

SCITUATE SOCIETY WANTS ITS CLOTHES.

Illness of Charlie Yong, Star Laundryman of Town, Delays Functions.

Brooklyn Herald.—The summer people of Scituate are in a dilemma which is causing them no end of annoyance, and as yet no way out of it has been provided. Charlie Yong, the Chinese laundryman of the village, was taken seriously ill one day last week and his condition became so serious that the town authorities ordered his removal to the state institution at Tewksbury.

It did not dawn upon any one at the time of Yong's going away that the large pile of laundry in his place of business could not be taken out until some one could be found who could read his checks. Yong has always conducted first class laundry, and at the time he was taken sick had more business than he could attend to. Some of the most particular of the summer guests entrusted him with the laundrying of their garments and when he was taken sick a number of pieces of feminine finery were in his possession that the fair owners expected to wear at various social events in the immediate future. Their dismay was indescribable when they discovered that they could not recover the articles that had been washed or were still in the unlaundered state.

Just how the summer people, as well as the townspeople, will get around the problem is still a question, but it is believed that some new laundryman will come down from Boston and get the clean collars and shirt waists of the laundry in order that the social events may not be longer delayed.

A PHYSICAL AFFLICTION.

Knife Will Make Criminals Good Men.

New York, August 7.—A special from Philadelphia to The Herald says:

Following out the theories of the country's foremost physicians and the recent rulings of the juvenile court, the Pennsylvania Society to Protect Children From Cruelty, working in conjunction with Director Coplin, of the Bureau of Health and Charities, and Chief Abbott of the Bureau of Health, has instituted the practice of performing operations upon children given into its charge where medical opinion is rendered that such a course is likely to prevent a criminal career.

The first subject of these experiments were operated on today at the infirmary of the society, which was the first organization of its kind in the country to adopt this course. In all seven children were put under the knife by a number of the city's most prominent surgeons, who performed operations of varied nature, from the most delicate to those of minor importance, calculated to prove that mental and moral condition of the patients.

There were two operations on the brains, three on eyes and two minor operations for nervousness, and all, it is believed, will be successful.

Medical men in this city are greatly interested in the new and unprecedented most of the society, and the most prominent of local surgeons have volunteered their services in the cause. Heretofore such operations have been performed infrequently by court orders on the recommendation of medical experts, but this is the first time it has been taken up by an organization of this character. As a result, it is likely that several hundred operations will be performed yearly, if the experiments prove successful, and a corresponding decrease in crime in anticipated as a result of it.

A GREAT EVENT.

The circus has come and gone, but a bigger event than the circus is billed for the first week of September. It is the St. John exhibition, the best fair in Eastern Canada. The attractions and amusement features this year are so big as to justify calling the St. John exhibition of 1906 a great event.

TO CLOSE THE SALOONS.

Nelson Has Now Joined in the Movement—Same Citizens Desire to Put a Stop to Gambling in Western City Also.

Vancouver, B. C., Aug. 7.—Saloons having been abolished in Vancouver, the town of Nelson has taken up a movement to accomplish the same end. A right having been started here against gambling, Nelson has it advisable to get on the warpath also. The Nelson movement to abolish saloons is exciting a great deal of attention. At a recent meeting of the license commissioners it was moved by Mr. Lamont that all holders of saloon licenses be given notice that at the expiration of six months from date said licenses would not be renewed.

Commissioner Rose objected that the motion was not in order, but on it being ruled in order by Mayor Gillett, he proceeded to object to it on the ground that much money is invested in the saloon business and it would be a hardship on the owners to lose their licenses or be compelled to build hotels.

That politics can be mixed up in these matters was shown when Commissioner Rose said: "It is all right for Commissioner Lamont to make these motions, but it is different with the Mayor and myself. We are elected while he is appointed. Our position must come from the people, and I think the matter should not be dealt with until the electors can have something to say about it. I think the matter could well be left over until the next municipal election and then it could be fought out." As Mr. Lamont could secure no second the motion was dropped. The members of the board are Mayor Gillett, Chairman, and Ald. Rose, representing the council, and Mr. Peter Lamont, representative of the government.

