CLOUDS ARE LOWERING.

Storm May Break in Russia Very Soon.

St. Petersburg, March 29.—Despite the government's assurance that another extensive outbreak in the immediate future is impossible, the clouds are lowering and there are other indications that a big storm may break before Parliament meets. The resentment against the terrible repressive measures of the government is arousing the people, especially the workmen in the cities, to fury. This is playing into the hands of the revolutionists, who are planning a political strike and a general uprising. They believe that the right moment will come in Mid-April and both sides are preparing for the fray. If it comes it is likely to be bloodier and more terrible than anything previously witnessed in this country.

The record of arrests last week in St. Petersburg, besides showing an awful state of lawlessness in the capital, is eloquent testimony of the methods by which the government hopes to prevent the threatened explosion. According to the returns, 659 beggars, 215 persons without passports, 217 thieves, 270 highwaymen and 1,077 "unclassified persons" which means political suspects were

When a man has no conscience of his own he is apt to use his wife's taken into custody.

NEW LEADER CHOSEN.

Manitoba Liberal Convention Adops a Platform.

Winnipeg, March 8.—The Provincial Liberal convention concluded its duties of drafting a platform, selecting a leader and outlining organiation work for the next campaign. There were 550 delegates in attendance to-day, and judged from every viewpoint, the convention is regarded as the most successful in the history of the Province, if not in the Dominion. Upon Mr. Edward Brown a successful general merchant of Portage la Prairie and Mayor of that town, fell the mantle of Hon. Thomas Greenway as leader of the Liberal party in Manitoba, and the choice is regarded as an excellent one. His was the only name offered to the convention, this being a fair indication of the unanimity of the party in this important factor to success at the next appeal to the electorate.

In drafting the platform, the convention also decided in favor of advanced and even radical temperance legislation, the establishment of na intelligence branch in the Department of Agriculture, and of giving a special portfolio to that department; the definite policy of good roads construction; more liberal support of education; more economy in financial administration; due supervision of corporations and trusts tending to restrain trade; opposition to wholesale guaranteeing of railroad bonds; for fair administration of justice, untrammelled by political interference and political exigencies; preparation of voters- lists on a basis of resident ratepayers, supklemented by personal registration.

A resolution was also passed expressing appreciation of the Dominion Government's action in co-operating with the railroads in sending out the seed grain special train, which had been such an important factor in the agricultural administration. Another resolution expressed confidence in Hon. C. J. Mickle, who leads the opposition in the House, and appreciation of the ability and energy he has displayed.

Mr. Brown, the new leader, was born near Gresham, Bruce county, Ont., in 1865. His father was Reeve of that county for many years and was closely identified with public affaics. Mr. Brown was for a time engaged in the general store business in Paisley, but left that town for the west in 1888 to engage in business with his brothers at Portage la Prairie, where they have been remarkably successful. Mr. Brown has had a wide experience in civic affairs, and his friends confidently predict more distinction for him in the wider sphere now opening. He is an excellent and fearless platform speaker, and brings to the Liberal party the qualities necessary for a successful leader at this critical juncture in its history.

DANGER AT QUEBEC.

The Cliff Overhanging Champlain St.

Quebec, March 29.—A feeling of uneasiness exists among the people of Quebec over the threatening condition of the cliff overhanging Champlain Street, in line with the River St. Lawrence. In 1841 a number of houses in Champlain Street were demolished and several lives lost by a landslide, and in 1889 a whole block of dwellings suffered a like fate by a landslide from under the Citadel Heights, that resulted in the loss of fifty-four lives, and now a third landslide is threatening, if the federal authorities do not do something to avert such a catastrophe. The attention of the government was called to the dangerous aspect of the cliff last spring, which threatened to come down at any moment and bring the Citadel, known as the King's Baston, down in the slide.

An expert member of the geological survey was sent for from Ottawa to inspect the condition of the cliff, and found it necessary to order the western side of the Dufferine Terrace closed to all promenaders, and also made a report to the government which showed the situation as serious.

