

Events of a Day

THE DEATH ROLL.

Miss Fannie Burgoyne, daughter of the late Mr. Tobias Burgoyne, died at her home on Charlotte street this afternoon after a lingering illness from consumption. The remains will be interred at Kingsclear.

THE NORMAL SCHOOL.

The Provincial Normal school reopened yesterday after the Christmas vacation. The number of student-teachers who have entered for an advance of class is about fifty, the majority being for first class.

COUNTY COURT.

The case of Thebault vs. Dinsmore is being tried with a jury at the County Court today. On account of the absence of important witnesses it is likely that the case of the King vs. Gerow will be postponed until next term.

A COLD WAVE.

The weather here which has been exceedingly mild for the time of year turned quite cold yesterday and during the night the thermometer dropped to four degrees below zero. It is just possible that this city may experience some real cold weather yet before the winter is over.

WEEK OF PRAYER.

The second of the week of prayer services was held last evening in the George Street Baptist Church, Rev. J. H. MacDonald being the principal speaker. Rev. A. A. Rideout was chairman. This evening the meeting will be held in the Brunswick Street Baptist Church. The speaker will be Rev. Dr. Rogers.

DON'T FORGET.

Residents of Marysville are reminded of the entertainment, under the auspices of St. Agnes Guild, to be held in the Oddfellows' hall at that place tomorrow (Thursday) evening. A very novel and entertaining programme has been carried out and a good time is assured all who attend. The admission fee is only ten cents.

MILLING ACCIDENT.

Three trucks under a rotary in Harry Burns' lumber mill at Little River, broke down yesterday afternoon, and the mill will not resume work until Friday. Seventeen hands are employed by Mr. Burns and the mill cuts long lumber, which is shipped in scows in the spring via Grand Lake to St. John.

FORESTRY CONVENTION.

Surveyor General Sweeney and Mr. T. G. Loggie of the crown land department are representing the New Brunswick government in the big Forestry convention, which opened at Ottawa today. Dr. Inch was appointed a delegate by the board of education, but was unable to attend. Mr. W. T. Whitehead, M. P. P., is attending the convention as the representative of the New Brunswick Land and Lumber Company.

CURLING NOTES.

Only one game was played last night in the Shute Cup series, resulting as follows:

Thomas, C. H.	Vandine
Neill Stewart	Settle
Limerick	Simmons, C. J. B.
McFarlane	Shute
skip	9 skip 11

Mr. Geo. W. Allen, M. P. P., has presented the club with a handsome tobacco jar in the form of a curling stone with an ivory handle, and it will be played for under a plan to be arranged by the managing committee.

C. M. B. A. OFFICERS.

At the regular meeting of Fredericton Council of the C. M. B. A. last evening the following officers were installed by the Grand Deputy Prof. Bellevue:

Chancellor—W. E. Farrell.
President—H. O'Neill.
Vice President—M. E. Doohan.
R. S.—R. H. O'Brien.
F. S.—D. J. Shea.
Treas.—Peter Farrell.
Guard—Thomas Feeney.
Marshall—A. Foster.

After the installation the company adjourned to a restaurant and partook of an oyster supper.

DEATH AT TAY.

The death took place yesterday afternoon at Tay Creek of Mr. William T. Rogers, a well known and respected resident of that place, after a week's illness from pneumonia and congestion. The deceased gentleman was 77 years of age, is survived by a widow, four sons, Howard Rogers of Nashwaaksis, John and George Rogers of Tay Creek, and William Rogers of this city, and also one daughter, Mrs. James Gerow of Boston, Mass. The funeral will take place at two o'clock on Friday afternoon with services at the house by Rev. Mr. Ives of Stanley, and interment at Tay Creek.

GREAT SINGER COMING.

Madam Albani, the great prima donna and a company of high class artists will make a tour of Canada from ocean to ocean next spring under the management of Mr. F. G. Spencer of St. John.

Just what New Brunswick towns the Albani will visit has not yet been decided upon, but there is every reason for believing that the claims of Fredericton will receive favorable consideration. Of course it is a business proposition with Mr. Spencer, and he can hardly be expected to bring the celebrated prima donna here unless assured of a generous patronage. It is up to the music loving public to make their influence felt in this case.

ENJOYABLE CONCERT

Star Course Entertainment Attracted Large and Appreciative Audience.

The concert at the opera house last evening by the Boston Concert Company was undoubtedly one of the most enjoyable musical events of the season. The audience was a large and representative one and manifested the greatest appreciation throughout. The program consisted of vocal solos and duets by Miss Helen Wetmore, and Mr. C. H. Chute, and cello collections by Miss Katherine Halliday. Miss Wetmore is a soprano of marked ability and her work greatly delighted the audience. She was repeatedly encored, but proved herself equal to all demands made upon her.