It is said on the streets, although it was not mentioned at the meeting that one of the reasons for this mo-

tion was to do away with gambling in Nelson, for two of the large saloons are now running fully equipped gambling rooms in the back of their buildings. The police do not interfere with them, except during the celebrations, when they give orders to close at midnight, but it at least one case one gambling room ignored this order.

NARROW ESCAPE OF PRINCE OF WALES.

Horses of the Royal Carriage Run Away at Hartford.

The Prince and Princess of Wales narrowly escaped serious injury in a carriage accident at Hartford recently, where they had gone to open the new girls' school of Christ's Hospital.

Their Royal Highnesses were met at the Great Northern Railway station by the mayor and high officials, and after a formal reception attended a tea-party at the hotel. The carriage was followed by a second conveying Viscount Crichton and Lady Mary Lygon, and was preceded by two mounted policemen. A third policeman brought up the rear.

The cheers of the enormous crowds of spectators who lined the gaily decorated streets around the horses, and as the procession neared the row buildings, which are situated at the end of Fore Street and approached a tree lined avenue, the animals began to rear and plunge dangerously.

The spectators were not permitted to enter the avenue, but a great crowd had gathered outside the gates, and as the royal carriage neared them they burst into a roar of welcome.

The horses stopped short and then, with a wild plunge, bolted. They dashed through the gates at a terrific pace, and, despite the efforts of the coachman, tore along the avenue.

A CHEAT TRIP.

The railway rates to the St. John exhibition, Sept. 1st to 8th, are so low that it is almost as cheap to go as to stay at home, and the exhibition, with its many interesting departments, is a liberal education in itself. You cannot afford to miss the St. John exhibition.

TRAIN WRECKING MADE A SCIENCE.

Germans to Smash Things Generally In Order to Learn How Not to Do It.

Berlin, August 7.—Train wrecks are soon to take place near Berlin that may be the means of saving countless lives. This seeming paradox is very easily explained. Alarmed by the increasing number and seriousness of the railway wrecks in England and America, the German state railway administration decided this week on a unique and drastic series of experiments for the prevention of accidents.

A certain section of the military line between Berlin and Zossen, about 12 miles in length, has been handed over to the engineers, who will proceed to conduct elaborate tests through causing artificial wrecks. Switches will be misplaced, rolling stock and locomotives will be equipped with defective brakes and axles and the track will be strewn at various points with obstacles capable of causing derailments.

A newly patented German apparatus known as the Gercke-Bollmann patent will be tried. The apparatus consists of railroad catches, which operate automatically the moment the wheels of the carriage or locomotive leave the rails.

The German railways lose \$1,250,000 annually through trifling derailments, while hundreds of human lives are daily endangered through the accidents caused thereby. The military authorities are taking the liveliest interest in the forthcoming experiments, as in war time derailments occur frequently through the bombardment of troop and ammunition trains.

FOREST FIRES IN B. C.

Entire C. P. R. Force From Cascade to Robson Fighting Flames in Order to Save Threstles.

Rossland, B. C., August 7.—The woods in the section along the Columbia River, Western Railway between Rossland and the Bull Dog tunnel are in flames. At twelve o'clock on Saturday the flames reached Farron, where they destroyed the station round house, the water tank and a large boarding house, inflicting a loss of about \$5,000. The employees of the railway at Farron made a strong fight against the flames, which after destroying the buildings, passed on toward the Bull Dog tunnel. The fires now extend along the road for about 20 miles and the entire available C. P. R. force from Cascade to Robson, is engaged in an endeavor to save the trestles of which there are several, which are high and long on this portion of the road.

There has been over a month of dry hot weather and once a fire is started in the forest it burns itself out or there is no stopping it.

PAIN ABOUT THE HIPS.

It is a common complaint with women. The right treatment is Nerviline, which penetrates to the seat of the pain immediately. Nerviline warms and soothes the affected parts, draws out the irritation and pain, allows the patient ease after one rubbing. No liniment so economical and safe. Nearly fifty years in use, and the demand immensely greater every day! Nerviline must be good.

