AN OVERLOOKED PITCHING FEAT.

Harry McIntyre of Brooklyn, has smashed all pitching records in the National League, since its organization. To make matters worse this former minor league pitcher gets no official credit for his performance, as he lost the game to Pittsburg in the thirteenth inning at Brooklyn, August 1.

McIntyre pitched ten innings without a hit, and that is a performance no other twirler has equalled. Many might have done so, but when a pitcher goes through nine innings, without allowing a hit, he has, as a rule, won his game.

Many pitchers have pitched no-hit games, but no twirler has ever kept the column blank for ten successive innings. This fact was especially remarkable as it was done at the expense of the Pittsburg club, one of the strongest batting teams in the league, with no less a person than Hans Wagner fourth on the batting list.

GOSSIP FOR FANS.

The Boston champs of the "ninelies" once went 17 games without a defeat, and then gave in to the Philies, With the 17th victory they were assured the championship.

John T. Brush suggests the series between the two New York clubs this fall consist of five or seven games, the place of playing a deciding game, if necessaey, to be selected by lot.

Long, tiresome games are becoming too frequent at Columbia Park, the American league ground, says the Philadelphia record. The same paper suggests to call the games earlier.

There have been numerous good judges of ball players, but mighty few that were the equals of Frank Selee in that regard.—New York Sun

A club without a good judge of ball players is weak, indeed.

Kroh, the left-hander of Albany to come here, lost a 4 to 0 game to the J. G. club Tuesday, Clay pitching against him, and being hit for but three hits. Six hits were off Kroh who gave four bases on balls.

Now the New Yorkers are asking what in the world will that little series between the two Chicago clubs amount to in comparison to the serier between the two Chicago clubs amount to in comparison to the series between the two New York teams What indeed! There's only one New York.

Charles Dryden of Philadelphia rises to remark that if McGraw were asked to write an epitaph for Harry Pulliam he would probably turn off something like this: "He was bred in old Kentucky, but is a lemon in New York."

"Mertes has shown up better in every department than Mertes.—New York Bun.

Fr. John J. Harkins was no mean ball player when at Holy Cross. He played in the outfield the other day on Mayor Fitzgerald's team at Old Orchard Me., and with the score 6 to 4 against his side, made a long hit to left that tied up the game. He then stole second and scored the winning run on a scratch back of third.

Clark Griffith has proven one thing. He is a poor prophet. When he came West on the last trip he announced that he would most likely take four straight from Detroit. He was fortunate in getting one. He stated in the New York papers that he would take the whole series, just closed, from the Tigers. He again took but one.—Detroit News. If he keeps on he may land some day.

The Rev. Roland D. Sawyer of the Ward Hill Congregational Church in Haverhill is a great lover of the game, and every year he makes up an all-New England team, basing his opinion on the work which he has seen. Here is his team this season; Barberich, Lawrence, Frock, Worcester, Labelle, Lynn, pitchers; Knotts, Worcester, catcher; Murch, Manchester, first base; Guiheen, Fall River, second base; Lord, Worcester, third base; Shannon, Lowell, shortstop; Pulsifer, Haverhill, Zacker and Burkett of Worcester, outfielders; extra catcher and utility man, Lake of Lowell. This gives Worcester five men, Lowell two. Haverhill, Lawrence, Lynn, Manchester, Fall River, one each, total 13 men.

A NATIVE OF FREDERICTON

Of Adjt. White, of the Salvation Army, now stationed in Portland, Me., in charge of the industrial department of the Army's work there, a Portland paper says:—

"Adjutant Harry Milford White, with his wife and three children, took charge of the Industrial department Tuesday, August 15, coming from Evansville, Indiana, where he has been in charge of the Industrial Department for a year. He has also had charge of this department in Rochester, N. Y., and Nashville, Tenn.

"Adjutant White was born in Fredericton, N. B., in November, 1870, and has been nineteen years in Salvation Army work, having entered the service August 20, 1887. He was in charge of the entire Portland corps fourteen years ago, and since then has been in charge of corps in the following states: New York, Pennsylvania, Ohio, Tennessee, Minnesota, Maine and New Brunswick.