The cello selections by Miss Halliday lent a most pleasing variety to the entertainment. She displayed complete mastery of the instrument, and won hearty applause from the audience. Mr. Chute proved himself one of the cleverest basses which a Fredericton audience has been privileged to listen to for some time. Besides his solo numbers he took part in a duet with Miss Wetmore, which was rendered in a most excellent manner.

The concert was the third in the series arranged by Mr. F. G. Spencer of St. John.

The February attraction in this course will be Mr. E. P. Elliot, in his wonderful impersonation of the characters in David Harum.

ADVERTISING OUR CITY.

A Fredericton Lady Well Pleased With what She Saw at the Boston Sportsmen's Show.

A Fredericton lady, who is visiting in Boston, was greatly pleased with New Brunswick features of the Boston Sportsmen's Show. To a friend she writes:

"I was at the Sportsmen's Show last week and enjoyed it so much. I had a chat with Jim Paul, and saw the baby moose from home. It was receiving any amount of attention and kept its head well forward to be rubbed and petted by all who felt so disposed. I expected to see more of an exhibit from N. B. There were moving pictures which were very good. A moose hunt in New Brunswick was well set. I think it was on the Miramichi, and was most realistic. It showed every stage, from the start of the party by rail, their jolting over stumps and quagmire on the way to the hunting grounds—even the call of the animal was imitated when they reached the spot, and the wildest delight manifested when the poor thing was shot and fell. Our souvenir books published by the Tourist Association of Fredericton, were there for distribution and made an excellent appearance."

CIVIC POLITICS.

All Members of the Council will Likely Seek Re-election.

His Worship Mayor McNally announces that he will be a candidate for a second term at the civic elections to be held on March 12th. It is said that all of the members of the present council will seek re-election.

There seems to be a feeling about the city, that the council having embarked on the sewerage undertaking should be permitted to carry it through. It is admitted, even by opponents of sewerage, that so far the council has handled the question in a very business like way, and has amply safeguarded the interests of the city. It is also admitted that the chances look very bright for a modern system of sewerage being installed here at a cost much less than was at first supposed. As a well known ex-alderman, recently put it "the property holders of the city will not have much cause to kick against sewerage in five years' time."

MUSIC IN THE SCHOOLS.

The conference between the board of school trustees and the teachers with respect to the introduction of music in the schools, is to be held this evening at eight o'clock.

Miss Ada Tupper, who has been teaching school in the province of Alberta, has returned home.

Miss Ina Mersereau, of the teaching staff of the Kingston Consolidated school, is visiting friends in the city.

The friends of Miss Ethel McLatchy, who was recently injured in a coasting accident at Maryland Hill, will be pleased to learn that she is making good progress towards recovery.

ST. MARY'S WATER SERVICE.

Lively Meeting of the Commissioners and Some Progress Made.

The St. Mary's Fire and Water Commissioners held a meeting last evening at the engine house. St. Mary's, for the purpose of discussing matters relating to the installation of a water system in the village. Mr. Whitman Brewer presided at the meeting, which was largely attended. Mr. E. B. Haines was secretary.

Several minor matters relating to the subject were discussed, and at times the proceedings were quite breezy, some of those present using strong personal language which was decidedly uncalled for, and which would have been better left unsaid. Two different plans were presented to the meeting, and after the matter had been talked over by the ratepayers the matter was stood over for future consideration.

After further routine business had been taken up the meeting adjourned to meet within a month at the call of the chair, and in the meantime the commissioners are to obtain further information on the subject of the two plans and other matters. The commissioners are endeavoring to get all information necessary before proceeding with the work, and the best citizens of St. Mary's are anxious to see an improved water and fire service installed. St. Mary's has in time past suffered quite badly from fire, and it is hoped that their endeavors to improve their water system will meet with success.

It is unfortunate that when a meeting is called for the purpose of discussing matters relating to the best interests of the village that better feeling does not exist among certain of the ratepayers. When the system has been completed all residents of St. Mary's will be proud of it, and in the meantime temperate language may do much to kill what is badly needed at St. Mary's, a good fire and water protection.

ANOTHER APPLICANT.

Mr. G. P. O. Fenwick of Apohaqui, who graduated from the U. N. B. in 1902, is an applicant for the Rhodes Scholarship. Mr. Fenwick since his graduation has completed a course in chemistry at Queen's University, Kingston. During his college course here he took a very active interest in athletics. Mr. Fenwick is a brother-in-law of Dr. Vanwart of this city.

Wanted.

A boy about 15 years of age, to learn the Printing Business. Apply at the Herald Office.
F'ton, Jan 6-dtf