"MEET ME AT THE PIKE"

at the St. John exhibition on Sept. 1st. The Pike is the big amusement row filled with clean amusements and the date of the opening of the bazaar fair of Eastern Canada. "Meet me at the Pike" will be the rallying cry at the St. John exhibition this year.

VACATION TIME.

To the Editor of The Herald:

Sir.—Vacation time is at hand, and for those who can plan a complete change from life's daily routine there is a great refreshment in it.

The first thing to be said about an outing is "make sure that you get it."

And if you go at it with a simple mind, without regard to what richer or more poor people do, you will hit upon two safe principles to follow. First of all, leave your daily routine. Carry no problems with you. Forget your work. If you can do this by going over the hill, by crossing the river or going up to one of the camps, you will have done half the task. That will rest the mind and freshen the spirit. The next thing is to spend the time outdoors, night as well as day, if you can. It matters little whether you row or sail, walk or hunt, or play golf or climb Curry's mountain, the main thing is that you live out of doors, that you breathe good air, that you take exercise, however imperfect, you cultivate the fine art of planning.

Then, with the mind at rest and the body in action, the worry that other people give themselves about resorts or tours will not find you. It is the man of simplest life who gets the keenest joy from the vacation.

Call again, we are off for the camp. Yours truly, C. H. P.

Fredericton, N. B., August 8.

HAMPSTEAD.

August 6.—During the fine weather the farmers have made good progress in gathering in the hay. In this section the hay crop is a little below the average.

On Sunday Rev. G. M. Campbell of Queen Street Methodist Church, St. John, spoke in the church here on the British and Foreign Bible Society. Mr. Campbell has recently been appointed district secretary of the Canadian Bible Society.

Mr. and Mrs. Allan Appleby are receiving congratulations upon the arrival of an heir.

Among those who passed through the recent Normal School entrance examinations are the Misses Gertrude and Lottie Cliff and Misses Douglas. Mr. Kelley, light house inspector, spent Sunday here, the guest of Mr. and Mrs. E. B. Palmer.

Miss Worden of St. John, spent Sunday with her uncle, Mr. F. C. Stuart.

The friends of Mr. Willard Slipp will be pleased to learn that his condition is slightly improved.

Miss Della Clarke of Boston, and Miss Ruth Belyea of Gagetown, are visiting their aunt, Mrs. Wilfrid Vanwart.

DO YOU GET BILIOUS?

No remedy could be more prompt and agreeable than Dr. Hamilton's Pills. No matter where you go you will hear of the grand cures they make. Writing from Ottawa, Mrs. M. E. Legere says: "For people inclined to biliousness and such headache I don't think that there is a remedy to compare with Dr. Hamilton's Pills. I formerly had bilious attacks about once a month—used Dr. Hamilton's Pills and obtained grand results. My stomach has been put in good order and my health improved." No medicine better for men, women and children. Try Dr. Hamilton's Pills—25c. per box or five boxes for \$1.00 at all druggists.

BUYS VAST COAL AREA.

Deal in Pennsylvania Involving Millions.

Scranton, Pa., August 7.—It was reported today on the best authority that a corporation known as the Pennsylvania, Beech Creek & Eastern Coal Company, with a capital of \$8,000,000, acquires by a nine hundred and ninety year lease all the property and business of the Pennsylvania Coal & Coke Company, Webster Coal & Coke Company, North River & Wharf Company, and several electrical light companies controlled by the old corporation.

The new company will control approximately 125,000 acres of coal land, containing over 900,000,000 tons of coal, with forty-four coal mines, and over one thousand coke ovens now in operation. The company now owns one thousand private railroad cars, extensive docks at Port Liberty, N. J., and will control the business already established in distributing throughout Pennsylvania and also in New York, New Jersey and New England.

PUCKET FASTED A MONTH.

Lost in Chimney, But When Found Was Alive.

