REVOLT SPREADING.

Czar Soon Will Have on His Hands More Than He Can Manage--Naval Men Join in the Mutiny.

Helsingfors, Aug. 3.—(Special)—The entire Sveaborg fortress is in the hands of the government, and the prisoners are being hurried out to Skatudden Island.

In the Sveaborg mutiny, seven companies of artillery were concerned, and of the fortress steamers the Vizkeli Puskair Rabotschi Ingrier and Mars were in the hands of the mutineers, while the Bomma Opita and Sveaborg remained loyal. The Opita was furiously bombarded by the mutineers yesterday and the latter threatening to sink the Bomma at the first opportunity.

Only one, the Finn, of six vessels, stationed in the North harbor fired on the Marine Barracks, occupied by the mutineers, the others remaining passive.

The rebel cruiser Pamyat Asova has arrived in the roadstead here in the possession of the loyal portion of the crew. One hundred and fifty of the mutineers have been sent ashore and imprisoned.

The loyal men gained the upper hand of the mutineers at sea. When the ship came in here they asked for a detachment of troops to aid them in handing over the mutineers to authorities. Three officers, whom mutineers had placed in irons on board the vessel, have been left on board. The remainder of the crew has been disbanded.

St. Petersburg, Aug. 3.—(Special)—On the heels of the other bad news comes the startling statement that the emperor has flatly refused to accept the conditions to which Premier Stolypin agreed in his negotiations with Count Hriden Alexander Guckoff, Prince Nicholas Lvoff, Paul Vinogradoff and Konev, for the reorganization of the cabinet.

There is an increasing apprehension that the Emperor proposes to take the final step of turning the country over to the military dictatorship of Grand Duke Nicholas.

The streets of St. Petersburg again are filled with patrols.

Warsaw, Russian Poland, Aug. 3.—Artillerymen in the summer camp at Rembertoff, near Warsaw, have mutinied and infantry and Cossacks have been despatched to quell the revolt.

St. Petersburg, Aug. 3.—All the stations of the Finnish railway between St. Petersburg and Viborg, as well as the entire length of the coast which the line skirts have been captured by troops.

St. Petersburg, Aug. 3.—Although the mutineers at Sveaborg have been quelled and one at Cronstadt has been practically put down, the outlook is still black. The revolutionists whose hands were suddenly forced by the premature rising at Sveaborg, are apparently undaunted at these initial reverses and intend to persist in their programme of calling a general strike on Saturday or Monday.

One of the leaders of the revolutionists with whom the Associated Press spoke last night, boasted that the word had gone forth and that the revolt would spread to the corners of the empire. His closing words to the correspondent were:

"Now watch Reval, Riga and Lihau."

MUTINY ON CRUISER.

The mutiny on board the armored cruiser Pamyat Asova, off the Estonian coast, is fraught with enormous possibilities. The crew of this vessel rose and killed the commander and four officers. Ambassador Meyer has received a despatch from the United States consul at Reval saying that the Pamyat Asova, after that port yesterday afternoon with the red flag at her masthead.

Should this cruiser, under the flag of the mutineers, sail to the northward and appear before the main squadron in the Gulf of Finland, the loyalty of the crews of the vessels would perhaps be put to a stronger test than they could stand.

The mutiny on the Pamyat Asova may possibly raise international complications, as in the eye of the law this cruiser, like the Kniak Potemkin in the Black Sea, in the summer of 1905, is a pirate. There is reason to believe that the German fleet has orders covering just such a contingency as this, and that it would not hesitate to put an end to the renegade cruiser as a danger to commerce.

CZAR WAS READY TO FLEE FROM CRONSTADT.

When the firing began at Cronstadt Wednesday night, there ensued a wild panic in the imperial palace at Peterhof, as the palace lies under the guns of the fortress. All preparations had been made in advance to flee to Tsarskoe Selo, but the report aloft yesterday afternoon that the emperor and his family actually had fled in the middle of the night, was denied later at the chancellery of the imperial household. It was explained, however, that on account of "dampness" at Peterhof, arrangements had been made for the return of the imperial family to Tsarskoe Selo.

Marshall law was proclaimed at Cronstadt during the day, and all day long reinforcements have been landing there from the mainland. No one is permitted on the island without a pass, and although the correspondent of the Associated Press was thus equipped, he was held up and searched upon disembarking from a row boat.

The correspondent found at 6 o'clock yesterday evening there were about 2,000 mutinous sailors barricaded in their barracks, which were surrounded by troops.

The correspondent made a tour of the city and penetrated to the bridge connecting with fort Constantine. He saw sailors laughing from the windows of the barracks at the besieging soldiers across the way. Everywhere there were heavy patrols of soldiers and the thoroughfares were almost empty. The people are afraid to venture out.

BRAVE WOMAN BRUTALLY STABBED TO DEATH.

From eye witnesses on both sides, the correspondent learned that in addition to the officers previously mentioned, the losses on the side of the loyal men were six soldiers and two sailors killed and about twenty of both sides of the mutineers could not be obtained, but they were not heavy. Three workmen were killed and six were wounded. In addition, Mme. Jacoby, a sister of Col. Alexandroff, who threw herself between her brother and same sailors when the latter swarmed into their house at the beginning of the outbreak, was brutally stabbed to death.

