

THE NEW SILVER MOON.

There are several so-called "just as good" self feeders on the market, but the New Silver Moon is better fitted, that is, the joints won't leak gas as others will, and also the New Silver Moon has a double fire pot, by means of which better control of the fire, and more heat can be had, with less fuel used than any other similar stove.

The New Silver Moon is made in four sizes. Write for prices before purchasing.

James S. Neill,

FREDERICTON'S BIG HARDWARE STORE

SUNLIGHT SOAP

Wash oilcloths and linoleums with warm water and Sunlight Soap, rinse clean and wipe dry. The colors will be preserved and the surface unharmed.

Common soaps fade the colors and injure the surface. Sunlight Soap cleans, freshens and preserves oilcloths and linoleums.

Sunlight Soap washes clothes white without injury to the most delicate fabrics, or to the hands, for it contains nothing that can injure either clothes or hands.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way (follow directions).

5c. Buy it and follow directions 5c.

LEVER BROTHERS LIMITED, Toronto

FIELDING BANQUET.

Finance Minister Honored by Great Gathering of Liberals at Montreal--The Tariff Questions.

Montreal, Nov. 21.—The banquet given last evening by the Reform Club to the Hon. W. S. Fielding was a splendid success, 500 guests sitting down under the presidency of L. E. Geoffrion.

At the table of honor were: Sir Frederick Borden, Hon. Messrs. Borden, Aylesworth, Fisher, Emmerson, Brodeur, and Lemieux, of the federal cabinet; ex-Premier Ross, Premier Gouin, Hon. W. A. Weir, Senators McKay, Casgrain, McSweeney, E. M. McDonald, M. P. (Dietou) and many other leading men from the different provinces.

The health of the minister of finance was proposed by Major G. W. Stephens, M. L. A., and Mr. Fielding on rising to reply, was given a great ovation.

After a declaration in favor of clean elections, and the great prosperity of the country under Liberal government Mr. Fielding proceeded to discuss the tariff, and the approaching revision. He said: "There are differences of opinion, but viewing the matter broadly, we have to recognize that there is danger of a line of division being drawn between the east and west. There is, perhaps, a conflict of opinion, perhaps, not between the east and west, but between the west and the powerful manufacturing interests of the east. No doubt as years roll on, great interests will also grow up in the west, and there will then be a greater variety of opinion out there than at present. But for the present, and for a long time to come, the agricultural interests must be the predominating one of our entire country and the farmers as a rule, feel that their interests will be promoted by a much lower tariff than many manufacturers desire."

Under such conditions, the adoption of extreme protective views which prevail in some quarters, would undoubtedly lead to disturbance, and perhaps dangerous agitation in the west. I have repeatedly urged many industrial friends that whatever policy would best fill up the North-west, is the best policy for the manufacturers themselves, for settlers in these new lands will naturally be customers for eastern manufacturers.

We have labored also to show the western farmer that he must not expect to have things as he would wish them, but he must be prepared to give and take. I think our efforts in this direction have not been in vain, and I think most of the manufacturers of Canada are not disposed to recognize that the policy of a moderate tariff is, on the whole, a better one even from their point of view.

We have determined to change the form and shape of our tariff schedule, and while we are doing this we may find it necessary here and there to make changes as regards particular items.

He, however, was not free to make any statements, as tariff changes in detail can only be made known from the floor of parliament.

"It is our intention," he stated, "to adhere to our principle of British preference, as laid down in 1897." He would also have another tariff column which shall contemplate legitimate discrimination between the products of those countries anxious to trade with us and those which put up bars against us.

He concluded by the statement that the changes would be announced in the early days of the coming session.

The finance minister was again loudly applauded as he resumed his seat.

AUTUMN DRESSES.

When the maple turns to crimson,
And the sassafras to gold;
When the gentian's in the meadow
And the aster in the fold;
When the moon is lapped in vapor,
And the night is frosty cold.

