FRIDAY, AUGUST 3, 1906

A COINCIDENCE.

It is a peculiar coincidence, that Winston Churchill, who while acting as a press correspondent in the South African war was arrested as a spy and flung into prison at Pretoria from which he made a sensational escape, should be the man to introduce and urge on the Imperial House of Commons the measure giving the old South African republics a constitutional government under British sovereignty.

Mr. Churchill had an exciting experience in South Africa, which he has recorded in an interesting volume "From Ladysmith to Pretoria," and his knowledge of the country eminently fits him to deal, in his present position as parliamentary secretary of the colonial office, with the constitution which the Imperial parliament is asked to give the South African colonies, but which is regarded in many quarters as a mistake at the present time when the Boers are still feeling ugly over their defeat, and the annexation of their country to Britain.

CURRENT COMMENT

It looks as if present Scott Act prosecutions at Moncton will result in quite a legal tangle, from which the lawyers will reap profitable results.

St. Andrew's Beacon: The forlorn condition of the Burnt Church girls has awakened pity in the breast of the bachelor editor of the World. Since pity is akin to love it would not surprise us to hear that one of Cupid's shafts had at last pierced the tough hide of the North Shore scribe.

"To what do you attribute your good health and remarkably robust condition?"

"To regular habits and early retiring."

"Then you have been so situated that you could carry out these excellent rules for the preservation of the health?"

"O yes, I was in the penitentiary for twenty-three years."—Cleveland Plain Dealer.

The Herald's New York despatch, that the trustees of the Carnegie pension fund for college professors have favorably considered the case of Chancellor Harrison and Dr. Bailey of the University of New Brunswick, will be pleasing news to those eminent gentlemen and their numerous friends. Chancellor Harrison has served 38 and Dr. Bailey nearly forty-six years in their high calling, and may well feel that their services deserve recognition in the manner indicated.

The continued hot weather is having its effect on the mental equipment of some New Brunswick editors. One of them is discussing the impossible proposition of a coalition of parties in the New Brunswick legislature, another on the north shore has apparently loaned himself to provide young men for lonely maidens at Burnt Church camp, while a third over at the border declares he has seen a serpent in the St. Croix. These are lamentable conditions, and are not explainable with the suggestion that the editors take stimulants stronger than tea and coffee, for they are all total abstainers, the border man confining himself entirely to spring water, even while attending his legislative duties. It must be the hot weather.

BITS OF NEWS.

Geo. Small, son of Geo. Small, tinsmith, Moncton, has been killed on the C. P. R. near Port William. He was braking on the C. P. R. and it is supposed was shouting when killed.

The steamer Cyril, bound from St. John, N. B., for Swansea, which went ashore on Cape Race, July 27, is a hopeless wreck. She crossed half a mile of shoal water before lodging fast and tore nearly the whole bottom out.

At Kingston, Mass., after a lovers' quarrel, Miss Vezzana an Italian girl, living about half a mile from the centre of the village, was shot and killed and her assailant then committed suicide. It is believed that her persistent refusal led her lover to commit the deed.

The governors of Acadia College have offered the vacant presidency to Rev. O. C. S. Wallace, ex-chancellor of McMaster University, Toronto, but he has declined. So did Rev. Dr. Austen K. DeBlois, now president of a college in the United States, but the governors are bringing pressure on the latter to reconsider and accept.

The governors of Dalhousie University, on Thursday retired James Leitch, professor of modern languages. He will receive a pension of \$1,200 from the Carnegie fund and in case of death his widow will get half that amount. They also appointed a successor, selecting H. P. Jones, Ph. D., professor of German and French languages and literature

in Hobart College, Geneva, N. Y. Dr. Jones is a native of Nova Scotia a graduate of King's College, Windsor, and took his Ph. D. with honors at Heidelberg.

The case against George Stanton, charged with stealing money from Frank Dickey, of Kenville (N. S.), in the latter's room, Victoria Hotel, St. John, was settled in court Thursday afternoon. E. S. Ritchie appeared for Stanton. Mr. Dickey was anxious to continue west, and upon being given \$35 expressed his willingness to let the matter be dropped. He said he is a nephew of R. L. Borden, M. P. leader of the opposition at Ottawa.

Crazed with grief by news of the death by drowning of his twelve-year-old son, Frank, at Bath, Thursday, Mr. and Mrs. Maurice W. Weinblatt were with difficulty restrained from ending their lives. When informed of the accidental death of their son, they rushed to the wharf from which he had fallen while climbing from one wharf to another, and would have jumped overboard had they not been held back by a number of men. Mr. Weinblatt was so badly off he was taken to a hospital for treatment. No serious results are expected.

DESTRUCTIVE FIRE.

St. George Mill and Large Quantity of Lumber Consumed—Loss \$25,000—No Insurance.

A message received from St. George Charlotte Co. last night told of the total destruction of the St. George Pulp & Paper Company's saw mill, about a quarter of a mile below the town, together with a large quantity of lumber, estimated to contain 1,500,000 feet.

The origin of the fire was at first a mystery. The mill had been working as usual yesterday, ceasing operations at 6 o'clock. The forty employees had barely reached their homes when the screeching of the mill whistle summoned them back on the run, and brought firemen and townspeople.

The night watchman of the mill, Charles Blaney, and another had just finished cleaning the furnace and had gone into the mill to look after the pump. When he returned, about a minute and a half later, it was to find the main floor of the mill afire. By the time he had attached the fire hose, the fire had obtained complete control of the situation and in spite of all that could be done the mill was soon a total loss. Practically nothing could be saved from the building and the equipment, which included a rotary saw, lath machine, shingle machine and two planers, was also lost. A large quantity of lumber for the United States market, which was piled near the mill, estimated at 1,500,000 feet caught fire and was destroyed.

