation, faintness, or any of my other troubles. They have all entirely disappeared. I feel much stronger, look better, and altogether 'Anti-Pill' has made a new woman of me."

"I am entirely cured and cannot say too much for this wonderful remedy. I would most heartily recommend Anti-Pill to anyone suffering as I did."

THE CONFERENCE.

Clerical and Lay Members Elected to the General Conference.

President Dobson and Dr. Allison Addressed Gathering on Educational Question.

Friday p. m., President Dobson opened the Methodist conference at Marysville and the minutes of the last ministerial session were read and discussed and with a few alterations, were carried.

Dr. Carman took the chair and a few reports in reference to the superannuated fund were read and debated on at some length.

The order of the day was called and the minutes of the morning session were read and adopted.

On motion of Dr. Allison, seconded by Dr. Scott, the laymen adjourned to the public school house, which Mr. W. T. Day kindly placed at their disposal, for the purpose of electing representatives to the general conference which meets in Montreal next September, and which comprises Canada, Newfoundland, Bermuda and Japan.

While the laymen were electing their delegates, the ministers elected theirs, this conference being entitled to nine of each, and it required three ballots to elect the ministers, while the laymen were elected on one.

The ministers elected were as follows: Revs. Wm. Dobson, Dr. Paisley, Dr. Sprague, Thomas Marshall, George Steel, William Harrison, Dr. Evans, Dr. Rogers, James Crisp.

Alternates—Revs. J. C. Berrie, Samuel Howard.

The laymen elected were: Henry Smith, Dr. Allison, Dr. Inch, W. D. Baskin, J. F. Frapp, J. Hunter White, Alfred Rowley, E. R. Machum, H. T. Pickering.

The representatives to the general board on missions were elected as follows: Rev. Thomas Marshall and Dr. J. R. Inch.

As time for adjournment had arrived the time was extended to allow the conference to hear the report from the educational committee. Several ministers were allowed leave of absence yesterday as they are to supply different pulpits Sunday.

It was decided that the Sunday school report be the first order of business for Saturday to be followed by an address from Mr. Moore, secretary of the Lord's Day Alliance, after which the report from the Superannuated Fund will be heard.

Adjourned.

EVENING SESSION.

The conference opened Friday evening at 7.30 with the president in the chair.

After the usual opening exercises the evening was devoted to educational work.

Dr. Paisley of Mount Allison College, read a report from the financial point.

Rev. William Dobson was the next

speaker and made a very interesting, practical business like address.

He spoke of the great needs of educated men for the pulpit. He said he did not know how much it required to run a college, neither did he know how much was necessary to pay the different teachers of a college, but he did know that it was necessary that men must attend college before they enter the ministry. When men start out to preach the gospel in these days if they are not well educated they will soon reach their limit and they will be asked questions by the school boys of today which will puzzle them. As the constituency need educated men and must have them, a man can not go out to-day and preach the gospel, satisfactory to himself and his people unless he has mastered the language in which the New Testament was written. The speaker said that preaching the gospel today is not like preaching it years ago, as the world advances and the people are beginning to find out that space and time are enormous and they have done away with the old time theories.

When Mr. Dobson finished he retired and Dr. Paisley took the chair. Hymn 928 was sung by the choir and then Dr. Allison, pres. of Mt. Allison made a speech.

The speaker said he has found in his experiences that it was harder to raise money for the educational department of the Methodist church than any other branch. You might think it strange, but you will find people in New Brunswick and Nova Scotia who have never heard of Mt. Allison or of your own University of New Brunswick.

Mt. Allison was founded in 1843 and I was a student when the celebrated their 10th anniversary. The old college was built and furnished by Mr. Allison at the cost of \$30,000 and started practically out of debt.

In 1854 the ladies' college was started and in 1862 the university was organized and they are now under one corporation and complete and operated as one institution last year of which every department was full and there is nothing in this country the Methodist should be more proud of than Mt. Allison, as it has turned out some very able men.

The speaker closed with a strong appeal to help the college work and a collection was taken for that purpose.

The stationing committee met last evening and will report Saturday morning. On Saturday evening there will be a social and evangelistic meeting.

DOUBLE DROWNING.

Auburn, Me., June 22.—While canoeing on Lake Auburn, Thursday afternoon, Winslow Burbank, aged 19, a freshman at Bates College, and the son of Mr. and Mrs. Frank Burbank, of South Paris, and Miss Lulu Libby, aged 17, the adopted daughter of Mr. and Mrs. John L. Libby, of 86 Winter street, Auburn, were drowned.

There were two others in the canoe, A. M. Adams, aged 21, also a freshman at Bates, of Millinocket, and Miss Hattie Webb, aged 19, of Allen Court, Lewiston.

Burbank's skull cap blew off, and Miss Libby in reaching for it overturned the canoe. Burbank, who was a good swimmer, attempted to rescue her, but she got her arms about his neck and the two sank. Adams saved Miss Webb just as she was sinking for the third time. The bodies have not been recovered.

THESE MEDICAL FACTS

You Can Study With Profits.

How few realize that twenty-five per cent. of all disease has its origin in some interference with the function of elimination.

The whole body exists by reason of the transference of fluids through its component parts.

Up to a certain point the body has power to object to destructive elements, but this power is limited.

When it happens that the body is loaded with wastes and poisons which it can't eliminate, fermentation decay, and germ life run riot through the blood.

Serious illness is the result unless nature is assisted by a cleansing tonic like Dr. Hamilton's Pills, which are purely vegetable, contain no mercury, no bismuth, no injurious metallic ingredients of any kind.

Such a medicine is the greatest possible assurance to every man and woman of health, spirits and contentment.

Grand results are achieved, and famous cures made every day by Dr. Hamilton's Pills, as this letter proves.

From Newfoundland, Miss Lillian Anthony, of Upper Gullies, Conception Bay, writes:

"In praise of Dr. Hamilton's Pills. I must say that I have used them with grand success for three years. They never fail to cure me of indigestion or constipation. Formerly my face was full of pimples but now my complexion is clear and ruddy. In more ways than I care to mention have Dr. Hamilton's Pills helped me; they would be good for every woman to use."

Insist on having only Dr. Hamilton's Pills, 25c. per box or five boxes for \$1.00 at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U. S. A., or Kingston, Ont.

AN INVITATION.

He—I think I would like to kiss you.

She—Do you always think twice before you act?—Yonkers Statesman.

Pools make feasts and wise men eat them.

Applicant in the Wrong Room.

During the excitement of a physical examination of candidates for places on the police force in city hall a mild mannered man wandered into the room and somehow got mixed up with the aspirants for places on the force. He was instructed to remove his clothes, and in a few minutes was hard at work with the other men in the room, raising dumbbells, inflating his chest and undergoing a general physical examination.

"Run around the room," he was commanded, and, on a trot, he made the circuit of the room a dozen times.

Almost out of breath, he stopped then and inquired:

"Look a-here, what else have I got to do to get my license?"

"What license?" queried the surgeon, in surprise.

"Why, my marriage license. That's what I came in for," was the reply.

"Say," said the surgeon, "you're in the wrong room. I thought you wanted to be a policeman. The license bureau is downstairs."—Philadelphia Record.

All in the Family.

Mrs. Cloak—I'm so sorry the dress-maker I recommended to your wife did not give her a fit. Mr. Soak—Never mind. Her bill gave me one.

Something Coming to Him.

Maisie—Funny, isn't it, that Algeron doesn't smoke? Daisie—Well, he will soon. I overheard papa say that he was going to fire him.

The way to be nothing is to do nothing.