"To give an idea of the increase in the importance of the industrial department, made by Adjutant White, it may be stated that nine men have been added to the force at the home in addition to an immense amount of work accomplished and something to do afforded many who would otherwise be about the streets and idlers, an average of 70 meals a day are now being served at the home. Four teams are on the hustle gathering contributions all over the city and suburbs, where they go for refuse clothing, newspapers, etc., that people are willing to give away. Another team will be put on in the near future to accommodate the extra work. Two new solicitors have also been added to the force. These men go about soliciting contributions and the teams follow to gather what is secured."

DO YOU SEEK HEALTH?

Consult Dr. Hamilton and You Will be Shown the Way.

Thousands are in the same boat,—all sickly, bilious and feeling far from well.

Trouble is, the system is clogged with impurities which need to be cleared away.

Before downright sickness arrived you should cleanse and purify the system with Dr. Hamiltan's Pills.

At once you'll feel their mighty influence building up weak spots, clearing out disease, and putting you again on your feet.

These purely vegetable pills change your tired, worn-out condition to one of health and vigor, because they supply the body with nourishing blood that builds up and enlivens the entire system.

Mr. John Whitley of Stanwood, P. O., Ont., knows the merit of Dr. Hamilton's Pills, and says: "I wouldn't be alive to-day had it not been for Dr. Hamilton's Pills. Last winter I was sick with grippe, and when spring came I was weak, bilious and rheumatic. I used enough medicine to cure twenty times, but I didn't get any help till I tried Dr. Hamilton's Pills. They purified my blood, took the yellow color out of my face, put new tone in my stomach, and increased my apetite. The bilious attacks and rheumatic pains gradually departed, and Dr. Hamilton's Pills made a new man of me. I proved their merit, and proclaim them a medicine for all men."

If better health and prompt recovery are important, get Dr. Hamilton's Pills of Mandrake and Butternut today. At all dealers, 25c. per box or five boxes for $1.00. By mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

WIFE'S ARMS FUTILE; MAN STRUCK DEAD.

Thunderbolt Had Paralyzed Husband Whom She Had Carried to Door.

Marion, O., Aug. 25.—While tacking down a carpet and talking of a happy future with his wife and baby in their new home the other afternoon, Houser Denman, aged 22, residing near Laure, was paralyzed by a thunderbolt which descended the chimney Mrs. Denman and baby were knocked down by the same bolt.

"For God's sake, little girl, save me if you can," gasped Denman to his wife. She struggled to her feet and crossed the room with the chil toddling behind her. With a supreme effort the brave woman raised her stricken husband to his feet, and half dragged, half carried him to the doorway ,where she thought the fresh air might revive him.

"I feel better now," Denman muttered, when a second bolt crashed through the room of their little home and struck him dead in his wife's arms.

Mrs. Tenman was rendered unconscious by the shock, and the baby girl, who had followed her staggering parents across the room, crying piteously for "mamma,' was hurled fully twenty feet into a corner, behind the stove. When Mrs. Denman came to she found her dead husband in her arms. Both mother and baby will recover.

"Extremely nice and pleasant woman, your wife, and I am glad you introduced me. But why on earth did you hit upon such a little person?

"Why, my dear fellow, that's simple. You know the old adage. Well, had my choice of two and chose the least."—Sourire.

To stew the two crabs, cut the white and red meat into squares, put in a stewpan, with four ounces of butter, a tablespoonful of mixed salt and pepper and a pinch of cayenne. Let is simmer for ten minutes, then add two wineglasses of sherry, and simmer for five minutes longer; when cold, mix all carefully together.

Boiled Frosting.—One cup of granulated sugar and five tablespoonfuls of milk, boil 'ohr or five minutes, then stir till cold and put on a cool cake.

Corn Bread.—One and one-half cups of sour milk, one cup Indian meal, two cups of flour, one egg, one-half cup of sugar, one teaspoonful of soda a little salt and two tablespoonfuls of butterf

Cocoanut Pie.—One cup oi white sugar, two eggs, one cocoanut grated fine, two cups of sweet milk, three tablespoons of flour, one tablespoon of butter; flavor with nutmeg. Bake with one crust.

