of the school year to ascertain how many have not attended 120 full days.

Parents to be exempt whose children are being properly educated otherwise, or whose children by reason of delicate health being two miles from school or other sufficient cause are prevented from attending. Parents have the right to appeal to a justice of the peace within ten days and he may remit the penalty. For incorporated towns the act is brought into force by vote of the town council, and it is the duty of the mayor to submit the resolution to their vote on or before the 1st of July in each year.

Children between the ages of 6 and 16 are required to attend school for at least 120 days in each year unless prevented by physical or mental dis-

Cured her Father's Drunkenness by a Simple Remedy.

Saves her father from a drunkard's grave. Free sample of Samaria Tasteless Prescription checks his drinking and leads to a complete cure.

"It seemed hopeless to keep father from drinking, and we all felt the disgrace. When things were at their worst a friend advised me to try Samaria. I saw that you offered a free sample treatment and that the remedy was tasteless and could be given secretly. I determined to try it, and have been glad every day since. The full treatment, which I am now on, cured him, and I am pleased to say he never touches whiskey now. How glad I am that I wrote you and how happy we all are together. Father says that he could never have stopped drinking of his own accord."

ability, but any child over 12 years of age who has passed a satisfactory examination in grade seven, or any over 13 who has attended school during 60 days during 14 consecutive weeks in the preceding year, if necessity requires him to work and who shows that fact to the satisfaction of the board may be excused.

The board has authority to appoint officers to make such enumeration and also to appoint officers.

Parents or guardians who do not send the children in their care to school 120 days in each year to be fined from one dollar to \$20 but no person is to be fined more than \$60 in one year.

Children attending private schools approved by the board to be exempt.

It seems to me that there should be no difficulty in framing a law that could be worked out and I trust that when the bill is introduced it will meet with the approbation of the House and of the country.

My hon. friend has also referred to the Halifax Fishery award and the increase of provincial subsidies. Yet he does not tell us what more the government could have done in these matters than we have done. Time and again we have endeavored to get this conference arranged. We have recently had correspondence on the subject with the Premier of Quebec. The leader of the Opposition says that this matter has been before the House since 1900 but the question has been up since the Quebec conference of 1887. We have impressed these matters on the Federal government as strongly as we could and not only this government but the people of this province will demand their rights and a speedy settlement.

I noticed that in one of the provincial threats had been made if the Federal government do not do their duty. We will make no threats, but the people will deal with any government which refuses them justice. I have reason to believe that there will be a conference shortly with the federal government and that the matter will be adjusted. In September last we wrote to Sir Wilfrid Laurier requesting a speedy settlement of these matters. I have since received a reply which is marked private but I have no reason to doubt that the matter will be settled favorably to us, as all the provinces are in it.

The leader of the opposition has said that I will not probably be here next session, but I may say here that I have never applied for any office and I will stay here as long as the people of this province give me their support, and I think that will be as long as the hon. gentleman is leader of the opposition.

That gentleman gloats over the fact that our agricultural interests have not advanced more rapidly. A few years ago this was essentially a lumbering country and farming was neglected.

It is hard to change old habits, yet look at the development of dairying in King's and some other counties. We find great difficulty in getting the farmers to co-operate, but surely that is not the fault of the government. Still, all through this province there is marked progress. Madawaska is advancing rapidly to the front and rapidly becoming a rich county. There has also been much agricultural progress on the north shore. This is a good country for dairying and why should we run it down. It may be unfortunate that our boys are going west to other parts of Canada, but the attraction is strong, for people are going in thousands from the United States and Canada, but the time will come when reflex action will take place and when our boys will come back to us.

With regard to the agricultural college, the government did all it could to promote that object and passed a grant to co-operate with Nova Scotia in supporting such an institution. The government of Nova Scotia choose to go on without assistance. behind the times, while in other matters, we are in advance of every other province in Canada. Last year we passed legislation providing that a warden should go out with every Grand Trunk Pacific survey party, and we have rangers all over the northern forests. These facts ought to be known, for they

seem to have been overlooked by some persons who are fond of censuring the government.

