They asked that the terms of the tract which called for the expeditious delivery of the mails, be carried out. Sir Wilfrid Laurier asked that the delegation put the details in writing.

A communication was received from Toronto, asking the co-operation of the public schools of New Brunswick in a movement to erect a monument in honor of the late Mr. Alexander Muir, author of the Maple Leaf.

Cocconuts.
The milk in the water cocconut is a food as well as a beverage. The cart driven through the streets of Jamaica by the quaint old darky urging along his rebellious steed in the form of a native donkey is an interesting sight. One is amazed at the dextrous manner in which the vender takes the unripe cocconut in his hand and deftly cuts a hole in the top, from which you drink the milk. Then you return the nut to the man, and with his machete he cracks it into three pieces and cuts a spoon shaped sliver from one side, from which you eat the white, jelly-like substance scraped from the inside. These are the unripe cocconuts. When ripe the jelly hardens into the hard white substance to which we are accustomed.

Luck Versus Labor.
Luck is ever waiting for something to turn up; labor, with keen eyes and strong will, will turn up something. Luck lies in bed and wishes the postman would bring him the news of a legacy; labor turns out at 6 o'clock and with busy pen or ringing hammer lays the foundation of a competence. Luck whines; labor whistles. Luck relies on chance; labor, on character.—Cobden.

An Exception.
"My oldest boy, if I do say it myself," declared Skinner proudly, "is a thoroughly honest and truthful young man."
"Well, well!" exclaimed Knox. "And yet some people insist that heredity figures largely in the development of a character."

SENT TO JAIL.

**Four Moncton Liquor Dealers Taken to
Dorchester to Serv. Month Each.**

Moncton, Dec. 6.—The anticipated exodus of Moncton liquor dealers to Dorchester, occurred last evening, when the commitments, hanging over the heads of the parties sentenced to jail without the option of a fine, were executed by the police left last evening for Dorchester with four prisoners: C. S. Legere, D. Hogan, R. Hebert and Wm. McDougall.
The commitments were handed in the afternoon to Chief Chapell, who in turn passed them over to his officers with orders to execute at once. One of the parties named has been evading arrest for a week or two, but finding he was to have company he gave himself up and went along with the rest.
The arrest of the men created considerable stir and there's much uneasiness among the other liquor sellers. The commitment against the proprietor of the Minko Hotel could not be executed on account of his case being appealed. One other, Thaddeus Richard, has a doctor's certificate that he is unfit to be incarcerated, while Thos. Boudreau skipped, and A. J. Jesty, manager of the Windsor, is said to be hiding from the officers.
All the commitments hanging have not been dealt with. The sudden execution of them is the outcome of the action of the council in appointing the city solicitor to take charge of the Scott Act and other matters.

GOVERNMENT CANDIDATE.

**Restigouche Liberrls Unanimously Nominated William
Currie for Vacant Seat in the Legislature.**

Dalhousie, N. B., Dec. 5.—The government convention held in the court house here yesterday, was well attended from all parts of the country.
Wm. Currie, of Campbellton, was chosen as the government candidate for the vacancy caused by the elevation of H. F. McLatchey to the bench.
Hon. C. H. LaBillois presided and in opening spoke at length. He paid a high tribute to Judge McLatchey, whom he said had been an able representative.
He asked the delegates to nominate a good man. Restigouche must be to the front when the lumber policy is discussed at the coming session.
He spoke of the great prospects of giving encouragement to agriculture, education and public works.
He was proud of the great progress Restigouche county had made in the last twenty years.
He urged the delegates to be unanimous in their choice of a candidate as a proper start meant a successful election, whereupon W. C. Napier, manager of the Shives Lumber Company, proposed that Wm. Currie of Campbellton, be the government candidate.
The resolution was seconded by

Mr. Miles, of the Prescott Lumber Company, A. H. Hilyard, of the Dalhousie Lumber Company and many other influential men.
Mr. Currie being the unanimous choice of the convention, spoke briefly and to the point. He thanked the delegates for the honor of being the government standard bearer. He would be proud to represent the noble county of Restigouche and would take every legitimate means to go to Fredericton.
John S. Bassett and John Dickie addressed the meeting and upon request the chief commissioner made a clear explanation of the road law, which, he said, when properly understood, would receive the support of the whole province.
The convention elected the following delegates to attend the Liberal convention to be held in St. John on Dec. 27th: James Reid, M. P., Hon. C. H. LaBillois, Arthur Hilyard, W. F. Napier, Patrick Ullian, D. A. Arsenault, Ebenezer McMillan, Wm. Currie, Thomas Craig, Murdoch G. Mann, John Giroux, W. G. Mahoney, John Culligan, Jr.
After appointing local committees, the convention adjourned.

Our Indians Get \$250,000.
The United States Supreme Court has refused to allow the Seneca, Onondaga, Cayuga, and Tuscarora Indians to file a bill to restrain the carrying out of the judgment of the Court of Claims that 1,400 Oneida Indians who left New York and settled in Canada some 60 years ago should participate in the distribution of \$2,115,000 appropriated by Congress last winter to pay for lands ceded to the Government in 1851 by the New York Indians. Under the decision the Canadian Indians will receive some \$250,000.

Bridge Designer's Curious Wish.
Henley bridge, in England, was designed about 1786 by Thomas Hayward, who expressed the wish that he might die ere the work was commenced and that his body might be interred under the center pier. He died before the bridge was completed, but was buried in the churchyard close by.

Day and Night.
By a simple rule the length of the day and night at any time of the year may be ascertained. By doubling the time of the sun's rising the length of the night is obtained, and by doubling the time of the setting the length of the day is given.

Coldest European Capital.
St. Petersburg is the coldest capital in Europe, the temperature in winter sometimes reaching 50 degrees below zero.

Expectation of Life.
According to the English table of expectation of life, out of 1,000,000 children born the survivors at the age of sixty would be 182,350 males and 187,477 females, of whom ten years later there would be 114,370 males and 123,607 females, or a total of 237,977.

Trees in Sicily.
The ancient poets used to sing of the dense forests of Sicily. Today the mountains are bare. The question of reforesting is a difficult one. Attempts at starting new growth are frustrated by the peasants, who tear down fences and drive in their goats. Only under military protection could new forest trees be grown.