Mgr. Laflamme, the well known geologist of Laval University, and the city engineer, Mr. W. D. Bailairge also made an inspection and reported that they found about one hundred and fifty crevices in the rocks formation between the western end of the Dufferine Terrace that extended under the Citadel fortifications that looked ominous, and advocated that immediate steps be taken to buttress the rocks from Champlain Street, fill in the crevices with cement, and otherwise perform work that would prevent a landslide that under present circumstances was likely to take place at any moment without warning and perhaps cause great loss of life.

The government has not moved in the matter as yet, and the people who live under the rock in Champlain street are becoming very much alarmed.

"What I want" said the constituent, "is a nice, easy position."

"My friend," answered Senator Sorghum, "give up that idea. When an easy position is discovered so many people are after it that a man has to fight ten hours a day to get it and twelve hours a day to hold on to it."

NO ONE

WHO HAS EVER SEEN OR HEARD THE HELPLESS CHOKING OF A CONSUMPTIVE

CAN THINK LIGHTLY OF A COUGH

A single dose of Dr. Wood's Norway Pine Syrup will convince you that it will stop the cough, sooth the throat, and start you on the road to recovery.

DR. WOOD'S NORWAY PINE SYRUP

is rich in the lung-healing virtues of the Norway pine tree, skilfully combined with Wild Cherry Bark and the soothing and expectorant properties of other pectoral herbs and barks. It is a pleasant, safe and effectual medicine for Coughs and Colds, Hoarseness, Sore Throat, Pain in the Chest, Asthma, Bronchitis, Croup, Whooping Cough, Quinsy and all troubles of the Throat and Lungs.

Be sure and do not accept a substitute for Dr. Wood's Norway Pine Syrup. The genuine is put up in a yellow wrapper, three pine trees the trade mark, and the price 25 cts.

A FEARFUL BUTCHERY.

Men Slashed Each Other to Pieces.

Minneapolis, Minn., March 29.—In a little two story ramshackle frame building on Tenth Avenue six Greek and Sicilian laborers were horribly butchered some time between midnight and this morning. The dead are Nicolo Demtri, Kirkle Demtri, Agne Karofil, Kerstan Yovke, Baakon Kapanni and Unka Naudaba. The building stands less than half a block from Washington Avenue, the principal highway connecting Minneapolis and St. Paul, and a stone's throw from the station of the Western Railroad. In this tumble-down structure a group of men fought with knives and hatchets. The six victims were literally hacked to pieces. That the men fought amongst themselves and were not murdered by outsiders for revenge, as was at first supposed, is the theory now advanced, although the police are of the opinion that there are two or three men still at large who were concerned in the fight.

Six long knives and a bloody hatchet were found in the room with the dead men, giving evidence that every man was armed with some sort of weapon. The police scout the Mafia theory. The murders were not committed for robbery, as much money was found untouched. In a tin box on the floor of the room was found a check for $373, made out to Nicolo Demtri. The box also contained $400 in American currency and $500 in Italian gold pieces. Several satchels were also found, one being marked Nicolo Demtri. It contained a complete set of vestments of a Greek Catholic priest, even to the mitre. In this satchel were found passports in Turkish, Greek and French.

WHERE IS J. J. FLYNN?

Belleville People Figure in Los Angeles Mystery.

Los Angeles, Cal., March 30.—Detectives were detailed to investigate the cause of the death of Mrs. J. J. Flynn, of Belleville, Oot., who came to Los Angeles recently with her husband. The latter disappeared shortly after her death and in an indirect way his name has been linked with that of the unindentified man who is dying at the County Hospital of a self-inflicted revolver shot wound discharged into his brain while at Eastlake Park. The would-be suicide destroyed everything on his person that would aid identification. In general his description tallies with Flynn, but he has not yet been identified.

The Flynns had not been married long. Mrs. Flynn said, when they rented apartments at the Leroy 424 South Hill street. Mrs. Flynn was taken suddenly ill last Thursday and was removed to the emergency hospital, where she died late Friday night.

Flynn, who was not with her at the time of her death, was informed of her demise shortly after midnight and half an hour later he appeared at the Leroy in an excited condition. When he awakened Saturday he hastened from the house and has not been seen since.