In conclusion, I may say that it should be our policy on both sides to endeavor to promote the best interest.

DROPPED ALL OTHERS.

"I dropped all liniments but Nerviline because I found Nerviline the quickest to relieve pain," writes E. S. Benton of St. John's. "If my children are croupy or sick, Nerviline cures. If a case of cramps or stomach ache turns up, Nerviline is ever ready. We use Nerviline for Neuralgia, rheumatism and all kinds of aches and pains; it's as good as any doctor." The great Canadian remedy for the past fifty years has been Polson's Nerviline—nothing better made.

One of the best old time remedies for all skin affections, such as Eczema, Ring-worm, Scald-head and similar affections is Weaver's Cerate. It is an ointment that has brought relief to thousands.

THE WORLD OVER

Thousands of Mothers are using

DR. CODERRE'S INFANTS' SYRUP

For Children's Ailments, you cannot but admit the fact that this preparation is one of merit and is all that is claimed for it. It is safe, pleasant and soothing for children teething, and a prompt checker of bowel and stomach troubles.

Physicians and Professional nurses recommend it.

In purchasing, see that Dr. Coderre's signature and portrait is on every wrapper. Beware of the many SYRUPS put up in a similar form and made to look like Dr. Coderre's.

COEDUCATION.

A well known university professor has a dilemma in which he is wont to entrap advocates of coeducation.

"If you lecture to twenty boys and twenty girls in the same room," he asks, "will the boys attend to the lecture or to the girls?"

"Of course, the coeducationalist, to be consistent, must say that they will listen to the lecture."

"Well, if they do," replies the dean, "they are not worth lecturing to."

How Is Your Cold?

Every place you go you hear the same question asked.

Do you know that there is nothing so dangerous as a neglected cold?

Do you know that a neglected cold will turn into Chronic Bronchitis, Pneumonia, disgusting Catarrh and the most deadly of all, the "White Plague," Consumption.

Many a life history would read differently if, on the first appearance of a cough, it had been remedied with

Dr. Wood's Norway Pine Syrup

This wonderful cough and cold medicine contains all those very pine principles which make the pine woods so valuable in the treatment of lung affections.

Combined with this are Wild Cherry Bark and the soothing, healing and expectorant properties of other pectoral herbs and barks.

For Coughs, Colds, Bronchitis, Pain in the Chest, Asthma, Croup, Whooping Cough, Hoarseness or any affection of the Throat or Lungs. You will find a sure cure in Dr. Wood's Norway Pine Syrup.

Mrs. C. N. Loomer, Berwick, N.S., writes: "I have used Dr. Wood's Norway Pine Syrup for coughs and colds, and have always found it to give instant relief. I also recommended it to one of my neighbors and she was more than pleased with the results."

Dr. Wood's Norway Pine Syrup 25 cts. per bottle at all dealers. Put up in yellow wrapper, and three pine trees the trade mark. Refuse substitutes. There is only one Norway Pine Syrup and that one is Dr. Wood's.

THE old-time miller did not concern himself much about the quality or purity of his flour.

He simply ground the wheat.

You would refuse to use his product to-day. The results would not satisfy you. You have advanced.

Yet it is possible that your advance has not kept pace with the advance in milling methods.

You may demand a better flour than your mother did and yet be satisfied with something inferior to what it is possible for you to get.

If you are not using

Royal Household Flour

you are not getting the best that improved milling has to offer.

Ogilvie's Royal Household is as much superior to ordinary flours as they are superior to the crude, coarse product of olden times.

Royal Household is made entirely from hard, spring wheat, ground by the latest and most improved method, and purified and vitalized by electricity—a process that is conceded by all millers to be the only method of producing absolute purity, and one that is used by no other mill in Canada.