The utmost ferocity was displayed by both sides. One of the workmen killed cried to the patrol: "Don't fire on the people," but the officer in command turned coldly away and gave the order to shoot the man dead.

St. Petersburg, Aug. 3.—The crew of the Russian cruiser Asia, which was sent to Abo, has hoisted the red flag. The vessel has left in the direction of Sveaborg.

Warsaw, Russian Poland, Aug. 3.—General Markgranski, chief of the Gendarmes, was killed by revolutionists today.

CARNEGIE PENSIONS.

Report That Chancellor Harrison and Dr. Bailey Will Share in Steel Magnate's Generosity.

New York, Aug. 3.—(Special)—There is a well authenticated report that the trustees of the Carnegie pension fund for retired college professors, will make an exception in the case of the University of New Brunswick, or at least with respect to two members of the staff of that institution, which being a state aided institution does not come under the terms of the trust.

The gentlemen interested and likely to receive pensions are Chancellor Harrison and Dr. L. W. Bailey, and it is pretty well understood that they have been notified that their cases have received the favorable consideration of the trustees.

(Dr. Bailey who was seen by the Herald representative with respect to the above despatch, said he had nothing to give out for publication on the subject at present.)

Another employee is implicated in Nixon's confession and another arrest is imminent.

ST. GEORGE FIRE.

St. John, Aug. 3.—(Special)—Today's reports from St. George, Charlotte county, state that the fire which raged there last night, has burnt itself out, though the lumber piles will probably smoulder for two or three days yet.

The loss is estimated at between \$40,000 and \$50,000 and there is no insurance.

Practically all the lumber, \$7,000,000 feet, has been destroyed.

LOST TWO HORSES.

A Singular Misfortune Has Overtaken A. E. Hanson.

Mr. A. E. Hanson lost two valuable truck horses yesterday—one fell into an old well on the Whitaker property and the other died while being taken up the Tobique, by Mr. Joseph Gillies, an employee of Mr. Hanson. Mr. Hanson has the Whitaker lot on University Avenue under lease, and for some weeks has been pasturing two horses there. Yesterday forenoon one of them, while grazing near an old well, tumbled in backwards and when discovered was dead. The well which is now dry, is about twelve feet deep and it was evident that the animal had died from sheer exhaustion caused by its struggle to reach the surface.

In the evening a letter was received from Mr. Gillies stating that one of Mr. Hanson's horses had died near Plaster Rock. Mr. Gillies was taking the animals up the Tobique to cut some hay on a farm owned by Mr. Hanson in that vicinity. He is inclined to think the animal got poisoned in some way.

Mr. Hanson is now in the woods near Westford, and has not yet learned of his serious loss.

Rev. A. A. Rideout and bride arrived home from Calgary on the noon train today.

Mr. Patrick Farrell's friends will be glad to learn that his condition continues to improve.

COMMITTED SUICIDE.

Edward Byron, of St. John, employed by B. Mooney and Sons, on the filtration work here, committed suicide by drowning in the river St. John off Estey's wharf, west end, at 3:30 this afternoon.

He had been drinking recently, and yesterday was fined in the police court, having been run in the previous evening.

This afternoon he went down to the wharf and divesting himself of his clothes he told some boys present that he was going to drown himself.

He then leaped into the river, swam out a few rods, and suddenly throwing up his arms disappeared beneath the surface of the river. The body was found shortly after 4 o'clock.

Deceased was 25 years of age and unmarried.

THE SEWERAGE WORK.

Contractors Will Have to be Stirred up if System is to be Finished This Year.

Engineer Barbour is here today to make his bi-weekly inspection of the work being done on the sewerage system and filtration plant. He spent part of this forenoon at the pumping station, and afterwards expressed himself as being well satisfied with the manner in which Messrs. B. Mooney & Son are carrying out their contract.

This afternoon Mr. Barbour looked over the sewerage work, and he is said to have arrived at the conclusion that the system will not be completed this season unless drastic measures are employed by the council to bring the contractors to time. He has decided to write a letter to the council embodying some suggestions, which he thinks if carried out will relieve the situation.

WEDDING AT ST. ANTHONY'S CHURCH LAST EVENING.

A very pretty but quiet wedding was celebrated at St. Anthony's church, St. Mary's, last evening when Mr. William Brogan of Marysville was united in the holy bonds of matrimony to Miss Gertrude Wheaton, eldest daughter of Mr. and Mrs. L. Wheaton of Miramichi. The ceremony was performed by Rev. Father Ryan. Only a few friends of the contracting parties were present. Miss Celina Arslane was bridesmaid while the groom was supported by his brother, George. The bride looked charming gowned in a pretty dress of cream crape de chene trimmed with lace with hat to match. The presents received were both costly and beautiful. After the ceremony the happy couple drove to the groom's

mother's at Marysville where a reception was held and a wedding supper served. The charivari was a grand one and a large number took part while a bon-fire burned brilliantly. The groom was at one time employed in the Herald Office.

His son, Master Eric Macdonald, who attends school at Detroit, joined him at Montreal on the homeward trip. He will occupy the pulpit of the Baptist Church at Both services on Sunday.

Mr. Evan Price, divisional superintendent of the I. C. R., is at Gibson today holding an investigation into the cause of the recent accident to the circus train at Doaktown bridge.