Welland, Ont., August 7.—Mr. S.M. Clemon missed a pullet weighing about six pounds. Thirty-one days later it was found in an old chimney, where it had been without food or water. It was very weak, but it will likely recover. Its weight when found was only three-quarters of a pound.

Charles Wood, a man about twenty-five years of age, who recently arrived from England, fell from a building here and received a compound fracture of the left leg, and was seriously injured. His case was not considered serious, but he died suddenly this afternoon at the hospital here, where he was taken when hurt, death being caused by a clot of blood on the brain. He had no relatives in this country.

A family which is passionately devoted to bridge is plunged into mourning by the loss of her father. A discussion arises as to whether the deceased would have chosen to be buried or cremated. The decision is left to the eldest son, who, looking at his mother says: "I leave it to you." The lady replies: "I make it spiders."

A SUIT FOR THE BOY.

The American boy is a very active individual and requires many suits to be presentable most of the time. Many mothers find this a great expense when they purchase these clothes ready made so a pattern which is easily made is given here for blouse and trousers. The blouse may have the box pleat or hem closing and the pockets may be used or not, though most boys like them and find them very convenient. The trousers provide for a fly in sizes from 8 to 12 years, and are made without up to that age. Pockets are inserted in the side front seams and in slashes made in the back. The blouse may be made of any washable material or serge, while the trousers may be of any of the suit materials. For the medium size 12 yards of 44 inch material is needed for the blouse and 2 of 54 inch goods for the trousers.

Two patterns—4060—sizes, 4 to 16 years.

4061—sizes, 3 to 12 years. The price of these patterns is 20 cents, but either will be sent upon receipt of 10 cents.

PATTERN DEPARTMENT OF THE FREDERICTON HERALD.

Please send the above mentioned pattern, as per directions given below, to

Name.....

No.....

Street.....

Town.....

Province.....

Measurement—Waist..... Bust.....

Age (if child's or miss' pattern).....

CAUTION.—Be careful so send size of pattern wanted. When the pattern is sent measure you need only mark 32, 34, or whatever it may be. When in waist measure, 22, 24, 26, or whatever it may be. If a skirt, give waist and length measure. When miss' or child's pattern write only the figure representing the age. It is not necessary to write "inches" or "years." Patterns cannot reach you in less than three or four days from the date of order. The price of each pattern is 10 cents in cash or postal order or stamps.

THE MISSING LINK.

Where can you find anything more interesting to humanity than the monkeys? and Wormwood's Monkey Theatre contains the divinest monkeys in existence today. They form one of the attractions at the St. John exhibition Sept. 1st to 8th.

Dr. Edward Brooks, the noted teacher and author at Philadelphia, described at a dinner the great strides that popular education had made in the past fifty years.

"Smaller and smaller," he said, "becomes the percentage of the illiterate, of those who cannot read or write. It won't be long before a thing that once happened to me will be quite impossible."

"When I was teaching school in my youth in Sullivan County, a boy, one morning, undertook to go through the alphabet."

"He stumbled along and finally he came to a full stop before the letter X."

"Dunno that un," he said.

"Oh, yes you do," said I. "Think a minute."

"He thought. Then he brightened. 'Why,' he said, 'that's dad's name.'"

TOOKE BROTHERS, Limited, MONTREAL.

Will not break readily at the turn-over line.

The special quality of linen used gives the greatest resistance to wear. A row of stitching aids the laundryman in preserving the original lines of style.

Spring Millinery

A Large Assortment of Spring Millinery at

Miss Williams

Opposite Officers' Square.

Work done at the lowest figure.

Sealed tenders are notified that the undersigned, and addressed "Tender for supplying Coal for the Dominion Buildings," will be received at this office until Thursday, August 16, 1906, inclusively, for the supply of Coal for the Public Buildings throughout the Dominion.

Combined specifications and forms of tender can be obtained on application at this office.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. of amount of the tender which will be forfeited if the party tendering declines to enter into a contract when called upon to do so, or if he fails to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order, FRED GELINAS, Secretary.

Department of Public Works,

Ottawa, July 5, 1906.