Mrs. Flynn's body was taken in charge by Bressee Bros. She would have been buried in Potter's Field had not a message been sent to Mrs. Louise Cook at Belleville, who turns out to be the mother of the dead bride. Mrs. Cook instructed the undertaker to inter the body at her expense. Coroner Trout was notified of the alleged suspicious circumstances, and that Flynn had not called to view his wife's body. Captain of Detectives Flammer immediately detailed detectives to the case.

WHEN YOU GROW OLD.

The body needs patching—wasted tissues must be rebuilt, played out organs restored—blood needs extra nourishment. Elderly people need Ferrozone,—need it because its vitalizes and rejuvenates as no other remedy can. Ferrozone builds up the kind of strength that makes one feel good,—keeps back the decay of old age and makes you look young and handsome ngain. Forget nervous exhaustion, renew your vital energy, again re-enter the life of youth. Your remedy is Ferrozone, only fifty cents per box, at all dealers.

HAS NO EQUAL

"I had a very bad cold which settled on my lungs. I tried many remedies but could get no relief. On the advice of a friend I procured a bottle of Dr. Wood's Norway Pine Syrup. Before the bottle was half finished I had not the slightest trace of a cough, and in my opinion Dr. Wood's Norway Pine Syrup has no equal as a cure for coughs, colds, or any affection of the throat and lungs.

J. J. McLENNIS, Woodbine, N.S.

THE SUNLIGHT WAY

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way (follow directions).

Hard rubbing and boiling are things of the past in homes where Sunlight Soap is used as directed.

Sunlight Soap will not injure even the daintiest fabric or the hands, and the clothes will be perfectly white, woolens soft and fluffy.

The reason for this is because Sunlight Soap is absolutely pure, contains no injurious chemicals—indeed, nothing but the active, cleansing, dirt-removing properties of soap that is nothing but soap.

5c. Buy it and follow directions 5c.

YOUR MONEY REFUNDED by the dealer from whom you buy Sunlight Soap if you find any cause for complaint. 165

LEVER BROTHERS LIMITED, TORONTO

BIG BUSH FIRES IN AUSTRALIA.

Pupils Heroically Saved by Their Teacher—Vast Areas are Affected.

Sydney, March 30.—For the second time in the space of two months, vast areas of the country are being swept by bush fires. A million acres between the Lachlan and Murrumbidgee rivers, in New South Wales, were devastated a few weeks ago, and now for some days past the Gippsland district of Victoria has been ablaze. Many lives have been lost and hundreds of homesteads, farm buildings and schools, together with numberless cattle, have been destroyed. The disaster is unprecedented in Australian history.

Many tales of heroic rescues are told. At one place in Gippsland the flames swept up to a school in which were eighteen children. The buildings were quickly in flames, but the teacher hurried his class into the garden, made them lie down and covered them with blankets. These he saturated with water from a tank, passing repeatedly through the flames to fetch the water. He was seriously injured, but succeeded in saving all the children.

A farmer, finding the fire unexpectedly upon him, stripped himself to the waist, and with his wife, his daughters and a baby, fought his way with a flail through the burning bush.

Two farmers carried a delirious comrade for several miles through flames and smoke. A little girl, trying to protect her baby sister from the flames had her own clothes set on fire. She tore them off, stamped out the sparks and wrapped the clothes round her little sister. She was terribly burned, but saved the baby's life.

INVENTS AN ICE LOCOMOTIVE.

Minnesota Man Thinks His Machine May Supersede Dogs and Horses in Alaska.

St. Paul, Minn., March 30.—If the design of C. E. S. Burch, of Minneapolis, Minn., is successful, the death knell of the dog as a means of locomotion over the ice fields of Alaska has been sounded. Mr. Burch has invented an ice locomotive. The invention consists of a car body mounted on four sharp bladed worms, which are turned by means of a steam engine, but which the inventor intends to have operated by alcohol.

The worms can be operated independently and the car can be manoeuvred easily. In test trials on Lake Calhoun, Minnesota, the machine made from nine to eighteen miles an hour and climbed over rough ice and obstacles with remarkable ease.