The mill occupied by the Pulp & Paper Company was built twelve or fourteen years ago by Dewar & Sons. It was acquired by the new owners three years ago, when they acquired the Dewar property.

ALMOST A FATALITY.

Two Deer Island Fisherman Injured by Gasoline Explosion.

St. Croix Courier—Two Deer Island men narrowly escaped a fatality on Friday last and will probably always carry marks to remind them of their experience on that day.

Frank Ferris and Edgar Martin of Fair Haven, were out in the gasoline launch owned by the former, a boat about thirty-five feet over all that is used in the sardine business.

In handling the gasoline the tank was over filled and the inflammable liquid flowed into the bottom of the boat.

When the electric spark was struck in starting the boat, there was a flash, and things were very exciting for one brief moment.

The explosion was terrific and its force tore the bulkheads, cabin floor and benches, and upset the stove in the cabin.

The flames inflicted terrible burns upon the face and hands of both men and it is possible that Mr. Ferris has lost the sight of one eye.

The men were some distance from home, but with the hardihood of fishermen, patched up the damaged engine and made their way to the island, where medical assistance was procured.

A NARROW ESCAPE.

Former U. N. B. Student Brother and Sister Nearly Drowned in Miramichi.

Chatham, N. B. August 3.—Three young Chatham people had a narrow escape yesterday from drowning in the Miramichi. Miss Alice Loggie, H. Burton and Fred Loggie, who were spending a few days at Paint Aukcar, sixteen miles down river, were out sailing in the morning in a salmon boat, when a sudden gust of wind capsized the craft and all three were thrown into the water. Fortunately the steamer Alexandra was near Point Aukcar on her regular trip and the accident was noticed by those on board.

The steamer was headed for the upturned craft on the top of which the three had managed to crawl and within a few minutes a rescue was effected.

The three were pretty well exhausted and but for the timely arrival of the steamer might have been drowned as no other help was near.

LUMBERMEN PLEASD.

Inspected Boom Company's Works at Douglas and Lincoln.

Messrs. Charles Miller, W. H. Murchie, F. C. Beatey, J. F. Gregory and Henry Hilyard who came from St. John yesterday morning to attend the log sale, made an inspection of the Boom Company's operations at Douglas and Lincoln yesterday afternoon. They were accompanied by Manager Bliss, Secretary Jewett, J. A. Winslow, R. A. Estey and Fred D. Miles. The party boarded the tug Latona at two o'clock, going first to Douglas and then to Lincoln and Oromocto. It was nine o'clock in the evening before they returned to the city. It is needless to say the lumbermen were greatly pleased with the manner in which the Boom Company are pushing along the work. There is no reason to complain of what the company is doing this season," said one lumberman to the Herald, "considering that they have already rafted seventy-five million feet."

SCOTT ACT AT MONCTON.

Hotel Proprietor Sentenced Under Magistrate Kay's New Plan.

Moncton, Aug. 3.—Police Magistrate Kay, yesterday declined to recognize the Scott Act conviction made by Police Magistrate McQueen in Shediak in the case of the proprietor of the Minto Hotel.

The Minto proprietor was first served with papers by Mr. Kay, but Wednesday he was taken to Shediak and fined for keeping and selling.

It was thought this would shut off the city case on the ground that a man could not be twice fined for violation between the same dates, J. C. Sherren, who appeared for the hotel man, produced a copy of the conviction made by Magistrate McQueen, but Magistrate Kay ordered the case proceeded with.

The prosecution proved their case and after the defendant set up a defence that he had already been punished for violation of the C. T. A. between the dates mentioned in the city case, Justice Kay overruled the contention and imposed sentence upon the defendant, one month in the county jail with hard labor.

A. W. Belyea, provincial constable, who gave evidence for the defence to convict the defendant, Justice Kay said to the court that he was going to take a hand in closing up every bar in Moncton. He said the parties would be taken to Shediak Shediak was a poor town and needed the money.

The hotel man's case will be repeated.

DIED OF TYPHOID.

Red Deer Man Fatally Stricken While Visiting at Maitland, N. S.

Truro, N. S., Aug. 3.—(Special).—Intelligence has just been received from Maitland, Hants, Co., that on Wednesday, Joseph Smith, one of the leading business men of Red Deer, Alberta, had died at Maitland.

Deceased with his wife and family, had been in Maitland a month visiting relatives and attending a family reunion. Immediately on arrival Mr. Smith developed typhoid, which proved fatal. His remains will be taken to Red Deer for interment.

Mrs. George Park and children of Quebec are visiting relatives at Belmont.

Mr. Eyan Price, divisional superintendent of the I. C. R., is a guest at the Queen.

MILTON THOMAS.

Marysville, N. B.
August 3—d11.

MARYSVILLE NEWS.

Aug. 3.—Miss Bella Likely has returned from a holiday trip.
Mrs. Fred Staples of St. Marys, and Master February, spent Wednesday in town with friends.

The members of the band gave one of their delightful open air concerts last evening which was much enjoyed by the citizens.
Mr. Mark Tapley of the Royal Bank staff at Havana is home on his holidays, the guest of his parents, Mr. and Mrs. E. A. Tapley. Mark intends going on a fishing trip for a few days followed by a tour through Upper Canada before returning to his duties to Havana.

Judging from the talk the picnic at Swan Creek next Thursday, under

the auspices of the Prentice Boys of Gibson will be well attended as a large number from Marysville will be present, including the band.

"A dislike," said the gentle philosopher, "should not lead us to any merely seek to avoid its object."
"Maybe my boy Josh has more sense than I gave him credit for," rejoined Farmer Cornstossel. "That's exactly the way he feels about work of all kinds."
