Friday Morning's Session--Trustees' Report.

Marysville, June 22.—Conference opened at nine o'clock, Pres. Rev. Wm. Dobson in the chair, a large number of delegates being present. After devotional exercises, the minutes of last session were read and after some discussion were adopted on motion. Rev. Geo. M. Young was appointed on a committee to make arrangements with the different railways. It was decided that the conference hear a speech from Mr. Moore at the afternoon session on Lord's Day Alliance. The reports of the different committees were next in order and a report from the board of trustees was presented by Dr. Paisley to be referred to a committee on trusts. Rev. John A. Ross, Samuel Howard, Geo. M. Campbell, Thomas Marshall, Pres. Dobson and others endorsed the idea and on motion Rev. G. A. Ross and Rev. Geo. Steel were appointed a committee to form a resolution to present to the conference and several of those present pledged themselves to help along the noble cause. At 10.30 Dr. Carman took the chair and the several committees reported.

AMALGAMATION.

Reported Rival Grand Falls Water Power Development Organizations Will Soon be One--Active Work at Grand Falls in Two Months Expected.

It is reported, says the Telegraph, that the big rival companies formed for the development of the water power of Grand Falls, and the establishment of large industries there, have arranged to amalgamate their interests and that this project was advanced towards completion at a meeting held in St. John yesterday afternoon.

Of the two companies one was incorporated by act of the provincial legislature and among these principally interested are Barton F. Kingman, H. McLaughlin of New York, and F. C. Sales and C. H. Nowell of Providence, R. I. The capital stock is \$5,000,000 with power to increase to \$10,000,000 and it is this company which as before reported in the Telegraph, intends to establish pulp and paper mills at Grand Falls, and also to produce enormous electrical power, which it is planned to sell all the way down the St. John river to this city, also, perhaps, to operate by electricity, the international Railway now being built between Campbellton and St. Leonard's.

This company was incorporated under the name of the Grand Falls Power Company, Ltd. There was also incorporated, under Dominion legislation, a company of the same name, among those interested in it being Sir Wm. Van Horne, head of

the C. P. R., and Senator Redfield Proctor, of Vermont.

It will be remembered that there was a dispute between the companies as to the right to the name which they both had taken and it was decided at Ottawa in favor of the first-named company—that incorporated by the provincial legislature. Some time after this decision was given, it is understood negotiations looking towards the sinking of differences and a union of interests were begun, and that a meeting held yesterday afternoon had as its object the conformation of this amalgamation, and that hereafter all the interests will be working in harmony and that early and vigorous prosecution of the work at Grand Falls will be under way.

At yesterday's meeting of the Grand Falls Power Company, Ltd., Mr. Kingman was elected president; Mr. Sales, vice-president; Mr. Nowell, sec.-treasurer, and Mr. McLaughlin, general manager. A P. Barnhill is solicitor. Mr. Kingman was interviewed, but did not speak freely. He said that rather than make announcement of what they would do he preferred waiting until actually they had made a start. He did not want to make promises and then have unforeseen circumstances cause delay, but he felt safe in saying that work on the Grand Falls project would be actively under way, perhaps within two months, and that they had not departed from their plans as already announced.

THE SEERY CASE.

Verdict Entered for Plaintiffs For Full Amount of Claim

The case of the executors of the health when he took out the policy late Dr. Seery of this city vs the Federal Life Assurance Company of Hamilton, Ont., was finished in the circuit court last evening. The jury retired at 4.25 o'clock and it was a quarter to eleven when they got through deliberating upon the case. They were given thirty-four questions to answer by judge and counsel and as these dealt with all phases of the case, the task of answering them consistency was an extremely difficult one. At nine o'clock the jury was sent for by the chief justice, and announced that they had answered thirty of the questions. These were read over to the court, after which the jurors returned to the jury room to complete their task. They returned at a quarter to eleven and submitted the remainder of the answers.

The chief justice commenting on the jury's answers to questions said that it was difficult for him to decide just what course to take. However, it was necessary for him to enter up a verdict so he would decide in favor of the plaintiff with leave reserved to the defendant to appeal to the full bench.

Perhaps he was wrong in the course he was taking but if so the higher court would set him right. The amount of damages the plaintiffs are entitled to was agreed upon at \$1,158.33, which includes the life insurance policy and accrued interest since 1903.

In very few cases were the jurors able to agree upon their answers to the questions, the usual decision being five to two. They decided that the late Dr. Seery was in good health when he took out the policy.

Dr. A. A. Stockton, M. P., and Peter J. Hughes, conducted the case for the plaintiffs, while H. A. Powell K. C., was counsel, and R. B. Hanson, attorney for defendants. Much tact and ability was displayed by the counsel on both sides and the case has been followed by the public with considerable interest.

BAND CONCERT.

The Fredericton Brass Band will give an open air concert on Parliament Square this evening.

The wife of a certain wealthy statesman from the west, according to Harper's Weekly, is said not to have always enjoyed her present luxurious state and prominence. Her friends are frequently much amused by her malapropos observations.

Once someone ventured to remark to her that General So-and-So was certainly a bellicose man. The western lady's eyes bulged with astonishment. "You don't tell me," she exclaimed. "Of course, not having met him I couldn't say, but I thought from his picture that he was very thin."