When the chestnut burrs are opened,
And the acorns drop like hail,
And the drowsy air is startled
With the thumping like the fall—
With the drumming of the partridge,
With the whistle of the quail.

Through the rustling woods I wander,
Through the jewels of the year,
From the yellow uplands calling,
Seeking her who still is dear:
She is near me in the autumn,
She, the beautiful, is near.

Through the smoke of burning summer,
When the weary winds are still,
I can see her in the valley,
I can see her on the hill,
In the splendor of the woodlands,
In the whisper of the rill.

For the shores of earth and heaven
Meet and mingle in the blue;
She can wander down the glory
To the places that she knew—
Where the happy lovers wandered
In the days when life was true.

So I think when days are sweetest
And the world is wholly fair,
She may sometimes steal upon me
Through the dimness of the air,
With the cross upon her bosom
And the amaranth in her hair.

Once to meet her, ah, to meet her,
And to hold her gently fast,
Till I blessed her, till she blessed me—
That were happiness at last,
That were bliss upon our meetings
In the autumn of the past.

—Bayard Taylor.

AN IDEAL.

Takin' things easy—that's the trick
That's hardest of all to learn:
This world keeps steppin' along so quick
An' dodgin' at every turn
That we close our ears to the lazy song
That Summer is singin' the whole day long.

An' we get to thinkin' its wholly wrong
To be takin' things easy.

Takin' things easy, with duty done,
An' never a thought of fear
When the shadows close at the set of sun,
An' the moon and stars draw near—
The real reward that a man kin claim
In the search for wisdom an' wealth an' fame.

Is the chance, some time, without risk of blame,
To be takin' things easy.

THE WORST KIND.

After piles have existed for a long time and passed through the different stages, the suffering is intense pain, itching, throbbing, tumors form, filled to bursting with black blood.

Symptoms indicating other troubles may appear to a thoroughly Pile sick person.

This is when Dr. Leachard's Hem-Roid the only absolute Pile cure, brings the results that have made its fame.

It will cure the most stubborn case in existence and a bonded guarantee to that effect goes with each package.

Hem-Roid is to be had for a \$1.00 at the drug store, or from the Wil-son Fyle Company, Limited, Niagara Falls, Ont.

Under such conditions, the adoption of extreme protective views which prevail in some quarters, would undoubtedly lead to disturbance, and perhaps dangerous agitation in the west. I have repeatedly urged many industrial friends that whatever policy would best fill up the North-west, is the best policy for the manufacturers themselves, for settlers in these new lands will naturally be customers for eastern manufacturers.

We have labored also to show the western farmer that he must not expect to have things as he would wish them, but he must be prepared to give and take. I think our efforts in this direction have not been in vain, and I think most of the manufacturers of Canada are not disposed to recognize that the policy of a moderate tariff is, on the whole, a better one even from their point of view.

We have determined to change the form and shape of our tariff schedule, and while we are doing this we may find it necessary here and there to make changes as regards particular items.

Rear Admiral Genison.
Capt. John Denison, A. D. C., recently gazetted Rear-Admiral, with seniority of Sept. 18, is a brother of Lieut.-Col. George T. Denison of Toronto. He was born in Toronto in 1853, and educated at Upper Canada College. Later he joined the Britannia training ship, and in April, 1867, entered the Royal Navy as a cadet. His rise there has been rapid. He attained midshipman's rank in 1869, was made sub-lieutenant in 1873, lieutenant in 1878 and commander in 1891. Five years later he won his captain's commission, and was placed in charge of H. M. S. "Probert" in the China fleet. There he remained for four years, and was subsequently given command of the Gossamer and of the Anson. In May, 1898, he was selected to command the royal yacht Victoria and Albert and in 1897 was appointed captain of the Laona, a cruiser of the first class. Now, at the age of fifty-three, he has succeeded in attaining the rank of rear-admiral.
