THE WINSLOW PROPERTY.

Sold at Public Auction to Mrs. A. F. Randolph for \$7,550.

The residence of the late Mr. E. Byron Winslow, K. C., was sold at auction in front of the post office at 11.30 o'clock this morning to Mr. Moses Mitchell, acting for Mrs. A. F. Randolph for the sum of \$7,550.

Mr. D. J. Stockford acted as auctioneer and the sale was well attended. Mr. Mitchell started the bidding at \$4,000 and was opposed by Mr. T. B. Winslow, who it is understood acted for the Winslow estate. Mr. Winslow's last bid was \$7,500. The property, which is situated at the corner of Brunswick and Church streets is one of the most desirable in the city. The size of the lot is 130x55 feet. A brick barn on King street and with the property is valued at \$1500, and will be taken over by the estate at that figure of the purchaser so desires.

A double tenement leasehold property on Aberdeen street belonging to the Winslow estate was put up at auction and withdrawn at \$800.

A PLEASANT TRIP.

St. John Party Made the Run from Grand Falls to This City in Canoes.

A party composed of Mr. and Mrs. W. S. Fisher, Mrs. R. Firth, Miss Shaw, Miss Peters, Mr. George Hilyard and Mr. F. G. Barbour arrived here last evening from Grand Falls, having made the entire journey in canoes. In conversation with a Herald representative, Mr. Fisher said that the trip was a thorough enjoyable one and he was surprised that more of our own people did not take advantage of it. They spent a half day taking in the wonderful sights at Grand Falls and enjoyed every moment of the time. They tented out during the trip down the river and everything passed off very pleasantly. Meductic Falls furnished a tinge of excitement to the trip, but they put the canoes through the rapids without mishap. Mr. W. H. Harrison of Penniac, was head guide for the party and gave every satisfaction. Mr. Fisher and party returned to St. John by last evening's train.

TOMORROW'S WEDDING.

The nuptials of Mr. J. H. A. L. Fairweather, barrister of St. John, and Miss Agnes Tabor, daughter of Mrs. Clifton Tabor, will be celebrated at the parish church at three o'clock tomorrow afternoon. The bridesmaids will be Miss Louie Wadmore of Halifax, and Miss Grace Winslow of this city and Mr. W. H. Harrison of St. John will be best man. Rev. J. DeWolfe Cowie will perform the ceremony. After luncheon at the bride's home the happy couple will leave by the western train on a trip to the upper provinces.

On account of the large number of invited guests the entire body of the church will be reserved for guests only.

CHURCH PICNICS.

The Roman Catholics of Oranoceto, are holding their annual picnic at Oranoceto Island under favorable weather conditions. The steamer Aberdeen took a fair sized crowd from this city this morning and she made another trip this afternoon. The Fredericton Brass Band has been engaged for the day.

The annual picnic of the Church of England at Fredericton Junction will be held tomorrow on the Lutz grounds at the Junction. Rev. H. E. Dibbitt, the energetic rector, has spared no pains to make the affair a grand success. The C. P. R. will issue one fare tickets from this city.

ATTEMPTED BURGLARY.

A man, whose object is supposed to have been to rob a man, was unsuccessful attempt to enter the residence of Mr. Harry D. White, George street at one o'clock on Sunday morning. Mr. White had his attention attracted by a noise at one of the windows down stairs and promptly turned on the electric lights. As he did so he heard a man scramble out of the yard and up George St. On further investigation he found that an attempt had been made to force the cellar window. Mr. White has placed the case in the hands of the police.

THE GAME SEASON.

The open season for black duck, snipe and woodcock opens on Saturday, September 1st, and already quite a number of local sportsmen are planning a pilgrimage to Portobello and other down river points. Ducks and snipe are said to be quite plentiful this season on the Sheffield marshes, and there should be good sport next week, providing local hunters do not frighten the birds away in the meanwhile. The open season for moose, caribou, deer and partridge begins on September 15th.

A NEW STORE.

The firm of E. A. O'Brien & Co., will open their new dry goods store on Saturday morning next at 9 o'clock. The public are cordially invited to call and inspect the stock. The store will be opened in the stand lately occupied by Dever Bros. The store has been thoroughly renovated and everything is fresh and new seasonable goods at great bargains.

GETTING ALONG WELL.

Contractor Mooney is making satisfactory progress with the water filtration plant and will have it completed some time this fall.

THE SEWERAGE WORK.

The Difficulty on St. John Street Has Been Overcome.

The engine used by Contractor McManus to pump water from the sewerage trench on St. John street was repaired this morning by Mr. Willis Macpherson and it is thought the worst trouble is at an end. No difficulty is now experienced in keeping the water down and the work of laying the pipe is being proceeded with. Yesterday the contractors applied to the city for the use of the steam fire engine, now kept at Morrison's mills but Mr. Morrison would not consent to its removal for fear that it would interfere with his insurance.

The men excavating for the sewerage system on Regent street came up on an old roadway road some four feet below the surface. The road was pretty well rotted out, but there is no doubt that it was at one time the surface of the street. Roadmaster McKay, says that the section of the city between Brunswick and George streets was once a swamp and a roadway had to be built to enable teams to cross.

Several car loads of pipe shipped from St. John by Hyde & Webster, arrived here by the C. P. R. today.

AN OFFICIAL VISIT.

Deputy Minister Butler and I. C. R. Officials Inspect Fredericton Branch.

A party of I. C. R. officials arrived here at two o'clock this morning on a special train over the Fredericton branch. They are on a tour of inspection of the Fredericton branch and will stay at Chatham at eight o'clock this morning. Those composing the party included Mr. M. J. Butler, deputy minister of railways, Mr. D. Pottinger, general manager, Mr. E. Tiffin, general traffic manager, Mr. W. B. McKenzie, chief engineer, Mr. T. Burpee, engineer of maintenance and Mr. W. H. Price, divisional superintendent. Mr. T. E. Hoban, assistant superintendent, met the party at Chatham Junction.

Extensive repair work is being done on the Fredericton branch this season. A construction train has been kept steadily at work since early in the spring. New rails are being laid between Cross Creek and Gibson, and twenty thousand new ties have been put down. A new steel bridge has been erected at Cross Creek, and tenders are being issued for the erection of a steel bridge at Boiestown and Doaktown. A number of old wooden culverts has been torn out and replaced by modern steel culverts.

Deputy Minister Butler made a careful inspection of the road today and expressed himself as being well pleased with its construction.

Hon. Mr. Emmerson was summoned to Ottawa yesterday to attend an important meeting of the cabinet, and was unable to accompany his officials to Fredericton.