The diameter of the worms is twenty-seven inches. A new machine is now building in Canada with worms six feet in diameter, which is expected to attain a remarkable speed.

The machine could be used for hauling trains of sledges over the trails or to remote parts of Alaska, where dogs are now used.

BANK MANAGER MISSING.

Chief Officer of the Union Bank at Smith's Falls, Ont., Disappeared on March 16th.

Smith's Falls, Ont., March 30.—A Bethume, manager of the local branch of the Union Bank, is missing, and his whereabouts since March 19th are unknown to the bank authorities. On Friday, the 16th, he left here in company with Inspector Billet for the head office in Quebec, and on Saturday night paid his bill at the Chateau Frontenac and left, probably for home. For a time his continued absence did not cause anxiety, the office here thinking him still in Quebec and the head office supposing him to have returned home.

It is understood that Inspector Billet when here had occasion to find fault with the manager's work, instructions having been disobeyed, but evidently nothing serious, as the bank states all his accounts are absolutely correct and there appears to be no reason whatever for his disappearance.

Mr. Waddell of Carleton Place, is now in charge of the bank here.

"How did you amuse yourself while you had the whooping cough?" asked Uncle Jack.

"We played Indian," answered Bobby, "and we could give splendid war-whoops."

BIG FIRE AT JOHNSTOWN.

The Business Section Almost Destroyed.

Johnstown, Pa., March 30.—For three hours immediately after midnight yesterday morning Johnstown's business section was threatened with destruction by fire which was only placed under control after it had burned itself practically out, caused a loss estimated at $800,000 and the death of one fireman, William Campbell, who was caught under a falling wall. Campbell's body was taken from beneath a pile of brick and mortar later by the firemen.

Early yesterday it was reported that G. H. Santamore, a telegraph operator for the Publishers' Press Association, was missing. Santamore was in the office of The Johnstown Journal, which was burned out, and after the fire he could not be found. It was feared he had perished in the flames.

Young Mr. Kearney had proposed to Miss Chillicon and been accepted.

"Sweetheart," he said, "let it be soon. I don't like long engagements."

"You don't call this a long engagement, do you?" she said, lifting her shapely head for a moment from his shoulder. 'I hauled down my flag and capitulated at once, didn't

TERRIBLE PAINS ACROSS BACK

SUFFERED EIGHT MONTHS WITH KIDNEY TROUBLE. WOULD HAVE TO STAY IN BED FOR THREE DAYS AT A TIME

Doan's Kidney Pills

CURED HIM

Mr. Thomas Fitzgerald, Hazeldean, Ont., writes us as follows: "I was a great sufferer from kidney trouble for eight months. I had terrible pains across the small of my back. I would have to stay in bed for three days at a time and could not do any work. I tried several remedies but of no avail, and also plasters but they were of no use.

One day a neighbor of mine advised me to try Doan's Kidney Pills. I was so much discouraged I told him I was tired of trying remedies, but he urged me to try one box so I purchased one, and before I was through using it, I found a change for the better so I got five boxes more, and I have had no trouble with my kidneys since. I would not be without Doan's Pills in my house."

It is really not difficult to cure kidney trouble in its first stages. All you have to do is to give Doan's Kidney Pills a trial. They are a never-failing cure for all forms of kidney trouble. They quickly relieve the congested, overworked kidneys, and gradually bring them back to health.

Doan's Kidney Pills 50 cents per box or three boxes for $1.25, all dealers or The Doan Kidney Pill Co., Toronto, Ont.

THE WORLD OVER • Thousands of Mothers are using

DR. CODERRE'S INFANTS' SYRUP

For Children's Ailments, you cannot but admit the fact that this preparation is one of merit and is all what is claimed for it. It is safe, pleasant and soothing for children teething, and a prompt checker of bowel and stomach troubles.

Physicians and Professional nurses recommend it.

In purchasing, see that Dr. Coderre's signature and portrait is on every wrapper. Beware of the many SYRUPS put up in a similar form and made to look like Dr. Coderre's.

Price, 25cts. per bottle, or by mail on receipt of price.

Sole proprietors, THE WINGATE CHEMICAL CO. Limited, Montreal, Canada.
