MASSIE'S GOOD WORK.

**Fredericton Man Captured Association Cup
at Sussex.**

Sussex, N. B., Aug. 15.—Major Massie, of the Army Service Corps, won in this morning's Association match with a score of 93. In this afternoon's Provincial Match there was a tie between Captain R. H. Arnold, 8th Hussars, and T. T. Price, of Moncton. The score was 45.

A meeting of the competitors took place this evening, Col. Loggie presiding. The meeting unanimously approved of living under canvas on the range. It was announced that the association president would ask the federal government to build on the range a bungalow to cost at least \$1,000. The meeting recommended that four more targets for the extra series be put up.

A revolver match commenced this afternoon, the range being twenty-five yards and six shots to be fired in two minutes. A .44-calibre revolver was used and the target was of the standard American pattern with four inch black. The position of the competitors was standing with pistol, arm full extended. Competitors were all made to provide their own revolver and ammunition. The entrance fee was twenty-five cents.

In the shoot-off in connection with the Prince of Wales Match Major Kinneair secured the cup and second money. H. H. Bartlett, who won, secured first money but not being eligible, did not win the cup.

The following is the Association match score:
Major A. E. Massie, A. S. C. 93
H. H. Bartlett, 8th Hussars 92
Major O. W. McNamee, 7th Regt. 91
E. A. Duxton, St. Stephen 91
Lt. E. K. McKiv, 62nd Fusiliers 91
Capt. E. A. Smith, R. L. 89

Roy Brooks, W. J. Cates and A. S. McFarlane were counted out.

province of Ontario has to pay for this license, even though he has a summer home in Quebec and pays taxes on the same there. Naturally Americans would have to do likewise. An American belonging to a Cana-

club has to pay \$5 for a license. There has been realized this year upwards of \$75,000 from the sale of these licenses, every penny of which has been expended carefully for the protection of the fishing, and there are today in the employ of the Quebec government, more than five hundred men constantly guarding the lakes and rivers and looking out for poachers.

If "Experience" objects to this small tax why does he not fish in the public waters in the Adirondacks which, on account of non-protection, in late years are, as he probably is well aware, all fished out.

SALMON TROUT.

New York, Aug. 6, 1906.

SOME VALUABLE PRIZES.

There is perhaps no better evidence of the local popularity of the coming St. John exhibition, Sept. 1st to 8th than the fact that so many of our prominent citizens and business concerns volunteering to bestow special prizes. The idea is a good one; it is business-like; it is patriotic. The value and importance of exhibitions as such, with their special educative and ambition arousing features, is closely appreciated by these donors. They set a good example and they are justly entitled to the credit. Monies and medals are offered by such bodies as The Dominion Breeders Association, The Sun Printing Company, George McAvity of St. John, Henry Burke & Sons of Montreal, The Prov. Chemical Fertilizer Co., Mr. Pearson of Halifax, W. A. Burpee of Philadelphia and others. A great number of special prizes have been donated also for the dog show, which is a feature second to none this year at the St. John exhibition.

WOOLING MORPHEUS

sometimes doesn't always work these hot nights. Get on the right side of sleep by having us put in

AN ELECTRICAL FAN.

You'll sleep like "a top" and the cost won't be half what the "keep" at an insane asylum would be. It's "money in" using our electrical fans and besides it keeps you good-natured and cool. Try them and see.

HOUSEHOLD HINTS.

English Batter Pudding.—An English batter-pudding with green gooseberries is made as follows: Pour a pint of milk over a slice of bread, crumbled. Stir in ten even tablespoonfuls of flour. Add the yolks of four eggs, half a teaspoonful of salt, and finally the whites of four eggs which have been beaten to a stiff froth. Beat this batter carefully, and stir into it a quart of green gooseberries. Put the pudding in a greased mold, or tie it up in a thick cloth which has been thoroughly greased and floured. Let it boil two hours. Serve it with an English brandy-sauce or an old-fashioned hard sauce.

Strawberry Custard.—Separate 4 eggs, put one pint of milk into a double boiler, beat the yolks of the eggs and four tablespoonfuls of sugar until light, add them to the milk, stir constantly until the thickness of cream, take from the fire and stand aside to cool; beat the whites of the eggs until stiff, add to them four tablespoonfuls of powdered sugar, and beat again until stiff and white. Put about a pint of strawberries into a glass dish, pour over the custard, heap the whites in spoonfuls over the top, dust with sugar, stand in the oven a moment to brown. Serve icy cold.

Strawberries With Orange Juice.—This is an exceedingly nice way to serve a sweet berry. Have them picked carefully, and placed in a serving dish, dust with sugar, and then to each quart pour over carefully the juice of two oranges, serve at once.

White Spruce Beer.—Mix together three pounds of loaf sugar, five gallons of water, a cup of good yeast, adding a small piece of lemon peel, and enough of the essence of spruce to give it flavor. When fermented, preserve in close bottles. Molasses or common brown sugar can be used, if necessary, instead of loaf, and the

lemon peel left out. Sometimes when unable to obtain the essence of spruce, we have boiled down the twigs. This will be found a delightful home drink.

To make raspberry or blackberry vinegar, take a jar of vinegar, and fill with the fruit, let it stand for three days, then strain it. For every pint of juice add one pound of sugar. Let it come to a good boil and then skim. Let it cool and then bottle and seal.

To hasten the cure of a burn or scald there is nothing more soothing or effective than the white of an egg. It is contact with the air that makes a burn so painful. The egg acts as a varnish and excludes the air completely and also prevents inflammation. A small piece of washing soda in the water for washing softens it, and does no harm, but those trusted with the use of it are apt to use it too bountifully and thus injure the clothes. It does make them white, but tender also. The best and safest agent for bleaching will be found to be the sun.

A superior bluing for clothes is made of one ounce of soft Prussian blue, powdered, put into a bottle with one quarter ounce of oxalic acid and one quart of cold water. It is very strong and at once ready for use. A few drops are ample for a large washing. The cost is less than any other bluing and it gives perfect satisfaction.

Milk and brown sugar, mixed in equal quantities, with half as much black pepper, will destroy flies. It is said by some. Others say "a dozen will come to the funeral of each one." If the worn old adage is oblied as to the "trade" of gold-finders' flies will necessarily be few and far between, unless tempted by unusual sweets.

When a picture begins to crack after having been painted for some length of time, the trouble usually lies with the vehicle which was employed in mixing the colors, or sometimes the cause is owing to the painting having been varnished too soon before it had time to become thoroughly dry and hardened. The best plan is to consult a professional picture restorer who will know best, after seeing the painting, how to advise you. To pickle blackberries make a syrup of two and a half pounds of brown sugar and one pint of vinegar, one teaspoon each of ground cloves and cinnamon; when hot put in six pounds of blackberries, cook slowly ten minutes, skin out into a one-gallon jar, boil the syrup ten minutes more, pour over the berries, cover with a saucer or plate to keep the berries under the vinegar; tie up the jar with double cloth and then a paper over that.

FISHING IN CANADA.

The New York Herald prints the following communication:

To the Editor of the Herald: "Experience" article in the morning's paper amuses me. I have been fishing in Canada for fifteen years, pretty much all over the Dominion. He says they charge \$10 to an American for fishing in Lake St. John and \$25 for salmon fishing. There never was a salmon in Lake St. John and there never will be.

The Quebec government charges non-residents of the province of Quebec \$10 for a yearly license. Any one fishing in Quebec who lives in the