Rye Fritters.—One and one-half cups flour, one egg, one-half cup rye meal, one tablespoon sugar, a little salt, two teaspoons cream tartar; mix with milk and drop from a spoon into hot lard.

Currant Cake.—Stir together one cup of sour cream, one cup of sugar one-half cup of currants, one and one-half cups of flour and one teaspoonful of soda; flavor with nutmeg and bake in buttered tins.

Baked Apples.—Pare and core and fill the apples with sugar, butter and candied lemon peel. Brush all over with sweetened water, and sprinkle with bread crumbs browned in hot butter. Bake.

Jelly Cake.—One cup of butter, two cups of sugar, one cup of sweet milk three eggs, four cups of sifted flour and two teaspoonfuls of baking powder. Bake in layers, put tart jelly between them, and ice the top.

Sugar Cakes.—Three coffee-cups of sugar, five eggs and one cup of butter; beat very light, then add one nutmeg, flour enough to roll, one-fourth of a cup of water and two teaspoonfuls of baking powder.

Thin Biscuit.—One quart of flour, one tablespoon of lard and butter mixed, and one tablespoon of salt; make into a stiff paste, with cold water; beat dough until it blisters, roll thin, prick with a fork and bake quickly.

Invaluable at home or away is a bottle of alcohol, a piece of blotting paper and a silk sponge for cleaning clothes. Spots appear on one's clothes sometimes in a most mysterious manner, and by placing the blotting paper underneath the spot, sponging the latter with the alcohol, the foreign matter is cleansed from the right side of the goods, and absorbed onto the blotting paper on the wrong side.

Most persons clothes would last longer and look better all the time if carefully brushed (not with bristly broom nor a stiff brush), after the dust has been shaken out. This should follow every wearing.

It is said that a fly never walks down-ward. Acting on the hint a clever housekeeper has devised a window screen desibned to conduct all the flies out of doors. The screen is divided in two halves, and the upper faps over the lower with an inch space between. A fly lights on the screen and travels upward until he walks outdoors. Not being able to walk down he has no way of re-entering the room.

When you are buying bananas never purchase the long thin ones, unless you want fruit which will pucker your mouth.

No matter how well ripened these thin bananas are, they will always be found both sour and acrimd.

That is because the bunch containing them was picked too soon. The banana grows fastest at first in length. When it has reached its fullest development in that direction it suddenly begins to swell, and in a few days will double its girth.

"I could never understand," said the solemn person, "what is the attraction in autoing."

"Perhaps," replied the beginner, with the bandgaged head, "it's the attraction of gravitation."—Philadelphia Press.

"Yes, Smith."

"If you could use your influence to——"

"Sorry, my man, but I can't stop. Good morning."—Puck.

A certain Lebanon clergyman is so set against marrying divorcees that he is very careful in his examination of candidates for matrimonial honors. The other day he asked the young man who sought to engage him to perform the marriage ceremony:

"Is your intended wife a spinster?"

"Oh, no, sir! She's a dressmaker." —Philadelphia Ledger.

She—Is a telephone girl's occupation a profession or a business?

He—Neither; it's a calling.—Floh.

Newlywed (proudly)— I always make it a point to tell my wife everything that happens.

Oldwed—Pooh! That's nothing. I tell my wife lots of things that never happened at all.—Tatler.

Rheumatism

Ought to be called by its right name—Kidney Disease. Uric Acid gets in the blood, because the Kidneys are too weak to filter it out. "Blood purifiers"—"salts"—only relieve temporarily. Strengthen the kidneys to do their work, and there will be no more excruciating rheumatic pains. And until you do cure the kidneys you will suffer with Rheumatism.

GIN PILLS

cure Uric Acid Rheumatism by curing the Kidneys. They clean and purify the Kidneys—make them strong enough to do nature's work as it should be done.

We have such implicit confidence in the remarkable virtues of GIN PILLS that we authorize druggists to refund the money if they fail to cure.

At all druggists, 50c box, 6 boxes for $2.50 or we will send you a free trial box if you will write mentioning this paper.
